In an article of the daily KY Duncan observer, the editor of that paper said:

"There are many uncertainties in the history of the democratic party, but the fact that for a quarter of a century there has been no candidate for the office of governor who did not belong to the democratic party, is a fact that may give rise to a feeling of security in the present and future successes of the democratic party."

THE TRIBUNE.

Al phabet is a real unity and the letters and sounds in the alphabet are the same in all the languages of the world. The alphabet was originally composed of twenty letters, but it has since been increased to twenty-six. The alphabet is divided into vowels and consonants. The vowels are those letters which, when pronounced alone, have a complete sound, while the consonants are those letters which, when pronounced alone, have no complete sound. The alphabet is used in writing the names of things, and it is also used in writing the names of the months of the year. The alphabet is used in writing the names of the days of the week, and it is also used in writing the names of the seasons of the year. The alphabet is used in writing the names of the countries, and it is also used in writing the names of the cities.
