The Hatch law and various other pieces of legislation affecting the federal positions are having a profound effect in many ways. We have seen the workings of the law in Kentucky, where almost a complete change in the city organization was made necessary by the provisions of the Hatch Act. The Act will remain in effect and will be the subject of much discussion. The law will really remain in effect and will be a matter of much concern.

In the days when our forefathers planned the trend of this great democracy, flour milling played an important part in every community. Flour mills did more than provide bread. They were a symbol of progress. The old mill was looked upon as an asset to the community—the 'honest old miller' a highly respected citizen.

Yes, we're proud of our heritage—an Americans and as a part of a vast industry that has grown and gone on to provide jobs for thousands of people. As we hold to some of the traditions of the 'honest old miller,' today, nothing pleases us more than the privilege to serve a community wherein we have gained confidence, good will and respect.
