## RAILROAD TIME TABLES

CURES DISEASE.

The Electropoise gave me complete relief from excruciating pain in three applications. I also find it good for treating children for their numerous ailments.—[C. T. Soden, with Bridge ord & Co., Louisville, Ky.

Mr. G. W. Flint, of Skylight, Ky., says: "I suffered for years with my kidneys, inflammation of the bladder and enlargement of the prostate gland. After a short trial of the Electropoise I am entirely believed, and feel twenty years younger."

I have derived more benefit from the use of Electropoise than from all other remedies combined. I think it the grandest invention of age. It can not be praised to highly.—[Mrs. M. E. Gorman, Sadieville, Ky., August 20.]

John H. Davis, Esq., of Burdounsville, Ky.: "The Electropoise is the best all-around doctor I know of. My wife suffered from effects of la grippe for several years; also a complication of other ailments. Now she is entirely well. Indigestion bothered me a great deal; am now well. One of my neighbors is using it for lung trouble, and reports improvement."

As a curative agent the Electropoise cannot be equaled. Nearly 1,000 have been put out from this office, in the last three months.

I consulted a physician and tried various remedies, but without getting any relief, until I tried of ever being well again. I took Ayer's Cherry Pectoral, and in a very short time, was entirely cured. I can, therefore, cordially and heartily commend this medicine to all who are afflicted with such ailments. J. C. WEDNESDAY FEBRUARY 13

For the past few issues the print of the Tribune has not been good, but this has been caused by a defect in our rollers, which will soon give way to new ones, then the paper will be a joy and pleasure forever. Newspapers have their little troubles, like other people, but as a rule their readers are generous and forgiving, and we ask our readers to be no exception to the rule and it will not be long until all will be well. The Tribune has the reputation of being one of the most enterprising country papers in the state, and we intend to hold it up to its present high standard.

A new Ring—The Postoffice Ring.

If a cold winter means a good crop, we are certainly safe this time.

In the next House there will be some very small men—intellectually, we mean.

Mayfield is certainly a good town. If it supports four newspapers it should carry off the blue ribbon.

There is one big Lemon in town that loves to be squeezed, but it won't let the postoffice ring squeeze it. Good bye squeezers.

This country has had many great men, but not one hardly greater than Mr. Carlisle. We regard him as one of the nation's greatest men.

Every day convinces the populist party, more and more, that there is no earthly show for it ever to amount to much as a national party.

The governor's race will soon be on, and then the fur will fly. But there will be other candidates to attract our attention, enough at least to make life bearable.

The postoffice ring may be able to squeeze a little lemon, but there is one Lemon just a little too big for the boys. They would love to squeeze it, but it won't be "squeeze."

We hope the democratic party in Kentucky will never let itself be as low as the party has done in Tennessee. Such a cause is enough to damn the leaders of any party.

Many a great financier has been stranded on a currency bill. They are dangerous things to fool with. Thos. Reed's chances for the presidency will be damaged, because of his little currency scheme.

The republicans will not have as easy sailing when in power again as some imagine. There are many breakers confronting them now that did not exist when they went out of power.

Two years more will, in all probability, convince the country that the democratic party is the best of all. It would not be astonishing that the republican party met such a defeat two years hence as the democrats did this fall.

The democrat that will try to turn his fellow democrat out of office, except for political treason, is not made out of stuff that is so essential to party success. Sink or swim, survive or perish, he ought to fight for the party that will save the country.

There is such a thing as a party wanting power bad enough to commit crime against honor. The democratic party in Tennessee is a fair example of what a party will do in order to continue in power. Such action is a disgrace to any party. We believe in an honest vote and a fair count. There is no doubt but on the face of the returns Evans was elected and he should be seated.

W. M. REED FOR GOVERNOR.

Our fellow townsman W. M. Reed is now receiving prominent mention over the state as a suitable person to receive the democratic nomination for governor of Kentucky. His home people heartily endorse all that has been said about him as a gentleman in

all respects worthy the place and honors contemplated. He is a loyal, able and popular citizen, and if he were to enter politics he would have the united support of his home people. Great men are nearly all made in a day, and who knows but this sounds the key note that will soon revolutionize public sentiment and detract public attention from its unstable fastening and rivet it upon Mr. Reed as the guiding star of democratic hope and never lag in its work until the state is redeemed from uncertainty and its business placed in the hands of Governor W. M. Reed of Marshall county. There is no gainsaying the fact that the democrats of Kentucky are aware that they are standing upon the vortex of an imperative and awful emergency and that for one time in the history of the party care must be taken to place a man unsullied at the head of the party ticket if victory is to follow in its wake, and the attention of democrats from a thousand hills and valleys extending from Catlettsburg to Hickman are pointing to the Gibraltar district as the place to find a political redeemer. He is here if it be a Stone, we have it; if it be a Reed upon which to lean, we have it; the district is equal to the demands.

## ANOTHER SALARY GRAB—CONGRESSMEN'S CLERKS.

Each congressman is allowed by law a clerk who is paid \$100 per month to act as private clerk for these representatives of the people. This may be well enough during the busy hours of an important session of congress, but the luxury is rather expensive to the taxpayers of the country. These congressmen get \$5,000 per annum besides stationery and mileage, and if they need a private clerk or secretary let them employ one and pay him out of their own pockets. But this is not the worst phrase this clerk business has taken upon itself. Congress will adjourn on the 4th of March and will probably not be in session again for nine months, but on last Saturday the House voted by a vote 124 to 59 to pay each one of these clerks \$100 per month during the long recess of congress, when they will not have hardly a duty to perform making these clerks cost the country when off duty over \$300,000. Such a course on the part of congressmen should be heartily condemned by their constituents at home. But in this connection we are glad to state to our readers that Capt. Stone made a speech and voted against the high handed game of salary grabbing. Such unnecessary extravagance is heartily condemned by the people all over the country and it should be in a way that those voted for it should feel it.

## Linn on the Bench.

The Cadiz Telephone, under the head of court news, last week, has the following to say of our neighbor Judge L. C. Linn: "Judge Linn, our new Jurist, was present and delivered a most excellent and highly commendable charge to the jury. Judge Linn is a pleasant gentleman, with perfect manners, and impresses all who meet him as one in every respect worthy of the high position he holds. Numbers of our people had never seen him, and came to the court for no other purpose than to take a good look at the 'new Judge.' We heard hundreds express themselves as being highly pleased with the open, frank, and intelligent face of Calloway's distinguished son. The Telephone takes this occasion to say in advance that he will prove himself acceptable to our people, as it would be impossible for any one with that clear, manly expression to be otherwise. He holds a very responsible position, and our people will extend to him all the charity of a just and generous public. This is his first court, and he starts off well."

## It Has Been Corrected.

Editor Lemon, of the Benton Tribune, is in more than a "peck of trouble." The P. O. department at Washington got an idea that he had moved to Paducah, and took the Benton P. O. away from him, and not desiring to give up a nice little revenue like this, Mr. Lemon has been to Washington to enlighten the authorities and give them a chance to correct their error.—Grand Rivers Herald.

Talks Back to Ozark a Little.

A Young Man Sees a Ghost—The Stock Law and Other Local News.

BRIENSBURG, Feb. 11.—Science tells us that if it were possible to bore a hole through the center of the earth that a ball dropped into the opening would stop at the center. Since Ozark made his recent trip to Japan and overcame the laws of gravitation the above seems to be an exploded theory. It is a well known fact that a body falling through space (if it be oblong) always descends with its heavy end down. That being true Ozark went down heels first; when he emerged from the earth on the other side he was unable to change ends, gravitation having no effect on him. In that position he was recognized by his friends, (a consideration that had ever burdened him) and given the desired information after which he returned to the upper crust and let loose a harangue that to the average reader sounds like a sciolist's attempt to decipher the hieroglyphic on the pyramids of Egypt. By the aid of Webster's Dictionary we have been able to translate some of his adjectives and find that a somnambulist-Magniloquent non compos-mentos prevaricator in point of intellect is several rounds on the ladder above Ozark.

If there is one thing more than an other that Marshall county stands in need of it is a stock law at least so far as sheep and hogs are concerned. A law compelling people to keep up their hogs would be worth thousands of dollars to the farmers in the matter of fencing alone to say nothing of the improvement it would bring about in the way of better breeding etc. With that law the old time acorn splitter and "razor back" will disappear as will the "root hog or die" policy that is so common now. Speak out gentlemen and let us know how such a law would strike you.

Mr. Jim Robertson of Paducah who is here visiting his father had a funny experience a night or two ago. He came to Benton on the train and as the weather was very cold and the moon shining brightly he concluded to walk out to his fathers. Nothing happened to disturb his thoughts until he reached the big hill about a mile from town. There an object met his eyes that made his blood run cold, some kind of an animal that he says was much larger than an elephant was there to contest the right of way. Jim was raised in this town and knew that that particular place had the reputation of being haunted. It only took him about two seconds to make up his mind that he had seen a ghost and he struck for home at a 240 gait. It is needless to say that he lowered the record by a good many seconds and fell at his fathers door more dead than alive.

W. H. Brian and wife of Paducah are here visiting relatives and friends.

The young people were given a musical at J. P. Locker's Saturday night.

Joe Maddox of Calvert City was in town yesterday.

Col. J. M. Fisher was seen on our streets Saturday, and some wicked sinner has intimated that there is "a woman in the case."

The snow may be beautiful but I don't know many people just now but what would like to see the geological shoulder blades of old mother earth occasionally.

The mercury registered 10 degrees below zero here last Friday and if the ground hog succeeded in seeing his shadow there is no telling where in the devil the thing will stop.

If some of those blatant jackasses that are threatening to sweep us from the face of the earth don't succeed in accomplishing their object we will write again.

DRIFTWOOD.

Married in Arkansas.

We have just received an at Home card from W. O. Trout, a former citizen of Marshall county, who was married Feb. 4th, to Miss Beulah Dewitt of Fort Smith, Ark. They have gone to Mudrow

Indian Territory, the home of the groom. The Tribune together with many friends send congratulations to them, and wish them a long and happy life.

## UNCONSTITUTIONAL.

The Separate Coach Law in Kentucky is Unconstitutional.

OWENSBORO, Feb. 7.—Under peremptory instructions from Judge Barr the jury in the Federal court found a verdict for 1 cent and costs against the Louisville & Nashville Railroad Company in the separate coach case. The suit was brought by the Rev. W. H. Anderson, colored, of Evansville, Ind., for \$20,000, but was really to test the separate coach law of Kentucky. Judge Barr's instructions left the jury only to determine the amount of the damages. Immediately upon the filing of the verdict the attorneys for the railway company gave notice of an appeal to the Supreme court of the United States.

## Hank Monk Again.

HARVEY, Ky., Feb. 11, 1895.—In reply to Ozarks question in last weeks paper, will say that I am a descendant of Adam and Eve of the male persuasion under sixty years of age with enough sense to discover that about one-third of "Driftwood's" last letter was copied verbatim from a book and that he writes it as originating from his own massive brain the great I am from the country of Briensburg.

Don't get scared Bro Lents the policy that John Sherman recommends will live long after the grass grows green over the grave of the dead populist party; yes long after the democratic party has quit its quarrelling and "gone up the flume." Yea even long after the name and fame of Driftwood as a seer, poet, philosopher and plagiarist has sunk into obscurity.

We can't see how that the naming a child after you, Driftwood should be so very hard on you, although we readily admit that its pretty tough on the child.

Driftwood how do you know what people think of a man that does his own thinking? From your letters in the past I think you let someone else do the thinking and you copy.

Driftwood did you know that the old democratic ship that with-out a pilot, sailors and rudderless will founder along until next November when it will strike the rock of republicanism and go down with all on board never to rise and sail again in Kentucky.

J. K. Smith who has been very low for sometime with a severe case of "Matrimonia" fever is thought to be some better and may possibly recover.

Mrs Sarah Phillips has been sick several days with Lagrippe. "Is it cold enough for you?" has been the question of the day here for the past week.

We like a good thing as well as any one, but we must confess that we have enough of beautiful snow.

Driftwood we have no doubt but what you will "continue to deal out homeopathic doses of sense" if you can find anything on that line that you can copy without to much strain on your mind.

HANK MONK.

## DRUGGISTS MAY PAY.

Notices to That Effect Will be Sent in a Few Days.

We clip the following from the Frankfort Capital, which is of important interest to the druggists: "The auditor will in a few days, send out notices to all druggists to pay up for the two years during which the license law has been suspended, pending litigation, and it is expected that not less than \$25,000 will come into the State Treasury from this source. The druggists have abandoned the fight in there legal test of the law requiring them to pay a license of \$50 for selling whiskey. It will be remembered that the Court of Appeals recently reversed the Fowler case from Louisville, and decided that the druggists must pay the tax, and the druggists at that time announced that they would take the case to the Supreme Court of the United States. They have abandoned this idea, however, and paid up all costs, and announced that the appeal will not be taken."

Visiting cards, with your name nicely printed thereon, 100 for 50 cents.

# It's All Over.

The Postoffice Question Is Settled

And Lemon Will Continue to Lick the Stamps at this Office.

Mr. J. R. Lemon, our present postmaster, who was recently removed, and Mr. D. B. Ferguson appointed in his place, received a notification from the P. O. department that the order removing him had been rescinded and that he would continue hereafter to lick stamps at the old stand. This was welcome news and was enjoyed very much by Mr. Lemon and his friends.

## Postal Pickings.

Good-bye, boys.

Did you ever get left?

So near, and yet so far.

The good joke did not pan out as it was expected.

The same "fellows" are not tickling in their sleeves, that were a week ago.

It's a cool day in August when the p. m. gets left.

Great victory, was it not?

Just as well laugh as to cry, everybody knows the joke.

It is not "Poor Jimmie" now; but "Poor Davey."

Don't never monkey with a "buzz-saw."

Jimmie will continue to lick stamps at the old stand.

The joke is so good the children are actually laughing themselves to death at the boys.

The babies could have managed the case better, if the job had been given them.

The job was too big for the boys; they should try something more simple.

You had better try your hand on an imaginary p. m. at Spout Spring, something you can handle

Oh! the joke! It is too utterly too, too; boys, laugh yourselves to death, if you want to.

Too big, too big; they couldn't manage the thing.

The whole town shook Monday, by everybody trying to "bust" their sides laughing, and they are laughing yet.

It is too bad, to undertake a job and then can't do it.

Bless their little souls, they did the best they could; don't fuss at 'em.

All court house rings are generally managed by lawyers, but the late lamented post office ring was without one, which accounts for its miserable failure.

Important to Live Stock Shippers.

Commencing with Wednesday November 28th, and continuing each succeeding Wednesday the St. Louis & Paducah Ry. will run a Special Weekly Live Stock Express Train from Paducah to East St. Louis. This train will leave Paducah every Wednesday at 1:15 p. m. arriving at East St. Louis at 4:10 Thursday morning in time for feeding, watering and resting stock before the opening of the market. Shippers at Benton can take their stock for P. & T. A train leaving Benton at 9:10 Wednesday morning and have it in East St. Louis for Thursday morning's market.

This special service places one of the best stock markets in the country within easy reach of shippers in this section and should enable them to move their stock shipments to that market more profitably than to any other markets.

Our regular through freight leaving Paducah every evening at 4:30 will run as heretofore and special attention will be given to shipments of stock forwarded on this train also.
