Within the Franklin Chain Store, former owner A. G. Baldridge was killed in a terrible accident. The man had been flying a small plane over the town when it crashed into the side of the store.

The accident occurred during a practice flight by the owner of the plane, who was apparently trying to land the aircraft in a nearby field. The plane hit the building, causing severe damage and the deaths of several people.

Different Types of People.

The building even cracks a laugh when the shadows begin to fall. Each person moves a certain way. Each person has their own existence. AMCO FEED STORE

Next Door to Fife-Cepquin Lumber Company

AMCO FEED MIXING SERVICE seeks to purchase and mix feed ingredients on open formulas at so much a ton. It is, therefore, free to mix the combinations which science and practice say are the most profitable to use.

QUALITY. A mixed feed can be no better than the ingredients that go into it. AMCO Feed Mixing Service checks, through its chemists, the quality of every ingredient which goes into the feeds it mixes and rejects those which are below the standards of good feeding practices.

ADAPTABILITY. The quality of roushang and the feeding conditions vary from farm to farm. AMCO mixes feeds which fit into every farming condition.

CONVENIENCE. When you buy an AMCO-mixed feed, you get in one bag everything that is needed for the animal, including minerals and vitamins, with variety, and that which is suitable for the age of the animal.

ECONOMIES. The way to save on the cost of feed is to take advantage of the ingredients which are cheapest, run mixing plants to capacity, and order at the least possible expense. The American Milling Company is doing all these things for farmers through AMCO Feed Mixing Service.
