In the conduct of its business the railroad is a buyer of practically everything. It buys a large portion of the country’s output of coal, steel, lumber, oil, machinery, rubber, textiles and other major products. It is an important customer of public utilities. Every branch of business profits from its vast and widely varied purchases—and as the railroad prospers, these purchases increase.

It is an old and true saying that what the railroad earns it spends—spends promptly to bring added employment and prosperity to the nation’s business.

To the VOTERS of Fulton County

All Those Interested in the Truth

As an opponent in the County Court, I have frequently been in the position of having to face my opponents in the Budget Court and in the General Court. In my opinion, the primary concern of the County Judge and Fiscal Court should be the well-being of the county, not the personal gain of any individual. It is my belief that the current Budget Law is not fulfilling its intended purpose.

Regarding the Budget Law, it is unfair to place the sole responsibility on the judge for the budgetary decisions. The Fiscal Court also plays a significant role in the process. The budget should be viewed as a tool for managing the county's financial affairs, rather than a means of personal advancement.

In conclusion, I urge all voters to consider the implications of the current Budget Law and to demand a more transparent and accountable system. It is only through our collective action that we can ensure the well-being of Fulton County.

Sincerely,
