Editorial

RUSSIA STILL THE GREAT ENIGMA

Though a year has passed since the Nazi-Soviet pact hurled a bombshell on the world on August 24, Soviet Russia remains the big question mark hanging over Europe.

No longer will Russia march against Greece. Czarevitch Alexei and the important work of securing Czarevitch Alexei's safety is still under the protection of the British Government.

It is still not possible to say with certainty whether the war will come.

If the United States has built secretly, within the last four years, the giant plane dispatches this morning, then the war will not be long before foreign countries will be matching, or eclipsing, it, just as an automobile improves one year's machines over those of another year.

Every American therefore should know that when informed Americans—the President of the United States among them—say we need immense out for the war, we can get it, the President—warmergers, or peace-leaders leading us to war.

They are merely alert vigilants, patriots—Louisville Times.

SUNSHINE AND SHADOWS

Lancaster, Pa.—It was indeed a small world that separated Mrs. John Wagner and her sister, Miss Norma Wagner, when they met for the first time in 40 years ago.

They lost track of each other 10 years after adoption by different families.

Excited through a chance meeting arranged by a mutual friend, impressed by their resemblance, the sisters discovered they lived only 24 miles apart.

Houston, Tex.—K. R. Andrews, telephone lineman, disturbed a yellow jacket at the top of a 30-foot pole, and insect zoomed into a power line. Andrews dodged and swung. The yellow jacket circled and came back again.

"Next thing I know, I was on the ground looking up," Andrews told reporters.

He had two broken ankles.

Canton, Ill.—Harry Lukers was tickled pink when his stolen automobile was found. But when he and police went to get it they found the doors locked. Left to get a locksmith. When they returned the car was stolen again.

Lincoln, Neb.—Cupid must have been concentrating on Dorothy, Nebraska County Judge Robin Reid as marriage license forms 144, 145, and 146 was issued in a single day. The permit went to Dorothy Glant; Orchard; Dorothy Venti; and Dorothy Ossenkop.

CROSSING ACCIDENT FATALITIES

The need for exercising increased care in approaching and passing over highway with grade crossing urged by the Safety Section of the Association of American Railroads.

In the first six months of 1940, according to reports received by the Safety Section, 27 persons lost their lives and 2,181 persons were injured in highway-automobile grade crossing accidents. This was the greatest number of deaths in any corresponding period since 1931, in the first half of which there were 921 fatalities.

The total number of fatalities in the first six months of 1940 was an increase of 264 compared with the same period in 1939 and an increase of 794 compared with the same period in 1938.

BRITISH PLANE FACTORY INSTALLS A NEW ASSEMBLY LINE

London—Britain now is using mass production methods in turning out training planes. A track assembly line in the de Havilland factory, which has been developed, is used for final stages of construction of the Miles-Master single-motor plane.

James "All the World's Aircraft" says the Miles-Master monoplane has a cruising speed of 215 miles an hour with top speed of 240.
