THE LEDGER & TIMES

Patent Office Term
Ordinarily the term "basic patent" is employed in the sense of "foundation" — that is to say, a patent for a pioneer invention, one involving an altogether new principle, a new departure, one for accomplishing something never accomplished before.

Lover's Good Qualities
Had Been Well Tested
The maid had been hinting that she did but think much of service, and this, in connection with the nighty appearance of a rather sheepish-looking young man, caused her mistress some apprehension.

"Martha, is it possible you are thinking of getting married?" said her mistress.
"Yes, ma'am," admitted Martha.
"Not to that young fellow who has been calling on you lately?"
"Yes, ma'am, he's the one."
"But you've only known him a few days."
"Three weeks come Thursday," corrected Martha.
"Do you think that is long enough to know a man before taking such an important step?"
"Well," answered Martha, "it isn't as if he was some new fellow. He's well recommended. A girl I know was engaged to him for quite a long time."—London Tit-Bits.

To Appear In Murray November 29

The Smallman & Capella Choir, conducted by John Smallman, will appear in two concerts at the college auditorium on Friday, November 29, at 4:30 and 8:30 o'clock. The choir is composed of 25 voices and is considered by the leading musical critics of America as the best choir in America. John Smallman is the founder as well as the director of the choir. From the time he conceived the idea of a capella choir, he has been striving for perfection in this type of music. For three years the group of singers practiced three times each week and did not appear in public, and now after six years of constant practice and work, they plan a tour outside of California.

Prof. Alexander Koshetz, conductor of the Ukrainian National Chorus, said of them, "Never have I heard such superb choral singing in America." Percy Grainger said, "I consider such a choir most essential to the musical life of a community than the finest symphony orchestra."

Sampson Democrat Loses
Judging by the returns from last Tuesday's election, Montgomery County Democrats evidently decided they would rather be represented in the next Legislature by a straight-out Republican than by a man posing as a Democrat who after securing the nomination publicly announced his support and approval of Governor Sampson's policies. At any rate, Franklin Reynolds, who was the Democratic nominee for Representative from Montgomery and Menifee Counties, lost to his Republican opponent, Dorey Ratliff,

Nine-Tenths Preventable
Nine-tenths of all the diseases of the American people can be traced directly to constipation, doctors say. Constipation throws into the system poisons which build and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pain and physical losses. Herbine, the good old vegetable cathartic, will prevent constipation in a natural, easy and pleasant way. Get a bottle today from Dale, Stubblefield & Co.

Students Hear Rainey T. Wells

Dr. Rainey T. Wells, president of Western Kentucky State Teachers College at Murray, Ky., spoke to the student body of the high school Wednesday morning, delivering an interesting message.

Dr. Wells stressed the idea of "go and possess," reminding the audience that a great opportunity lies before the youth of today and especially the students of Texas. The speaker used the Biblical reference found in the twelfth chapter of Numbers, telling of the spies, Caleb and Joshua, who were sent into Canaan and returned saying that their own people were as "ashoppers" compared to those who inhabited Canaan. Dr. Wells said that the students of today are people who are capable of accomplishing great things.

Dr. Wells is in Murray Wells attending the Fraternal Congress. He is a former teacher of E. E. Hays, who teaches in the high school. Mineral Wells (Texas) Index.

has been more profuse in his praise of the Smallman Choir each time he has heard it. In 1926 he wrote: "Their virtues are clear enunciation and a tonal beauty which is so thrilling as to be an event." The next year he considered the choir "a lesson in musical Americanization" and in 1928 he added, "Here is realized D'Annunzio's ideal of 'creating with joy'. These men and women love their work, and they are as responsive to the leader's baton as the strings of a fiddle to an expert violinist."

Statement by ANDREW W. MELLON
The Secretary of the Treasury of the United States

In the last seven years the American Red Cross has spent annually an average of \$27,000 out of its own funds and \$6,750,000 in funds contributed by the public in the relief of disaster victims. That is has the trained staff to deal with the work of relief and reconstruction is due entirely to public support in membership.

The \$27,000 has been chiefly expended each year in the hundred or more minor disasters in communities which are not aided by public subscriptions. Instead of asking the public for funds every time a small disaster occurs, the Red Cross appeals to it once a year for membership. In this way it is enabled to care for these small disasters from its general funds; and so, when one joins the Red Cross, one is contributing to the sufferers in many small disasters by putting the Red Cross in a position to meet these emergencies as they arise.

(Signed) A. W. MELLON.

Would You Know One If You Saw It?
If you ever came face to face with a germ, would you recognize it? Of course it is not likely that you ever will see a germ, unless you own a tremendously powerful microscope, for you would have to magnify one over a thousand times to make it as big as a pin head. But you should recognize the fact that these tiny germs can get into your blood streams through the smallest cut, and give you typhoid fever, tuberculosis, lockjaw, blood poisoning, and many more dangerous and perhaps fatal diseases. There is no sure safeguard against these dangers—washing every cut no matter how small, thoroughly with Liquid Boronase, the safe antibiotic. You can get Liquid Boronase at Dale, Stubblefield & Co.

Find Threws New Light on Geology of Asia

Thirty dinosaurs, complete, were found in Mongolia's waste places, by Dr. Sven Hedin, the famous explorer.

He declares that owing to the geological stratum in which the dinosaurs were found, the discovery fills a gap of millions of years in the knowledge of evolutionary development in Asia. Included in the find were three infant dinosaurs fresh from eggs, about 2 1/2 inches long, all lying nestled close to their mother, and searching a higher stratum the expedition has found a dinosaur egg.

This is the first time dinosaurs from the Jurassic period have been discovered in Asia. The discovery is highly significant, as it affords development in Asia covering millions of years, about which we have hitherto been ignorant. Doctor Hedin's expedition included 60 Europeans, mostly Swedes, German, or Dutch. To reach the Trenchi headquarter the expedition traversed the Gobi desert with 300 camels.

when the legislative convenes. There will be those, of course, who will endeavor to assail Mr. Breathitt for his action. To our way of thinking, he has not only performed his duty to the Democratic party but has acted in perfect right as befitted his position as the highest ranking Democratic official in the state.

It may be that Mr. Breathitt's activities are placing him in line for the party's nomination as its candidate in the 1931 election but if so, what of it? Is it base to be ambitious and is it unworthy for a man to use his opportunities that promotion will be given him.

Is taking hold of things and the benefits he brings to the party react to his own advancement what of it, we say?

The County Agent

The Ledger & Times is glad to see the Calloway fiscal court get active toward securing a farm agent for the county and trusts that it will not be long before a capable man is employed.

County agent work, like any other constructive enterprise suffers from neglect. The longer we are without one the more difficult will it be to build the work back up. Lost momentum must be overcome.

A man who will be well balanced along the lines of farm activity is needed and, we are sure, will be employed. Diversification is the best practice that a farmer can follow for any one thing, no matter how good, can be over stressed.

Dairying and tobacco production need supplementary income crops and the boys and girls need to be trained along other lines as well as in dairy cattle production.

CARD OF THANKS

To the Voters of Educational Division No. 4:—

Let me express my appreciation for the nice vote given me, for a member of the County Board of Education of Division No. 4. Will say that I appreciate this more than I have words to express because I ran against a nice young man and whom I feel very kindly toward in every respect.

I shall do all I can for the benefit of our common schools and shall try to represent my division the best I can, and will appreciate the help of my people in the upbuilding of our schools, as well as our division No. 4.

Again thanking each and every one, I am,

Your very respectfully,
G. M. Potts.

Nature Thought of Everything

Nature thought of everything when the human body was made. When the body is about to become ill, nature planned danger signals to warn us. Thus, if our children grind their teeth when they sleep, or lack appetite, or suffer from abdominal pains, or itch about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy a bottle of White's Cream Vermifuge and safely and surely expel the worms. Thus we avoid the danger of very serious trouble. White's Cream Vermifuge costs only a few cents, and can be bought from Dale, Stauffer & Co.

"DON'T'S" FOR HUNTERS

Hunters have a lengthy list of "don't's" issued by the game and fish commission, to guide them. Some of them are:
Don't kill more than 15 doves in one day.
Don't shoot doves before September 15 nor after December 15.
Don't kill more than 12 quail in one day.
Don't kill woodcock before November 15 or after January 1.
Don't kill more than six woodcock in one day.
Don't kill wild turkeys or Hungarian partridges before November 15 nor after January 1.
Don't set traps before November 15 nor after January 1.
Don't kill any woodcock, elder duck or swan at any time.
Don't kill, trap nor have in your possession at any time any song or insectivorous birds.
Don't kill all the quail in a covey—leave some for seed.
Don't forget to feed the birds during the winter.

Few Mufflers Left!

For the last week, we gave a nice muffler with every purchase amounting to \$5.00 or more CASH. Having met with such phenomenal success in promoting better sales for CASH, we have decided to continue the same for another week.

Remember anything in our store goes in this purchase for CASH plan. Just now is a good time to buy that winter supply of underwear. Our underwear is priced from 90c up. For \$1.25 we can give you the THREE SEASONS union-suit in a 16 pound garment; this is really a good buy, not the light weight but the heaviest that THREE SEASONS makes. Don't be misled in buying a 12 or 14 pound garment at this price, because it carries the THREE SEASONS label; be sure it is the heaviest. Compare our garment with any other garment before buying.

We have made a purchase of over 100 Leather, Corduroy and Sheep-lined coats this Fall, and have them at unheard prices; a look will convince you that we are about the best buyers around these parts.

Suits in one and two-pants that can be bought for \$15.00 to \$30.00. Included in these suits you will find the newest shades of Brown, Greys and mixed colors in worsteds. We believe we have the best Blue Serge suit for \$25.00 that has ever been offered. We are willing to let you be the judge.

Our stock of Overcoats at surprising values, in solid and mixed colors, priced from \$7.50 to \$25.00.

See our stock of Hats, Caps, Shirts, Ties, Mufflers, Shoes, Oxfords, Gloves, Work Clothing, and Hunting Clothing before purchasing.

NOVEMBER 27 AT 10 O'CLOCK

It is my duty to go to Frankfort January 1st, and be away from my business most all the time for three months.

I tried this two years ago and it is with the experience of that time that tells me that I should reduce my stock of winter merchandise as low as possible before the first of the year inventory, and make room for spring merchandise, further than I would if I were going to be at home.

This Anniversary Good Crop Sale will be extended until December 24th. Special values are offered right in the heart of the winter buying season. Merchandise is regularly sold lower in Murray than any town in a radius of 100 miles. No mail order house does undersell the merchants of Murray except on a few advertised items. But not withstanding that fact, in order to make my arrangements to go to Frankfort and leave my stock in shape for spring when I return, I am going to sell cheaper. Don't fail to come in every time you are in town.

The Concord basketball team won a double header Friday evening when the boys and girls defeated the Hazel teams. The boys won by a large score of 42 to 5 and the girls score was 10 to 5. "Red" Christman was perfect when it came to ringing the ball for it seemed impossible for him to miss the goal. Moody by no means forgot to guard, while Allbritton

did his "stuff" in getting the tip-off. L. Yarbrough was the outstanding player of the girls' game, although Roberts and Stubblefield were well in the fight.

Lynn Grove Notes

The annual old-time Fiddler's Contest at Lynn Grove will be held according to the established custom, on Thanksgiving night.

Thursday, November 28, in the high school auditorium. The doors will open at 6:15 and 7:15 the contest will start. The program for this year has been arranged so as to include the singers, yodlers, dancers, fiddlers, piano, mandolin, and other kinds of musicians and entertainers. We think we have an exceptionally good program planned, one that everyone will enjoy and a prize list that will please each of the participants. The complete program and list of prizes offered may be found elsewhere in this issue.

The basketball boys showed their sensational form by defeating Wingo 24-8, Friday November 15 on Lynn Grove floor. They took the lead in the beginning and held it until the final whistle was blown. All the Lynn Grove players played a splendid game and "Red" from Wingo was the star player for Wingo.

The Murray Training School midguts played the Lynn Grove midguts preceding this game. This score was 6-5 in Lynn Grove's favor.

After the Lynn Grove Wingo game, the Kentucky Kutties played the Lynn Grove. Hamblers but Lynn Grove, it seems, forgot to ramble in the direction of the goal.

"The Way to a Man's Heart" a one-act play sponsored by Mr. Burton Jeffrey, science teacher, was given in chapel, Thursday morning, November 14. Those taking part in the play were: Tosco Clark, Hettie Jones, Norine Rogers, Myrtle Jones, Jesse Warren, Gela Furchess, Carlis Jones, and Elizabeth Swann.

"The Bachelor's Dilemma" with Orell Adkins, the bachelor, in search of a "housekeeper," was the feature of the high school social given in the gymnasium, Thursday evening, November 14. The High Flyers Society, sponsored by Miss Modest Clark, gave the following program:

Bible Reading—Doris Jackson
Lord's Prayer—Adell Miller
Reading—Charlotte Jordan
Story—Robbie Nell Myers
Report—Life of Lincoln, Clayton Hall

In honor of Robert Lewis Stevenson, the sophomore class gave a program, Tuesday November 12, at the class period. The freshman class were invited.

Mr. and Mrs. Oscar Owen of Akron, Ohio, are home for a two week visit with relatives and friends. Mrs. Owen was formerly Resie Caldwell, a former student of this school.

The seniors were rewarded last Tuesday for several weeks of waiting for their class rings. They are now capable of doing much more work, according to their estimation of affairs.

Mr. Voria Pickard and Clifford Rogers who went to Detroit recently have returned home.

Justor Wilcents in their last meeting had a try-out for roll leaders. Paul Boyd was elected leader with Clifford Miller and Clayton Hall as assistants.

Supt. H. E. Broad, Miss Reba Sims, Mrs. Elna York, and Mrs. Hardy Rogers were visitors of the school the past week. Mrs. York, a graduate of Lynn Grove, is visiting her parents, Mr. and Mrs. Abner Galloway.

LYNN GROVE EPWORTH LEAGUE

This is the month of Thanksgiving.

Three hundred and eight years have passed since Governor Bradford issued a Day for Thanksgiving.

During those three hundred years and more what has been our manner of observing this occasion? Have we taken on new faith and courage year by year?

How thankful we should be that our forefathers experienced that immortal faith in God, that deserves a complete and full submission to the will of God. It requires and demands the best that is in us. May God give us strength and grace to follow in the path of the loyal and sturdy patriots of old.

The subject for Sunday November 24 is: "How God Guides And Sustains."

Leader—Mildred Swann

The following program will be given:

Hymn
Bible reading—Ps. 105:1-15; Acts 16:6-12
Prayer—Wills Adams
The Story of the first Thanksgiving—Modest Clark
"The Habit of Thankfulness"—Samuel Adams
"More Modern Undertakings"—Mr. Lee Clark
Poem—Augusta Jackson
Closing Prayer—Dulcie Mae Swann

Can not Curl up Can not Blow up

A Locked Roof Double and Triple Coverage

Super-Tite Asphalt Shingles

A locked roof with double and triple coverage. The only sensible reason for buying a double and triple coverage roof, is to get an additional head-lap. Most standard weight shingles of DOUBLE and TRIPLE coverage have only 4 to 4.1-2 inches head-lap. Supertite shingles have a 7 1-2 inch head-lap, and under stress and storm this 3 to 31-2 inch extra head-lap takes care of driving rains, snow and sleet. Most any roof will take care of an ordinary rain; but here is a shingle that smiles when applied properly, at blizzards and gales.

Supertite Asphalt shingles give every advantage of other roof coverings—plus—two distinctive features combined in the same shingle. They give double and triple thickness over the entire roof area—with the addition of a LOCK-BUTT to prevent curling or blowing up.

Water-proofed with asphalt. Surfaced with a crushed mineral substance which is fire-resisting. Glowing embers or sparks cannot ignite Super-Tite shingles.

When laid, there is no part of a Super-Tite roof which has less

than double thickness coverage—and—over 48 per cent of the roof area is triple thickness. This greater coverage, with the LOCK-BUTT feature, makes a roof covering which defies the sun, rain, snow, wind or sleet. Super-Tite shingles cannot curl up—blow up—nor can they warp.

Made in 8 colors—red, green or soft blue-black and 5 tones of Kolor-Kraft.

Give a distinctive, architectural beauty to any roof of size, large or small.

Call and let us show you this shingle.

- POPULARITY CONTEST -

RULES OF CONTEST:

Any person residing in the trade territory of Murray, Ky., is eligible to enter the contest for Prizes offered for Murray contestants.

All contestants must register and they may obtain Rules and Registration Blanks from any grocer selling "Veribest" or "Blue-Wing" Flour, or Registration blanks will be mailed you upon application to Radio Station WFIW, Hopkinsville, Ky.

Fill out Registration immediately and mail back to WFIW Hopkinsville, Ky., so your name may be properly recorded and votes credited to you.

100 Votes will be found in each 48, 24 and 12 Pound Sack of "Veribest" or "Blue-Wing" Flour on sale at all grocers.

Accumulate "Veribest" and "Blue-Wing" Votes for yourself or give them to a friend that is in this Contest.

There are 15 Valuable Prizes offered in the Murray Contest, which are listed below. So that 15 contestants are sure to be awarded, meaning that those who really try to obtain votes from their friends (and they all use flour) are pretty sure to get one of the prizes.

Prizes will be awarded in accordance with the number of votes a contestant obtains. In other words, contestant obtaining the highest number of votes, gets First Prize; contestant having the next greatest number of votes, gets Second Prize and so on down until all prizes have been awarded.

For convenience of those voting for REGISTERED CONTESTANTS ballot boxes will be placed in every store where prizes are on display. The votes in these ballot boxes will be taken up each week and counted at the First National Bank and the standing of contestants announced over Radio Station WFIW. You are urged to deposit votes in ballot boxes each week, but those votes not so deposited may be turned in the last day of the contest for proper credit to contestants. Votes once credited to a contestant can not be transferred to another.

RELATED FAME COMES TO WEST'S WAGONERS

Wagon freighters were a breed of men whose services in the West have received little recognition, according to Ken Waynard, who appears in "The Wagon Master" at the Capitol Theatre Friday and Saturday.

These men hauled supplies to isolated mining camps and army posts in a day when transportation was a matter of extreme difficulty, Waynard explained.

"The very life of the early western communities depended upon the strength and courage of the

men who hauled food supplies through rough and dangerous country. The wagon freighters were a hard fighting, tenacious crew that stopped at nothing when it came to getting their wares through to their destination.

"The theme of my picture is the fight for trade between honest and dishonest wagon organizations. Food prices in the early West were necessarily high. When the wagon freight trade got into the hands of an unscrupulous monopoly, the camps served were faced with ruin."

970 Poultry Houses Built in the State

Nine hundred and seventy poultry houses were built in Kentucky last year, according to the College of Agriculture of the University of Kentucky. Most of them were of the latest type, designed to give best results under Kentucky conditions.

The college emphasizes the need of adequate space in the poultry house, which means 2 1/2 to 4 square feet per hen. A 10 by 10 Kentucky shed-roof house will accommodate 100 to 125 hens. Over-

crowding is considered a serious mistake.

There should be plenty of sunlight in the house, which adds warmth and cheerfulness and promotes dryness and ventilation. Ventilation is considered an important factor. There should be an abundance of fresh air, but no drafts.

The college lists five points to be considered in building a poultry house: Adequate space for the number of birds to be housed; proper distribution of sunlight; adequate ventilation, with plenty of fresh air without draft; comfort in quarters and equipment; and durability of construction.
