The store will be open to the public and will be staffed by experienced and courteous employees.

Whitehall Hatchery
Attracting Attention

The Whitehall Hatchery is attracting attention with its large variety of chickens. The hatchery produces various breeds of chickens, including Cornish, Sussex, and White Leghorns. The chickens are raised in a clean and healthy environment, and they are fed a nutritious diet. The hatchery is open to the public, and visitors are welcome to come and see the chickens.

GARDEN AND CHICKENS

When the warm weather begins to stir, the chickens start to lay eggs, which is the time for the farmers to think about their egg production. The Whitehall Hatchery offers a wide variety of chickens that are known for their high egg-laying capacity. The eggs are fresh and delicious, and they are perfect for baking, boiling, or just eating as a snack.

Electricity! — Man’s Greatest Benefactor

By JAMES J. DAVIS
Secretary, U. S. Department of Labor

"The electric light and power companies have performed a notable service in bringing electric power to every kind of mill and factory, and in adapting it to every phase of industry. It has eliminated unwholesome and back-breaking tasks. It has made for better labor conditions, because it has enabled the worker to produce more and the employer to pay him more."

If Every Citizen In Fulton Were Just Like Me, What Kind of a City would Fulton Be?

The question now comes to pass, and yes, and perhaps, in every town, we may say, Fulton. In our own day, and in the years that bear our name, there has been no other city, or country, more or less, where our work has been done. It is not our own, but other people's, who work and make it.
