FULTON ADVERTISER

Are You A Demo- crat or Republican

From now until the November election politics will occupy much space and many readers in the face as never before. No candidate in the history of the country has caucused as much as Alfred E. Smith of New York, Democrat. Is it because he is absolutely in the front running for the Presidency next November, or because he foresees the futility of the campaign? Is it because he is back on the streets and the stump? Is it because the party is less than in previous elections? More voters are in favor of the Democratic candidate for President than in years of his own party, and this fact is being stressed this week. A few weeks ago, the issue was open, the same as the question of membership in the Southern States. Now the question is: shall the party win or lose? The Southern Democrats who are on the fence on this question are the ones who will decide the outcome.

Portland Cement Company

Concrete

FOR BUMPY STREETS

There is a pavement—Portland cement concrete—that does not develop bumps or ruts even under the heaviest traffic, and is rigid, permanent, and has maintenance built into it.

Cuts and towns throughout the country are paving with Concrete because of these qualities—and because it is skid-proof, clean, and comfortable to ride on.

Write for our copy of our free booklet about concrete streets.

CONGRESSMAN GREGORY ANNOUNCES FOR RE-ELECTION

(Continued from page 11)

The term of office for the members of Congress will expire on the 3rd day of March next, and the members of the 39th Congress will convene on the 4th of March at noon. It is the duty of every member of Congress to return home and attend to the business of his district. I cordially invite my opponents to debate with me on the platform of theballot box. My recent trips to Southern Illinois and Southern Indiana have convinced me that they could be invaded by a flood of Mississippi water. The immense expanse of the Mississippi Valley has been turned into a sea. The people of this section are suffering in every particular. The public property is disappearing. There is food in the stake. The gold of the People is lying in the bottom of the river. The bridges are in danger of being swept away. The people are in their homes, and the legislature is at a distance. To the people of this section I say, I am your friend. I have lived in and near the Mississippi Valley for many years, and I am not afraid of the work which I have undertaken. I will not suffer the people to be wronged. I will not yield an inch to the demands of the speculator. I will not suffer the people of this section to be deprived of the blessings of government. I will not suffer the people to be deprived of their rights. I will not suffer the people to be wronged. I will not yield an inch to the demands of the speculator. I will not suffer the people of this section to be deprived of the blessings of government. I will not suffer the people to be deprived of their rights. I will not suffer the people to be wronged. I will not yield an inch to the demands of the speculator. I will not suffer the people of this section to be deprived of the blessings of government. I will not suffer the people to be deprived of their rights. I will not suffer the people to be wronged.

3. INDEPENDENT ACTION. The American Mining Company has no secret formulas to sell. It has no by-products to work off. Its sole revenue comes from mixing feed ingredients on open formulas at such a rate as to be acceptable. It is, therefore, free to mix the combinations which science and practice say are the most profitable to use.

4. QUALITY. A mixed feed can be no better than the ingredients that go into it. Amico Feed Mixing Service checks, through its chemists, the quality of every ingredient which goes into the feeds it mixes and rejects those which are below the standards of good feeding practices.

5. ADAPTABILITY. The quality of roughage and the feeding conditions vary from farm to farm. Amico mixes feeds which fit every farm condition.

6. CONVENIENCE. When you buy an Amico mixed-feed, you get in one bag everything that 'a needed for the animal for which it is intended. Amico Feed Mixing Service makes all these ingredients available to its customers through Amico Feed Mixing Service.

7. ECONOMIES. The way to save on the cost of feed is to take advantage of the ingredients which are cheapest, run mixed feeds, and practice.

FOOD LIKE YOU GET AT HOME

This is truly a home-like restaurant because it has endeavored to break down the prejudice based on the theory that restaurants could not serve food like you get at home. Many patrons will testify that there is no difference between our meals and the meals they get at home. That's the reason they come here so frequently to eat. Years of catering to the appetites of particular people make it possible for us to serve appetizing meals.

Practice makes perfect. Schoolmasters of today as well as yesterday constantly repeat that truth. Pupils learn by applying it.

Application of that principle to our everyday habits proves its practical help. We learn by practicing, whether it be a good habit or a bad habit.

This bank teaches you thrift by leading you to practice it. The lesson is easily learned once it is begun. To become perfect in it requires constant practice. A savings account is the most consistent method of practicing thrift.
