**The Fulton Daily Leader**  
Daily Since 1890

BOYD MOORE, EDITOR AND PUBLISHER  
MARTHA MOORE, ASSOCIATE EDITOR  
NOLA MAE WEAVER, ASSISTANT EDITOR

Published every afternoon except Sundays and holidays, at 400 Main Street, Fulton, Kentucky.  
Entered at the Fulton, Kentucky Post Office as mail matter of the second class, July 1898, under the Act of Congress of March 1, 1879.

**SUBSCRIPTION RATES**  
One Year by Carrier in City \$4.00  
One Year by Mail \$3.00

**OBITUARIES—RESOLUTIONS—CARD OF THANKS**  
A charge of 2 cents per word or 10 cents per line is made for all such matter with a minimum fee of \$1.00. This is payable in advance except for those who have an account with the office.

**CORRECTIONS**  
The Leader will gladly correct any error in facts which may have gotten into its news stories when attention is called to them.

**Editorial**

**SOMETHING TO CONSIDER**

It has always been admitted that the democratic form of government, such as we have in the United States, has some weak points. During past years, in fact ever since the nation was founded, various critics have pointed out some of these weak links, and perhaps some of them have been made stronger. Many yet exist, in greater or lesser form, and perhaps the greater weakness is the combined weakness of centralization and bureaucracy.

Almost one hundred and fifty years ago a great French writer and observer spoke of this weakness. He said then that in time bureaucracy might destroy this country, or any country so constituted. In the early days of the Republic little attention was paid to such a criticism, for in those days the United States was a lusty young nation, with great frontiers to conquer, with tremendous opportunities ahead, and with no apparent limit in sight. We were content to build, to expand, to lustily show our strength.

Since the turn of the century thinking men and women have sensed a change. The great tides of immigration have ceased. The far frontiers have been conquered, and the nation has slowed down in its growth. We have almost reached the limit in expansion, one might say, and have reached the place here we should evaluate what we have and see what is to be done about it. Here is where the criticism uttered by the French writer comes in with so much point.

For the number of Federal employees during the years since the French writer made that criticism has increased seventeen hundred times faster than the population. That is something to think of, no matter what political party a man may believe in. It is something at once incredible and alarming. It is something which can really bring shipwreck to national aspirations if something is not done to correct such a condition.

A few days ago figures were released showing that for the first time in the history of the Republic more than one million men and women were on the Federal payroll. (This does not include the armed forces of the nation). The monthly payroll for these employes is almost one hundred and fifty million dollars. In less than eight years the number of Federal employes has increased about one hundred per cent. If such a condition continues and grows more pronounced, as appears probable, the day is not far off, as one writer says, when the nation will be reduced to the position of sheep, with the bureaucrats acting as shepherds, to whom will be surrendered all initiative and all control.

Other striking changes have also been recorded. Every month the United States Treasury sends out approximately twelve million checks to that many individuals, and since the early Thirties more money has been spent on relief than Germany has spent during the same period on armament.

No matter whether a man happens to be an ardent New Dealer or a Democrat or a Republican these figures are amazing and alarming. They represent a condition which cannot con-

**Selected Feature**

**WILLKIE'S DICTION PAINS ADMIRER**

(Memphis Press-Scimitar)  
Wendell Willkie's speech was much better to read than to hear.  
In what the radio experts call diction, Mr. Roosevelt up to now has it all over Mr. Willkie.

That is important—tremendously important—in the campaign of This Year of Our Lord 1940. It is something that Mr. Willkie's best friends should tell him. And he should do something about it.

Demonsthenes used a pebble. Mrs. Roosevelt, we understand, employed a teacher in intonation. Anyway, it can be done.

**His Chief Fault**

Mr. Willkie's chief fault is a slurring of words, and a tendency to stumble and to backtrack. We listened to the original and then again to a rebroadcast. These slurrings were conspicuous—flosophy, instead of the full articulation; principles, likewise, believe, smilar, clamity, oppsite, mtenance, obsolete, unistates.

Now all that shouldn't be consequential, but it is. It's a condition not a theory. When it comes to vote-getting in this day of radio and audiences by the million, teamwork among the organs of speech is vital. How the vocal cords mesh may be more important than how the Hatch Act performs. An Adam's apple may win the election and determine the destiny of nations. It should be remembered in this connection that probably more people listened to Willkie last Saturday afternoon than heard that greatest of all the campaigners of our time, the boy orator of The Platte in the whole campaign of 1896.

**Essential to Campaign**

We don't think how a thing is said should be anywhere near as important as how a thing is thought. But in campaigning it is.

Otherwise many of history's vocal triumphs would never have occurred, and it would have been impossible for the Cross-of-Gold-and-Crown-of-Thorns oration to have been goose pimples to the 1896 convention and the then obscure Mr. Bryan the nomination. There was an evangelist once who could guarantee at least a hundred hitting the sawdust trail just by the way he rolled out "Mesopotamia."

So, thus early in the campaign, Mr. Willkie should take heed of this problem and realize that he is up against the greatest epiglottis in the known world.

**SUNSHINE AND SHADOWS**

Louisville, Ky.—Dr. Donald M. Bennett, University of Louisville physics professor, found a needle in a stack—a \$105 radium needle in a stack of ashes.

A hospital misplaced the needle (used for cancer treatment). Dr. Bennett was called in with a radium detecting instrument.

He poked around the grounds for two hours. When he neared the ash pile, there was a licking sound in his earphones. Digging did the rest.

Kansas City—Kansas City's first experiment in an old fashioned town hall meeting, where the administration and citizens exchange views, took an unexpected twist.

After Mayor John T. Gage and City Manager L. O. Cookingham spoke on aims and accomplishments of their administration, the audience was invited to submit questions—and did.  
Nine out of 10 inquiring citizens wanted to know "why hasn't the city given me a job."

Larned, Kas.—W. B. Conard has figured out how many grains of wheat are in a 60-pound bushel: 480,000.

Conard didn't count them all—just the number in the first ounce, then resorted to multiplication.

tinue if this nation is to endure as we have known it. Today the number of Federal employes is one million. Next year or the year after or ten years from now, the figure may be three million or five million. Every growth of that figure represents a distinct step away from things as we have known them in the past and a distinct step toward unknown dangers.

**Nature's Danger Signal**

How much easier it is to keep well than to get well. In these strenuous times so many people have lagged out "feeling." They are tired all the time. They think they are all run down when they are more apt to be all wound up. And they do not recognize this as nature's danger signal that something is wrong.

**KENTUCKY FARM NEWS**

Guy Blakeman of Adair county burned 18 tons of lime. He made a square stack, alternating layers of logs and limestone, and then set the logs afire. He is planning to spread the lime a ton to the acre.

Hardin county farmers received 2,011 tons of phosphate in the 1940 agricultural conservation program. Orders now are being taken for next year's program, with five carloads already ordered for early fall shipment.

A. C. Glascock of Marion county threshed 210 bushels of Balbo rye from 5.65 acres, after grazing it during early spring with 60 ewes and their lambs and six feeder calves. The rye made a poor start last fall but stood out heavily.

Twenty-eight acres of Italian rye grass on the Bell county farm of O. G. Roden attracted the attention of farmers in several counties. He now is planning to sow most of his 400-acre farm to rye grass.

Charles Caldwell of Boyle county tried using vitamin B 1 tablets in the water when setting tobacco, thinking it might stimulate growth, vigor and resistance to disease. Tobacco so treated was 8 to 10 inches higher than untreated tobacco at blooming time.

More than 300 farmers have signed in an electric cooperative organization in Letcher, Hardin, Bell, Knox and Whitley counties. Plans call for at least 600 members and 150 miles of line, it is reported.

**SUBSCRIBE to the LEADER now.** \$4.00 per year, \$1.00 for three months.

**POTATOES PAY IN SEVERAL COUNTIES**

Seventy-nine Whitley county members of the Cumberland Falls Potato Growers' Cooperative Association sold 205,000 pounds of early potatoes. Most of them report profits, says County Agent Wilmet Carter. G. G. Teague made about \$300 from 3 1-2 acres.

Laurel county potato growers report a profit of almost \$1 a hundred pounds. Howard Dixon planted 800 pounds of potatoes and dug 200 bushels, with a profit of \$85.

In Clay county, John D. Hopkins produced 115 bushels on three-quarters of an acre, at a profit above cost of seed, fertilizer and labor of \$71.

County Agent Charles Gabbard says that Wolfe county farmers made money producing potatoes that brought \$1.30 to \$1.50 a hundred.

Gus Bard, who left last week for Mayo clinic was operated on Wednesday morning at the Colonial Hospital in Rochester, Minn. Doctors report he stood the operation very well.

**FRANKIE CARDWELL IS HONORED ON BIRTHDAY**

Frankie Cardwell, three-year-old son of Mr. and Mrs. Ernest Cardwell, was honored on his birthday yesterday when his mother was hostess to 17 of his little friends. The party was between the hours of 4 and 6 o'clock. The children first played games out of doors and were then invited into the dining room which was

attractively decorated with flowers and balloons. In the center of the table was a birthday cake holding three burning candles. After Frankie blew the flames from the candles Mrs. Cardwell served the cake with ice cream, carrying out a pink and white color scheme.

Favors of balloons, miniature cars and screw drivers were given to each child. Those present were—

Joan Jaye McClanahan, Jim Allen Wiley, Charles Andrews, David Ferrell, Virginia Bruce Forrest, Max Harris, Miriam Watts, Joe Hamilton, Gaylon Varden, Milton Owen Exum, Joyce Johnson, Eddie Moore, Joe Strange, Janet Sue Allen, Lillian Pearl Roddie, Jamie Barnes, Frances Bowden and the honoree.

Each guest presented Frankie a birthday gift.

**FIELDS ARRIVE TOMORROW FROM DENVER**

Mrs. Roper Fields and daughters, Betty Jean and Joyce, who have been in Denver, Colorado the entire summer visiting Mrs. Fields' sister, Miss Ma Mae Sugg, are expected to return to their home here tomorrow. They will be accompanied home by Miss Sugg who will visit parents and relatives.

**MRS. FREEMAN ATTENDS BEDSIDE OF BROTHER**

Mrs. Vester Freeman and her nephew, Robert Laine of Truman, Ark., are in Memphis attending the bedside of their brother and uncle, Maek Dunn, who recently underwent an operation in a hospital there.

**MRS. PONDER DIES IN BARDWELL**

Mrs. Dan Horton and Mrs. Lee Henry will attend the funeral of Mrs. W. H. Ponder, their aunt, tomorrow afternoon in Bardwell. Mrs. Ponder died this morning at her home in Bardwell.

**BRIDGE CLUB WITH MRS. EDWARDS**

Four visitors and one tea guest were present last night when Mrs. Howard Edwards entertained the members of her Thursday night bridge club at her home on Third street.

Visitors present were Mrs. Bishop Given, Circleville, Ohio, Mrs. Homer Wilson, Mrs. Lawrence Holland, Mrs.

Joe Bennett, Jr., Mrs. Tommy Edwards was a tea guest.

High score prize for the members went to Mrs. Maxwell McDade and Mrs. Wilson received the guest prize.

Late in the evening delicious refreshments were served by the hostess.

Mrs. Herbert Brasfield of Tupelo, Miss., is visiting Mr. and Mrs. Elmer McNatt.

Ire Little, who underwent a minor operation in a Memphis clinic yesterday, will return home tomorrow. Mrs. Little is in Memphis with him.

**COLLEGE'S STATE FAIR EXHIBIT TO SHOW BEST TOBACCO GRADING LIGHT**

The kind of electric light to use to get best results in stripping tobacco, will be the subject of a demonstration in the College of Agriculture's exhibits in the Grandstand building at the Kentucky State Fair September 7-14. It is next to impossible to do a proper job of grading tobacco with an ordinary electric light, the exhibit will show, but there are daylight lamps that give a "perfect" light for the stripping room.

Another exhibit by the College of Agriculture will stress the importance of Italian rye grass. About 25,000 Kentucky farmers sowed approximately 2,500,000 pounds of rye grass seed on about 250,000 acres a year ago, and between a million and a million and a half pounds of rye grass seed were harvested this season.

The college's forestry exhibit will show how trees prevent soil erosion. Another booth will show the selections of lawn grass seeds. This will interest town and country people alike. Other exhibits will deal with developing dairy herds, the raising of better poultry, and the growing of better potatoes and other crops.

Women visiting the College of Agriculture's exhibits will see four typical ways of decorating and finishing a home, including the selection of wallpaper, draperies, floor coverings, pictures and general accessories.

The college's 4-H club department will have its usual displays of canned and baked foods, clothing and room furnishings.

**Be Wise!** CHOOSE A WINKLER STOKER

● Distinctive in design—unequaled in efficiency—safe and dependable—that's the WINKLER Stoker. Shear pin elimination, Automatic air control, Inter-plan transmission, are some of the exclusive Winkler features. Come in and see this quiet and economical Automatic Coal Burner.

● WINKLER builds a complete line of coal-burning units covering the requirements of both domestic and commercial fields. Performance records on both the big commercial stoker and the streamlined domestic models show them to be trouble-free and extremely economical in operation. Let our representative help you solve that heating problem.

## Hoppers Take High Scoring Game From Tigers Last Night 18 To 11

After winning three out of five from the Jackson Generals, the Tigers dropped a wild and loosely played game in Hopkinsville last night, 18 to 11, with both teams playing the game exactly as it should not be played. Twenty bases on balls were issued during the game, the Hoppers getting eleven of them off the pitching of Gentry and Smith.

Quackenbush had three hits and Peterson had a homer for the Tigers. Mel Reist had four hits for the Hoppers.

The series is being continued tonight and tomorrow night, the Tig-

ers coming home Sunday to open a series against the Owensboro Oilers.

### SOFTBALL GAMES

The Softball League, in cooperation with the Young Men's Business Club, played their scheduled games at Fairfield yesterday afternoon and night. The two games which were scheduled for tonight were played there last night so there will be no conflict with the Ken-Tenn Exposition.

In the first game at 4 o'clock yesterday afternoon the Tigers defeated the Royals in a hard fought game by the final score of 12 to 6. This game was much closer than the final score would indicate.

In the first game last night the league leading Blues were almost shifted into the losing column by the hard hitting Cardinals. This game was tied two-all at the end of the regular game. One extra inning was played, and the Blues, in the last half of it, scored a man from third on a fielders choice to clinch the game 3 to 2. The Blue team unreeled a total of five double plays

during this game. In the final game of the evening the Tigers defeated the Dodgers in a good game by a score of 13 to 7. This victory gave the Tigers undisputed second place, only one game behind the Blues. The next games will be played at the Softball Park on the night of Sept. 3rd.

### FLOWERING BULBS SET IN SEPTEMBER

September is the month to plant the "flowering bulbs" such as tulips and narcissus. They are lovely to look at, and flower before most other plants have even begun to bloom. They may be started in a separate bed, or grouped in with other plants, advise N. R. Elliott of the Kentucky College of Agriculture. Use reasonably fertile soil, in a well-drained area where there is plenty of sunshine. Recommended tulip varieties are Clara Butt, Pride of Haarlem, Moonlight and Faust. Narcissus varieties are King Alfred, Tresserve, Bernardino, and Van Wavern's Giant. Within two to three years, the bulbs multiply two or three to one.

### TOMBSTONE'S CORONER STICKS TO THE FACTS

Tombstone, Ariz., —A "genteel" way to describe a lynching has been found in the files of one of the first newspapers published in Tombstone, once the toughest mining town of the Southwest.

A February, 1884, issue of one of the papers described how a mob stormed the jail and removed Jack Heath, who managed to escape the death penalty for murder. The coroner, hearing Heath had been hanged by the mob, wrote the following report: "We find that Jack Heath came to his death from lack of breath."

### FARLEY'S CABINET POST TALKED FOR WALKER

Washington, —Frank C. Walker, who headed the old National Emergency Council, is being mentioned by some politicians as the probable successor to James A. Farley as Postmaster General. Walker operates a chain of theaters in the East. A former Montanan who went to New York to practice law, Walker was treasurer of the Democratic National Committee in 1932.

### MORE CENSORS SENT TO WORK IN BERMUDA

Hamilton, Bermuda, —More than 100 censors, including several women, have arrived from England to assist the Bermuda staff in handling a greatly increased flow of mail due to calls from ships of the American Export Line. Several hundred pouches of mail are removed from each of the American ships stopping at Bermuda.

**ROOSEVELT TO SPEAK TWICE IN TENNESSEE**  
Washington, —The White House announced today that President Roosevelt would leave Washington Tuesday for a trip through the east and south during which he would deliver two brief speeches and inspect a defense unit in West Virginia. He will go first to his home at Hyde Park, N. Y., and remain until Sunday, Sept. 1.

From there he will travel by special train directly to Chattanooga, Tenn., to deliver a dedicatory address at Chickamauga Dam, one of the units in the TVA hydro-electric system, on the morning of Labor Day, Sept. 2. That same morning, the chief executive will go to Knoxville, Tenn., motoring from there in the afternoon to Newfound Gap, about 60 miles distant, on the Tennessee-North Carolina border. Upon arrival he will speak briefly in dedicating the Great Smoky Mountains National Park. Next Mr. Roosevelt will drive to Maryville, Tenn., to reboard his train, in the early evening, for South Charleston, W. Va., where he will inspect in the forenoon of Sept. 3, the naval ordnance plants. He will return to Washington that night.
