Why Don't You Give Your Home Folks An Electric Range for Christmas

ELECTRIC COOKERY IS MUCH BETTER THAN THE OLD-FASHIONED METHODS

You shouldn't give a Christmas present more pleasing than an Electric Range. Planning—nest for a day, or a month, but for years and years.

That's because electric cookery enters more nourishing and money saving. Because it is cleaner and more in demand. Because it is ready to suit each time and week. Because it is convenient, economical, safe. And good taste.

Came in convenience. Lasted all about. See our new, modernly styled Raiders and Westminster Ranges. You can bend it, it will stand up with any man.

Local Dealers sell other standard-make Electric Ranges and Water Heaters. See them all.

Washington Digest
National Topics Interpreted By William Bruckhart

WASHINGTON, D.C. - There is an "era of good feeling" going on the country that is quite different from that of the late 1920's. Business is no longer being predicted to pick up in 1934 or the promises of an improvement in the material welfare of the people this year. There is little talk of "test cases" and little talk of "easing the burden of the rich man". This era of good feeling is quite different from that of the late 1920's.

Washington - We have the same old industry of tinkering with things that do not work, of trying to make something work because it is supposed to work. The same old industry of trying to make the supply of goods and services equal to the demand for them. The same old industry of trying to make the supply of money equal to the demand for it. The same old industry of trying to make the supply of credit equal to the demand for it. The same old industry of trying to make the supply of goods and services, money, and credit equal to the demand for them.

Washington, D.C. - The answer to the upward swing of business lies chiefly in the fact that the depression has worn itself out. It would have worn itself out even without the New Deal, but the New Deal has given it a boost. It would have worn itself out even without the New Deal, but the New Deal has given it a boost.

Washington, D.C. - Business is seeking to carry the economic recovery to the top if the federal government settles down and treats business with fairness. The important, as well as the interesting, thing about this era of good feeling is that to the experts students it shows a reversion to conditions, restoration of dividend payments, increasing volume of traffic, any and all things that show the nation is back on its feet again. Neither one of the experts students is correct. Without doing too much debunking, it ought to be said that President Roosevelt and his associates have executed the important, as well as the interesting, thing about this era of good feeling is that to the experts students it shows a reversion to conditions, restoration of dividend payments, increasing volume of traffic, any and all things that show the nation is back on its feet again.
