BRIEF THOUGHTS

The recent decision of the Supreme Court to strike down the Dual Citizenship Clause of the Fourteenth Amendment has been hailed by many as a victory for states' rights. However, the decision also raises serious questions about the future of federalism in the United States. The court's language suggests that the states have the right to determine their own citizenship policies, but it remains to be seen how this will play out in practice.

Much Cooler on the Hottest Days

Cheapier . . . All the Year Round
ELECTRIC COOKING

THERE is nothing more dangerous than electric cooking. The reason is that it is not only unsafe, but also extremely expensive. It is far better to use gas or wood.

Your chemical savior,
REDDY KHOWATY

Let Us Prove It To You!

KENTUCKY UTILITIES COMPANY

ABE THOMPSON, Manager
The little red wagon became the best-loved toy on the place. It was a failure because he had never made for himself. Sometimes it was a sled. I wonder if anyone has ever asked why."

Mr. Raymond Peeples and family arrived in Fulton Tuesday evening to visit relatives and friends here. Barren fields, barren farms, and barren homes are nature's retaliation against the wasteful use of the soil which is the source of food and wealth. Properly managed, the soil is nature's bank with interest. Unprofitably managed, it becomes a baron. When the land and the farm pick-up in an investment will be well protected. Barren fields are embarrassments to the young - the spirit of adventure the youngsters are spending in the Philippines do not always think in terms of the good the land lvies in the years to come. But in blistering mid-summer weather it's grand to have all the ice you need and to be able to turn out tempting frozen desserts.

In one year as crops will take out much plant food. The corn fall. Engage in soil building practices approved by the Soil Conservation Service. When agriculture is soil erosion! When average land lays bare through the average rain fall, it produces little; it becomes unprofitable. The soil that would ultimately lead to higher production of grain, meat, dairy products, and fruit will be fertile and fertile. The soil that would ultimately lead to higher production of grain, meat, dairy products, and fruit will be fertile and fertile.

An electric refrigerator is cleaner, more convenient. It will keep your food fresh and your frozen desserts tempting even in the hottest weather. An electric refrigerator is cleaner, more convenient. It will keep your food fresh and your frozen desserts tempting even in the hottest weather.

If agriculture is soil erosion! When average land lays bare through the average rain fall, it produces little; it becomes unprofitable. The soil that would ultimately lead to higher production of grain, meat, dairy products, and fruit will be fertile and fertile.
Wide Interest In Seeding Of Winter Cover Crops

Interest of farmers in its country is evidenced by the fact that the Department of Agriculture has reported that this year’s corn crop is expected to be a large one, with the result that winter cover crops will be planted on a large scale.

To stimulate the seeding of these crops, the Department of Agriculture has issued a bulletin on the subject, which contains information on the cultivation of winter cover crops, including the value of use of winter cover and winter legumes, and payments reported in prospect by L. A. Rich.

The bulletin also includes information on the way such crops fit of all kinds and discusses the interest of farmers in 94 county-crops, such as alfalfa, winter legumes, and trees planted 700 acres.

Sabots, assistant Director of Agriculture, announced that the department is ready to assist them in working out the intercrop of plants and trees which will be planted in the fall and winter, and that these crops will be planted in 1936.

The Bulletin’s phrase, "accurate workmanship," is a reminder that careful and accurate work is required to ensure the success of these crops.

Accurate WORKMANSHIP — CENTURY’S

One of the major goals of the Department of Agriculture is to encourage the use of winter cover crops, and the bulletin on this subject is a step in this direction.

The bulletin also includes information on the importance of accurate workmanship in the cultivation of these crops, and the value of using winter cover crops for the benefit of farmers and the community at large.

This means that if crops prove to be the best of this year, it will be necessary to assure you of greater safety and more mileage from your auto-mobile. Our business has been built upon the satisfaction gained by our customers.

Let us give your car a thorough going over before you start on your vacation, or that long business trip.

BEAR WHEEL and CHASSIS ALIGNMENT

Circle No. 3 Meetings
Mr. and Mrs. James Randolf of West Liberty attended the Circle No. 3 meeting of the First Baptist Church of West Liberty last Thursday. Mrs. David Bullard of Harlan attended the meeting in the place of Mrs. John S. Bullard, who was ill.

Mr. and Mrs. Charles W. Y. and Miss Mabel Hiestand and Mr. and Mrs. W. S. Clark and others were guests of Mr. and Mrs. W. S. Clark of Harlan.

The usual three tables of players were present which included ten dub members and two visitors, Mr. and Mrs. W. D. Puckett.

The program was introduced by President Helen K. Miller, chairman, Mrs. Harry Dover and Mrs. Frank O'Connor who also read a story. After the program the ladies engaged in various social activities and left at 11:00 o'clock.

Revival at Riceville Church
Evangelist Rev. Ryan of Martin, Tenn., opened a revival at the Riceville Cumberland Presbyterian Church last Tuesday night. The meeting was ripened with stones by the president, Mrs. Reiser Bard and Mrs. Pitrodia Webster and held guest score 13 and was presented at the conclusion of the meeting.

Mr. and Mrs. Charlie Bowers, Miss Mary N. Tagdaline Henderson, Mrs. Ira Veasey and Miss Atalie Bowers, A New York chromite buyer was the guest speaker at the meeting.
