What Has Paint Got To Do With Hogs?

The cost of the material is the smallest item on your painting jobs. First in importance is quality and durability. Good paint goes farther, gives a lasting coat of beauty and protection and pays for itself many times over in the savings in labor and wear. Paint doesn't have anything to do with hogs, but is very important in protecting your buildings.

Black Oil-Medicated Stock Dip

Helps you to market your hogs earlier — get better prices. Guarantees healthier, heavier hogs on less feed. Apply it externally for lice, scales, scabs etc. Feed it to your hogs to rid them of worms and stomach parasites.
