HANK MONK

Tales from the Round Table

HANK MONK—What do you think of the road question? If you were at an intersection near your home and were faced with a decision, where would you go? Each person has their own opinion. If you were to go to the road, would you choose the one that is the shortest or the one that is the easiest? It requires a lot of planning and forethought to determine the best route to take. If you were to go by car, you would want to be careful not to get caught in traffic.

THREE CITIES

The port of Seattle, the city of Portland, and the city of San Francisco are three cities that are worth visiting. Each city has its own unique character and charm. If you were to visit Seattle, you would be able to enjoy many of the city's attractions, such as the Space Needle and the Pike Place Market. Portland is known for its beautiful riverfront, and San Francisco is famous for its Cable Cars and Fisherman's Wharf.

In Poor Health

It is necessary for health to combine both the strength of body and mind. A combination of these two elements is essential for a healthy life. The mind must be strong to overcome the challenges of life, and the body must be strong to withstand the physical demands of daily life. This is evident in the following text:

- Dr. Price's Croons Baking Powder
- BROWN Chemical Co., Baltimore, MD.
- SALE WISHLIST
- J. CHENEY & CO.
