Candidate For County Tax Office

Samuel Milburn Jones

Milburn Jones Formally Announces for Tax Office

To the Democratic voters and citizens of Marshall County, I very respectfully submit this, my formal announcement, acquainting you with my candidacy for the office of County Tax Commissioner subject to the action of the Democratic primary election on August 1, 1953.

It is my purpose herein to outline for your consideration some of my life's attributes tending to reflect my fitness and general qualifications in character and integrity.

I am the son of Mr. and Mrs. E. A. Jones of Benton Route No. 5. I was born at Benton, Kentucky, October 24th, 1919.

I am now serving in the Army but I finished my grade school work at Salem, Chapel grade school east of Benton. Due to the fact that the depression was still on, I did not continue in school more than two or three months at Benton High. I worked as farm labor and on a Y. A. until I married the daughter of Mr. and Mrs. Ollie Henson of Benton Route 1 in 1938 and then worked on W. P. A. in Marshall County several months.

County Superintendent Hoffman Rose, Attendance Officer, Mrs. Mathis and Sharon School Principal William Houchin attended the KEA meeting this week in Louisville.

They're Biting, Fellers! And Some are Caught

Crappie are biting, fellers. Lucky spots are Big Bear, Moore's Place, across from the boat house and below the dam at Gilbertsville.

Crappie are being caught at a but not many.

Crappie are being caught at a depth of about six feet, with minnows.

Norman Castleberry and Wilson Portis brought in a string of 25 crappie and one cat one day last week. They fished at Big Bear.

Roy Emerine snagged a couple of new bass below the dam. One of them tipped the scales at 4 pounds. Ralph Wortham and Rev. W. D. Grissom went with Emerine, and helped him bring his fish home.

Ell Creason, Wortham and Grissom also went one day and fished the fish, very well.

Otto Cann, reported to be Benton's top fisherman, managed to drag in 12 crappie Monday at Big Bear. His buddy, Charlie Cone, caught 9.

Otto's alibi was that Monday was the 13th.

Mrs. Harold King, wife of Benton's new physician, brought in a nice string of crappie from the Big Bear vicinity.

It's tough enough nowadays to get anybody to work and it looks like it's going to be tougher during the fishing season.

Bring us your reports. We'll print 'em, whether the public believes 'em or not.

Welcome, Industrialists!

Marshall County has the privilege and honor this week-end of being host to a group of nationally important industrial leaders. These men are officials and executives of the huge Calvert City chemical plants — Air Reduction Co., Pennsylvania Salt Manufacturing Co., and B. F. Goodrich Chemical Co.

It will be the first time in its history that Marshall County ever has been host to such a distinguished group of business leaders. These industrialists are responsible for an investment of \$36,000,000 in this county. They are responsible for a monthly payroll in this county that runs into the millions of dollars. They are responsible for starting an industrial area here that promises to become one of the largest in the nation.

These plants have boosted Marshall County's per capita income to the highest level in history. They have brought an undreamed of prosperity to this once strictly farming area.

The Marshall Courier would like to join with all of Marshall County in saluting these industrial leaders and wishing for their happy and prosperous future in our county.

What's new about
"TT" DYNAFLOW?

The TAKE-OFF'S
TERRIFIC!

It's only fair to warn you.

When you try a new Buick with the sensa-
tional Twin-Turbine Dynaflo Drive,*
you'll tingle all over with thrill.

You'll sweep your speedometer needle from
zero to 30 mph so quickly, you won't have
time to breathe but twice. You'll move from
a standing start to legal speed so quietly,
you'll practically hear your heart beat. You'll
experience such complete and utter smooth-
ness every step of the way, you'll be wholly
relaxed, refreshed, and ready for more.

This is not dream stuff. This is real.

This is what actually happens when you're
at the wheel of a new 1953 Buick with
TT Dynaflo.

Twin Turbines in the Dynaflo unit, instead
of just a single one—in addition to other en-
gineering advances—make the tremendous
difference.

So you feel a firmer and more immediate
"take hold"—get far faster getaway, new

quiet and efficiency, plus infinite smoothness
to and through every speed range.

There's a lot more to be had, of course, in
these great new Buicks. Higher horsepower and
compression ratios. A still finer ride.
Easier handling. Improved visibility. More
comfort and richer interiors.

But start with take-off—the greatest in
Buick's fifty great years—and learn the rest
of the story from there. Can you drop in on
us this week?

D. W. and Mason Cope, Brothers, are in the Navy

Mr. and Mrs. Rubie Cope have
two sons in the U.S. Navy.
AT-3 Darrell Wayne Cope en-

tered the Navy on Sept. 13, 1950,
and took his boot training at
Great Lakes, Ill. He then was
sent to Millington Naval Base at
Memphis, Tenn., where he learned
to be an aviation electronics
technician.

He then was sent to Corpus
Christi, Texas, where he took an
eight-weeks course. Later, he
was sent to San Diego, Calif.,
and remained there until June
16, 1952, when he sailed for the
Far East aboard the aircraft carrier
USS Essex. He served as a radar
observer.

He returned to the States in
February of this year. He is
married to the former Sue Ray-
burn of Benton.

The other son, Mason Cope,
entered the Navy on July 2, 1951.
He took his boot training at San
Diego and was sent to Jackson-
ville, Fla., for an eight-week
course. He then went to Milling-
ton Naval Base, where he studied
to become an Aviation electron-
ics technician.

He now is stationed at Nor-
folk, Va., and is playing basket-
ball with the Norfolk Naval
Flyers.

The Courier wants to print the

THE BIBLE SPEAKS

BY DR. KENNETH J. FOREMAN
International Bible Society
Bible School Lesson

Reaching Out

Lesson for April 19, 1953

If you had asked any one in the
world about Abraham Lincoln
about the year 1854, they might
well have told you he had been a
failure. At that time very few per-
sons saw in him his true great-
ness because so many of his vic-
tories had either failed or not
been notable successes. So with
many great men. Their towers of
success were built on rubble-heaps
of failures. So it was with the
great apostle Paul. He was shi-
cere, earnest, energetic, from his
very first week as a Christian. But
he was not successful from the
first week. He had tried to preach
in Damascus, only to be sneaked
out of that city in a basket. In Je-
rusalem also he had tried, but the
brethren faithful took him to a
seaport and put him on a boat for
home. In Tarsus, his home town
Tarsus no doubt he was suc-
cessful too (we can't imagine Paul
sitting around doing nothing), but
if he ever had a grain of success
there we never heard of it, and
Paul was not one to be silent about
his successful efforts.

Home Base
If it had not been for Barnabas
there is no telling what might
have happened. He was a sort of
pastor-at-large for the growing
church in the important city of
Antioch, then one of the finest
cities of the Empire. Barnabas
knew his own limitations. He took
a trip to Tarsus, located Paul,
brought him back as co-pastor at
Antioch. Between them they made
a great team. The church grew,
everybody seemed to be happy;
for a whole year Barnabas and
Paul must have been the talk of
the church. Then one day in a
prayer-meeting it came to the
hearts of those present that the
two associate ministers of that big
church should resign. It was God's

will that they should. There was
something else for them to do.
Now that was the beginning of
what we now call "foreign mis-
sions." But suppose people in the
Antioch church had taken the line
that some church members take
now when foreign missions are
being discussed? They could have
said, "What? Send Barnabas and
Paul as foreign missionaries?
Why, they have all they can do
here. Why bury their talents in
some out-of-the-way place? Peo-
ple in Lystra and Iconium have
their own religions, why not leave
them alone? Let's wait till we get
the heathen in Antioch converted
before we start on the heathen in
Cyprus!" But the church in Anti-
och (bless them!) did not talk
that way, though there may have
been a few members who did as
a church they gave their tried-
and-true pastors a God-speed and
saw them off on the boat for the
wide west. It always takes more
than a missionary to make for-
eign missions successful. There
has to be a praying, obedient, mis-
sion-minded home church.

Expeditionary Force
Barnabas and Paul, on the other
hand, were not like young chaps
just out of seminary. They were
seasoned men, men, tested
workers, known and successful
leaders. The church in sending
them sent its best. It is a thun-
dering mistake to fancy that you
can send to the foreign mission
field the poor fellows who couldn't
hold down a church in America.
It takes a lot more character and
ability to make Christ known in a
totally indifferent or hostile at-
mosphere than where there is al-
ready a partly Christian atmos-
phere and where the church is a
going and often powerful institu-
tion. Whether it's home missions
or foreign missions it is the same
story. The driving line, the front
line, calls for the best. By and
large, too, the church has seen
this (when it has "seen" missions
at all).

If Not Missions, then—?
Suppose the church never sent
missionaries, never did any evan-
gelistic work, quit pioneering ev-
erywhere. Then what? Well, what
would happen to a firm that never
went after new business? What
would happen to a newspaper that
never wanted new subscribers?
What happens to a herd of cattle
that never admits new blood? An
inbred church is like any inbred
family. But the most important
question is: What will Christ say
of a church that pays no at-
tention to his word "Go into all
the world?"
