Trade With Your Home Industries and Make Fulton a Better Town

FULTON, KY., April 6, 1928

Editor, Fulton Advertiser:

I am writing to express my strong support for the development of our community, Fulton. We have a great opportunity to make Fulton a better town, and I believe we can do so by supporting our local industries.

First, we should encourage our local businesses to expand and grow. This will create more jobs and enhance the economy of our community. We can do this by supporting local events and promoting local businesses.

Second, we should encourage our community to become more involved in local government. This will give us a stronger voice in the decision-making process and ensure that our interests are represented.

Finally, we should work to improve our community's infrastructure. This includes improving our roads and sidewalks, as well as providing better public transportation.

I am confident that with our collective efforts, we can make Fulton a better town. I encourage everyone to join me in this effort.

Sincerely,

[Your Name]

Concrete Roads
Are Open All Year

There are a number of reasons why the mileage of Concrete Roads is steadily increasing, year by year.

Concrete highway pavement is not affected by weather. Rain only makes it smoother. Wind cannot blow it away. It can be built to withstand the number of tons of traffic imposed on it. This is a very pleasant surface for cars to travel on. There is no dust and the road never needs repaving. The surface is permanent and the original cost is the only one that need be considered.
