Tourist Trade Hits New Peak

Frankfort --- Kentucky's tourist industry drew \$393,804,084 in to the state last year, according to a report made by Gov. Lawrence W. Wetherby. The figure is a new record and is \$57,383,200 over the 1951 total.

"The 1952 figure pushes the total for the last six years to \$1,598,217,961," the Governor reported. "This is money spent by out-of-state tourists alone, which means that it is income entirely new to Kentucky -- money that would have been spent outside our borders if we had done nothing to attract it."

Here are the figures on our tourist trade growth for the last six years: 1947 -- \$161,774,152; 1948 -- \$184,160,400; 1949 -- \$228,856,874; 1950 -- \$293,201,607; 1951 -- \$336,420,040; and 1952 -- \$393,804,084.

The tourist-dollar figures are established by the application of a formula based on gasoline consumption, origin and destination traffic counts and average amounts spent by tourists as determined by actual surveys.

Wetherby noted that a goal of \$500,000,000 a year from tourists by 1955 was established six years ago when the state started a program to expand the industry, and said the 1952 figures indicate the goal will be reached or surpassed. He called on all Kentuckians to be tourist-conscious and to "let outsiders know that they are always welcome in Kentucky."

Attendance at State Parks '50 set a new record during the 1951-1952 fiscal year, and played a big

part in the state's establishing new tourist dollar mark last year, the Governor said.

There were 2,796,816 State Park visitors last year. The figure is an increase of 755,073 over the 1950-1951 period. At the beginning of the six-year period, in 1947-1948, only 373,598 persons came to the parks.

Mrs. Laura Treas of Route 6 was a visitor in Benton last week.

IN THE SERVICE....

Special Super and Roadmaster!

World's

V8

Television treat —
the BUICK CIRCUS HOUR —
every fourth Tuesday

It's more than pride that makes a man want a lot of horsepower beneath the hood of the car he owns.

For the real point in reaching record horsepowers and compression ratios goes beyond miles per hour. It steps up performance and economy in normal driving.

That's what Buick engineers did when they upped the power and compression of each 1953 Buick — SPECIAL, SUPER and ROADMASTER — to the highest figures in Buick's fifty-year history.

In the SUPER and ROADMASTER, they put a new kind of V8 Engine — first passenger-car V8 with 8.5 to 1 compression, and a long list of other major engineering advances.

For the SPECIAL, they redesigned the famed F-263 Fireball 8 Engine — gave it

shorter flame travel, faster firing, higher horsepower and compression.

And to these spirited engines they coupled the new Twin-Turbine Dynaflo Drive* that adds flash-fast, quiet getaway to utter smoothness.

Just to give you an example of what all this means: The 1953 Buick SPECIAL with Dynaflo can beat the mighty 1952 ROADMASTER on getaway — can reach 30 mph (when the law allows) with a combined speed and jerk-free smoothness no other car can equal.

Of course, there's far more to these new Buicks for 1953 — some seven dozen new features alone.

But why not come in and see for yourself that these are the greatest Buicks — and the greatest values — in fifty great years.

*Standard on Roadmaster, optional at extra cost on other Series.

BY DR. KENNETH J. FOREMAN
Living Alert
Lesson for March 8, 1953

WHAT is this parable of the 'foolish virgins' all about? Dr. Wehrli of Eden Seminary makes a simple straightforward suggestion. The story has to do with emergency, the unexpected and how to meet it. If everything had gone according to plan, the foolish virgins would not have been in trouble. They had all the oil they thought they would need. When they set out, it was the wise virgins who looked foolish. Why carry those extra flasks of oil? Wasn't it enough to carry a lamp without being bothered with oil besides? But when the hours wore on and on, those extra flasks did not look so foolish. The wise virgins were ready for the unexpected; the foolish were not.

Life's Emergencies

If the future were as plain to us as the past, then (we think) life might be easier. But that is not the way life goes. There is much we can count on; otherwise there would never be any use in making any kind of plans. But there also will be things ahead we don't count on. Disease or death may enter the home unannounced. Temptation may lift its ugly head among the flowers of our happiness. The person who goes through life prepared only for what he expects, will find himself in the dark. Only by being prepared for what we don't expect, can we rise to life's emergencies.

But how can we prepare for what we don't expect? Of course we can't prepare in detail for the unforeseen. What we can manage to have is a reservoir of strength; for physical emergencies reserves of health; for moral emergencies, reserves of character; for spiritual emergencies, reserves of faith.

The Unexpected Is The Test

When there is a big fire, or some extraordinary disaster like a bombing or an explosion, the police of a great city will send reserves to the stricken area to guard against looters. Now as Dr. Wehrli says, the police aren't specially worried about ordinary criminals.

But the people who do the looting at fires are the ordinary people, who in ordinary situations wouldn't think of stealing. They are honest enough for all routine situations. They would not think of breaking a door down in order to steal. But when a fire or an earthquake opens the door, and the lights go out, then these 'honest' people turn into thieves. They don't have the reserves of character to carry them through the moral emergency.

Sometimes again the emergency will be an opportunity. When an important position falls vacant, who is chosen to fill it? The man who is ready for it. But who is ready for the bigger job? The man who worked harder than he needed to on the smaller job; the man who learned more than he had to know to hold down the smaller job. If a man isn't ready for a bigger job than he has, he isn't likely ever to get his chance at it when the bigger one is open.

On The Alert

Three pieces of advice can be given to those who wish to live on the alert. One is: Keep physically fit. That may sound too obvious, but it is not, as any doctor could tell you. If your health breaks down you are stopped in your tracks no matter what your work may be. Whether you aim to be a missionary, a farmer or a governor, you are going to need all the health you can have. Don't cut down your body's efficiency by the use of liquor, drugs, overeating, under-sleeping or what not. The same can be said of the second point: Keep mentally fit. Keep your mind a bit sharper than it needs to be right now, sharp enough for the unlooked-for opportunity or problem or responsibility.

Again it is needless to say that the use of alcohol is one of the commonest enemies of mental fitness.

And finally: Keep spiritually fit. The Holy Spirit is no substitute for your own hard and careful thinking; but the closer you live to the God who is Lord of both today and tomorrow, the more ready you are going to be for whatever he may send.

Red Cross Asks for Your Aid in Drive

By Rev. E. A. Mathis

The Marshall County Chapter of the American Red Cross again solicits your careful consideration and participation in the Fund Raising Campaign. This campaign is being conducted in the entire United States and all but a very small portion of the world.

Our chapter has performed its responsibility of as thorough organization as possible by having Mr. Joe Pete Ely in the lead. Every district in the county has had a representative to be responsible for the organization of his community. Each home in the county will have an individual to call to collect any gift that may be intended for the Red Cross.

A dollar contribution is necessary to entitle one to become a member of the organization. Of course many people are considerate of the worthwhileness of the intentions of the Red Cross that they are giving much more than a mere membership.

If for some reason an individual is not contacted, please, send your contribution to Mr. Ernest Starks - Bank of Marshall County - Benton, Ky. Please help us to raise our quota in this county that we may prove to our neighboring counties that we wish to do our part in any worthwhile cause.

The Red Cross Fund Drive for 1953 has for its motto ANSWER THE CALL. Will you answer the call with the best you can do? Don't turn the solicitor away empty handed when he or she calls.

LOVELY TO LOOK AT --
EASY TO LIVE IN

Here is a ranch house that will look good in the country or in town. To add to the original beauty, we suggest you place it among some nice trees; if this is not possible, provide plenty of green shrubbery.

The house was designed for just such a setting in green, with red brick veneer walls and white boards and batten on the porch. Although it is designed for brick veneer, 4-inch concrete block veneer or ordinary wood siding will look good.

In addition to the outside attractiveness of the house, the interior arrangement is designed for the utmost comfort in living. The kitchen-work room combination is arranged so there will be a minimum of effort in preparing meals and preserving food. At the same time, the work room provides an excellent place for a home freezer, washing machine, water heater and work clothes closet.

One glance at the floor plan and you'll be impressed with the abundance of always needed storage space. The screened porch on the back could easily be glassed into make an ideal everyday living room or a delightful place to serve the family meals both summer and winter.

Dr. Henson Heads Seal Sale Drive

Chairman of the 1935 Easter Seal Campaign in Marshall County will be Dr. S. L. Henson, it was announced by State Chairman Briggs Lawson.

The campaign, March 5th through April 5th, will raise money to provide medical care and other needed services for crippled children throughout Kentucky.

The campaign will be conducted largely through mailing of Easter Seals, but additional means of raising money will be devised in most communities.

No definite goal has been set for money to be raised in the state as a whole or for any county, the chairman pointed out. But the Kentucky Society for Crippled Children, this state's Easter Seal Society, already is committed to a service program expected to cost about \$215,000 during the next fiscal year.

This year's Easter Seal mailing is the largest in Kentucky history, according to Mr. Lawson.

Mr. and Mrs. Alex Butler spent last week on Route 5 with her mother, Mrs. Lovett.

Mrs. John Thompson of Route 2 was a recent visitor in Benton.

Mr. and Mrs. Arch Gardner of Hardin were recent visitors in Benton.
