WEDNESDAY AUGUST 29.

LOOK OUT, HEREAFTER.

Hereafter the Tribune will contain all the court news of the county. The disposition of all cases in the circuit, county and police courts will be given of all cases that hereafter come before them. The men who pay their money for the Tribune, complain that we do not give all the news about the courts and other things in the county, and so hereafter if you don't want your names to appear in the Tribune you had best keep out of trouble or at least not be before any of the courts. The Tribune is a newspaper, and the people who are subscribers to it expect it to contain all of the news, and from this time on they will appear, unless the editor fails to get hold of them. We very much dislike to have the names of our friends appear in our columns, charged with crime, but we are not to blame for it, and after the first day of September, regardless of friend or foe, their names will appear in their proper place. So take notice and govern yourselves accordingly.

IDLE TALK ABOUT KEYS.

We are surprised that we hear so many men say that Mr. Keys will be elected to congress this year over Mr. Hendrick the nominee of the democratic party. A second thought and a look at the last congressional vote is enough to convince any one that it is entirely impossible for Mr. Keys to be elected. Two years ago Deboe received 8,438, Keys 4,686 and Smith 438, making a total of 13,662, while Stone, the democratic nominee, received 15,295, giving him a clean, clear cut majority over all three of his competitors of 1,733 votes. How is it now? The prohibition vote will all go to the nominee of that party, and of course Mr. Keys cannot expect to receive any votes from that source. The full strength of the republican vote was given to Dr. Deboe two years ago, and so was the vote of the populist given Mr. Keys, but put

both votes together and Mr. Stone received 2,171 votes more than both of them. Now how will it be this time? Mr. Keys is still the nominee of the populist party, a party that is not as strong today as it was two years ago, and of course its nominee cannot expect to receive more votes now than then from that party. Then where is he to get the votes from to overcome the difference between his vote two years ago and the vote received by Capt. Stone. There was a difference of 10,609 votes between Stone and Keys; now where is Mr. Keys to get this great number of votes from? He can't get it from the democrats, he can't get it from the prohibitionists, he can't get it from the republicans; now where is it to come from? Will some confident populist arise and explain the source from which it is to come. The republican party has no candidate in the field at present, neither will it have in the future and what will become of the republican vote? We think we are amply able to tell what will become of it. A portion of it will go for Mr. Hendrick a portion for Mr. Keys and a large portion will not vote at all. The republicans are made of the stuff that can't be controlled by the populists, or any other party, and, in fact, they have much less use for the peoples party than they do for the democrats. We think we clearly understand the situation and we write this to inform our readers that it is but the height of folly to think or talk of such a ridiculous and impossible thing as the election of Mr. Keys to congress. In the very nature of things it is an utter impossibility.

DISGUSTED, TO BE SURE.

A certain congressman up in Indiana was nominated the other day for the fifteenth time. The name of the gentleman is William Holman, the congressional "objector." Some men would say that this is too long for a man to remain in congress. Thirty years is a long time for one man to represent one people in congress, but if he is found faithful and true to his people keep him there. Ten years is distasteful to some, but 30 is out of the question.

Clarence Landram, a boy 14 years old, shot and killed one of the young soldier boys at Paducah last week. It seems that the boy had a lunch stand or something of the kind out at the park trying to make an honest living, and that between one and two o'clock in the night these soldier boys were trying to break in the boys stand and take from him some of his goods. The poor boy had been annoyed by parties beforehand and he had decided to protect himself at the risk of his life, and he did so by shooting through the door and killing a young Mr. Dodd of Bowling Green. An inquest was held and the jury returned a verdict that the young man came to his death by a leaden ball fired by Clarence Landram in defense of life and property. It was another unfortunate affair. Young Landram is the son of the postmaster at Grand Rivers and at last accounts was in jail awaiting an examining trial.

We knew when the Baptist Gleaner "writ" that bitter article against Capt. Stone it would soon send its subscription list to Louisville, or some other seaport.

Let Melons Alone.

There have been too many visits to certain water melon patches, of late, to suit some of the farmers and they are making a general kick. Those who go into other people's melon patches in the night had better look sharp or there will be a dead man or two some of these cool mornings. Melons, like corn, cabbage, potatoes and other articles, belong to the men who raise them, and it is just about time their rights and property were being protected by the courts, and if they continue to enter the fields of others and cut and slash and destroy melons, the owners will take the law into their own hands and punish them in a way that they will not soon forget. When melons are wanted it is best to ask for them or buy them, and then no trouble will follow.

THE NEW TARIFF BILL WILL SOON STRENGTHEN THE DEMOCRATIC PARTY.

The people from one end of the country to the other were glad when the democratic party went into power, because they were tired of the oppression that had been imposed upon the country by the republicans for so many years. But if the democratic party has failed to do anything to relieve the country and the people from such oppression then they are disappointed in it, and at the first opportunity will do all they can to put it out of power and put in some other party and try it, and so on until a party can be found that will reflect the will of the people. The tariff bill has been passed and the work of the present congress is at an end, and now since the smoke, dust and anxiety of the work of many months have been cleared away, and an impartial examination given to the work of a democratic congress, we are led to believe that there has been a victory won against class legislation that in less than twelve months from today the common votes from Maine to California, from the lakes in the north to the gulfs in the south, will be as enthusiastic for the principles of the democratic party as they were in 1892. The democratic majority in the senate was not large enough to have a sweeping majority of reform democrats to pass any reform tariff bill free from the influences of a few protection democrats. But all of the merits in the bill come from true reform democrats, while all of its demerits creep in by and through the influence of the republicans, assisted by a few protective democrats. The democratic heroes in both houses deserve the lasting praise of every democrat in this country, for every reduction was a battle with desperate and well armed partisans of protection. Fifty per cent of McKinley taxes have been taken from most of the articles of common consumption. Cotton ties bagging will not be monopolized whenever there is a good crop of cotton. Tin-plates duties are 50 per cent less.

In woollens and knit fabrics the reduction is from over 100 per cent to an average of 35 per cent. This is of great significance, not only because it will cheapen these absolutely necessary articles to the consumer, but because it will stimulate trade with Germany, Belgium, France and England, where the demand for our meats, flour and grain is the largest. The protectionist may ask how foreign trade can be stimulated and home woolen manufacture enlarged at the same time. The answer is that consumption will increase with great rapidity. Among three-fourths of our people far less of good woolen clothing, carpets and blankets is used than the users would like and would have if they could pay more. Enlarge their export markets and they will enlarge the home market.

Our new tariff will have a good effect on business and production. Southern and Western Democratic members have done their best, and have a great public good to show for their year's labor.

For Governor.

Col. Cash M. Clay, jr., candidate for governor, was in the city last week and met quite a number of our citizens at the court house, where he made a very interesting speech, a part of which was devoted to the time-honored principles of the democratic party, and a part to matters personal pertaining to the canvass between himself and Gen. Watt Hardin. As to the impression he made on our people we have not been able to learn. Heretofore, when one of these big guns would come among us we could always hear some expression of at least approval or disapproval when he was gone, but this time everybody were as silent as an oyster concerning the impression made by Mr. Clay. But suffice it to say he was here and mixed among our people and wants to be made governor of the state of Kentucky.

Among the short stories in McClure's Magazine for September will be one by Gilbert Parker and one by a new writer, Florence L. Guertin.

Terrible Accident.

Five Persons Killed by the Train.

One week ago this evening, just north of Hazel, in Calloway county, the passenger train coming this way from Memphis ran into a wagon that was crossing the track and killed four young girls, one boy and badly crippled a young man. The wagon contained four girls and two boys. There was a Sunday school picnic at a church near by where a protracted meeting was going on and these young people were on their way home, and in fact, were nearly home and were coming around a curve in the road near a fence where there were high weeds and briars. The train was coming down a slight grade at 40 miles an hour, and whistled for the crossing, which frightened the mules and just as they were trying to cross the track the engine struck the wagon between the two wheels with terrific force. The stroke was so great that it carried the wagon and mules at least 25 yards from the dirt road. The concussion was so powerful that it killed the people without mangling their bodies. The party consisted of two boys and two girls that were the children of Mr. Ray, and two girls who were the children of Mr. Hester. They were both farmers and lived near by. In less than ten minutes five lay dead, some on one side the track and some on the other, with their fans and baskets scattered all about them. The people in all that part of the country are in deep mourning concerning the loss of these young people. It seems from the best information we can get that there is no blame attached to either party, but it was one of these unfortunate accidents that could not be avoided.

Grace Announced.

Judge John R. Grace, of Trigg county, was in the city last week and met many of our people and talked with them concerning his candidacy for judge of the court of appeals. To write a long article about him, telling of his ability as a judge, his experience on the bench, and his many excellent qualities of mind and heart, would be consuming time out of place, for though he is not personally acquainted with our people, yet he is known by character as a faithful public servant to nearly every voter in the county. He is a great big 250 pounder; in years he is probably out beyond the fifties, but in health well preserved. He is the picture of a man full of life, with a brain quick and active, and a lively vein of antediluvian humor running around his eyes and playing about on his cheeks in such a manner as to draw men to him, with a convincing proof of his honesty, integrity and fitness, for the exalted place he seeks. He has but a short time to make the race, and he is in it to fight to a finish, and if the boys are not careful, when they come under the string in convention, Grace will be in the lead.

Stray Notice.

Taken up as a stray by G. W. Peck, of Marshall county, living two miles south of Calvert City, one dark bay mare mule, about 15 hands high, about 20 years old, with head and breast, long mane and tail, collar marks on shoulder. Appraised by me at \$25. Given under my hand as justice of the peace for said county, this 25th day of May 1894.

We have been wondering for the past few days what this country would come to if our friends, the populists, were in control of the government. There are 12 populists in congress, eight in the house and four in the senate. They have made a record. All of them have been energetic in introducing bills, and most of their bills called for appropriations. We have been making some calculations on the possibilities of populism during the past week. All the bills introduced by the populists have been preserved in their printed form, and the appropriations they call for have been added up. If all the bills introduced by them passed, it would be difficult to see where the money would come from.

The measures introduced by our 12 populist friends in congress in the gross call for appropriations aggregating \$49,000,000,000. Think of this, you honest farmer, who might be seriously contemplating casting a populist ballot next fall. Let us figure a little more. If there was a populist majority in both houses of congress and they all introduced bills with appropriations annexed at the same ratio as the 12 now in congress, the gross appropriation would call for \$928,000,000,000,000. Here is statesmanship for you! Here is economy for the farmer and laborer to ponder over!

We are glad that the farmers are now feeling so joyous and happy.

Oh, that fine perfumery at Lemon's; it is just too nice for anything.

Bro. Cason filled his appointments at the M. E. church last Sunday.

John K. Bonds, one of the heroes of the lost cause, was in the city yesterday.

Dr. Ed Thomas and wife were in the city Sunday in attendance at the Christian church.

Nearly every merchant loves to enjoy a big trade, but they do hate to spend any cash for advertising.

The rains, the beautiful, wetting rains, are now upon us and there is no telling how much "truck" we will make.

McELREE'S WINE OF CARDUI for Weak Nerves.

Esquire H. C. Hastin and wife of Briensburg were at the Christian church Sunday to hear Elder Godwin preach.

Did you ever hear of a wife curing her husband's back with a rag, turpentine and a hot iron?

There is now no dust except what is being "kicked up" about the noise of the Benton Silver Cornet band.

Karl's Clover Root will purify your blood, clear your complexion, regulate your bowels and make your head clear as a bell, 25c and 50c. Sold by Dr. R. H. Starks.

It is indeed laughable to the editor to sit and hear good housewives tell how they manage their husbands.

Since the new tariff bill went into effect the prices of playing cards have gone up. Who will be sorry for this advance in prices?

Why is it that people from all parts of the county like to trade at Lemon's? Because he keeps a large stock of well selected goods and treats his customers right.

"Just as we expected," said an old man the other day, "one extreme follows another and now we have no idea when the rain will quit."

During the hot weather impurities in the blood may seriously annoy you. Expel them by taking Hood's Sarsaparilla, the great blood purifier.

Ripans Tablets prolong life.

W. W. Ray has sold his property in North Benton to J. H. Fiser and will leave Friday for his mother's, out in the southwest portion of the county, where he will in the future make his home.

Mr. Ray has been a citizen of the town for nearly three years, and he and his good wife have endeared themselves to our people by their many acts of kindness until their departure is greatly regretted by all. He is a fine mechanic, a sober, honest, industrious, christian gentleman, and will always have plenty of friends wherever he goes, but he is going back to his old home, and of course his neighbors will be glad to welcome him and his family back in their midst. All the harm the editor wishes him in his new home is that he may so live as never again be run over by a bicycle.

Ripans Tablets cure biliousness.

Mr. Henry H. Harrison, one of the county's best citizens, died at his home near Olive last Friday of a lingering spell of fever. Mr. Harrison was a good farmer, a good citizen, a kind husband and an indulgent father and his death is greatly regretted. We very much dislike to hear of the death of such good useful men as Mr. Harrison, but all must die, the good as well as the bad. We join in sympathy with the bereaved family.

The Meeting.

The protracted meeting at the Christian church has been going on since Monday night a week. It has been conducted by Elder Godwin, who has been delivering some excellent gospel sermons. It has been rainy almost every day and night since the meeting began and as a result the congregations have not been as large as is usual at that church, but they have been attentive and appreciative and have greatly enjoyed the instructive discourses delivered by this excellent preacher. The interest has grown from the beginning, and besides many others being seriously affected by the hearing of the gospel, the following persons believed, repented, confessed and were buried in baptism: Mrs. J. C. McLeod, Miss Nellie Palmer, Miss Maud Lemon, Miss Myrtle Bearden, Miss Marie Brandon and Mr. Edgar Ferguson. The meeting so far has been quite a success, and those who have attended have been highly edified.

These good rains have again put a stop to certain men complaining at the democratic party. Good crops have much to do with the times. If there are no crops times will be hard, if they are good times will be good, all in spite of congressional legislation. Demand and supply has more to do with times than all else beside.

Arsenic and quinine are dangerous drugs to accumulate in one's system, and it is to be hoped that these poisons, as a remedy for ague, have had their day. Ayer's Ague Cure is a sure antidote for the ague, is perfectly safe to take, and is warranted to cure.

If the voters in this county would fight as hard against high salaries, high taxes, whiskey, gambling, carrying pistols and extravagance as they did for Stone and Hendrick it would not be long until Marshall county would be a young paradise.

There has been, through the energy and tact of Murray Gilbert, a silver cornet band organized and properly equipped with 16 new instruments. The boys are all well qualified to make a band of musicians of which our people will be proud. There is nothing that so much enlivens a town as a good band of music. In a month or so it will be a pleasure to listen to the boys discoursing sweet music.

If the soldier boys of the state guard can't behave themselves at home better than they did at Paducah, they had better be made leave the commands to which they belong. If reports be true their conduct to and from Paducah was disgraceful in the extreme. The entire turnout is an expensive luxury and costs the state more than it comes to.

U. S. GRANT.

Ulysses S. Grant was born in Point Pleasant, Clermont county, Ohio, April 22, 1822. His name was originally Hiram Ulysses, but the congressman who nominated him for the West Point academy gave his name, by mistake, as Ulysses S., and by that name he has ever since been recognized, and after remaining in the army for 11 years and participating in nearly all of the battles of the Mexican war, he was promoted to captain and was located in Oregon. In 1854 he resigned his position and came home and settled on a farm near St. Louis, Mo. In 1860 he moved to Galena, Ill., where he was engaged with his father and brother in the manufacture and sale of leather. When the rebellion broke out he made up a company of Illinois volunteers. He remained in the army, and being promoted from time to time, until July 25, 1866, the president made him General of the army of the U. S. He was inaugurated president of the United States March 4, 1869, and was re-elected in 1872; was inaugurated March 4, 1873 for the term ending in 1877. He died at Mt. McGregor July 23, 1885.

JAMES P. HEATH.

We do not know whether this once useful and famous gentleman was in any way related to the large family of Heaths in this county or not, but in order that they may claim kin with him we hereby give a short sketch of his life. He was born in Delaware Dec. 21, 1777; in 1779 he was appointed a lieutenant in the regiment of Artillerists and Engineers which he resigned in 1802; was register in chancery at Annapolis at the commencement of the war of 1812; served through the war as aid-de-camp to General Windeyer, in 1838 was wrecked on the steamer Pulaski and spent five days and nights afloat upon a piece of the wreck. At the age of 19 years he fought a duel with John Knight and received a wound from which the ball was never extracted. Was a member of congress from 1833 to 1835. He died at Georgetown, District of Columbia, June 12, 1854.

JOHN ADAIR.

This distinguished gentleman was born in Chester county, South Carolina, in 1758, came to Kentucky in 1787, was elected to the legislature, serving one year as speaker, was a member of the state constitutional convention in 1799 and was afterward register of the land office. He was a U. S. senator in the years 1805-6; he was appointed a general in the army and commanded the Kentucky troops in the battle of New Orleans under General Jackson; was elected and served in congress during the years 1831-3; was a member of the committee on military affairs, and died at his home in Harrodsburg May 19, 1840.

NAPOLEON BONAPARTE.

This distinguished warrior was born about noon on the 15th of August, on the day of Assumption in the year 1769, and died on the Island of St. Helena, May 5, 1821. He held all of the important places in the French government, from a position in the common walks of life, to that of emperor. The time will never come that the name of Napoleon Bonaparte will not be familiar to the people.

DANIEL WEBSTER.

Daniel Webster was born January 18, 1782, at Salisbury, New Hampshire, the last year of the revolutionary war. He died at Marshfield, Oct. 24, 1852, at the advanced age of 70 years, one month and six days. He was secretary of state of the United States at the time of his death. He was a much known and influential man at the time of his death.

Fulton is to have another religious paper. If some of these Fulton divines would put a little more religion in their life and less on paper, we believe it would be more pleasing in the sight of heaven as well as of earth. More example and less precept is what the country needs.—Mayfield Mirror.

Home and Abroad.

It is the duty of everyone, whether at home or traveling for pleasure or business, to equip himself with the remedy which will keep up strength and prevent illness, and cure such ills as are liable to come upon all in every day life. Hood's Sarsaparilla keeps the blood pure and less liable to absorb the germs of disease.

Hood's pills are hand made, and perfect in proportion and appearance. 25c per box.

People talk about corn as if it were a tender little flower and had to have a bath every day or two. The fact is that corn is not a tender weakling of a plant. It is tough and hardy and was made for hot weather and can go without water as long as the man who drinks it after it is made into whiskey. You can just put it down that the corn crop will come out better than the croakers anticipate.

My boy was taken with a disease resembling bloody flux. The first thing I thought of was Chamberlain's Colic, Cholera and Diarrhoea Remedy. Two doses of it settled the matter and cured him sound and well. I heartily recommend this remedy to all persons suffering from a like complaint. I will answer any inquiries regarding it when stamp is enclosed. I refer to an county official as to my reliability. Wm. Roach, J. P., Primory, Campbell Co., Tenn. For sale by R. H. Starks.
