IMPS OF A BIT OTHERS...

By H. CLAYTON WILLIAMS
Washington—Several years ago a
friend of mine in the British Cabinet
said he knew of no case when a
Prime Minister, in defending a
budget, had been compelled to aban-
don it, because the House of
Commons had rejected it. He had
seen the case happened several
times in the American Congress,
and he marveled that it should
be an American practice and not
an English procedure. This
remark, which I do not quote
from memory, but which I quote
from the time and place at
which it was said, is particularly
apposite in connection with the
Budget of today. It is not true that
there are about half a million
natives in the United States who
are not yet represented in this
House of Representatives. It is not
true that there are about half a
million of the race of negroes
in the United States who are not
yet represented in this House
of Representatives. It is not true
that there are about half a
million of the race of negroes
in the United States who are not

of Representatives. It is not true

It's the Talk of the Housekeeping

### Puttering Around the House—
Time-Wasting Work of Putting Away Things Others Have Used

When a family is orderly, it saves much time that is otherwise being wasted. When the members of the family are unorganized, and there is a scatter of small articles in every nook and corner of the house, it is a constant source of annoyance. And, when the family is kept up to date, it is a constant source of satisfaction. It is the Talk of the Housekeeping.

Mothers can teach their children how to keep things in order, and how to arrange things in such a way that they will be easy to find when they are wanted. The work of keeping things in order and arranging them properly, if done properly, will save much time in the future.

### Range of Temperatures

The following is a list of temperatures at which various materials are best kept. It will be found that the range of temperatures at which most materials are used is from 10 to 20 degrees above freezing and from 30 to 40 degrees below freezing.

- Wool: 10 to 20 degrees above freezing
- Silk: 15 to 25 degrees above freezing
- Leather: 20 to 30 degrees above freezing
- Starch: 30 to 40 degrees above freezing
- Jute: 40 to 50 degrees above freezing
- Silk: 50 to 60 degrees above freezing
- Rayon: 60 to 70 degrees above freezing

### A Boost for Home Sewing!

DO THIS when you wake up with a Headache

**Stove-Top Soup**

When you wake up with a headache, here's a simple recipe that will cure you:

1. **2 cups of water**
2. **1 tablespoon of salt**
3. **1 tablespoon of sugar**
4. **1 teaspoon of baking soda**

Boil the water, add the salt and sugar, then stir in the baking soda. Boil for a few minutes until the mixture thickens.

**Harmony of Life**

To live in harmony with life, one must understand the principles of living. To understand these principles, one must first understand the nature of life. Life is a process of growth and development, and it is this process that we must understand if we are to live in harmony with life.
