driving season begins.

THE TRUTH ABOUT HOLLYWOOD

By A GOOD BAY

POLITICS AND BUSINESS AREN'T THE ONLY JOBS TO BE HAD IN THE CITY OF SONS. THERE ARE jobs enough and musical chairs enough to go around.

Sure, the movies are big. They employ more people than any other industry. But they are not the only industry; there are others. And they are not the only jobs; there are many other jobs to be had.

Let's not forget the importance of the entertainment industry. It is a vital part of our economy. And it is a part that is often overlooked.

The truth about Hollywood is that it is more than just about the movies. It is about the people who make it happen. It is about the creativity and innovation that is a hallmark of the entertainment industry.

So the next time you see a movie, remember that there are many people behind the scenes who make it happen. And remember that there are many other industries besides the movies that are part of the Hollywood story.
