THEY ALL ADVERTISE

(By E. S. W., Publisher's Auxiliary)

A hen is not supposed to have much common sense or tact. Yet every time she gets up, she goes to the yard and walks around. By her insistent bray.

The busy little bees they buzz,

Bulls bellow and cows moo,

The watchdogs bark, the gander quack,

And doves and pigs trill too.

The peacock spreads his tail and squawks,

INDUSTRY AND AGRICULTURE

The Fulton community has many advantages that make it an ideal location for industries. The area is ideally located, with a fine climate and ample job opportunities for workers. The city is also home to many factories, and there is a growing demand for more industries to come to the area. The Fulton County News reports that the city is in need of industries paying out a greater amount of civic pride.

The United States is engaged in a great race—the armament race. This race will continue until there is a terrible explosion somewhere. The world is moving towards militarization, and every nation looking for trouble can usually find it. One of these days there is certain to be trouble in Europe, and it will spread to the United States. Nations of the world today are drawn so closely together by faster means of communication.

We have said before, in recent years the time has never been better for obtaining these manufacturing concerns. Many factories are seeking locations further south. Our community offers a great opportunity for industries to come and make a profit.

As we have said, despite one of the most depressive industries and situations, there is a growing demand for more industries to come to the area. The Fulton County News reports that the city is in need of industries paying out a greater amount of civic pride.

December I, Liberty Hall, historic and beautiful old homestead at Franklinton, was purchased by a group of citizens who are planning to preserve it for posterity. In the house lived great-great-great-grandson of John Brown, who was a follower of John Brown's and was killed in the Indian war. The house was also the home of Isidor Bronson, a member of the Vermont Anti-Slavery Society, who is said to have been a leader in the early abolitionist movement.

How Inflation Hits Your Savings

Inflation is a growing problem in the United States. The government is attempting to control the problem, but it is difficult to do so. Inflation is caused by an increase in the money supply, which leads to an increase in the price of goods and services. Inflation is a problem because it can lead to a decrease in the value of savings, and it can make it difficult for people to buy the things they need. In order to prevent inflation, the government needs to control the money supply. This is a difficult task, but it is necessary to protect the value of savings and to ensure that people can buy the things they need.

Farmers Debate New Tariffs
And Effect on Agriculture

Florence, Ky. — The recent proposal for new farm tariffs of this government
here today before a meeting of several farmer organizations, where many
discussed the potential negative impact on the agricultural sector.

Mr. John Doe, a prominent farmer, expressed concern over the high tariffs,
feasibility of their products, and the overall economy. He urged for a more
reasonable approach that could benefit both farmers and consumers.

Campaign Manager

Mr. Doe's campaign manager, Mr. Smith, highlighted the need for a
cooperative approach between the government and industry. He
emphasized the importance of communication and understanding
in creating a fair and sustainable solution.
