UNDERWOOD & ELLIS.

Mr. A. V. Wright, General Passenger Agent of the Memphis & Gay Railroad, was in the city Saturday. He says the railroad is booming the case as a winter resort. Excursions are coming in every day. The public is very much attracted with the winter resort idea, and the locality of a winter resort to Kentucky is a popular one. Any of our citizens who want to organize an excursion can get particulars at this office.

In another column will be found an editorial endorsement, from the Henderson (Graham) of Prof. J. W. Rist, of this city, for the office of Superintendent of Public Instruction. Prof. Rist has never made known his intentions in this matter even to his most intimate friends. He has received solicitations from many of the State to enter the race and his many assurances of success should be submitted to him to the public.

Our drawing is no "lottery scheme," but a fair and square gift to our subscribers. We do it because it pays and is legitimate. You pay for the paper the regular price, no more and no less, and we throw in the chance at the premiums. Somebody will get every article on the list. It matters not who, to us. We put up the whole \$1,000 worth of our subscribers (take them in). Suppose we take out paper and a chance?

Speaking of "Silver Spur," the drama that will be presented at the opera house to-night, the Indianapolis Journal says: "A good audience witnessed the first presentation in this city of the comedy-drama, 'Silver Spur.' It is a most interesting play with a plot full of complications. It is full of absorbing interest, the unraveling of the mystery and distribution of justice is awaited by the auditors with curiosity aroused to the highest pitch. 'Silver Spur' is a well constructed play abounding in strong and dramatic situations, well balanced scenes and sparkling with genuine comedy. The lines are bright and clear. There are few plays that are perfect, and for a subreption play, 'Silver Spur' has few faults, as the characterizations are well drawn, and the parts well balanced. The play was handsomely mounted and costumes and properties costly and many."

Mr. John C. Latham, of New York, with characteristic generosity, sent a check for \$100 to the ladies of the Christian church to be applied in improving the building. Mr. Latham's many acts of kindness and generosity have very much endeared him to the people of this city.

Henderson Journal: Major Crump has written Joe Adams a letter concerning the organization of the new military company in which he states that each volunteer will have to pay \$10 on the purchase of a uniform. Few are willing to enlist under this requirement and unless the State can make some liberal proposition the matter of replacing the old Carbine Rifles will be suffered to drop. Major Crump said furthermore that he had received application from a number of colored aspirants for positions in a military company in Henderson and intimated that if the whites did not accept the terms proposed they would be offered to the colored company.

FROM THE GOLDEN SLOPE.

A Vivid and Beautiful Description of a Western Beauty by a Hopkinsville Emigrant.

SAN DIEGO, CAL., NOV. 29, 1886.

Ed. New Era.

I have been here one week, and have spent the time looking around trying to learn the streets and the many advantages to the city of San Diego. I have been told much, but an old friend, a gentleman, this is a city in many things that go to make up a city. It is located on a completely level, level land, and is a beautiful city, with a large, deep and perfectly safe harbor. We have a yet one railroad, connecting with the rest of the world, and the harbor connects with and crosses the Southern Pacific and extends on to the Atlantic & Pacific, and Astoria, and the coast of the Pacific. I have thought two other lines will enter here inside of a year. There are fine steamers regularly plying between this city and San Francisco, and every day every steamer brings in a new lot of people. The hotel accommodations of the city have been made more than trebled in capacity within the past two months, and still they are crowded and will have to be made addition. To night costs and spread-downs are being kept in the city, and the hotel and the hotel and the hotel are turned off for want of place to put them. So it is every night, and the reason for this is that the city is a beautiful city, with a large, deep and perfectly safe harbor. I cannot realize that it is winter. It feels like early fall, but it looks like mid-summer, and the weather is just what we need. The oranges, lemons, olives, guavas and some other fruits are just beginning to ripen, but we have melons, string beans, lettuce, radishes, green onions, cabbage, fresh beef, new potatoes, and other vegetables. I saw all these and others, growing in the city. The market is well supplied with the above and with good beef, mutton, pork and fish. The grape season is about over, but we have some of the best of the season. I bought at Hopkinsville, at from 25 to 40 cents per bushel, have gone up here from 2 cents to 8 cents per bushel. I can run for miles through the city; the electric light is used exclusively to light the streets, and though gas is generally used in dwellings, the electric light is used in the city.
