Musings by GEORGE ALLEY

THE SUBTLE TOUCH

In spite of the certain knowledge that to be able to create worthwhile, real literature is a gift from the gods, still ambitious mortals, whose mother clearly lies in other fields of endeavor, persist in attempts at literary excellence. Such a course is pursued from many motives—desire for fame, wealth or even simple praise. Perhaps Bunyan's reason, given in his preface to "Pilgrims Progress" is the simplest and most frequent one.

"This pleasant sure to see one's name in print, A name's a name although there's nothing in it."

The number of manuscripts rejected by our better publishers attest how large must be the number of "fools who rush in where angels fear to tread." The Saturday Evening Post receives annually 90,000 manuscripts yet there are only 4 stories, 8 articles and 2 series of installments in the last issue. That's 90,000 rejections by one publisher in a single year!

Good writing must be built of substance and done with that "subtle touch" that distinguishes style. C. P. J. Mooney and Henry Watterson had the touch. Mr. Watterson was asked a thousand times by aspiring authors, "What must I do to learn to write?" His reply was, "Read and re-read Thackeray. The gods were most generous to both Watterson and to Thackeray."

Just what distinguishes real literature?

Julian Hawthorne answered in this wise: "Literature, in the finer sense of the term, is not to be confounded with the mere contents of books. Anybody may write a book, but few in any age can write literature. Many definitions of the quality which makes a piece of writing literature have been attempted, but none of them are quite exhaustive. Authors who survive are not always those who announce great ideas. Neither on the other hand, will the skillful saying of nothing avail. The secret lies in a subtle touch, a sympathetic temperament, an art to shape and to select. Again the best literature produces the impression that it might have been written by one of our own epoch. It is modern—contemporary in its most imaginative flights. It keeps close to humanity. It seems to belong to us and enlists our personal affection. Finally, no doubt, it involves a nameless felicity in the use of words, in the modes of presentation. There is in the immortal writers a native taste and that which can not be taught or analyzed."

O for the subtle touch!

Disseled down to Memphis Friday afternoon to be near a dear one Saturday morning during the daughter's appendectomy in one of those mammoth memorials to Christian generosity, the Methodist Hospital. X-ray on Friday; operation on Saturday; patient up in chair on Sunday afternoon back to her apartment by Tuesday. One might say—just a lost week end. Even Solomon Grundy of the Mother Goose rhyme set no faster pace than that with.

Born on Sunday,
Christened on Monday,
Died.

And yet, however high may be the confidence and in however skillful hands the destiny may lie, just the same, those minutes during the brief passage through the valley of the shadow are long, long minutes to the father. There's no streamlining those.

NUMBER FIVE

GRAND JURY ADJOURNS; FAILS TO INDICT WOMAN WITNESS IN ED PARTON MYSTERY

Returning 16 indictments, none of major importance, the Grand Jury in its second week of January court was dismissed yesterday by Judge Stahr.

In session for one day the Grand Jury heard testimony in several civil and criminal cases. The petit jury was in session for four days.

Holding the keen interest of many citizens was the case of Claudine Wingo who was arrested last fall in connection with the mysterious disappearance and subsequent death of Ed Parton local railroad man whose body was found floating in the Obion river after a diligent search of his whereabouts.

Held in the county jail for a short time before posting a \$1000 bond, the girl was arrested in Lincoln Nebraska on suspicion of murder after she allegedly made a statement there that she saw a murder committed in Fulton, Ky. Allegedly tipped off by one of the girl's boy friends the Federal Bureau of Investigation took her into custody and notified K. P. Dalton, former Chief of Police who, with Sheriff A. G. Winn, went to the middle western city to get the girl and placed her in the county jail at Hickman. She was held as a material witness pending action of the Grand Jury.

Released by the Grand Jury who failed to indict her for insufficient evidence it is believed she told the jury that she fabricated the alleged statement in order that the boy would not want to marry her under such circumstances.

Among the cases heard and their disposition are:

Civil case: H. L. (Buck) Bushart vs. L. O. Bradford, continued to next term.

Divorce granted in case of Dalton Jones vs. Florence Jones.

Commonwealth vs. George Bills (col) pled not guilty to charge of grand larceny, stealing shotgun, case continued. Bills placed under \$300 bond and sent to jail at Hickman.

Commonwealth vs. Otis Hillman (col), grand larceny; stole money; disposition unknown.

Commonwealth vs. Charlie (Red) Smith (col) Hickman, pled guilty to grand larceny sentenced to one year in penitentiary at La Grange, Ky.

Commonwealth vs. Tony Rhodes for child desertion, case dismissed.

SOMETHING NEW ON SKYLINE; REED'S NEW SEED PLANT

In the last few months, something new has been added to the skyline—down in South Fulton around the freight depot... something new that occupies around fourteen thousand square feet of floor space in two huge metal-covered buildings.

The "something new" is the new seed house, sweet feed mill and grinding plant of Seldon J. and Joe M. Reed, who do business under the firm name of Reed Bros.

The Reed Bros. plant, opened August 1st, 1945 with a small custom grinding and clipper cleaner first was operated by Reed and Jolley in one end of the present massive sweet feed mill building.

On January 1st, 1947, Seldon Reed bought out the interest of Jolley and joined his brother Joe in the operation of the business.

Last fall the new seed house was completed and put in operation. In this large structure some 5,600 square feet of space house seed cleaning machinery and storage.

The sweet feed mill is an addition to the original, small 20x80 building of the firm. The 40x60 foot mill, three stories high, adds another 2,400 square feet to the plant. It houses the custom grinding equipment and the sweet feed mill and molasses mixing machinery.

On January 22, 1948 at 8:30 p. m. the "best tunes of all time" from Carnegie Hall, for on that night Fulton's own Joseph Williams appeared in concert there, culminating a diligent struggle to get to the top... he's there now.

His rise to stardom does not come as a distinct surprise to his hundreds of friends in this area, for they knew that Joseph Williams possessed the talent of which stars are born.

After finishing high school here Mr. Williams, whose stage name is Brent Williams, beat a path to Chicago where he studied for two years at the Chicago Conservatory of Music. He studied the piano, but somehow playing that instrument did not completely fill a deep-rooted yearning to go on the stage. The stage meant "singing a stretch" in Hollywood, so off he went to the land of the roses where he did bit

If you see Patricia Willey and Sidney Bard sporting handsome monograms they didn't get them the easy way. The monograms represent many hours of burning the midnight oil for scholastic excellence. To earn a monogram a student must have made the honor roll for two adjacent semesters, which means no grades below "B" for that interminable period. Pat has a "B" on her monogram, which means that she has been so honored twice. A shining "E" for excellence to you two bright folks.

It's good to know that Lon Adams, City judge is back on the job and feeling fine, he says. Lon was charged with "involuntary confinement" at the Jones Clinic and he's mighty glad to be freed to the charge.

At 11 a. m. S-Sgt. Nicholson discussed the same topic with the Western high school student body

Local Man Gets First Appointment To Patrol

Rex Ruddle, son of Mr. and Mrs. J. E. Ruddle of this city has been appointed by Governor Earle Clements to the highway patrol. It is reported that Mr. Ruddle is the first appointment to be made by the Governor to this department.

Mr. Ruddle is a graduate of the Cuba high school and has recently been employed at the Henry I. Seigel garment factory. During the war he served with the Army in the South Pacific and was awarded a battlefield commission as an infantry officer.

Suddenly It's Spring—For Viaduct Paving ? ?

County Judge Homer Roberts told the Fulton News, Wednesday that although paving of the stretch of road on Lake street extended has been given top priority by the State Highway Department, it will not be done immediately.

Judge Roberts returned from Frankfort the early part of the week and learned that county improvements have been placed high on the agenda, but that work will not be started until the weather is much improved, probably in the spring. Specific improvements needing due attention are on Mid-dle Road and Lake street extended.

CHECK FORGER TO BE BROUGHT HERE

C. (Barney) Sennett, 19, indicted on a charge of forgery before the Grand Jury has been apprehended in Chicago and will be returned to Fulton within a few days, Chief of Police Gip McDade informed the News today.

The young man is charged with having forged the name of Jim Cardwell on two checks, one at the Budget Shop for \$19.80 and the other at the A. and P. Store for \$18.80, the police reported.

Sennett, whose wife lives near Dresden, Tenn., has waived extradition charges, the Chief of Detectives in Chicago wired and upon arriving here will probably be lodged in the county jail unless bond is posted for his release. His case will be tried in the next term of court, McDade said.

NAT'L GUARD UNIT POSSIBLE FOR CITY, DURBIN TELLS CLUB

"Fulton can have a National Guard unit, with possible later addition of an armory, if enough interest is aroused to get the unit started," stated Paul Durbin to members of the Young Men's Business Club at their regular meeting Tuesday.

Durbin spoke about the movement for a Universal Military Training program and how, if it goes through, trainees could serve half of their years training credit in a local national guard unit right here at home.

Durbin estimated yearly income from such an organization at around \$50,000. This includes, of course, a two week summer encampment at full pay, and one day's pay each week for attendance at a weekly evening drill and instruction period.

"The Kentucky guard is very interested in placing a unit or two down in this district," he stated. "At the time of its organization, a company must have 10 per cent of next meeting and feed, with plans its T-O strength, with the balance recruited over a period of two years."

The club set February 9, the second Tuesday of the month, for its first meeting in the clubroom. Details can be worked out.

Attendance was light, due to inclement weather; only 17 members showed up, as compared to 67 at the last meeting. New members voted into the club included Ray Driskoll, E. B. Carewell and Erl Sensing.

CHRISTIAN SCIENCE

"Love" is the subject of the Lesson-Sermon which will be read in all Christian Science churches throughout the world on Sunday, February 1, 1948.

The Golden Text is, "If we love one another, God dwelleth in us, and his love is perfected in us." (1 John 4:12)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "And we have known and believed the Love

Fulton Star Shines At Carnegie Hall

Way back in the hazy days of 1929, The Fulton Advertiser of April 26 carried a news item that was truly prophetic, but how prophetic, the Fulton County News of January 30, 1948 will tell you.

In a story telling of the high school graduating class of that year the paper had this to say of a now famous Fultonian:

"Joseph Williams, son of Mr. and Mrs. Josiah Williams is another of our celebrities. Joseph won the piano contest at Lexington recently and has a bright and promising future before him. He is a member of the dramatic club and has been distinguished in dramatics."

On January 22, 1948 at 8:30 p. m. the "best tunes of all time" from Carnegie Hall, for on that night Fulton's own Joseph Williams appeared in concert there, culminating a diligent struggle to get to the top... he's there now.

His rise to stardom does not come as a distinct surprise to his hundreds of friends in this area, for they knew that Joseph Williams possessed the talent of which stars are born.

After finishing high school here Mr. Williams, whose stage name is Brent Williams, beat a path to Chicago where he studied for two years at the Chicago Conservatory of Music. He studied the piano, but somehow playing that instrument did not completely fill a deep-rooted yearning to go on the stage. The stage meant "singing a stretch" in Hollywood, so off he went to the land of the roses where he did bit

parts in the movies. He won a scholarship in voice at the Bells Sharp Cutter School of Music and then he really hitched his wagon to a star and now... he's riding the rainbow.

His career from then on was wide and varied... broadcasting, movies, show producing, and patriotism, for in 1942 he joined the Army where he served both in the Infantry and the Air Corps. He appeared in Moss Hart's famed "Winged Victory" and was "on the road" with that vehicle for 13 months.

He attended Columbia University where he studied under the direction of Dr. Herbert Graf of the Metropolitan Opera Company. He has had experience in grand opera, on the concert stage and broadcast. Some of his favorite roles are

"Romeo," which he had done on the stage and also for television broadcasts; "Faust and Don Belmonte" in the "Abduction from the Seraglio" by Mozart. Equally at home in operetta roles this past summer he played and sang principal roles in "Naughty Marietta," "Hit the Deck," and "Robin Hood."

Besides a busy musical life he still finds time for his favorite hobbies—Farming and Hunting.

His mother, Mrs. Barbara Pewitt Williams, now lives in Independence, Mo. His father passed away some time ago.

Johnson Grove Church To Hear Minister on Sunday

Members of the Johnson Grove Baptist church and visitors are invited to attend services at the church on Sunday, February 1 to hear a sermon by an invited minister.

The church has been without a pastor for sometime and is endeavoring to secure one by inviting ministers to appear before the congregation.

Boy Scout Week

The Boy Scouts of America becomes 38 years of age next week, and we have been asked to celebrate with them.

We know of no greater observance in the interest of youth than this big national birthday, which affords us more satisfaction.

Satisfaction is something the Scout achieves. However, the benefits derived by those of us who are affected by his efforts go far beyond mere satisfaction.

The theme of the 1948 Boy Scout Week deserves our endorsement: "The Scout-Citizen at Work in His Home, His Community, His Nation, and His World."

There it is, clearly inspiring, for us to examine and exult in . . . 38 years of continuous accomplishment by the Boy Scouts of America.

Boy Scout Week is February 6-12. Remember do them a good turn.

The High Cost Of Living

Now the people of our United States are warned that there will be an average of 10 pounds of meat less, per person, during the year 1948. The Secretary of Agriculture Anderson says that meat rationing may be necessary by Spring.

Holy Moses, haven't we any more sensible way of getting food to the public than by silly methods of rationing? There is plenty of food in this country and there isn't any reason in the world why every American family shouldn't have enough to eat—and enough money to pay for plenty of good food for the family. But, when a Washington taxi cab driver, the father of five children, tells you that he has to buy a dozen eggs and five quarts of milk a day for his children and high rent for a small house, you cannot help but wonder how he gets by. They go short on their own food and clothing and most of the necessities of life.

There is no disguising the fact that the most serious question before the American Nation is THE HIGH COST OF LIVING.

The other day Mrs. Eleanor Roosevelt expressed her fear that war with Russia is brewing. At the same time the President and Congress were not even trying to minimize the dangers of the United Nations folding up as a failure.

Anyone who minimizes the serious dangers that hang over the United States — as a result of the war — isn't thinking straight. And at the very base of the whole trouble in our own country is the high cost of living. That great trouble can be solved by sound statesmanship in the White House and in the Halls of Congress.

About
Farming
From Washington

Aid to Europe

There's a lot of sparring and jockeying going on in connection with the various programs proposed to aid the war-flattened countries and hollowed-out people of Europe, but some workable plan is sure to be worked out during the new session of Congress. In fact, this program might well highlight the 80th Congress second session.

As usual, every one agrees those folks over there need our help, but not every one wants to do it the same way. It's not unreasonable to expect a lot of jamming and jolting because it's a huge program and the stakes are the very highest; to get those people back on their feet and help them beat off Communism, which is being held out to many of them as the alternative to their plight.

Farmers Favor Aid

If farmers in the past have been considered isolationist, they are no longer. During several recent years, representatives of major U. S. farm organizations have sat in on numerous international conferences. They've gone still further and, backed by their organizations, have set up the International Federation of Agricultural Producers which is to be the farmer's voice at the international level. These contacts with their fellow producers in other countries have helped U. S. farmers raise their sights economically as well as geographically.

Where AFBF Stands

Headed by President Kline, who has been active in international farm affairs for nearly a decade, American Farm Bureau Federation stands squarely on the record for cooperating in the European recovery program. Emphasizing that such a project should be based on the principle of "helping the people of the various nations help themselves," the country's largest farm organization agreed last

month that:

1. Steps must be taken to help war-torn nations restore dependable value of their currencies, expand their industrial and agricultural production and restore their ability to carry on normal trade relations.

2. Expenditures for relief should be considered part of the cost of war and handled as such. Cash for considered as loans and should be considered as loans and should be repaid.

3. A bipartisan commission should be set up to coordinate closely the activities of the State Department, USDA and other interested Government agencies working with the relief program. In naming such a commission (which would be appointed by the President and confirmed by the Senate), agriculture should be given adequate representation.

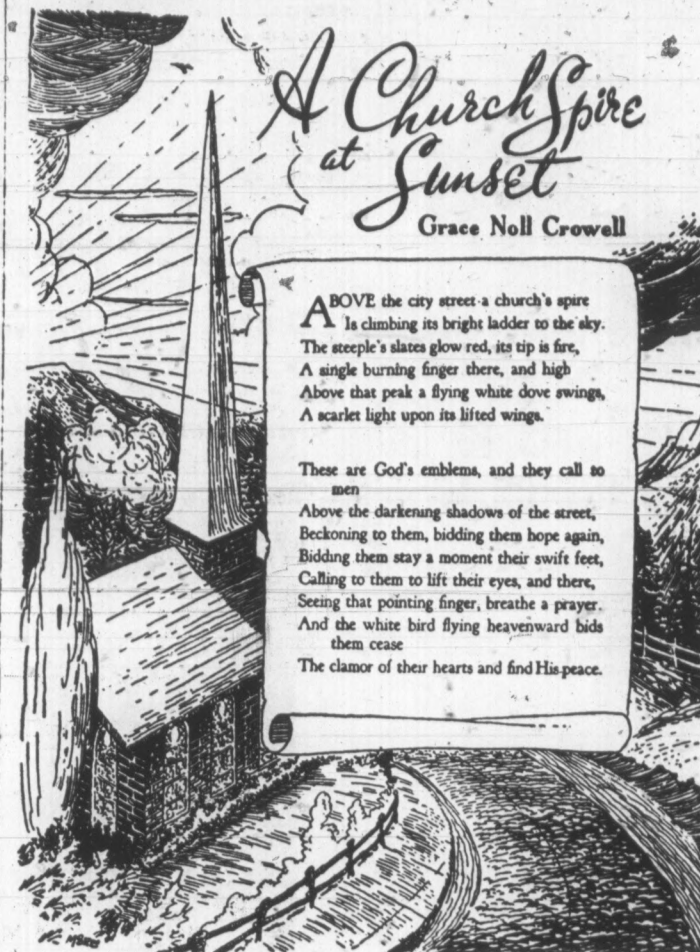

More Foot and Mouth

Mexico has ok'd the new eight-point program for fighting foot and mouth disease south of the border. It calls for establishing "clean zone" areas and includes the three main methods of attack: quarantine, slaughter and vaccination. The proposed fence along the Rio Grande boundary is to be studied, also.

STATE FARM BUREAU
REPORTS 1947 BEST
YEAR IN HISTORY

From the standpoint of growth in membership, expansion of services and results obtained, the past year has been the most successful in the splendid history of the Kentucky Farm Bureau Federation.

Great credit and praise are due the rank and file of members, county officials, agricultural leaders and workers, State Directors and State office employees for the loyalty,

A Church Spire
at Sunset

Grace Noll Crowell

ABOVE the city street a church's spire
Is climbing its bright ladder to the sky.
The steeple's slates glow red, its tip is fire,
A single burning finger there, and high
Above that peak a flying white dove swings,
A scarlet light upon its lifted wings.

These are God's emblems, and they call to men

Above the darkening shadows of the street,
Beckoning to them, bidding them hope again,
Bidding them stay a moment their swift feet,
Calling to them to lift their eyes, and there,
Seeing that pointing finger, breathe a prayer,
And the white bird flying heavenward bids them cease

The clamor of their hearts and find His peace.

hearty cooperation and efficient hard work that have made possible this record-breaking year of Farm Bureau growth and achievement.

During the last 12 months membership made a highly satisfactory increase from 38,000 to more than 50,000 members. Kentucky secured the highest percentage (119.1 per cent) of membership pledged to the American Farm Bureau Federation of any State Farm Bureau in the nation.

Kentucky has led the other four Farm Bureaus—Alabama, Arkansas, Mississippi and Texas from the beginning in securing business for the newly organized Southern Farm Bureau Life Insurance Company.

About 3000 policies are now in force, representing 5 million dollars worth of life insurance.

1947 has been the busiest and most fruitful in the history of the organization, and will compare favorably with the record of any State Farm Bureau in the nation.

Goals for 1948

Here are some of the objectives for which your organization will make an all-out effort during 1948: Strengthen existing legislation and secure new legislation to replace the expiring Stegall Amendment that will place an adequate floor under farm prices and provide parity of income for farmers.

1. More all-weather farm-to-mar-

- ket roads.
2. Extension of rural electric lines and expansion of services.
3. Improved rural schools and better paid rural teachers.
4. More and improved medical care and health protection for rural people.
5. Fair rural taxation and more efficient service per tax dollar.
6. Extension of rural telephone lines and improvement of service.
7. A square deal in legislation at Frankfort and Washington.
8. Organize more farmers' cooperatives and strengthen existing ones.
9. Greater and more effective cooperation with the College of Agriculture, the Extension Service, Department of Vocational Education, Soil Conservation Service, Production and Marketing Administration, State Department of Agriculture, and all agencies working for the welfare of Kentucky farmers.
10. A University of Kentucky that will do credit to Kentucky and meet the needs of the State.
11. A bigger and better Kentucky State Fair.
12. Farmer-owned farm credit system.
13. Greatly enlarged forestry program.
14. A farm youth or "Junior Farm Bureau" department of the State organization.
15. Make decision about adding fire insurance as another Farm Bureau insurance service.
16. Construct a modern office building at St. Matthews deemed adequate to take care of all future needs of the state organization.
17. Increase assistance to county organizations in working out coun-

ty and community programs.
18. Stronger, more influential and efficient Kentucky Farm Bureau Federation of not less than 60,000 active, cooperative members.

Already Accepted by 19 Other Railroad Unions!

The Brotherhood of Locomotive Engineers, Brotherhood of Firemen and Enginemen and the Switchmen's Union of North America, representing 125,000 railroad employees, have refused to accept the offer of the Railroads of a wage increase of 15 1/2 cents an hour.

This is the same increase awarded 1,000,000 non-operating employees by an arbitration board in September, 1947.

This is the same increase accepted by 175,000 conductors, trainmen and switchmen by agreement on November 14, 1947.

Agreements have been made with 1,175,000 employees, represented by nineteen unions. But these three unions, representing only 125,000 men, are trying to get more. They are demanding also many new working rules not embraced in the settlement with the conductors and trainmen.

Incidentally, the Switchmen's Union of North America represents only about 7% of all railroad switchmen, the other 93% being represented by the Brotherhood of Railroad Trainmen and covered by the settlement with that union.

Strike Threat

The leaders of these three unions spread a strike ballot while negotiations were still in progress. This is not a secret vote but is taken by union leaders and votes are signed by the employees in the presence of union representatives.

When direct negotiations failed, the leaders of these three unions refused to join the railroad in asking the National Mediation Board to attempt to settle the dispute, but the Board took jurisdiction at the request of the carriers and has been earnestly attempting since November 24, 1947, to bring about a settlement. The Board on January 15, 1948, announced its inability to reach a mediation settlement. The leaders of the unions rejected the request of the Mediation Board to arbitrate. The railroads accepted.

What Now?

The Unions having refused to arbitrate, the Railway Labor Act provides for the appointment of a fact-finding board by the President.

The railroads feel it is due shippers, passengers, employees, stockholders, and the general public to know that throughout these negotiations and in mediation, they have not only exerted every effort to reach a fair and reasonable settlement, but they have also met every requirement of the Railway Labor Act respecting the negotiation, mediation, and arbitration of labor disputes.

It seems unthinkable that these three unions, representing less than 10 per cent of railroad

employees, and those among the highest paid, can successfully maintain the threat of a paralyzing strike against the interest of the entire country—and against 99 per cent of their fellow employees.

The threat of a strike cannot justify granting more favorable conditions to 125,000 employees than have already been put in effect for 1,175,000, nor will it alter the opposition of the railroads to unwarranted wage increases or to changes in working rules which are not justified.

A glance at the box shows what employees represented by the Engineers and Firemen make. They are among the highest paid in the ranks of labor in the United States, if not the highest.

Compare these wages with what you make!

Here is a comparison of average annual earnings of engineers and firemen for 1939 (pre-war) and 1947. Also shown is what 1947 earnings would have been if the 15 1/2 cents per hour increase, offered by the railroads and rejected by the union leaders, had been in effect throughout the entire year 1947. 205 Commercial Ave.

Tomp Young has returned home from Chicago, Ill., where he has been confined in the I. C. Hospital for several days.

The I. C. Service Club met last Friday night for a old fashion box supper. You know, the kind your mother and father used to go to when they were courting. That was what it was and believe me every one seemed to have a good time, and there were some good eats too. After everyone had eaten the meeting went ahead for a little business matter of electing officers for the year 1948. The following were elected: H. I. Cheatham, president; Mr. Cheatham lives on the Union City highway and is a car inspector for the I. C. in the new yards and has been with the company for a number of years; A. N. (Pat) Matheny, vice president, is a car inspector and lives on Valley street and he also has been with the I. C. for a number of years working in the New Yards; Alice Clark, secretary and treasurer lives on Edging street and is still known among the clerks as a blossom, she is clerk to the general foreman; Mrs. Mae Brady, hostess, lives on Pearl street and has been with the I. C. for a number of years as a telephone operator and is better known to all of us at the operator with a smile. The following were elected to serve as directors: C. E. Hootenpyle, J. J. Belingher, H. P. Allen, Fate Robinson and H. B. Reeves.

The club is also sponsoring the Boy Scouts of Rcierville and the following members volunteered to meet with these boys each month, H. I. Cheatham, A. M. Matheny, J. J. Belingher and C. C. Thompson. After this crowd enjoyed several games of Bingo with different ones taking the prizes, and each prize was a laugh. Door prizes were won by Mrs. Art Grissom and Mr. Art Grissom and H. P. Allen.

Gene Hootenpyle has been thinking again, yes, that's right, he now thinks he knows who Mr. Hush is so if you want a tip you might buy it from Gene.

Mrs. Mae Brady, our telephone operator with a smile, has been very ill at her home on Pearl street and to Mae we, the Roundhouse Round-up and the I. C. Service Club, say we miss you more than words can say. So please hurry and get well so we can hear your sweet voice and see your sweet smile.

We are glad to see Storekeeper J. A. Bowers back on the job after being on the sick list.

We are glad to hear that Mrs. Robert Howell is improving after being on the sick list for several days.

Jack Ferguson spent Sunday in Jackson, Tenn., visiting relatives and friends.

Mr. Kelly, Chicago, was in Fulton working this week.

Lets all remember to be safety minded at all times.

Our quiz king hasn't received his award from station WENK yet.

Our Elect. Forman W. C. Jacobs has also been thinking he too like Gene knows who Mr. Hush is and folks they have disagreed on who they think it is. Gene thinks it's Well folks, if you want this column to continue in this paper give me a ring or drop me a line giving me the news. Will see you next week in the News.

DIPHTHERIA TAKES LIFE OF CHILD IN YEAR'S FIRST TOLL

The first diphtheria death in Kentucky in 1948 occurred January 2nd at Louisville General Hospital with the death of a six year old boy of Louisville it was announced today. Public Health authorities are concerned about the needless increase in this preventable disease, which has taken the lives of an increasing number of Kentucky children within recent years, according to Dr. Alice D. Chenoweth, director of the Division of Maternal and Child Health, Kentucky State Health Department. There were 51 deaths in Kentucky in 1946. Forty-four deaths have been recorded so far in 1947, and when the final count is made, 1947 will probably show as many deaths as 1946. These arresting facts show that the fight against diphtheria is not yet won. Doctors and scientists know how

to prevent this disease, but the neglect of parents is as often to blame as their ignorance, the report said. Every child should be immunized before his first birthday. The doctor may wish to give him additional doses at intervals to insure his protection. The disease more often causes the death of young children than those of school age, yet many parents delay protection until children enter school. The increase in diphtheria is wide spread throughout the country, particularly affected are New England and the middle and far west, while the south has not reflected this large increase.

Kentucky had 566 cases in 1946, 428 in 1945 and 374 in 1940. According to Dr. Chenoweth, no parent need live in dread that his child might have diphtheria. The family physician will recommend how soon this protection may be given and much valuable information in regard to this disease may be obtained from the County Health Department.

GRAND CHAMP NETS \$9 LB. IN BEEF SHOW AT LOUISVILLE

Despite the blue winds and the milky skies the Fat Cattle Show of 4-H Clubs and the Future Farmers which was held at the Bourbon Stock Yards, Louisville, recently, was a huge success to the delight of some thirteen hundred intensely interested youngsters and their respective paps and mamas. The elaborate show was staged and carried out in every detail as planned by its experienced management.

There were some thirty-one hundred head of fat cattle shown which represented the finest products of Kentucky's rolling pastures and numerous feed lots. This show was the culmination of the untiring efforts of the Vocational Agricultural teachers, members of the 4-H Clubs, Future Farmer Clubs, Bourbon Stock Yard officials and of all lovers of the livestock industry of Kentucky.

A new record was set up for the Fat Cattle Show. The Champion Angus steer sold for nine dollars per pound which was a new record east of the Mississippi River; and so far as is known this is the first time one steer earned the price of a university education. Nationally known judges of this show expressed belief that these cattle would offer keen competition at the International Stock Show. The sale of this herd amounted to nearly a million dollars.

KENTUCKY LEADS AFBA MEMBERSHIP

Kentucky made the largest percentage of gain in membership of any state in the American Farm Bureau Federation, according to figures released at the close of the AFBF fiscal year, Nov. 30.

Numerically Kentucky made the second largest gain in the South, barely being beaten out by Georgia, but nationally was seventh.

As the News went to press indications were that the Kentucky Farm Bureau would well exceed 50,000 members by Jan. 1, the close of its fiscal year.

Last year the state finished with the fourteenth largest membership in the nation, and this year finished thirteenth, being nosed out by California, who finished the year with only 19 more members than did Kentucky.

Kentucky finished 1947 with 47,635 members in the AFBF. This is a gain of 10,465 over the preceding year.

There are now 1,275,000 members of the American Farm Bureau Federation. Farm Bureau is the largest farmer organization in the world.

Time spent in water control work now pays all year; uncontrolled water takes "time and a half" without holidays.

Miss Helen King was complimented by the members of her bridge club Friday night with a pot luck supper at the home of Miss Mary Homra on Norman street.

Miss King left Sunday for Bowling Green where she will enter the Business University.

Following the supper bridge was enjoyed during the remainder of the evening. Mrs. Paul Durbin was high and Miss King received low. Miss King was also presented a lovely gift from the club.

Following the games Miss Homra served strawberry shortcake.

Those present were Misses King, Andy DeMyer, Ann Godfrey, Charlene Martin, Ruth Graham, Martha Moore, and Mesdames Clyde Williams, Jr., Morgan Omar, Jr., J. L. Jones, Jr., Stanley Jones, Paul Durbin, Fred Homra, and Clyde Hill.

Mrs. Holland Entertains Bridge Club With Supper

Mrs. W. L. Holland entertained the members of the Thursday Bridge Club with a lovely supper at 6:30, January 22, at her home on Jefferson street.

After supper games of contract were enjoyed with Mrs. Russ Anderson receiving high club prize. Mrs. Howard Edwards, low, and Mrs. Ward Bushart, high guest.

Out of town guests present were Mrs. Byron Blagg of Nashville, Tenn., and Mrs. Chick Luton of Louisville.

Members attending were Mesdames Wilburn Holloway, Robert Bard, Billy Blackston, Homer Wilson, Horton Baird, Howard Edwards, Russ Anderson, Frank Beales, and Maxwell McDade.

Miss Sammie Lee Williams underwent a tonsillectomy Monday and is doing fine.

Homemakers Meet With Mrs. H. P. Roberts

Mrs. H. P. Roberts, Highway 94, invited the Victory Homemakers Club to meet with her January 21. A pleasant day was enjoyed by eighteen ladies.

Mrs. T. E. Williamson, Miss Georgia Mattingly, Mrs. T. R. Williamson and Mrs. Archie Smith were visitors in attendance.

The "Slip Cover Construction" lesson was ably demonstrated by Mrs. Harold Copeland and Mrs. Gene Dowdy.

Mrs. L. A. Clifton reported that she is making preparations to attend the Farm and Home Week. Mrs. Clifton was elected delegate at the December meeting.

Mrs. Bertha Corbitt McLeod, Home Demonstration Agent, was present and was assisted by Mrs. Roy D. Taylor, county president in conducting the roll. Mrs. McLeod also furnished valuable information concerning the Farm and Home Week program.

A committee was appointed by Mrs. Roberts to take charge of erecting muscle bars bought by the Victory Club for Loggston school.

The landstaples notes were given out by Mrs. Taylor. Mrs. Clifton conducted another imaginary tour of Kentucky in her Rocking Chair Tour.

The program conducted by Mrs. John Dawes led the group in singing "Put Homemakers on Top." Mrs. Archie Smith accompanied at the piano. Big Time Riddles and First Names were the games presented by Mrs. Dawes and they were most interesting.

The gift box was filled by Mrs. Jim Dawes and Mrs. Harold Copeland held the lucky number. The box is to be filled by Mrs. Gene Dowdy for the next meeting which is to be held at the home of Mrs. Cecil Burnette, February 17.

Telephone Folks really did a job in '47

In spite of the continued scarcity of materials and equipment and in the face of rising costs all along the line, Southern Bell went right ahead in 1947 improving and expanding your telephone service. It was a year of humming activity as telephone folks went all out to bring you better telephone service.

There's still a tremendous job to be done. More buildings and vast quantities of equipment are needed to further improve and expand the service. If telephone earnings are such as will attract the necessary new capital to pay for continued construction, you can look forward to further progress in meeting your telephone needs in '48.

Precision

Who would want a prescription compounded with approximate accuracy or "just about" the way the Doctor directs? Where health is concerned, there can never be too much precision. At least that's the way we feel about it. And this Prescription Pharmacy has built its business upon that presumption. That's why we have only the ablest, experienced Registered Pharmacists and carefully check every prescription they compound. We want you—and your Physician—to know that each prescription entrusted to us is filled precisely as directed. VFW AIDS VETERANS IN PENSION CLAIMS

Kentucky veterans who filed their claims through the Veterans of Foreign Wars received new pensions and increased awards amounting to \$26,031.24 per month from the Veterans Administration, Kenneth F. Keller, VFW service officer, announced this week in Louisville.

"In addition, retroactive payments totaling \$107,145.36 and monthly payments of \$4,353.93 were awarded veterans whose claims were reopened and approved during the last six months," Mr. Keller stated further. "Non-service connected pensions granted amounted to \$970.88 per month."

"Veterans of Foreign Wars service to the veteran is mainly to assist in the proper presentation of the cases to the Veterans Administration, the securing of affidavits and filling out of forms. Any veteran is eligible for this service, whether or not he is a member of the VFW," Mr. Keller said.

The VFW now has 67 service officers working throughout the state for the purpose of helping veterans to obtain their rights and benefits. According to Mr. Keller, the cooperation of the Veterans Administration in Kentucky has been excellent.

Although the VFW pays all the expense of maintaining its service offices in Kentucky, a bill now before the State legislature would allow the organization to share in the subsidy now granted to only one veterans organization for this type of work. The bill would create a Veterans Affairs Board in which all recognized veterans' organizations would have a voice.

AUSTIN SPRINGS

Mrs. Carey Fields
Mrs. Grant Bynum was very sick Sunday and Monday at her home but now however she is resting some better after a very serious attack of asthma. She remains under the care of Dr. P. J. Trinca.

Death entered the home of Mr. and Mrs. Sam Jones Monday night and claimed the life of Mr. Ferguson, father of Mrs. Jones. The deceased was sick many weeks and hospitalized at the Fulton hospital a few weeks, but was removed to his daughter's home two weeks ago. Funeral arrangements are complete according to your writer as yet.

Karen Gayle, baby daughter of Mr. and Mrs. Doyle Fields, spent last week with grandparents, Mr. and Mrs. Carey Fields.

Reports from bedside of J. Vincent are that his condition remains about the same in the home of his niece, Mrs. Houston McGuire, Louisville.

Mr. and Mrs. Buddy Johnson and Olivia were in Paducah the past Thursday where Olivia was under observation at Dr. Dunn Clinic for babies.

Bill Doyle, Union City was here among relatives Thursday.

Snow has fallen in abundance in this area greatly benefited all corn crops. Some corn remains in field and a bit of tobacco is yet to be delivered.

Mrs. Clifton Cherry remains about as last reported, shows slowly improvement, however rests quite well.

Mrs. Bruce Vincent has returned home after a few days treatment at Haws hospital for an abscessed tonsils.

Mrs. Gus McClain is doing nicely at Haws Clinic since the death of

her baby a week ago.

Mrs. B. L. Doran is suffering from a deep cold and thus indisposed.

LYNNVILLE

Mrs. Bob Taylor
Well, old man winter has come at last with cold winds and snow. James Alderice killed two nice dogs last week, the day before the snow came.

Mrs. Mattie McCaon was buried at Lynnville Thursday afternoon. She leaves several children and a host of friends to mourn their loss.

Mrs. Jimmie Ann Pickard is in the Fuller-Gilliam hospital, Mayfield with a severe case of the old flu. She is doing nicely at this writing.

The Jones brothers are loading tobacco on a truck to carry to market. I hope they get a good price for it.

There is a lot of sickness in this part of the county.

Mrs. J. R. Taylor received a letter from her son, Forrest in Detroit. He said the ground hasn't been clear of snow since November.

Dwight Jones and family spent Sunday afternoon with Mrs. J. R. Taylor and sons.

James Alderice and family also spent Sunday night with the Taylor family.

Murphy for Mrs. Rowland for pulling the coal out of the cistern. This writer had the same experience with a cat one time. I was alone and heard the cry of a cat. On looking I found it in the cistern. I lowered a basket for the cat to get in. It hopped in at once and oh how my knees trembled while I was pulling the basket to the top but we made it ok with an awful wet cat.

Ed Note—These two ladies need medals for she-poism!
