SPLENDID
OPPORTUNITIES
FROM NOW
UNTIL THE
TENTH
OF AUGUST.

Summer Clearing
Sale Prices.

For several years we have made from July 4 to August 1 a period in which we offer the public unusual opportunities to purchase goods at much below their real value. This year, from now until August 10 we shall try to outdo all of our former years' efforts in conducting our summer clearing sale.

Goods that do not sell promptly the first week will be further reduced the second week and again the third, and so on until sold or given away. We have bought thousands of dollars' worth of goods at great sacrifices, especially for the sale, and will give the public the benefit.

We don't handle shoddy—we don't give room to unreliable goods. Our large business has been built up by selling good goods, and we guarantee the goods in this sale to be reliable quality, attractive styles and dependable in every respect.

Special price list will be mailed on application. A large detailed price list will appear in the weekly edition of this paper the 8th and in the daily of the 10th. Our regular limited space in this paper will carry a partial list of special bargains, beginning Monday, July 12, which will be changed from time to time as the changes in stocks and prices require it. All customers calling this week will find special great bargains throughout the stock.

"FIXING" THE RATIO.

A Question Regarding the Government Control of Money.

The Bankers' Magazine for March finds the origin of our present troubles about silver in the demand that the ratio of its value to gold shall be determined by the government. It is, however, no proper part of the duty of the government to try to fix the ratio of value of the two metals.

"Being," says the Bankers' Magazine, "commodities as well as money, and being commodities before and after they are money, and being money simply and only because they are commodities, and being commodities because they have recognized and intrinsic value independent of government."

This is the truth of the matter in a nutshell. Unless the government first acquires all the mines in the world and decides how much silver and how much gold are to be produced yearly, it is impossible to maintain a ratio after it is fixed. France's gold is 134 times, but it would not stay fixed, and France has at length abandoned the effort. The United States has also tried the experiment several times without success. It is time the theory was being tested the matter alone.

Limits of the Government. Prof. Simon Newcomb is a recent paper discussed the question of silver. He said the stars of magnitude were a great deal more numerous than the earth's stars, and could indicate, and this fact would seem to warrant the inference that visible universe has a definite limit. Simon Newcomb's Companion.

Chewing Gum. Choice, an evaluation of the popularity of chewing gum in the United States. Over 4,000,000 pounds of gum are imported into the United States annually, the product being valued at \$1,500,000. One factory made over 10,000,000 pieces of gum last year. Foreign Inter-Ocean.

"A STUCK PIG SQUEALS"

"You Can't Fool All the People All the Time."

This is a true saying, and only applicable to a would-be competitor, who have gotten sore over our success of a ONE-PRICE, legitimate business that they resort to personalities as an advertisement. It has always been our endeavor to avoid such a low method of publicity.

The TRUTH PREVAILS

A few FACTS in regard to Crash Suits: Telegrams are poor satisfaction to those who paid

\$6.00

for Crash Suits that WE SELL for

\$4.50!

They are the SAME SUITS as our would-be competitors, made by HAMBURGER BROS. & CO., BALTIMORE, MD. How did we get them? "They don't know, do they?" We bought them at a price that we can afford to sell them at \$4.50 and make a legitimate profit. "HUMBLED" is the word they used. Who was HUMBLED? Not those whose bought their suits of the Famous. This word fits the other little fellows, for they thought they had the control of the Crash Suits, and believing such the case proceeded to take advantage of customers by making the public pay \$1.50 more for these suits than they were worth.

\$500.00

Will be given to any charitable institution in the city of Paducah if we cannot substantiate that the Crash Suits we sell at

\$4.50

are the SAME as those sold by our would-be mud-slingers at

\$6.00

and manufactured by Hamburger Bros. & Co., of Baltimore!
