PADUCAH, KENTUCKY, FRIDAY, JULY 16, 1897.

TEN CENTS A WEEK

Prominent Judge Dying.
Glasgow, Ky., July 15.—Judge S. H. Bole, the senior of the Glasgow bar, was today stricken with paralysis. It is feared that he is fatally ill.

LEFT 234 DESCENDANTS.
John Huff, Sr., aged 90, died near Hyden.

Hyden, Ky., July 15.—John Huff, Sr., aged ninety-three, probably the oldest man in Eastern Kentucky, is dead at his home in this county. He reared a large family of children, and at the time of his death had seventy-eight living grandchildren, 143 great-grandchildren and fourteen great-great-grandchildren.

MILLIONAIRE SUICIDES.
And End of the Head of a Big Atlanta House.

Atlanta, Ga., July 15.—Emanuel Rich, of the well known firm of Rich Bros., the oldest and wealthiest dry goods houses in this city, committed suicide today by cutting his throat with a knife. He is supposed to have been temporarily insane. The deceased was worth a million dollars.

TARIFF CONTEST.

Gov. Taylor Urged to Appoint a Successor to Senator Harris Immediately.

Washington, July 15.—The contest over House schedules continues. Democratic senators have sent telegrams urging Gov. Taylor, of Tennessee, to appoint a successor to Senator Harris immediately to defeat conference report on cotton bagging.

EX-CONVICT KILLED.

Shot By a Watchman on the L. & N. R. R.

Paris, Ky., July 15.—Rock Mason, a negro and an ex-convict, was shot and killed by Night Watchman Connolly on the L. & N. excursion train, when passing this city. Connolly had shot and mortally wounded a man from Mayfield, when Mason interfered. In the general melee which followed, Mason was shot by Connolly.

TURKISH DEMANDS MODIFIED.

Balkan Still Insists on Retaining Thessaly, However.

Constantinople, July 15.—It is understood the council of ministers today agreed upon a great reduction in the demands of Turkey for a settlement with Greece, but still insists that all of the power, Eleusina, half of the Thessaly district and other territory shall belong to Turkey, while Thessaly shall be evacuated gradually as the installations of the indemnity are paid.

IN CANADA.

Spworth League Are Meeting Today in Toronto.

Toronto, Ont., July 15.—Delegates to the convention of the Spworth League have overwhelmed this city today. Decorations on the principal buildings have given a general holiday appearance to the city. The reception committee has had a busy time getting the different delegations placed, but their arrangements were good, and the great crowd was with a very few exceptions, comfortably seated. The open meetings were held yesterday afternoon.

READY FOR WAR.

Spain and Japan Allied Against the United States.

Will War Into Us.—In Case He Wins, Cuba to be Made a Colony With by Uncle Sam.

London, July 15.—A dispatch from Paris to a news agency here says that inquiry as to the American embassy there has elicited a confirmation of the rumor that the Government of Spain and Japan have arranged an offensive alliance against the United States. The terms of the understanding, which is for the mutual protection of Cuba and Hawaii, provide that in the event of an active aggressive movement on the part of the United States tending toward interference in Cuban affairs or sovereignty in the annexation of the Hawaiian Islands, both Spain and Japan shall declare war simultaneously against the United States, and shall make hostile demonstrations along both the Atlantic and Pacific coast lines of that country.

NOT WORRIED.

Officials at Washington Place Little Credence in the Report.

Washington, July 15.—Little credence is placed in official circles here in the statement that the Spanish and the Japanese governments have entered into an offensive alliance against the United States for the mutual protection of Cuba and Hawaii. "As far as could be learned tonight, no intimation of such an agreement has even reached the state department," Secretary Sherman was informed when a reporter called at the house in regard to the matter, but today the first assistant secretary denied the report, and regarded it as an improbable device. "The state department has no information concerning the reported alliance," he said, "and I don't believe there is any foundation for the statement that the Spanish and the Japanese governments are away from the city."

DEAD IN IT.

Is Pete Dowling—To Pitch Against the Giants Today.

PROBABLY A TRIAL GAME.

Louisville Has Long Wanted a Left Handed Twirler.

OTHER INTERESTING BASEBALL NEWS.

Contrary to expectations, "Pete" Dowling, who yesterday traded for Jones, of Louisville, will at once go into the box for Louisville. It was thought all along that Louisville intended to "farm him out" and use him next season.

The Colonels have been after a left hand pitcher for some time, and evidently think they have a good thing in Dowling. The "Courier-Journal" of today says:

"Hans" Wagner, the third baseman of the Paterson, N. J., club, of the Atlantic League, and Pitcher Dowling, of the Paducah club, were signed last night by the Louisville club. Wagner will be here Saturday night. Dowling will pitch for the Colonels tomorrow in the game against New York. This was the statement made by Manager Fred Clarke last night.

Wagner is a big, raw-boned German, with enormous hands, and in the Atlantic League batted like a feud.

Dowling is also a big fellow. He is left handed and is said to have great speed and good curves. He was secured in exchange for Jones, the Louisville club giving a bonus.

It may be, however, that Dowling will be put in today simply to try him. He was never considered a very great twirler here, and had not been for his pitching, he would have been worthless as a player, using little headwork, and being weak with the stick. The theory that Dowling is simply to be tried in the National League is strengthened by the following statement in yesterday's "Times," in connection with the exchange of pitchers:

"In a recent game against Paducah Louisville only made six hits off of Dowling, but afterward Evansville made twenty-four. The Louisville Club has had its eye on Dowling for some time. Secretary Dreyfus, however, said recently that while Dowling was promising, he was not up to League requirements."

Jones, the new Paducah pitcher from the National League, is now with the club in Terre Haute. It is Louisville's intention to simply "farm" him out, it is claimed, and she has no desire to let him go for good.

Farley, Paducah's new manager, and first baseman, will arrive tomorrow night from Chicago, and will possibly bring a third baseman and short stop with him. He may wait until he has seen the club play, however, before making any changes. He will be joined here by Clifford, whose hand is now almost well, and they will join the club at Evansville.

Farley is not by any means a celebrity in baseball circles, but most any thing would be better than Pease. He and Clifford will greatly strengthen the team, and to say the least, the prospects for Paducah are quite bright.

AT TERRE HAUTE.

Terre Haute, July 15.—Today's game, was forfeited to Terre Haute by a score of 9 to 0. In the last half of the ninth inning the score was 2 to 1 in favor of Terre Haute, and Manager Pease, of the Paducah team, marched his men off the field because of what he considered an unfair decision of the umpire.

TOO MANY PARALYZERS.

Have a Very Bad Effect on One Gallagher.

A man named J. G. Gallagher went into Bussell's Globe liquor house this morning and soaked in too many "paralyzers."

He soon concluded to take possession of the place, and the proprietor about the time concluded to vacate.

Oscar Sutherland and Elmer were called and took immediate charge of the man, and he was locked up.

WITHOUT HIM "DOUGH."

Dick Cockerill Forced to Go Home a Poor Man.

The colored man named Cockerill of near Maxon's Mills, who came to the city yesterday, drew \$165 from bank and had it stolen from him, had to return home without his hard earned cash.

He placed it in his pocket, and afterwards took off his coat. A yellow darkey with spots on his face is supposed to have gotten the money.

FABULOUS RICHES.

Have Been Discovered in the New Gold Field.

Klondike Region in Alaska Running Over With Yellow Metal.

San Francisco, July 15.—The Associated Press has received a letter from H. A. Stanley, President of the Klondike, N. Y., "Evening Herald" Company, giving further accounts of the wonderful gold discoveries of Alaska. Mr. Stanley wrote from St. Michael's Island:

"The steamer Excelsior, of San Francisco, was the first vessel to push her way through the ice to this station. The Portland, from Seattle, arrived four hours later. From these vessels we learned for the first time of McKinnley's election, the result of the Pittsburg-Corbett prize-fight, and other news of the fall and winter. Ice went out of the Yukon about June 15th, and the river steamer Portus R. Wear, which wintered at Dawson, 3,225 miles up, reached St. Michael's June 27th. The Wear brought authentic news of some of the most wonderful gold strikes in all the world's history, and brought also some forty-five miners, every man bringing in from \$5,000 to \$100,000 of dust and nuggets, an aggregate of more than \$1,000,000.

"The steamer Alice arrived at St. Michael's on June 29, bringing twenty-five miners and half a million in gold for them and much on their own account. The passengers on the Alice confirmed the news reported by the passengers of the Wear, which is as follows:

"The richest gold strike the world has ever known was made in the Klondike region last August and September, but the news did not get over to Circle City until December 15, when there was a great stampede over the 300 miles intervening between there and the new fields.

Of all the 200 claims staked out on the Bonanza and Klondike creeks not one has proved a blank. Equally rich finds were made June 6 and 10 on Dominion creek. Not less than 300 claims have been staked out on Indian creek, and the surface indications are that these are as rich as any of the others. The largest nugget yet found was picked up by Bert Hudson on claim No. 6, on the Bonanza, and was worth \$257. Next in size was one found by J. Clements on Indian creek, worth \$231. The last four years Clements took out over worth \$2,000, and one went \$775. Bigger pots have been struck in other regions, but as "where on earth has so rich a general find been made as in this section." In all about seventy-five lucky miners have reached St. Michael's. Some brought but a portion of their clean-up, preferring to invest other portions in mines they know to be rich.

"Among the most lucky are J. J. Clements, of Los Angeles, who has cleaned up about \$175,000. He brought out \$20,000 and invested the rest; Prof. T. C. Lipp, of Seattle, who brought out about \$50,000 and has \$150,000 in sight, and who claims his mine is worth \$500,000 or more; William Stanley, of Seattle, who cleaned up \$12,000; Clarence Berry, \$110,000; Henry Anderson, \$55,000; Frank Keller, \$30,000; T. J. Kelly, \$33,000; William Sloane, of Nagsome, B. C., \$35,000, and at least thirty more who will not talk, but stand guard over the treasure in their staterooms. Then there are at least twenty more men bringing from \$5,000 to \$20,000. All this gold, and more to come, is the cleanup of last winter's work. It must all come out via St. Michael's, and the bulk of supplies must go in that way. The two great transportation companies pushing in supplies are the North American Trading and Transportation Company and the Alaska Commercial Company."

FOR COW STEALING.

William Amick Arrested This Morning.

CAUGHT NEAR STILES.

Charged With Stealing G. A. Bright's Cow and Selling it to D. P. Coley.

ALL CONCERNED ARE WHITE.

William Amick, a well known resident of the county, was arrested for cow stealing this forenoon by Deputy Sheriff Utterback at Stiles, where he was at work, and lodged in the county jail.

Several days ago D. P. Coley went before Judge Sanders and swore out the warrant against Amick. He claims to have purchased a cow from him which proved to belong to G. A. Bright, who easily established his ownership of it.

Amick could not be located for several days, and the matter was suppressed by the police until today.

Learning of his whereabouts, Deputy Sheriff Utterback drove out and captured him, Amick readily accompanying him to the city.

He will be given a hearing before Judge Sanders tomorrow.

DEATH OF A FIEND.

Negro Ravisher and Murderer Hanged by a Mob.

The Law Was Too Slow and the Mob Wreaked a Just Vengeance.

Elbe, Ala., July 15.—A most horrible crime was avenged here this morning. Major Terrell, who brutally assaulted Mrs. Martin Thomas, a young mother, and then set fire to the house in which the mother and babe were, was captured yesterday. This morning when his examining trial was being held a mob took him and hanged him in the court house yard. The action of the mob is generally approved.

GOLD-LADEN RUSSIANS.

Fifty-Six South American Immigrants Arrive.

New York, July 15.—On board the Hamburg-American Line's steamship Patria, which arrived yesterday afternoon from Hamburg, was a party of fifty-six passengers in the forward stateroom, who are going to settle in Missouri, where they intend to start in the cattle and horse raising business. They are well supplied with funds, their cash capital consisting of no less than \$126,000 in gold pieces.

One family alone has \$40,000, which was sent in South America in the cattle raising business. The colony comes from Russia.

A DEPUTY U. S. MARSHAL.

Col. M. W. La Rue Appointed for the "Purchase."

His Headquarters are at the Custom House Here.—A Prominent Man.

Col. M. W. La Rue, of Hawesville, has been appointed by Dr. James a deputy U. S. marshal for the Purchase district, with headquarters here.

Col. La Rue arrived here yesterday, and has an office at the custom house. He is father of conductor "Dick" La Rue, of the Illinois Central, who is known to nearly everybody in Paducah as "Big Dick," on account of his handsome physique, and is larger than his son.

The "Courier-Journal" says of Col. La Rue:

"Col. M. W. La Rue, long a citizen, representative in the legislature, councilman, lawyer, etc., in this city, and for the last twenty years a news writer on the "Courier-Journal" and other papers, but who drifted from the Democratic fold when the party failed in 1880 to elect Hancock, who, he maintains, was the greatest nominee the party ever had, and who for some time has been a partner with Col. Sterritt in the publication of the "Patriarch," at Hawesville, but lately removed to Paducah, has been

BICYCLE RACES.

They Will Probably be in August and October.

Local Wheelman Wrote to the L. A. W. for Sanction.

The new bicycle track is almost complete, and will be ready for trial in a few days.

The Paducah Cycle club has written to the L. A. W. Board for sanction on August 18 and 19 and on October 14 and 16, and on these days will have bicycle races here.

As soon as the races are determined preparations will begin and nothing will be spared to make them a success.

ALL IN A ROW.

And Their Names are Cole, Every One of Them.

A Peculiar Contest Over Post-offices in County Seats Below.

Three county seats on the N. C. & St. L. railroad are likely to have postmasters named Cole.

Mr. J. W. Cole recently received the appointment as postmaster at Benton, and will take formal charge next Monday.

Mr. J. W. Cole is an applicant for the postmastership at Murray, and although he has a formidable opponent in Mr. Thomas Patterson, it is said that he will receive the appointment.

At Paris, Tenn., W. H. Cole is the prospective postmaster-elect. He seemingly has a walk-over, and if he secures the place he will complete the Cole trio of postmasters.

COUSINS MARRY.

They Come Over to Evade the Illinois Law.

Married at 9:30 O'clock at the St. Nicholas Hotel by Judge Tully.

A rural couple got off the early train from St. Louis this morning. They carried their luggage into the waiting room at the Union Depot, and sat there hand in hand for fully half an hour before they mustered up courage enough to venture into a carriage.

They went to the St. Nicholas hotel where the registered as Chas. W. Arrowsmith and Miss Dora Arrowsmith, of Odis, Ill. Their intention was evident. The bride-to-be was attired in a dress of cream tinted material, with white gloves and plenty of ribbon pendants and sashes. The groom had on a new suit that was nothing to boast of so far as its fit was concerned, but it was good enough to get married in.

At 9:30 o'clock the expectant groom had procured his license, and whispered something into County Judge Tully's ear, which resulted in his immediate appearance at the hotel. The couple were speedily married. The blushing bride admitted to a reporter that they were cousins, and came here to evade the Illinois law. At noon they left for their future home, where the groom is a barber.

device. It is said that the Republicans are now considering the advisability of endorsing the sound money nominee and of adopting their device. We are not prepared to express an opinion on the wisdom of such a step, but it is worthy of consideration. Should the Republican State Convention conclude to adopt that means of defeating the silverite nominee, we will be satisfied and will support the sound money nominee. We believe that the full Republican vote can be polled for J. E. Hindman. But if that is done, such a nominee should be secured on all the other offices. A sound money legislature should be elected. Such a legislature elected under such conditions would facilitate the passage of much needed legislation and would secure a rest from the disgraceful scenes that characterized the last two sessions of our state legislature. The union of the two wings of the sound money forces this year would pave the way for another union two years hence, when a United States Senator will be elected from Kentucky.

The Sun does not hesitate to express its desire for a fusion of the sound money vote of the state. It believes that the end justifies the means, and it has confidence enough in the effectiveness of the organization of the Republican party to believe that our full vote can be polled for the fusion nominee in nearly all cases.

ALL BLUFFS WILL BE CALLED.

Administration Will Take No Back Talk From Either Spain or Japan.

Stands Ready to Give an Object Lesson to the World if Necessary.—Half a Million Men Can Be Concentrated and Equipped for Service in Two Weeks.

The action of the Senate committee on foreign relations in agreeing to report favorably the Hawaiian annexation treaty suits the country exactly. Whether or not this new departure of our government is consistent with the past history of our foreign relations is utterly immaterial to the American people; the cautious opposition of a few leading newspapers is also a matter of indifference. The people of this country want to see Hawaii annexed. They have been studying the question for nearly five years, ever since President Harrison sent his annexation treaty to the Senate.

At no time did the great mass of the people approve Cleveland's action in withdrawing the treaty. The Senate may not act on the treaty at this session, but it surely will ratify it at the next session. The annexation of Hawaii is inevitable.

In the event of any aggressiveness on the part of Japan or any other nation directed against Hawaii there would be a popular demonstration in this country that would open the eyes of the civilized world. What applies to the situation in Hawaii applies with the same force to the condition of affairs in Cuba. President McKinley is determined that his administration shall be an American one in every sense of the word, and he wants to do what will be acceptable to the entire people, regardless of their party affiliations.

Speaking of this question a member of President McKinley's official family said recently:

"Spain evidently realizes that this is indeed a Republican administration with a powerful backing and fugitive resources. Should it become necessary for the United States to give an object lesson to the world, it would not take more than a couple of weeks to concentrate and equip 500,000 men for immediate service. Should the President call for volunteers, there would be an uprising such as has not been equalled since the times of the civil war, when the response to President Lincoln's proclamation gave rise to that popular song, 'We are coming, Father Abraham, a million men or more.' This condition of affairs in the United States has not been lost sight of by Japan or Spain, although the former is a good deal like a bantam chicken, and is running around trying to pick a fight with anybody that can be tempted. Should the Japanese persist in their course toward the United States, it may be necessary to pick this little government up and give it a spanking to give it some sense. There is no doubt that the feeling of the country in regard to the Hawaiian and Cuban questions and the strong policy which is being formulated by the President can not fail to be favorably and satisfactorily received by all true Americans."

It may be necessary to teach the other nations of the earth that the United States is not to be trifled with, and after everything that is possible to be done in a diplomatic way some of the bluffs that have been made against this country will be called. While there does not seem to be any idea of a war either with Japan or Spain in regard to Hawaii or Cuba, nevertheless it may be necessary to give the nations of the world a practical demonstration of the

power with which the United States could furnish food and ammunition for any trouble that might arise. As a demonstration of the power of the United States, the Japanese and Spanish governments have undoubtedly been made and the results transmitted to their respective governments. With this information before them it is not likely that either country will be in a hurry about backing a chip off Uncle Sam's shoulder.

GENEVA HEARD FROM.

A Paducah Writer Tells of the Fourth in Gotham.

An Interesting Letter That Will be Appreciated by All.

New York City, July 14, 1897.

Washington has seen that the great anniversary of American freedom means a city of nearly 3,000,000 people we left our party in the Catskills and returned to the city for a week or more, where we are at present the guests of Mrs. Willett-Faxon, the wife of our late esteemed contemporary, Col. Les G. Faxon. You will be pleased to hear that this charming lady remembers all her husband's friends most kindly, and inquired after their welfare, expressing much solicitude as to their well-being. Her first husband, Mr. Willett, was for more than twenty years connected with the New York "Sun," and through this she has always been in touch with the wit and genius of the vast metropolis, and today, as in days gone by, her magnificent home is the center of wealth and brains. She attracts about her person a circle of distinction and renown, and in her drawing rooms have been gathered the foremost men and women of this country; almost daily visitors are such men as Mr. Dakin, of London, England, society correspondent for the London and Paris papers; Señor Jose de Mantova, of Spain, special correspondent from the press congress, Madrid. It is through the latter that a poem by your "bumble servant," Geneva, is being translated into Spanish and will shortly appear in a Madrid paper.

Without doubt the Fourth in "my native village" like all the preceding ones, hot, noisy and plenty of fun, frolic and games. Well if you can imagine streets, cars, cable ferries, trains, boats and every conceivable craft of land and water loaded to the edge with a jolly crowd of fun seekers out for every thing going you have a faint idea of the teeming crush. For our destination we chose Rockaway Beach. The day was perfect, once the city with its scorching pavement, its hot, baked, East river with its fresh sweet smell of the sea was alive with boats crowding and racing; taking the train at Long Island City you are soon steaming towards the beach. The trussel, a fine piece of road engineering crosses Jamaica Bay, and as the train rushes along only a few feet above the water the support is invisible and you seem gliding along through the smooth green waves that stretch out wide and sparkling on either side almost as far as the eye can reach. Forty-five minutes and you are at the seaside, almost before the train stops you are greeted with a merry din. Flags are waving from every roof and tower, pennants flying in the stiff breeze, music from a band of instruments crashing on the air, and above it all the distant boom of the ocean as the breakers dash and foam against the noisy sands; jostling, roaring in a grand rhythm like the roar of a storm in the forest. I can never forget my first glimpse of the ocean, the wondrous, glorious grandeur; the wide, restless, sweeping vastness; the awe, the beauty, the solemnity, the incomprehensible sublimity. I never tire of watching the waves as they come rushing and tumbling and foaming toward the shore, piling one ever another in their mad romp like titans in their play, breaking, with a wild, fierce gleam upon the shore. The sands were thick with children, each with a little pall and shovel for digging in the sand, barefooted and with dresses tucked up out of reach of old Neptune's moist fingers. Bathing robes and leaped among the waves, tossing like corks as some big breaker reached them. Screams and scampers up the beach from others as some far-reaching wave rolled up in a constant source of amusement to lookers-on. New and then it catches a lot of them, and with dripping feet they clamber higher up the beach a line of water but noadder.

Green swimmers, sea and bare on the beach, but Sea Side is the "Midway," where, crash and jangle of cymbals, tom-toms, Turkish music, Italian bands, the electric organs of numerous merry-go-rounds, the various free theaters or music halls, all wide open to the sidewalk. "Walk right in ladies and gentlemen, there is nothing to pay; walk right in, the seats are free." That's all well enough, but you go in and see are expected to order something to pay for your amusement. Still it is cheap enough. Five cents for an hour's amusement. Order anything you like from beer, tea or coffee to a full baked hot dinner, if you wish to spend a dollar. Fakes of all descriptions are here to be found, but thank a merciful providence that the "Yellow Kid" vender has at last sunk into innocuous dust, and that grinning little product of Hogan's Alley has passed to grief. Five cents for a ten minutes ride in the "goat wagon," and a little phosgene drawn by a span of five goats trots down the boulevard. "Six shots for ten cents!" calls the target man. "Eight here, ladies and gentlemen, five throws for five cents and win a case." "Joe could lemonade, five cents a glass." "Have your pictures taken in your bathing suits, now is the time," etc. The quaint jangle of Turkish strains, the loud, the Turkish village is full that, and the speak-

ing with his wonderful voice and marvelous capacity for invention assures you that it is the only real thing in New York's words to that effect. That is, the Fatima (they are all Fatima I believe) has danced before the Sultan just as she will dance for you. And we Americans are queer people, we like to be gulled, so we pay our dime and in we go, really enjoying it all; though we feel sure that the belle Fatima is a big fat fake who never saw the Sultan in her life and was born probably down in Mulberry street.

So we take it all in, revelling in the cool fresh sea air that blows strong and pure across the brine and we return to the hot, stifling city late at night tired out, weary, half dead, but happy. Happy for two reasons, we have had a big delicious day; and we know that in a few days we will return to the sea shore for the rest of the summer. So my next letter will probably be from the Beach. The month of June we were in the Catskills, going up by way of the Hudson river. It is such a trip that once taken will never be forgotten, and some day when I have time I wish to describe it to you. But it is good enough to keep for awhile, so I will save it until I can do it all the justice possible. With many kind thoughts of all our friends in the dear old Kentucky home, I promise that in the near future you may hear again from me.

GOMEZ DARING PLAN.

Determined to Advance Upon Havana and End the Cuban War.

Campaign Necessary to Check Threatened Defection Among His Troops.—Scheme to Prevent Weyler Invading the East With Forty Battalions.

Washington, July 14.—Additional and confirmatory information of the critical situation in Cuba was received here today. Gomez has fully made up his mind to take desperate chances and to try to force an end, one way or the other, very quickly. He has informed the Junta, and the information has been sent to Washington, that circumstances will not warrant a continuance of the waiting policy. He says plainly that if Weyler is allowed to withdraw forty battalions from the west and put them in the east against Calixto Garcia, the chances will be against the revolution. Believing that it is vital to the cause of independence to force the fighting in the west in order to deter the movement of the troops, as suggested, Gen. Gomez has taken the field in Havana, and declares he will bring an end quickly.

It is useless to disguise the fact that Cuban sympathizers in Washington are uneasy over this news from Gomez. They realize that the commander has made a radical change of policy, and they are afraid he may lose. Gomez has another reason for this aggressive and dangerous advance into Havana Province, where Spanish troops are now quartered. He recently issued a proclamation offering amnesty to all insurgents surrendering with or without arms. He also promised to the "protestados" that they shall be allowed to retain the horses they bring in. The effect of this proclamation has been marked. Information direct to the Cuban Junta is that insurgents in unexpected numbers have accepted Weyler's terms. To check the threatened integration of the forces is part of the purpose of Gomez in assuming this daring and perhaps reckless plan of campaign. The old general still clings to his dream of independence, but the talk of compromise and acceptance of reforms is spreading among subordinate officers. A crisis in Cuba is near at hand.

INCLINE COLLISION.

Seven Cars Narrowly Saved From the River at Brooklyn.

Several Wrecked by the Collision. —The I. C.'s New Map.—Other Railroad News.

Yesterday afternoon late there was a destructive accident on the Brooklyn double incline. Five car loads of coal and two engines broke loose from the switch engine and rolled down the declivity with fearful momentum, but did not reach the top of the incline, as a cool-headed switchman perceived the danger and threw a switch, turning the flying slide into a side track. They crashed into three box cars, which had all the drawheads knocked out, and were otherwise badly damaged. The transfer boat was not at the bottom of the incline at the time.
