A SPLENDID PIECE OF WORK

For several weeks the Young Men's Business Club has been working on plans for the first annual Kento Exposition, which is to be held at the Fulton County Fair Grounds for three days beginning August 27. For weeks before any public announcements were made these plans were discussed with interested parties, and since it was definitely decided to stage the show intensive work has been done.

All present indications point to a successful affair, and this represents a definite staging, and this represents a definite confidence expected to grow into a large annual affair. Since the county fair ceased to exist Fulton has had nothing of this character for some time, and concerted effort to build something which will replace the old county fair.

Naturally this first show will be largely in the nature of an experiment in many ways. First the Young Men's Club stands to acquire. If there is any real interest on the part of the public for such a show which lasts more than one day. It has been demonstrated that people will come to a one day show if something is done such as the old car 'derby,' but it remains to be proven whether they will come for a show which lasts three days or more. The Ken-Tenn Exposition will incorporate some of the features of the old car 'derby,' some of the features of the Fourth of July celebration and several other features which have already been successfully tested. The Farm Bureau, which has held an annual picnic for farmers and town people for several years, is combining this feature with the Exposition, and the Chamber of Commerce, which does the bulk of its work in the rural area, is cooperating with the Young Men's Club as far as it can.

The people of Fulton should remember however, that this Exposition cannot be a success without their help and their attendance. We have here the features are primarily for farmers, but it must be remembered that no town can be a good town without cooperation between town people and rural people. Rural problems are our problems, and for many years the Chamber of Commerce has been doing valuable work in cementing friendships between the two classes and trying to do things which will make farming more attractive and enjoyable. The pure bred air work, the development of poultry, bettering markets for farm products—all these are features of the Chamber of Commerce. It is working at with striking success.

The coming Exposition should show the result of some of this work, for premiums are being offered which will bring out the live stock and poultry men to try in this section, and the writer feels certain that some prize winners will be in the display pens. Two men here in Fulton, E. F. Rose and V. K. Zahn have worked hard and long in this development and they are anxious to see that the Exposition has some good exhibits. The competitions go to be in mannerable classes, and the live stock and poultry are going to be far better than was the case a few years ago.

This Exposition can be made into a tremendously big annual affair if...
EMERGENCY WILL HAVE PICNIC
The Democratic Circle of the Fulto- 
son Church will have an all-day 
meeting and picnic Sunday night 
at the Country Club. The group 
will meet at the church at 7 o'clock 
and go from there to the Country 
Club.

Barons Make Sweep Of Series By Winning There Last Night 11-9

Bowling Green, Ky.—Bob Duncan’s eighth inning home with the bases loaded proved to be the deciding blow as Bowling Green scored in ninth inning to defeat Paducah 11-9 Saturday night. Duncan hit off Floyd Hulsey, by Yeager, with a hit to dead center field, and it was hit past the fielder by pumping down Fulton 11-9 in the series final last night.

Although he was tooted for it, Southside River Bluff won the route for the Barons to hang up their eighth victory of the season.

Joe Lehan, Barons second baseman, proved to be the factor tied the third stanza, and Lloyd Herion, shortstop, hit the deep waters for char

SLEEPING FUNDS

In the old days the ancient captain realized the danger that lay outside the true course; so he kept to the deep waters for clear sailing.

This month we launch out on our 33rd, year in selling here in Fulton. We we assure you that the market is to the “true course” of Honesty, Service, and Fair Dealing.... and on a result we have enjoyed comparatively “clear sailing” during the past 32 years.

Again, let us insist that you stick to Broader’s Flour. There’s always clear sailing aboard.
