Win $2,100 In Cash Prizes By Building Boys Town And Checking Crime!

Unique Town Has World's Youngest Mayor And
City Commission's $1,000 First Prize;
Other Big Cash Prizes Too!

A Fremont News article has the news:
Boys Town is not the largest town in its county.
Its mayor is one of the youngest in the nation.
The city had to turn down Boys Town in the year's
$1,000 City Commission First Prize.
Mayor of Boys Town, 17-Year-Old Danny Kamman
Mayor of Boys Town, 17-Year-Old Danny Kamman

In short, the Boys Town City Commission decided
that the prize should not go to Boys Town.

Boys Town has a large number of boys
between the ages of five and seven.

The word "cleave" has directly opposite meanings. It means to adhere closely, and also means to cut apart.

Yes, Boys Town is a real town.

Contracts in Government
By RAYMOND FOCAGEN

Soldiers of the tobacco industry have joined in the fight against the new tobacco tax. The chief products of New England and Virginia, which represent the bulk of the industry's volume, are reported to be affected negatively. A protest was submitted to the Secretary of State by the President of the American Tobacco Manufacturers' Association, Dr. W. D. Valleau, plant manager of the American Tobacco Company, and head of the largest tobacco manufacturing organization in the world.

The new tax, which is expected to increase the cost of tobacco products, may have a serious effect on the tobacco industry. The increased cost of taxes may lead to a decrease in the production of tobacco and a reduction in the number of workers employed in the industry. The tobacco industry is already facing a number of challenges, including competition from other industries and changes in consumer preferences.

The tobacco industry is a major contributor to the economy of the United States and is responsible for the employment of thousands of workers. The industry is also a significant source of revenue for the government.

The tobacco industry has a long history of resistance to government regulation and taxation. The new tax, which is expected to increase the cost of tobacco products, may have a serious effect on the tobacco industry. The increased cost of taxes may lead to a decrease in the production of tobacco and a reduction in the number of workers employed in the industry. The tobacco industry is already facing a number of challenges, including competition from other industries and changes in consumer preferences.

The tobacco industry is a major contributor to the economy of the United States and is responsible for the employment of thousands of workers. The industry is also a significant source of revenue for the government.
COMMERCE NEWS

The demand is benefiting from increased shipping of Kentucky corn to the market, and from increased shipping of Kentucky coal to the market. Reports from the Kentucky Agricultural Experiment Station show that the demand for Kentucky corn is increasing, while the demand for Kentucky coal is decreasing.

Reports from the Agricultural Experiment Station show that the demand for Kentucky corn is increasing, while the demand for Kentucky coal is decreasing.

The International Exposition for Electric Automobiles is being held in New York City from March 26 to April 17. Canadian imports of anthracite coal from the United States register.

Under specified conditions, farmers may use burned lime as a substitute for other sources of lime. Reports from auctions held during December reflect a considerable demand for German-grown tobacco.

Reports from auctions held during December reflect a considerable demand for German-grown tobacco.

There is a marked increase in the number of American tourists visiting Mexico. This increase is indicated in a report to the American and Canadian farmers during the current year are anticipated by Japanese lumber importers.

The International Exposition for Electric Automobiles is being held in New York City from March 26 to April 17. Canadian imports of anthracite coal from the United States register.

Czechoslovakia's artificial flower industry made notable progress during 1936. The International Exposition for Electric Automobiles is being held in New York City from March 26 to April 17. Canadian imports of anthracite coal from the United States register.

CHAPTER V—Continued

Doctor Greening did not sleep at first. He lay in the empty house and looked about. And then he turned his eyes to the kitchen. It was dark in the kitchen. The doors were shut and the shutters were down. Doctor Greening got up and went into the kitchen. He turned the light on and looked around. The kitchen was empty. Doctor Greening sat down on the floor and talked to himself. He could not think. He could not remember. He could not understand.

CHAPTER VI

Doctor Greening did not sleep at first. He lay in the empty house and looked about. And then he turned his eyes to the kitchen. It was dark in the kitchen. The doors were shut and the shutters were down. Doctor Greening got up and went into the kitchen. He turned the light on and looked around. The kitchen was empty. Doctor Greening sat down on the floor and talked to himself. He could not think. He could not remember. He could not understand.

At the lake, he was asleep. But when he looked up, he saw that the lake was not there. And he knew that he was not dreaming. He knew that he was awake. And he knew that he was alive. He knew that he was Doctor Greening. He knew that he was a doctor. He knew that he was a man.

The heat slid past him into the lake. Thus he became heedless of anything except the heat. He became so absorbed in the heat that he did not even notice when the lake disappeared.

For an instant he was aware of the lake, but then he was not. He was unaware of anything except the heat. He was unaware of the lake, the lake, the lake.

He woke up with a start and looked around. The lake was not there. And he knew that he was not dreaming. He knew that he was awake. He knew that he was alive. He knew that he was Doctor Greening. He knew that he was a doctor. He knew that he was a man.

And then he knew that he was dead.
Experiences of Life—
Their Significant Interest and Some Ways to Meet Them

As events come one after another of significant interest, the mind is too occupied to think of our wishes, the mind is too occupied to think of our wishes, the mind is too occupied to think of our wishes.
