**LITTLE WAGONS**

Some years ago a grown man told me that he felt his childhood was a failure because he had never had a little red wagon. Santa Claus, by some strange perversion failed to do his duty in that home. The little red wagon became the best-loved toy on the place. It could haul everything imaginable, from baby sister to stove wood. It could coast down every slanting place near the house sometimes with disastrous results to itself and its owner. Sometimes it would be drawn by a dog or a goat or a calf, that is, if the animal wanted to work. When I read about Byrd and others who have driven dogs to sleds, I wonder what he would have done with contrary dog.

The little red wagon that my friend wanted was the aristocrat of wagons; the little wagons that the boys made for themselves were not so pretty but were more useful. We saved the wheels from a log and bored a hole for the axle with an auger. Few trees in our part of the world remain exactly the same size and shape for a long enough distance to make four wheels; that meant that our wheels might have tendencies from the start that would ultimately lead to

disaster. We made the frame, too, and had a wagon that was strong and serviceable. It was the official wagon for wood for the fire-places. It was the very wagon to hitch a yoke of calves to. After its wheels began to wear a bit, it could make tracks that would cause a snake to die of envy. I have worked twice as hard to make my load of wood stay on as I would have had to work to "tote" it in my arms. But I would have lost the fun of having a wagon to do my work for me.

One did not have to own either of the two types I have mentioned. The frame of an old buggy is good enough for any live boy. You can take off the bed and shafts and do some fancy coasting down hills guiding your vehicle with a plow line or some baling wire. A steel-tired buggy works best, for it gives the maximum number of jolts. Should you try this device do not try to run your vehicle across a creek in winter in your coasting; if trouble results, remember my conscience is clear.

Before the days of automobiles this was our way of experimenting with wheels probably the most fascinating thing that man has ever invented. How much the wheel has meant in civilization only the scholarly can ever know.

anyway, when you ride by some boys who are experimenting with an old car or the framework of an old buggy, do not swell up in your pride because you are riding in a good car; you could not trade it for the joy of discovery, the spirit of adventure the youngsters are experiencing with their battered-up plaything.

**CHAPEL HILL NEWS**

Mrs. Leon Boulton and little son, Johnny, have returned to their home in Detroit, Mich., after visiting friends and relatives here.

Mrs. Russell Boaz and children spent a few days last week with Mrs. Lehman Boulton.

Miss Margaret Maynard spent Saturday with Mrs. Alvena Boulton.

Mr. and Mrs. Oran Zerker, Mrs. Mollie Damons and Miss Ruby Damons were recent visitors of Mr. and Mrs. Noah Covington.

Mr. and Mrs. W. G. Webb have returned to their home in Detroit after visiting friends and relatives in this community.

Mr. Bud Ramsey has returned from the hospital and is doing nicely.

Mrs. Ethel Scott of Fulton recently visited her mother and father, Mr. and Mrs. Bud Ramsey.

Mr. and Mrs. Paul Roper and children of Fulton were recent visitors of Mr. and Mrs. A. L. Roper.

Mr. and Mrs. Troy Duke and children of Water Valley were recent guests of Mr. and Mrs. Car-nell Stephens.

Mrs. Lehman Boulton and little son, Kenneth, visited Mrs. Raymond Bondurant and children one day last week.

Mrs. Alvena Boulton left last Sunday for St. Louis to spend a couple of weeks with friends and relatives.

Mr. and Mrs. F. N. Boulton are here from Detroit to spend a few days with his brother Lehman Boulton.

**STEAMER "J. S." TO RETURN TO HICKMAN**

The popular excursion steamer "J. S." commanded by Capt. Verne Streckfus, will return to Hickman for a moonlight dance outing Thursday, September 2. The big pleasure boat, popularly known as the "Garden Steamer," will leave the Hickman wharf at 8:30 p. m. and return at 12:30 p. m. The excursion is sponsored by the Elks Lodge No. 1294.

Local dance devotees who enjoyed outings on the earlier visit of the "J. S." this season, will recall the "darky" swing band, "The Mississippi Serenaders," whose reputation as tuneful rhythm-makers is widely known in river towns.

The shooting of bows and arrows is illegal in Winchester, Mass.

A Taylorsville, Ill., ordinance forbids anyone to feed razor blades to hogs.

Brides in the Philippines do not always attend their own weddings.

**SILLO SIMPKINS SAYS**

**Terraces make running water walk.**

Bare fields are embarrassed fields and soon lose their reputation for fertility.

Corn fields need "overcoats" in winter. Start planning those winter cover crops now.

Tennessee farmers carried out approved soil-building practices on 1,758,300 acres in 1936.

Barren fields, barren farms, and barren homes are nature's retaliation for careless treatment of her lands.

Hatching eggs haste means hatch-eggs waste. Select breeding flocks carefully and treat them as valued investments.

Paint-up the buildings, build-up the land and the farm pick-up in pride and prosperity.

Muddy water is an SOS danger signal—a warning that fertile top-soil is leaving the fields for creek beds.

Proper curing of tobacco is half the crop. It should be thoroughly ripe before cutting and well wilted before housing. Adequate barn room and controlled ventilation are important.

**THE STOP, LOOK AND LISTEN** of agriculture is soil erosion! When average land lays bare through the winter it loses as much plant food in one year as crops will take out in about eighteen years.

Improper handling in shipping hogs to market accounts for an average loss of \$12,000,000 yearly. Watch overcrowding, poor footing, inadequate bedding, poorly constructed partitions and excess feeding and watering.

**ROUTE THREE**

Mr. and Mrs. Jim Wright visited relatives in Berlington Sunday.

Mrs. Maude Cannon visited Mrs. Tom Jones Saturday.

Miss Virginia Sue Cannon and Miss Jean Cannon were in Fulton Saturday.

Mr. Ollie Williams of Detroit is spending a few days with relatives here.

Mrs. Martha Cannon is some better at this writing.

Mr. and Mrs. Ross Williams of Mayfield visited Mr. and Mrs. J. M. Williams Saturday night. They drove to Bordy Ky. Sunday to visit Mr. and Mrs. W. A. West. Mr. and Mrs. Everett Williams and daughter Betty Jo went with them.

Mrs. Gladys Cannon is some better at this writing.

Mr. and Mrs. Claud McNeil and daughter Sue visited Mr. and Mrs. Luneford Rowland of Pilot Oak Sunday.

Mrs. Grace Yates gave a quilting Thursday. There were several there to quilt and at the end of the day three quilts had been tacked and one quilted.

Mrs. Mollie Yates has been spending a few days with Mrs. Martha Cannon.

L. J. Williams is spending a few days with Mr. and Mrs. J. M. Williams.

Mrs. Sam Hunt of Meridan, Mississippi arrived in Fulton Tuesday night to visit her brother, Raymond Peeples and family at their home on Taylor Street.

Miss Ailene Westbrook spent last week-end in Dresden, Tenn., the house guest of Miss Julia Banks.

Mr. and Mrs. Wayne Buckley visited relatives in Palmersville, Tennessee Saturday night.

is much improved. Mrs. Cloy Ripper and son Eugene of Birmingham, Ala., spent Sunday night with Mr. and Mrs. L. T. Pharis and family.

Charles Robert Bennett and Ed-don Wright have arrived home after a two weeks tour of the East, where they visited New York, Washington, Niagra Falls, Canada and other points.

Memphis Tenn., has an ice cream tester who visits all stores, tasting all varieties carried.

**Wide Interest In Seeding Of Winter Cover Crops**

Interest of farmers in 94 county-wide cover crop meeting held in July by county agents indicates that there will be fewer bare acres in Tennessee next winter, states H. S. Nichols, assistant U-T Extension director.

The county-wide meetings which were held in 94 counties were attended by 3,586 leaders who are assisting county agents in conducting community meetings in their respective counties during the

month of August.

The purpose of this annual campaign is to acquaint farmers with the value of use of winter cover crops, such as alfalfa, winter legumes, small grains, rye grass, and mixtures of such crops, in a soil conserving system of farming, and to assist them in working out the procedure of how such crops fit into their system of farming Mr. Nichols states.

The results of the 1937 cover crops campaign are expected to stimulate the seedings of these crops to the extent that at least half of the row crop acreage in 1937 will be covered next winter. This would double the cover crop acreage seeded in 1936, which was twice that which was seeded in 1935, he says.

One of the major goals of the Agricultural Conservation Program is to increase the acreage, particularly of alfalfa, red clover and winter legumes, and payments are made for the preparation and seeding of the land to these crops under the program.

A lime-phosphate campaign conducted earlier in the season is ex-

pected to result in the use of twice as much of these soil-building materials this year as was used in 1936, a record year, Mr. Nichols says.

In 1936 Tennessee farmers carried out approved soil-building practices on 1,758,300 acres, as follows: Legumes seeded, 1,200,100 acres; perennial grasses seeded, 108,700 acres; green manure crops grown, 203,800 acres; application of ground limestone, 105,700 acres; application of superphosphate, 44,100 acres; terracing, 63,200 acres; and forest trees planted 700 acres. Farmers have until October 31 to qualify for 1937 soil-building payments.

**HEAVY HOGS AND GOOD PRICES OUTLOOK FOR WINTER**

Heavy hogs and good prices at least through next winter are reported in prospect by L. A. Richardson, U-T Extension Livestock Specialist, on a basis of a summer-hog-outlook report issued by the U. S. Bureau of Agricultural Economics.

It is expected that fewer hogs will be slaughtered during the first half of the 1937-38 hog-marketing year which begins in October, but that only a small increase is expected in the total line weight, since average weights of hogs marketed are expected to be much heavier than a year earlier, the bureau says.

"With prospect fairly favorable for a continuation of the present strong demand for hogs, hog prices next fall and winter probably will average as high as, or perhaps higher, than in the fall and winter of 1936-37."

The July 1 crop report indicated that this year's corn crop will about equal the 1931-32 average. This means that if crops prospect continue favorable, supplies of corn for hog feeding will be the largest in several years, a situation that will be reflected in a fairly high hog-corn ratio by late fall or early winter.

It is believed this high price ratio will encourage producers to delay marketing of spring pigs in order to feed to heavier weight. Consequently, the proportion of this year's spring pigs marketed before January 1 may be much smaller than usual, and the seasonal decline in hog prices this fall may be less than average.

Hog prices in early July were the highest in about 9 years, due chiefly to the marked decrease in hog marketing and with a smaller number of hogs over six months of age on farms June 1 than a year earlier market supplies of hogs are likely to continue small during the remainder of the summer.

Hog prices, therefore, he added are expected to be well maintained in the late summer and early fall and they may make some further advance. From a longer-time standpoint, it was stated that if the 1937 corn crop proves to be as large as now indicated there will be a considerable increase in the number of pigs raised in 1936.

**BUSINESS CONTINUE ON UPSWING IN KENTUCKY**

Hot weather in many sections of the country slowed down the movement of retail trade during the past week, according to Department of Commerce reports from 36 key cities, just received by its Louisville District Office.

Trade in many of the reporting cities ran well behind the same period last year. In wholesale, Fall goods were moving well and merchants continued to declare themselves as optimistic over the coming season.

Agricultural areas generally reported good crops and satisfactory prices.

Country merchants were reported enthusiastic over crop prospects.

L. & N. railroad officials announced refunds aggregating \$1,380,000 to employees of pay reductions required previously under railroad retirement act of 1935; approximately \$450,000 to be distributed to employees in Louisville.

About 220 employees of a Louisville cracker factory on strike. Co-

operation plant at Campbellsville, Ky., shut down for enlargements, which will increase working force from 100 to 125 men.

Most tobacco has been "topped" and some is being cut. Corn and other grains in excellent shape.

Bank clearings increased 18% over last year.

Approximately 200 workers sent from Pulaski county, Ky., to Indiana and Ohio tomato fields.

Municipality of Ashland, Ky., purchases 11 1/2 acres for use as new \$225,000 settling basin for city water works.

\$20,000 being spent by Louisville Credit Men's Association remodeling 100-year-old bank building into modern offices.

Bridge over I. C. railroad to be built south of Mayfield, Ky. at cost of \$88,743.

Contract let for \$18,043 road construction in Nicholas county, Ky. Elliott-Ward Enterprises spending \$30,000 remodeling theatre at Somerset, Ky.

Gas well brought in Barren county, Ky., expected to produce million feet a day.

Reports from Bath county, Ky., tell of discovery of 18-acre tract with heavy deposits of iron ore. Several hundred men back at work at Kentucky rock asphalt plants in Edmonson county, Ky., closed for several weeks.

**GAS TAXES ARE \$2.50 FOR 1,000 MILES**

The average motorist taking a vacation trip of 1,000 miles this summer will pay about \$2.50 in State gasoline taxes. The Bureau of Public Roads of the United States Department of Agriculture publishes this statement. Now, maybe you will realize that you are a taxpayer.

Mr. Average Citizen pays in direct and concealed taxes plus high prices for what he buys, between 25 and 30 per cent of all he earns. The tax-makers among him knows—and he can tell you how it was that his own taxes were less in a year that he now pays out in so-called concealed and "nuisance taxes". The affairs of farms, forests, steel, mines, fuels, water, rail and automotive transportation, advertising, textiles, retail and wholesale trade, and every known line of human endeavor within the whole United States have suffered from extravagance and waste of Government.

**COMMITTEES SELECTED FOR MID-SOUTH FAIR**

Committees in charge of the Mid-South Fair 4-H-Club departments which will be one of the features of the Mid-South Fair on Sept. 13-18 inclusive have been selected and plans are already going forward to make this department outstanding in the big fall

exposition.

M. M. Bodonbaugh, district club agent of Mississippi, is chairman of the boys' work and will be assisted by C. E. Gilliland assistant state club agent of Arkansas and E. B. Jenkins, Shelby County agent of Tennessee.

In the girls' work Miss Hogan, district home agent of Arkansas, is to be chairman and will be assisted by Miss Elaine Massey, state club agent of Mississippi, and Miss Mildred Jacobs, district home agent of Tennessee.

In order that the public may be better acquainted with the purposes activities and results of 4-H Club work, the state and district club agents of Tennessee, Mississippi and Arkansas are co-operating with the Mid-South Fair in promoting a joint exhibit of boys' and girls work to be shown in a series of eight groups or booths showing various club projects and the work accomplished under the various heads.

L. J. Kerr is general superin-

tendent of the boys' judging contests, which are scheduled for Thursday, Sept. 16 starting at 9 A. M. The boys' section will also promote three judging contests, with livestock judging, dairy cattle judging and crop judging scheduled. The girls' section will promote two judging contests with judging of clothing and food preservation. Competition in these contests is open to teams from any southern state.

**GOOD NEWS FOR NERVOUS PEOPLE!**

**Dr. Miles Nerveine**  
(Liquid or Effervescent Tablets)

Soothes irritated nerves, permits refreshing sleep, helps you to "get hold of yourself."

NEARLY everyone is nervous these days. Financial worries, street and home noises, late hours, hard work and exciting recreation put a strain on the nervous system that brings on Sleeplessness, Nervous Headache, Nervous Indigestion, Restlessness, Irritability.

An attack of nerves may make you lose friends, quarrel with your husband or wife, appear a tyrant to your children.

DR. MILES NERVEINE has been soothing the nerves of the nation for nearly 60 years. If you are nervous, get a bottle or package at your druggist. He will refund your money if you are not entirely satisfied with the results.

Large package or bottle—\$1.00. Small package or bottle—50c

**QUICK CHEMICAL TEST  
RELIABLE FOR ALL SOILS**

No chemical quick test method is suitable as a sole guide for judging crop adaptation and fertilizer requirements of soils in all conditions, according to M. S. Anderson and W. M. Noble of the Bureau of Chemistry and Soils, United States Department of Agriculture. Neither can any one test kit be regarded as the best under all conditions. Each has merit, but all vary in their applicability circumstances. Seven test kits and several laboratory methods, compared on widely diversified soils varied in their diagnosis of soil constituents and soil needs.

For years agriculturists have sought chemical means of determining the available portions of phosphorus, potassium, and sometimes other elements in the soil. Many methods have been used with varying success. Equipment for carrying out several of these tests has been arranged in commercial test kits that may be operated by persons of limited training.

State agricultural experiment stations have found quick chemical tests valuable in diagnosing soil needs where the results have been interpreted by trained agronomists. These stations, however, possess more information than the average person would have regarding the responses of various crops grown on different local soils after applications of fertilizers. There is no proof that quick tests will be valuable to a person in a particular locality but they are thought to be of value under certain circumstances, particularly to one who likes to make practical field or garden experiments.

Mr. and Mrs. C. S. Hall of Detroit, Mich., have been visiting friends and relatives in Fulton. They will return home Saturday.

**HEY MOTORISTS!  
LISTEN!**

**BRAKE  
HANDLING**

By THE LITTLE ENGINEER

ALMOST every motorist could profitably take lessons from any experienced aviator on the handling of brakes.

How does a flyer use his brakes in landing on a small field? Well, he puts them on hard when the wheels first touch the ground and eases them up as the speed of the plane decreases. This is because he knows that the quick application of brakes toward the end of the run is almost sure to cause the ship to fall over on its nose.

It is practically the same with an automobile. A quick, heavy pressure on the brake pedal when the car is moving slowly will make the brakes "grab" and lurch driver and passengers forward uncomfortably and perhaps dangerously. Such a short stop without warning may send the car behind smashing into the rear of your car.

Quick braking is not good driving. When approaching a stop, the expert applies his brakes in plenty of time to allow the car to slow down gradually without jerks and coast to an easy, jarless stop. And he is particularly careful not to jam on the brakes when the machine is moving at slow speed. Learn to brake properly and smoothly and your passengers, other drivers and your car will thank you.

**HAAG BROS. CIRCUS IS COMING TO FULTON  
TUESDAY, AUGUST 31**

The Haag Brothers Circus is a perfect city in itself, visiting a different locality almost every day for 200 consecutive days, traveling approximately 30,000 miles in a season, yet moving with more system and with less fuss and noise than any branch of the army.

When annexed to Fulton one day only at Fairgrounds on Tuesday Aug. 31, it will add to the local population a Babel-like throng of people. These will come from every part of the world for the majority of the performers are foreigners and making their first tour of this country. Emma Bakos and her high jumping horse Emperor are among the stars. The canvas city will stretch over acres and in addition to its people, will comprise many horses, two herds of elephants, two caravans of camels, ten zebras and scores of wild animals.

One of the most interesting of the several circus departments is that in charge of the commissary. This official and his assistant do their marketing daily and hundred meals are served every 24 hours.

Doors to the circus will open at 1 and 7 P. M. The big show will start promptly at 2 and 8 P. M.

**JEAN HARLOW'S "DOUBLE"  
USED IN FEW UNCOMPLETED SEQUENCES OF "SARATOGA"**

Behind the release of the new Metro-Goldwyn-Mayer picture "Saratoga" which opens with preview Saturday night 11 P. M. and runs for 3 days thru Tuesday at the Orpheum Theatre with Clark Gable and Jean Harlow in the starring roles, lies one of the most unusual technical tasks ever attempted in a Hollywood studio.

When the flood of letters began pouring into the M-G-M studio demanding the release of this picture, Director Jack Conaway was faced with the problem of devising a means of finishing the few uncompleted scenes without the feminine star.

The solution lay in rewriting these sequences to eliminate as far as possible the character she played; reediting scenes already filmed to conform with the new treatment; and the use of several technical devices.

Fortunately, the ending of the picture with Miss Harlow and Clark Gable had already been filmed. Miss Harlow was in all the scenes up to the next to last reel of the production. A double was used in the few rewritten scenes, but her appearances were minimized. In these instances, only "long shots" were made, the double appearing with her back to the camera. In no place is her face seen. Other details, such as entering doors or running across a lawn to "tie in" with scenes already made by Miss Harlow, were used.

"Saratoga" a racetrack story from the pen of Anita Loos and Robert Hopkins, deals with the romance between the daughter of a wealthy horse owner and a bookmaker. Much of the action is laid at the Saratoga racetrack. The final two reels dealing with intrigue over a horse race and a bet were rewritten so that most of the racetrack where "long shots" with the double could be most easily made.

Decision to release the picture was made following floods of preview cards conducted by eastern newspapers showing a practically unanimous desire on the part of Miss Harlow's fans for the picture.

**PHOSPHATE BRINGS  
BIG WHEAT YIELDS**

Farmers cooperating with the Kentucky College of Agriculture in demonstrating the value of superphosphate and limestone in increasing wheat yields and in improving clover and other hay crops are reporting exceptional results.

Scott McLain and R. B. Walker, Spencer county, obtained 40 and 28 bushels to the acre, respectively on land treated with superphosphate, an increase of 10 bushels over wheat on untreated land.

In Marion county, W. V. Tatum grew 28 bushels of wheat to the acre, with the aid of limestone and superphosphate, and 16 bushels on the check plot. In addition, wheat on treated land was grazed by cattle and sheep.

In Woodford county, applications of superphosphate increased wheat yields at least 10 bushels to the acre, according to William Steele, Jr. Clover was also benefited.

C. H. Owen, Rockcastle county, threshed 32 bushels of wheat to the acre on a 20-acre field that had been reclaimed by drainage, limestone and superphosphate.

G. M. Haycraft, Grayson county, threshed 3,121 bushels of wheat from a 100-acre field that had received applications of limestone and phosphate.

In Robertson county, approximately 100 farmers had a production of 25 to 35 bushels of wheat to the acre.

**DAIRY COWS ON ALFALFA  
ALONE PRODUCE PROFIT**

What will a dairy cow produce on good alfalfa hay alone?

Fifteen Holstein cows, in a test conducted by the United States Department of Agriculture, averaged 11,125 pounds of milk a year on alfalfa alone compared to 19,207 pounds on a full-grain ration with hay and pasture. They alone compared to 6501 Setoneta averaged nearly 400 pounds of butterfat on alfalfa alone compared to 650 pounds on the full-grain ration.

The test was conducted by the Bureau of Dairy Industry at Huntley, Mont.; Mandan, N. Dak.; Woodward, Okla.; and Ardmore, S. Dak. In certain sections of the West, especially in irrigation districts there generally is an abundance of alfalfa hay. This test, says J. R. Dawson, feeding specialist of the Bureau, shows that a straight alfalfa ration may be fed profitably when the hay is of good quality.

**CIRCLE NO. 3 MEETS**  
Circle No. 3 of the First Baptist Woman's Missionary Union met Monday afternoon at 2:30 o'clock at the church with seven regular members present.

After a short business session conducted by the chairman Mrs. M. L. Rhodes, an interesting Bible study was given by Mrs. Joe Gates taken from the book of Jonah. After the program the meeting was closed with prayer; the meeting place to be announced later.

**SAXON-ROHRER CEREMONY HERE**

Mayfield—The marriage of Miss Cleo Saxon, daughter of Mr. and Mrs. James Saxon of Pryorsburg, to Mr. Samuel Milton Rohrer, son of Mr. and Mrs. S. M. Rohrer, was solemnized Saturday afternoon, August 14, at 2 o'clock in Fulton Square S. J. Bowers read the single ring ceremony.

The only attendants were Miss Metomah Rohrer and Chester Saxon, nephew of the bride.

The bride was attractively dressed in white flowered crepe with white accessories. Miss Rohrer wore a pink crepe frock and white accessories.

After the ceremony Mr. and Mrs. Rohrer left for a short wedding trip, after which they will go to Detroit, where they will reside.

For traveling Mrs. Rohrer wore a white sport suit with matching accessories.

**WEEK IN BILOXI**

Dr. and Mrs. J. L. Jones and daughters, Mary and Eleanor Ruth, are spending this week in Biloxi, Miss., and other southern points.

**RETURN FROM BILOXI**

Mrs. John Keena and daughter, Betty, returned Saturday morning to their home in Fulton after a vacation trip to Biloxi, New Orleans, and other southern cities.

**CLUB THURSDAY AFTERNOON WITH MRS. GEORGE DOYLE**

Mrs. George Doyle delightfully entertained her bridge club Thursday afternoon at her home on Third Street. Two tables of play-

ers were present which included seven regular club members with one visitor, Miss Sadie McKnight.

**LAKE PARTY**

Mr. and Mrs. Hillman Collier of near Fulton gave a swimming party and gypsy tea Friday night at Sunnyside Beach on Reelfoot Lake. Among the guests were Mr. and Mrs. Charles Bowers, Miss Irene Bowers, Bruce Henderson, Miss Elizabeth Dyrsdale, J. T. Dollier, Miss Mary Magdaline Henderson and Joe Bowers.

**REVIVAL AT RICEVILLE**

Rev. Ryan of Martin, Tenn., opened a revival at the Riceville Baptist church last Sunday. A good crowd was in attendance.

**CLARK-JEFFREY WEDDING THURSDAY**

Union City, Tenn., August 16—Miss Modest Clark, daughter of Mr. and Mrs. Lee Clark, of Lynn Grove, Ky., and Buren Jeffrey, of Murray, Ky., were united in marriage Thursday morning at nine o'clock at the First Methodist church in this city. The Rev. O. C. Wrather, pastor of the church officiated. Louis Wrather of this city was the only attendant.

Both are graduates of Murray State Teachers College and have been teaching in the country

**near Murray where they will make their home.**

Mr. Jeffrey is now connected with the Merit Clothing Company of Mayfield Kentucky.

**WITH MR. AND MRS. BINFORD**

Mr. and Mrs. Charles Binford were host and hostess to their bridge club Tuesday night at their home on Eddings Street. The usual three tables of players were present which included ten club-members and two visitors, Mr. and Mrs. W. D. Puckett.

At the conclusion of several games of progressive contract high score among the ladies was held by Mrs. Seldon Cohn and Mr. Puckett held high score for the gentlemen. Both were presented lovely prizes.

After the games the hostess served delicious sandwiches and cocktails.

**HOUSE GUEST OF FREEMANS**

Mr. and Mrs. Vester Freeman have as their house guest this week Mr. Robert Dee Layne of Truman, Arkansas.

**LOTTIE MOON CIRCLE**

The Lottie Moon Circle of the First Baptist Church met Monday night, August 16, with Mrs. Uel Kibbrebs at her home on Carr Street. Mrs. Russell Rudd was joint hostess.

The meeting was opened with prayers by the president, Miss Ann Lee Cochran, who presided over a short business session. The roll was called by the secretary, Miss Mignon Wright, who also checked the personal service reports and read the minutes of the last meeting.

The program for the evening was in charge of Mrs. Clyde Fields who conducted a discussion of India's missions. The devotional thought was taken from the thirteenth chapter of Acts. Those who participated on the program were Miss Mary Moss Hales, Mrs. Tom Beadles, and Miss Willette Cook.

At the conclusion of the program the meeting was dismissed with prayers by Mrs. Don Perry and a social hour was enjoyed. The hostess served a lovely salad plate.

The next meeting of this circle will be held Monday night, September 6, at the church, at which time the week of prayer will be observed.

**WEEK AT REELFOOT**

Mr. and Mrs. Frank Brady and Mr. and Mrs. Ernest McCollum spent last week camping at Reelfoot Lake.

**VACATIONING IN MONTANA**

Mr. and Mrs. King Rose and Mr. and Mrs. Eddie Kollrus of Jackson, Tenn., left yesterday (Thursday) for a vacation trip through Montana and the many other interesting points of the west.

**NIMBLE THIMBLE SEWING**

The Nimble Thimble Sewing Club met Thursday afternoon with Mrs. C. L. Maddox at her home on Eddings Street.

Club members and two visitors Mrs. Norman Veasey and Miss Ann Mack Lee of Memphis, enjoyed informal entertainment throughout the afternoon.

Late in the afternoon the hostess served delicious melon.

**SUNBEAMS HOLD MEETING**

The Sunbeam Band of the First Baptist Church met Monday afternoon at two o'clock at the church with thirteen regular members and three visitors present.

The meeting was opened with a song, "Jesus Loves Me." The roll was called and the minutes were read by the secretary, Miss Peggy Hutchins. The scripture lesson was read by Betty Jean Rawls taken from the twenty-fourth chapter of Luke. The mission study book, "Little Black Sunday," was given by the leader, Mrs. Jack Rawls.

At the end of the program the meeting was closed with prayer by Mrs. Rawls.

After the meeting those present enjoyed a picnic lunch and ice cream on the lawn of the church.

**BIRTH ANNOUNCEMENT**

Rev. and Mrs. Woodrow Fuller are the proud parents of a daughter, born Saturday afternoon, August 13 at the Baptist Hospital in Memphis, Tennessee.

**U. S. LEADS THE WORLD IN NUMBER OF RADIOS**

Of the approximate 56,225,000 radio receiving sets owned throughout the world about 30,000,000 are within the borders of continental United States, according to a report to the Louisville District Office of the Department of Commerce. The United Kingdom is second ranking in the ownership of radios with approximately 10,000,000. Germany is credited with 8,200,000 units; France, 2,625,000; Czechoslovakia, 928,000; Canada, 867,000; Belgium, 746,000; Australia, 745,000; Denmark, 651,000; Italy, 530,000; Poland, 519,000; Switzerland, 434,000; Hungary, 365,000; Union of Soviet Socialist Republics, 350,000; Mexico, 250,000; Norway, 240,000; New Zealand, 194,000; Rumania, 150,000; Union of South Africa, 137,000; Finland, 144,000; Uruguay, 115,000; Irish Free States, 104,000; and Cuba, 100,000. Arabia has but 25 radios.

Ethiopia, 25; Swaziland, 15; and French Guiana, 8. British Somaliland and Seychelles, a minute British Island of Zanzibar, with 2 each, have the smallest number of radio sets among the world's political subdivisions.

**TOO COLD STORAGE CUTS POTATO COOKING QUALITY**

Many thousand bushels of Irish potatoes go in to storage each fall for winter and spring use. After several weeks in average storage, generally reaching a temperature below 50° F. by early winter, only a small percent retain good cooking qualities for deep fat frying, as in making French fries and potato chips.

Investigations by the United States Department of Agriculture show that potatoes held at temperatures from approximately 50 degrees F. to 60 degrees F. cook well. Those held from 32 to 40 degrees F. contain an undesirable amount of sugar. When cooked these potatoes are soggy, dark brown and undesirable in taste. If held at from 40 degrees to 50 degrees F. they will be satisfactory for most purposes except for French frying and chip making.

Potatoes held at temperatures ranging from 40 degrees to 50 degrees F. will lose some of the undesirable sugar content if held at a temperature of 70 degrees F. for 4 to 6 weeks before using.

A New York chemist says he has discovered a way to make butterless butter. Now if he will invent spinless spinach, his work will be done.

One never knows how many friends he has until he makes up a batch of dandelion wine. As a general thing the Fulton man who is given to bitter arguments has a bad taste in his mouth.
