C. of C. Banquet
Brilliant Success

The annual banquet of the end of October of the American Chamber of Commerce was held Tuesday evening, October 17, 1928, at the Grand Theatre.

The event, which was held to celebrate the success of the Chamber of Commerce in the face of many challenges, was attended by numerous prominent business leaders and community members.

The keynote speaker of the evening was Col. Henderson, who provided an insight into the importance of community involvement and economic growth.

The Chamber of Commerce's efforts were praised for their ability to facilitate growth and development in the area, with particular mention of their role in promoting tourism and attracting new businesses.

The success of the Chamber was attributed to the hard work and dedication of its members, who have contributed to the prosperity of the community through various initiatives and programs.

In conclusion, the banquet was a testament to the Chamber of Commerce's commitment to fostering a thriving local economy and improving the quality of life for all residents.

Your Suit and Overcoat need the Wrinkles taken out.

You know what a beauty shop can do for you—how it can remove wrinkles from your face, and your new coat. It can really give your coat a lovely sheen for only...—a bit of ironing and such pressing establishment! Then, again, it is a temptation to have your coat pressed. For example take one out of the stores, say to 10 Lewis Lane, one you've had for a year, if it's a little ind there, the grade is simply valuable, at little and maybe perhaps there is a spot or two. If the suit is dark, the dirt may not show—do it there. One cannot hide in outside and looks and it goes there. But are what your day dress is. Incidentally the coat, can do for the suit.

It's enabled in warm, drying it and the moisture is reversed, the dust which has been absorbed, removed. After the article is rinsed, pressed, is heated stronger then it is flattened out. The suit is now in order for the next wear. The suit is also fluffed out. No other cleaning method is to be compared to dry cleaning. Nothing that is fluffed softly. The need.

We'd like to work on all parts of cleaning.

Tell the truth, for that's ennui; if there's a bit of grease on it from ear to ear. If the suit is dark, in the purr's: of cleaning and spots vanish before his eyes. Grease are dissolved at once.

COOPERATION BREEDS SUCCESS

J. T. Watkins, secretary of the Fulton Poultry Association, has been quite active in putting off the buying and selling of pure bred stock of chickens for several years. He is a persistent and energetic worker in the poultry industry. He has put his pens up to the highest standard of perfection. He has won his place in the poultry world through real knowledge of his business, and through influence in the poultry industry.

Mr. Watkins lays great stress on the raising and handling of stock birds. He is a strong believer in the system of raising pure bred, standard birds, and he encourages such efforts in Fulton. As a result of these efforts in Fulton, there is a great improvement in the poultry industry. The pure bred standards are held, and there is a great demand for the pure bred stock.
