BIG CONCERN ORGANIZED
BY PROMINENT LOCAL LAWYERS

Are you dizzy? Does your head swim? Do your eyes blur? Is your stomach sick? In women, these symptoms are often signs of disordered nervous system, or of liver or heart trouble, brought on by carelessness in regulating the menstrual functions. These functions are even more important to women than to the bowel functions to either. If there is a stoppage, still, a gentle, cleansing, menstrual draught should be taken now and then—every doctor will tell you so. Otherwise the menstrual blood will decay inside you, and will be absorbed into your system, causing such pain and suffering as will make you lose all interest in life.

To cure yourself, take woman's best and safest remedy, menstrual cleanser, tonic and pain reliever; it is the old, reliable, time-tested medicine, which, for over 70 years, has been a household word in America, viz:

JAPANESE WOMEN'S CODE.

By M. S. B.

Teaching Which Have Become Part of the Postal Service.

In Japan, women are taught to take the place of men in many aspects of life. They are taught to be independent, to work and support themselves, and to take care of their families. This is a departure from the traditional role of women in Japan, where they were expected to be subservient to their husbands and to be responsible for caring for the home and children.
