## SAM BATES KILLED OR DID HE COMMIT SUICIDE?

Body Was Found Last Week Under Suspicious Circumstances in St. Louis.

Paducah relatives of Sam Bates, 40 years old, a caulker of Paducah, who according to the St. Louis officials suicided in that city, are of the opinion that he was murdered. Bates' body arrived in Paducah Friday morning, and was taken to the home of his mother, Mrs. Ida Steinkacker, 212 Monroe street. The funeral was held from the home at 10 o'clock this morning. The services were conducted by Rev. E. B. Landis, of the Kentucky Avenue Presbyterian church. The burial was at Oak Grove cemetery.

Bates was found dead in his room in a hotel on Volcano St., St. Louis. There was a bullet hole over his right temple, that is figured was too high for him to have shot himself. Murder is suspected.

He is survived by two children Samuel, 8 years old, and Roy, 6 years old. Besides his mother he leaves one sister. —Paducah News-Democrat.

Bates was at one time a resident of Murray where he was employed as a butcher, and while a resident here was married to Miss Bertie Tutt, who died some few years ago.

### Redden Gets Five Years.

Mayfield, Ky., March 10th. — After being out since late Friday afternoon, the jury in the Horace Redden murder case, returned a verdict at 1:30 o'clock Saturday afternoon, finding the defendant guilty of manslaughter and fixing his punishment at five years in the penitentiary.

Redden, it will be remembered, killed Herman Humphreys in the summer of 1908, at the home of Mrs. Wilson near Cuba.

The case was on trial for several days and there were a number of witnesses. There had been one former trial, which resulted in a hung jury.

### Died Suddenly.

Mrs. Lucy Oliver, of Benton, died very suddenly Monday of this week at the home of her daughter, Mrs. Tom McGregor, in Frankfort, Ky. Mrs. Oliver is well known in this city and her sudden death comes as quite a shock to those who know her.

## OLDEST CITIZENS OF COUNTY PASS AWAY.

MRS. AMELIA DICK, AGED 98 YEARS AND MR. JAMES VANCE CLEAVE, AGED 95 YEARS, BOTH WELL KNOWN CITIZENS DIE THIS WEEK.

Mrs. Amelia Dick, mother of our townsman, D. W. Dick, and the oldest citizen of Calloway county, died the first of the week at her home in the southwest part of the county at the extreme old age of 98 years, 3 months and 16 days. Infirmities of age were the cause of her death. Mrs. Dick was one of the most widely known and much loved Christian women in this county, and while death did not come to her until nearly a century of life had been lived, yet her death causes much regret to those who knew her. She was a native of middle Tennessee and came to this county when quite a young child. She had made her home at the place of her death for sixty-six years. She is survived by five children: Mrs. Jas. A. Cruse, who was residing at the old home place with her, D. W. Dick, of this place, M. F. Dick, of the county, J. F. Dick, of Illinois, and W. H. Dick, of Oklahoma.

Funeral services were conducted Tuesday by Rev. Nunally after which the burial took place in the Beech Grove cemetery.

Mr. James Vancleave died Monday morning at his home about five miles east of Murray after a brief illness of pneumonia. He was the county's oldest male citizen, and was in his 95th year. Mr. Vancleave was one of the most splendid citizens of the county and during active life took a keen interest in the affairs of the county. He was engaged in business in the county for several years and was successful in nearly every undertaking. He was a member of the Masonic lodge and was one

of the oldest Masons in the state. James Vancleave was born in Bedford county, Tenn., Sept. 11, 1814, and was therefore 95 years, 6 months of age. He came to this county with his father about 70 years ago and has continuously resided at the home where his death occurred. He was married three times. His first wife was Miss Lucinda Miller, a sister of H. H. Miller, who lives east of Murray. Several years after her death he was married to Miss Ann Sims, sister of the late Col. Fenton Sims, of Cadiz. His surviving wife was also a Miss Sims, of the west side of this county, but was not related to his second wife. Ten children resulted from his marriages. His oldest son, Jasper Vancleave, died while serving in the Confederate army, his death occurring at Bowling Green. Of the ten children only two survive, Mrs. R. Downs, of this place, and Mrs. Ella Denton, of Commerce, Mo., together with his widow and thirty grand-children. At the age of 18 years Mr. Vancleave professed faith in the Christian religion and later joined the Methodist church. He was one of the strongest characters ever in the county and numbered his friends by the scores. He lived a long life of usefulness, and while his death came many years after the allotment of life to man, it nevertheless brings sorrow and grief to many.

Funeral services were held today by Revs. Mc. Pool and W. J. Beale, after which the burial took place in the Miller grave yard.

## City Council Proceedings.

The city council met Tuesday night in regular adjourned session and considerable business of importance was transacted.

The ordinance governing the license of pool rooms was amended, fixing the license on the first table at \$500 per year and each additional table at \$100 per year.

The tax levy was fixed for the present year at the same rate of last year, which is 65 cents for general purposes and 10 cents for the City Cemetery.

One of the most commendable propositions before the council was an order looking toward the improvement of the sanitary condition of the city. It was recommended by Dr. P. A. Hart, city health officer, and will be drafted as an ordinance proposing to fix a tax of \$1.50 upon every family for the purpose of keeping all privies in a sanitary condition. Under the present system not more than one third of the citizens are complying with the present order, and it is proposed to fix a penalty for failure in the new ordinance.

An order was made extending the privileges of the streets next fourth Monday to all stock owners between the hours of one and three o'clock. It is to be hoped that every stockman in the county will take advantage of the council's generosity and that fourth Monday will be one of the biggest days in the history of the town.

### Methodist Church.

The Missionary day at the Methodist church last Sunday was a great occasion. The pastor preached a missionary sermon in the morning and this was followed by a missionary rally at the evening hour. The program was of merit and reflected great credit upon the organizations. It was the hope of the societies that a sufficient sum would be realized to make Mrs. Susan Waters a life member of the Woman's Foreign Missionary Society. The offering was a little more than enough to place this honor — and those who had part in the offering can rejoice together.

Next Sunday morning the pastor will preach on "Apostasy as seen in the Individual and in the Church." —Matt. 12-43.

At the evening hour, 7 o'clock, the theme will be "Repentance" — Luke 13-3.

The special music for the morning will be as follows:

Voluntary, Andante in D. Rothleder—Mrs. Joe Ryan.

Offertory, Pams.—J. Faure Mrs. Nat Ryan.

Postlude, —Read—Miss Gladys Owen.

Last week Evangelist Bassett, of Knoxville, Tenn., preached for us three nights, and the evidence of real Christian fellowship was beautiful. May it continue until Christianity in Murray shall be literally welded together.

Next Sunday night we will worship in an Easter song service, and we hope it will be a grand union service of praise. The program in detail and further announcements will appear in next week's papers.

### Last Notice.

All parties holding claims against the estate of E. F. P. Alexander, must present them for payment or be forever barred from collecting the same, and all parties owing the said estate must pay or I will sue as the law directs.

CONS. FRAZIER,  
Adm'r.

The ladies of the Methodist church will have every thing that is good to eat 11th Monday.

## MASON AND IRVAN STABLES ATTRACTING ATTENTION.

Latest Addition, Sprague Patch Arrived Tuesday Night and Was Given Reception.

The fact that the Mason & Irvan stock farm is now the home of Sprague Patch, son of the world famed Dan Patch, which arrived here Tuesday night is attracting the attention of stockmen from every section of the state. As evidence of the attention being given to our local farm we reproduce the following, a special from the Paducah Sun, and which has also appeared in the Louisville, Nashville and Memphis papers:

"Perhaps the first public demonstration ever given in honor of a horse in western Kentucky will be that which greets a scion of the world famous Dan Patch when he arrives here to-day or to-morrow 'in his own palace car' from Minneapolis, Minn."

This aristocratic equine is to become a feature at the fine stock farm that is being established just west of Murray by Dr. Will Mason and Evert B. Irvan, which promises to rival Elmendorf farm near Lexington. The animal was purchased at the International farm, Minneapolis, at a cost of \$5,000 and will reach here in a palace stock car in charge of an attendant. For two days admirers of fine horses have been watching for a telegram announcing that the horse had been transferred to the N. C. & St. L. railroad at Paducah and they have engaged the Brasfield Military Band to head a procession that will escort the animal to its new home.

Besides the Patch horse the promoters of the farm have visited the famous stock farms of Kentucky, Tennessee and the east and have gotten together a half dozen of the finest bred horses in the world. One of these is a horse sired by John R. Gentry, holder of the world's trotting record.

Besides the fine horses and jacks the proprietors of the farm have an unique array of fancy fowls, including prize taking chickens, imported pheasants, and on the lawn in front of the barn, which cost several thousand dollars, is a herd of deer.

The farm has an ideal location, the barn being on an elevation overlooking the town of Murray. An expert is treating the soil for blue grass and the proprietors say that if unsuccessful in getting the grass to grow in that way they will sod the entire place.

### New Concord.

Health is very good in this vicinity.

Sales are the order of the day. Henry Finley's folks are off to Oregon. Chas. Underwood has moved to the Finley place.

They are preparing to start a new millinery store at Concord.

Uncle Hawley Wilson is ill.

### BLUE BIRD.

### Died in St. Louis.

Little John Rex Marshall, the three year old son of John R. Marshall and wife, of St. Louis, died Sunday after a brief illness of locked bowels, and the remains were brought to Murray Monday afternoon and were laid to rest Tuesday afternoon in the City Cemetery. Funeral services were conducted by Rev. Jefferson and Alexander.

## ROUND ABOUT THE STATE

What Is Going on in Different Sections of Kentucky.

### POOL GAINING IN FAVOR.

Favorable Reports Received at Meeting of District Board of Burley Tobacco Society.

Lexington, Ky.—The district board of the Burley Tobacco Society held its regular monthly meeting here last night. Reports were heard from all tobacco counties regarding the progress made in the building of warehouses, the amount of tobacco received, the financial conditions and the number of "pledgers" in each county. About 40,000,000 pounds of tobacco have already been received, which is a much larger amount than the board expected to receive in winter order. Most of the counties are financing the crop with very little trouble. Some few counties, however, are having to call on headquarters for assistance. Very little of the pooled tobacco has been sold. Only one county reported as many as seven growers who had broken or attempted to break their pledges. In almost every instance suit had been brought to recover damages, and as a rule the courts have found in favor of the Burley Tobacco society. Pledges for more than a thousand cases have been received since the meeting of the board in January, so that the gain in new pledges is about five times greater than the tobacco that has been sold in violation of the pooling contract. The spirit of the board is wholesome and sanguine, the business moves on slowly, and the outlook for the future is bright. The recent acts passed by the general assembly will greatly facilitate the work in the future and strengthen the society. The members report that the pool is gaining in favor with the best people who have hitherto remained out of the pool.

### NEW FORM OF CONTRACT.

District Board of Burley Tobacco Society Makes Several Changes.

Lexington, Ky.—The district board of the Burley Tobacco society unanimously adopted the form of contract under which growers are expected to pledge their 1910 crop of tobacco to the third pool proposed by the society. There are three changes as compared with that used for the pooling of the 1909 crop. In the first instance it is provided that the 20 per cent liquidated damages awarded for any violation of the pledge on the part of the grower shall not be construed as a waiver of the rights of the society to enforce the contract in equity. The second change gives the society one month more time than was specified in the contract of 1909 in which to determine whether or not a pool shall be declared, and will preclude the necessity for an extension such as was taken last fall. In the 1909 contract, Oct. 1 was the date set for such declaration and the board extended the date to Oct. 15. In the form of contract just adopted Nov. 1 is fixed as the date.

### INDICTMENTS UPHELD.

President Irwin, of L. H. & S. L. Must Stand Trial.

Louisville, Ky.—The Louisville Henderson & Louisville railroad and the American Tobacco Co. must stand trial in the federal court, the first two on the charge of giving rebates and the latter on a charge of accepting rebates. This was the decision of the court following a lengthy argument on a motion to quash the indictment. The action is but the beginning of proceedings that promise to go great lengths in the courts. There are eight indictments against the Louisville & Nashville railroad, which have not yet been passed upon. Nine true bills, containing 54 counts, are to be tried. Three of the counts against President Irwin cite the American Tobacco Co. as accepting the rebates. The indictment against the Louisville & Nashville railroad is based principally on alleged rebates given to whiskey houses. Several of the alleged rebates amount to \$2,000, while others are no more than \$1.

The receiver, G. A. Roy, was ordered to continue to operate the mills of the bankrupt company until Judge C. H. Carter, the receiver, should be appointed. The Kentucky River Lumber Co. mills are located in Irvine and Valleyview, Ky., with a mill also in Cincinnati. The liabilities of the bankrupt company are around \$115,000.

### BARBERS CAN DO BUSINESS.

Court of Appeals Decides They Can Keep Open on Sunday.

Frankfort, Ky.—Barbers will be allowed to keep open on Sunday if they desire, for the court of appeals reversed the judgment of the Jefferson circuit court in the case of John Stratton against the commonwealth. In this case the court holds unconstitutional Section 1322 of the Kentucky Statutes, in which it is made unlawful to open a barber shop on Sunday and on any day in the business of barbering. The court holds the law a violation of the constitutional provision that "where the general law can be made applicable no special law shall be made," and also the constitutional provision which prohibits special acts concerning subjects covered in the general law.

Jersey City, N. J., March 15.—The National Packing Co. lost its fight to hide the minutes of its directors' meetings from the Hudson county grand jury Monday when Supreme Court Justice Deane, at Trenton, signed an order for the production of the records.

The directors of the packing company had landed the grand jury's request that the records be produced as a big victory by the Hudson county prosecutor in his fight to jail the men whom he holds responsible for the present high price of meat.

**PUBLISHED EVERY WINTER**  
Famous Cough and Cold Prescription Has Cured Hundreds Here.

"Get two ounces of Glycerine and half an ounce of Concentrated Pine Compound. Then get half a pint of good whiskey and put the other two ingredients into it. Take a teaspoonful to a tablespoonful of this mixture after each meal and at bed time. Shake the bottle well each time." This is said to be the quickest and most effective remedy known. It frequently cures the worst colds in twenty-four hours. But be sure to get only the genuine Concentrated Pine. Each half ounce bottle comes put up in a tin screw-top case. Don't use the weaker pine preparations. Any druggist has it on hand or will quickly get it from his wholesale house.

**America's Opportunity in Turkey.**  
Dr. George Washington, president of Robert College, 1870-1907, writes: "It is a great opportunity, a wonderful opportunity, and it is a call especially to Americans. They believe in us now in Turkey. They trust us. There is nobody they believe in and trust as they do Americans in Turkey. They know that we have no selfish ends in view there. We do not want any of their territory; we are not going to try to overthrow the Turkish government; and they understand fully that what we are doing there we are doing for their good. They may flunk to make mistakes, but they know we are honest, and they know we are doing it for their good. They trust us as they trust nobody else, and consequently it is a great opportunity, a wonderful opportunity, for us to go on and to try to make these people understand who Christ is and what Christ is to the world."

**A Solar Plexus.**  
On one occasion Sam Berger, the brawny manager of James J. Jeffries, was in a small California town, sounding some of the residents as to the possibility of holding a prize fight. The local police force, a clownish-looking individual with a huge badge, heard of Sam's investigations.  
"You can't hold no prize fight in this here town," said the police force, threateningly, in his best "bothe-marshal" tones. "It's agin' the law, and I won't stand for it."  
"Aw, beat it," said Berger, in disgust. "What do you know about law? Why, your very appearance in public is a misdemeanor."—Lippincott's.

**Left Behind.**  
"I engaged a model the other day," said the artist sadly, "for her beautiful hair. I never saw anything quite so magnificent or abundant. When she got here, I didn't like the way she had it done up, so I asked her to change it. I thought she had a kind of embarrassed look, but she went behind the screen and took it down and did it up all over again. When she came from behind the screen I was shocked.  
"She had left half her beautiful hair behind the screen!"

**WHAT'S THE USE**  
Sticking to a Habit When It Means Discomfort?

"Old King Coffee knocks subjects out tolerably fast at times, and there is no possible doubt of what did it. A Michigan woman gives her experience:—  
"I used to have liver trouble nearly all of the time and took medicine which relieved me only for a little while. Then every once in a while I would be suddenly doubled up with an awful agony in my stomach. It seemed as though every time I took a breath I would die. No one could suffer any more and live.  
"Finally I got down so sick with catarrh of the stomach that I could not turn over in bed, and my stomach did not digest even milk. The doctor finally told me that if I did not give up drinking coffee I would surely die, but I felt I could not give it up.  
"However, husband brought home a package of Postum and it was made strictly according to directions. It was the only thing that would stay on my stomach, and I soon got so I liked it very much.  
"Gradually I began to get better, and week by week gained in strength and health. Now I am in perfect condition, and I am convinced that the whole cause of my trouble was coffee drinking, and my getting better was due to leaving off coffee and drinking Postum.  
"A short time ago I tasted some coffee and found, to my astonishment, that I did not care anything about it. I never have to take medicine any more. I hope you will use this letter for the benefit of those suffering from the poisonous effects of coffee."  
Read the little book, "The Road to Well-being," in place of "There's a Reason."  
Ever read the above letter? A new one appears from time to time. They are revealing, true, and full of happy results.

## CHEERS FOR ROOSEVELT AT KHARTUM

Arrival of Former President Occasion for Celebration in Egyptian Sudan.

### GOVERNOR GENERAL'S GUEST

Khartum, Egyptian Sudan.—Theodore Roosevelt, former president of the United States, accompanied by his son Kermit and members of the party which has accompanied him through the jungles of Africa in search of big game, arrived at Khartum, Monday.

Mrs. Roosevelt and Miss Roosevelt were first to greet the returning traveler as he stepped from the boat loaned by a British government official on which he made the voyage on the Nile from Gondokoro. It was a hearty greeting between husband and wife who had not seen each other for nearly a year, and the great crowd that was gathered at the landing expressed its approval in three rousing cheers.

### Shuns Political Talk.

Records of special correspondents sent by the great American newspapers swarmed around the former president as soon as he was released from the grasp of his wife and daughter. To them Col. Roosevelt declared he would not discuss the political situation in the United States with which he has been out of touch for so many months. Col. Roosevelt asked many questions and was greatly interested in affairs at home. One bold correspondent received a Roosevelt smile only when he asked if the colonel will be a candidate for the presidency in 1912. Questions about his friend Gifford Pinchot's row with Secretary Hager and President Taft were like water turned aside unanswered.

Col. and Mrs. Roosevelt, their son and daughter, and members of the expedition, are guests of Gen. Sir Reginald Wingate at the governor general's palace.

man, the city occupied by the Mahdi after the death of Gordon and the scene of the heroic reverses that occupied the native soldiery up to the time that they were confronted and overwhelmed by Kitchener. The British, true to their policy of colonization, have not attempted seriously to interfere with Moslem customs here. The ruins of the Khalifa's body guard headquarters, the military prison, the remnants at the Arab fortifications have all been allowed to stand. Still further north is the field of Kerret, the shambles in which Kitchener with mathematical exactitude slashed to pieces the Arab forces. The battle was one of the bloodiest in modern history. It was marked on the side of the British by a skill and coolness that was in itself a tribute to Anglo-Saxon civilization.

### Route Roosevelt Followed.

palace. Many forms of entertainment have been prepared by Sir Reginald for his guests.

### Was Remarkable Journey.

Col. Roosevelt's arrival at Khartum completed one of the most notable journeys since the days of Livingstone and Stanley. The visit to the dark continent and the invasion of the lair of the lion, tiger, elephant and rhinoceros has been remarkable because of the escape of Col. Roosevelt and his daughter from the deadly contagious diseases that haunt the jungles. Up to the time of his arrival there had been no serious accidents.

The town of Khartum is a mass of color. Flags of Egypt, England and America are everywhere, and the president has probably appreciated nothing more than the opportunity of visiting this historical spot.

### Khartum Historical Spot.

Khartum is virtually built around the grave of "Chinese" Gordon. The city itself is a gigantic monument to that soldier's deeds and his heroic death. In the center of it stands his office in bronze, mounted on a camel, facing with fixed eyes out toward the desert which mocked him during the terrible year that he lay there waiting for relief. Behind the statue stands the British governor's palace, an imposing structure in the Gothic style, typical of British power and British permanence.  
Not far away is the Gordon Memorial college, a school built with funds raised by Gen. Kitchener by subscription throughout Great Britain, in which the Sudanese new generation is trained for service in the government which conquered its fathers. Everywhere throughout the city the name Gordon appears. There is the Gordon hotel, the Gordon drive and up the White Nile the Gordon tree. Gordon's memory will live so long as Khartum exists. The British have transformed the city of his death into a memorial to his glory that can laugh at time.  
Khartum stands at the confluence of the White and Blue Niles, and some day with the development of the wilderness south of it will become a metropolis as important to the commerce of Africa as Chicago is to the commerce of North America. Property speaking, however, the city itself does not extend beyond the banks of the Blue Nile. The river passes directly through the city, and along its banks, fronted by the barracks of the British soldiers, lies a magnificent driveway three miles in length.  
Northwest of Khartum is Omdur-

Jewett: But you will find it too hot to stay long in one place and I don't know how you can continue to be an end seat boy.

## MAKING THE AGENT USEFUL

Practical Woman of To-day Wants Sewing Machine Man to Do Useful Stunts.

"Nerve?" said the sewing machine agent. "It takes people who buy sewing machines to give a first-class illustration of nerve. The things they want to practice on when learning to sew is what floors me. There was a time when the agent who was giving instruction in the management of a sewing machine did stunts with little squares and diamonds of silk to show the possibilities of the machine. But the modern customer objects to such a waste of time. She hunts up something useful to seam and tuck—babies' dresses, aprons, shirtwaists, and, as an extreme example, a pair of overalls.  
"It won't take any longer to teach us with these things than with those absurd little gimcracks," says the practical woman, "and then there will be something to show for your work."

### BURGOMASTER WORTH WHILE

City's Municipal Head Well Earned Unique Distinction Accorded Him by Grateful Viennese.

The fame of Joseph Schoeffel, recently deceased, and for many years burgomaster of Moedling, Austria, probably had not passed Austrian boundaries; nevertheless he was celebrated within them. His was the unique distinction of being the only Austrian subject to whom a statue has been erected during his lifetime. He won this honor by his successful fight 40 years ago to prevent a "ring" of speculators and officials obtaining the ownership of the forests surrounding Vienna. He compelled the "ring" to sue him for libel, won his case, and by his victory obliged the government to make the "Wienerwald" forever inalienable. Hence the grateful Viennese hailed him as the savior of the Wienerwald and set up his image where all future raiders of the public lands might see it and take warning. The whole story is a striking chapter of the true romance of conservation.

### ADVERTISING DOGS' CEMETERY.

For several years Parisians and English visitors to Paris have made pious pilgrimages to the dogs' cemetery, on the Ile des Ravageurs, just outside the city. There they have read with emotion such inscriptions as "A mon Toptou adieu," "A mon malou cheri" and many others of a similar kind. But it now transpires that these tender tributes were the invention of some enterprising stone carver who, when the graveyard was opened in 1899, was given a monopoly for the tombstones to be erected over the graves of the canine favorites. In order to attract others he erected 50 stones in various parts of the cemetery and engraved apocryphal inscriptions on them.

### A NOBLE WOMAN.

Guardian—You say you are going to marry a man in order to reform him. That is very noble of you. May I ask who it is?  
Ward—It's Mr. Oldbard.

Guardian—Indeed? I wasn't aware that he had any bad habits.  
Ward—Yes. His friends say he is becoming quite miserly—Sketch.

### PRESERVING COLOR SCHEME.

"The doctor told me my cheeks were sallow and wanted to give me a tonic to bring the roses back."  
"Well?"  
"I thought I'd better wait until spring, for I bought my winter clothes to match my complexion."—Kansas City Times.

### ECONOMY REQUIRED.

"My doctor told me I would have to quit eating so much meat."  
"Did you laugh him to scorn?"  
"I did at first. But when he sent in his bill I found he was right."—Washington Star.

### HANDY THINGS TO HAVE.

"Hard-workin' wife you've got, Bill."  
"Yes, I wish I'd a couple more like her."—Sydney Bulletin.

### SQUELCHED.

Gerald: Will you answer me one question?  
Geraldine: Yes, if that is the

## Baraca Class Reception.

The Baraca Class, of Murray Baptist Sunday school will keep "open house" to all their friends on Thursday, March 24, 1910, at their reading room in the Citizens Bank building. Everybody in Murray is invited. Because of the smallness of our quarters we shall have to ask the children and "old folks" to come in the afternoon from three to five, and the young married people and young people not married, but of marriageable age, to come in the evening from eight to eleven.

While the reading room is under the control of the Baraca class of the Baptist Sunday school, it is for all white citizens of Murray and surrounding community. The books are free to everybody who will agree to comply with our rules. The magazines and papers cannot be taken from the room but all are invited to come and read them there.

This is one enterprise in Murray in which men and women of every creed and no creed at all can heartily unite for the good of all our young people. The purpose of this reception is twofold, first, to get the people better acquainted with our room and books and magazines, that they may know what we have; and second, that any who want to do so may have this opportunity to make a free will offering to buy more books for our library. We have something over 250 volumes in the library now but we need more. Will you help us? Committee:—O. B. Irvan, W. H. Graves, J. D. Rowlett, A. J. Wilson, H. B. Gilbert, E. B. Holland.

By special request the pastor will deliver the address prepared for the Institute at Arlington on "If I Were a Woman," at the Baptist church next Sunday morning.

## HALE'S NEW PATENT HARROW

(Patented May 11, 1909.)

It is the most economical harrow on earth yet known, will do twice as much work in one day as can be done with any disc harrow with half the team. Any blacksmith can make them by a little instruction and a right to make. I sell a farm right to farmers for \$2.50, to make his own harrow or have someone make it for him. If the first wears out make again all that he needs for his own use on the farm for farm purposes. No right to sell any of them to any one. Just put \$2.50 in an envelope or get a postoffice money order to this amount and mail it to Noah C. Hale, at Boatwright, Ky., and I will send you by return mail a farm right signed up and instructions how to make the best and most economical harrow on earth. For turf and clods this harrow cannot be beat and it does not take six hundred (\$600.00) dollars worth of team to pull it, which leaves the poor people almost out entirely. Try a Hale Harrow and I will guarantee that you will never regret it. Two horses or mules will drag one all day and be fresh at night. The man dearly loves to walk behind it and watch it cut up the sod. Leaves the land nice and level. For planting there is no trouble of plows choking up where this harrow has been used as it penetrates the soil very near as deep as it was broken up with the plow, cutting it very fine, and does not leave clods that after a week's good rain turn one over and find dry dirt under it, and gather corn over them next fall. You get the benefit of your soil if you use Hale's Patent Harrow.

I will also sell state, county or school district rights and anyone interested can write me for prices on same. Will sell for cash or exchange for real estate or live stock.

**N. C. HALE, Boatwright, Ky.**

## GUARDS AT MURDER TRIAL

TRIAL OF MRS. SAYLER AND OR MILLER MAY GO OVER TO THE JUNE TERM.

## ACCUSED OF KILLING BANKER

Case is Attracting Widespread Attention and Sheriff Fears Violence to Pair Accused and is Taking No Chances.

Waterloo, Ill., March 15.—The trial of Mrs. L. A. Sayler and Dr. William N. Miller, accused of the murder of the woman's husband, banker John H. Sayler, may go over to the June term of court by motion of the defense attorneys, who alleged they can not obtain service on Peter West, who is to be the star witness for the accused.

West is a brother-in-law of Mrs. Sayler and, according to affidavits filed with the court by the woman and the physician, will testify that the relations of Mrs. Sayler and her alleged "affinity" were encouraged by Sayler.

Before going into court at a 10 o'clock Monday afternoon, where she and the physician were formally charged with the murder of the banker, Mrs. Sayler declared that West had supported her ever since she was married to Sayler.

Cracks packed every inch of floor space in the court room and others struggled and almost fought for places on the outside where they might catch a glimpse of the happenings on the inside. Several deputies, in addition to the regular officials tried to preserve some semblance of order and guard the prisoners from harm.

The case has attracted widespread attention in this section and intense feeling in some quarters, and as a result people began coming into the city by daylight. Some of the state agents which were made known shortly after four o'clock would come to his prisoners, and he immediately arranged to augment his force by 20 men. These were sworn in as soon as they could be found and they were placed around the jail.

Sayler, the victim of the killing, formerly was a rich banker residing at Crescent City. His wife was one of the most attractive women in this section of the state and she soon drew the attention of Dr. Miller, who came from Pennsylvania and established himself at Crescent City.

They were much in each other's company and the attention he showed her aroused comment. On the night of July 11 Sayler and his wife are said to have engaged in an argument, and he left the house for several hours. When he returned Miller and some of his relatives were there. Sayler was invited inside.

Testimony differs as to what happened afterward, but it is the claim of the defense that Sayler was shot and started toward Dr. Miller, and that the latter shot him in self-defense.

Sayler's body was found wedged between a couch and a door. There were two holes in his body, and it is said he also had been struck with the ax.

## ULTIMATUM TO RAILROADS

Brotherhood Notifies Managers They Demand Arbitration on All Points—Strike is Possible.

Chicago, March 15.—Notice of the probability of a strike unless the railroad general managers agree to submit all disputed points to arbitration has been served on the railroad officials by President W. A. Carter of the Brotherhood of Locomotive Firemen and Engineers.

The letter was sent in reply to a note from the general managers in which they informed the officers of the union that no other concessions would be granted, and in substance that the dispute over the rules concerning promotion by seniority and representation were not subjects for arbitration.

The answer brought the situation to what is looked upon as a critical stage, the men insisting that the railroad agree to arbitrate all points in dispute, including wages and rules, or there will be a strike. More than 100 firemen and engineers on 45 ten railroads are involved.

## PAUHLAN FLIES 70 MILES AN HOUR

FEARLESS FRENCHMAN ATTAINS WONDERFUL SPEED FOR SHORT DISTANCE.

## FASTEST TIME EVER MADE

Aviator Rose in Treacherous Wind and Spectators Fear for His Life—Needed All Efforts to Prevent Disaster.

New York, March 15.—While giving his aviation exhibition at the Jamaica race-track Sunday afternoon Louis Paulhan, the fearless Frenchman, made the greatest flight of his kind on record. He traveled six miles in a whirling wind in 8 minutes and 10 seconds and at one time attained a speed of 70 miles an hour. This is the fastest a man has ever flown in a heavier-than-air machine. Two thousand persons witnessed the feat.

Paulhan walked out on the field, felt the wind from every direction and then ordered his big Farman biplane brought out. Even those who had never seen a flight before realized the danger, and there was tense silence when Paulhan took his seat in the craft. He ordered the engine started and set motionless as the propeller began to whirl. When it reached top speed he waved his arms and the biplane shot ahead in the teeth of the wind.

Almost immediately it leaped into the air, but began to rock and tip. Well, there goes my money," said Edwin Cleary, manager for Paulhan, as he turned his back on the plunging craft.

It seemed that the aviator must surely be dashed to the ground. The biplane was swept in all directions by the whirling air currents. It was as if a would-be raft in a raging sea. Paulhan's best efforts were needed to prevent disaster. He lifted the craft, checked it and then straightened it on its course. Each time it recovered from the onslaught of air he drove it with all the power of the motors. It was soon seen that the craft was forging ahead.

When the edge of the track was reached, Paulhan, instead of turning kept on. The crowd went up. "He has lost control!"

It seemed certain the airship would be dashed against the horse barns and Paulhan was equal to the emergency.

Back With the Wind.

He kept on until the craft was only a speck in the distance. He made a turn to the right and started back with the wind.

Entering the track Paulhan passed over the middle of the grand stand, completing a figure-eight. Then he stopped the engine and the craft dropped to the earth more rapidly than usual. It hopped along a little way and then settled down.

Posit, Ill., March 15.—With the handicap of their years making them helpless to defend their daughter, Mr. and Mrs. William Johnson, pioneers of Pike county, saw their murdered in their home by her husband, Perry Rubel.

Rubel added horror to the scene by blowing out his brains when his wife fell dead at his feet, shot through the heart.

Johnson is 64 years old, his wife 60. Both are prostrated and under the care of a physician.

Rubel, who was 55 years old and a farmer, parted from his wife a year ago. She was 28 years old. Following their separation the wife returned to the shelter of her elderly parents' home, six and a half miles north of here.

Mrs. Rubel's mother and father tried to calm Rubel, having first learned of his presence in the house by the quarrelling voices.

Suddenly while Johnson was addressing him, Rubel pulled a revolver out of a pocket of his coat and announced his intention of "ending it all."

Johnson tottered forward to grapple with him, but before he reached him the madman's hand was on the trigger. She died instantly, and Rubel's suicide followed in the time it took him to place the revolver's muzzle against his right temple and pull the trigger.

The Rubels are survived by a daughter 20 years old and a son 15, both of whom are married.

## FIGHT OF STANDARD IS ON

CASE AGAINST OIL COMPANY OPENED IN WASHINGTON.

Washington, March 15.—Attorney John G. Millburn of the Standard Oil company's legal department opened the argument in the government's famous trust busting suit against that combine before the supreme court of the United States at 12:45 p. m. Monday.

Millburn granted three days to the defense to make their case, but he devoted to argument on both sides of the case.

Upon the verdict of the highest tribunal, depends the life or death of the Sherman anti-trust law, as well as the life or death of the Rockefeller commission and other similar alleged monopolies. Rockefeller, William Rockefeller, Henry M. Flagler, John D. Archibald, Oliver H. Parnes and Charles V. Pratt.

Testimony was taken in St. Louis and in New York in the case. John D. Rockefeller himself being a witness. Four judges had been called to pass on the case and they finally announced a decree granting substantially all that the government had asked. It is from this decree that the counsel for the Standard Oil appealed to the supreme court.

## Thousands Have Kidney Trouble and Never Suspect It.

How To Find Out.  
Fill a bottle of common glass with your water and let it stand twenty-four hours. A black cloud settles to the bottom, indicating an unhealthy condition of the kidneys. Cures indigestion, holds water and scalding pains, passing it, or bad effects following cold liquors, wine or beer, and overcomes the constant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root is now realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine, you should have the best. ## Pain in Heart

"For two years I had pain in my heart, back and left side. Could not draw a deep breath or lie on left side, and any little exertion would cause palpitation. Under advice I took Dr. Miles' Heart Remedy and Nervine. I took about thirteen bottles, am in better health than I ever was, and have gained 14 pounds."

MRS. LILLIE THOMAS, Upper Sandusky, Ohio.

For many years Dr. Miles' Heart Remedy has been very successful in the treatment of heart troubles, because of its tonic effect upon the heart nerves and muscles. Even in severe cases of long standing it has frequently prolonged life for many years after doctors had given up all hope, as proven by thousands of letters we have received from grateful people.

Dr. Miles' Heart Remedy is sold by all druggists. If the first bottle fails to relieve, return your money. MILES MEDICAL CO., Elkhart, Ind.

## ANOTHER FINE JACK FOR WEST KENTUCKY.

We have just closed a trade with Mr. N. B. Riley of Allensville, for his fine jack, Napoleon 7-83. He will make the season here at our stables in Murray. This jack is without question the greatest jack living. Mr. Riley showed this jack at Nashville, Tenn., in 1908, also at Louisville in 1909. He won the premium at both these shows. Not only is he a show jack but he is a great breeder. We looked over his colts and they were very fine, bringing from \$100 to \$125 at six months old. Three of his jack colts won the blue ribbon at Louisville. In their class his mule colts took all the premiums at the Todd county fair last fall. This is a rare chance to mate your mares to a great jack. He foals a great percent of his mares, most of them at first service. He is just in his prime, six years old. We have testimonials from mule buyers at Bowling Green and other cities of central Kentucky. They all say he gets the best of colts, and they always hunt for his colts when buying young mules. He is by Silver Crown, he by Caldwell's Imp. Giant, Dam, Constant, 519, by Imp. Monarratt.

We want you to come and see this great jack whether you intend to breed or not. We consider him one of the greatest jacks living. Remember our barn is just west of the corporation. We want you to come and see us when in Murray.

Tobacco Workers Strike.

Tobacco workers in the Griffin & Pitt prize house here went out on a strike last week and only a partial force of workers in the big barn have been on duty the past few days.

The trouble arose over the discharge of a white classer and substituting with a negro. Other white packers refused to work with the negro and walked out. The negro was soon removed from the bench, and when this was done the negro steamer and other negro employees retaliated by walking out. The grievances have not yet been fully adjusted.

Don't you join the boycott on meat when you can get all you want to eat of good old, juicy baked hen, beef and pork, with so many other good things thrown in that it will almost make you hate the goat. All for 25c in the basement of the Christian church fourth Monday.

M. D. Holton returned to Murray last Monday morning after an absence of about four years, during which time he has been located in Texas, Nevada and Illinois. He will probably associate himself with his brother, H. E. Holton, in the insurance business.

## I Cannot Praise Peruna Highly Enough for the Good it Has Done Me.

MRS. JOHN HOFF.

London, L. I., N. Y., writes:  
"I have been suffering for the past ten years with many ailments, most of them due to my catarrh and indigestion. I was weak and discouraged, had no ambition, could not sleep at night and lost greatly in weight. I tried other remedies, but with no success, until I commenced to take Peruna. I now feel better in every respect, can sleep well, and have gained in weight. I cannot praise Peruna highly enough for the good it has done me."

Now Well of Catarrh.  
Mrs. John Hoff, Farmville, N. C., writes: "I have been taking your Peruna, and I am well of my catarrh. I thank you for your kindness in your advice."

## Another Suit Filed Against City.

Application was made to the city clerk Wednesday by C. O. Decker and Burnie Wilson for license to conduct a pool room in Murray and Clerk Parker refused to issue the necessary papers, stating as his reason that City Treasurer Gilbert would not issue him a receipt for the money as required by the city ordinances. The refusal arose from the fact that at a meeting of the city council last Tuesday an ordinance was passed raising the license from \$200 to \$700 to conduct a three table room in Murray. The applicants for the license state that the ordinance was not in effect at the time, as the law requires the publication of any ordinance before it can be enforced. A mandamus suit was filed against the city clerk and the city of Murray seeking to enforce the issuing of the necessary license and also asking damages in the sum of \$15 per day pending the hearing of the suit.
