"The Age Of Sheep"

The age of sheep may be determined by a combination of factors. It is important to consider the breed, age, and health of the sheep in order to get an accurate reading. The峡id method for determining the age of sheep is through dental examination. The teeth of a sheep grow throughout its life, so the age can be estimated by counting the number of wear marks on the teeth. Other methods include bone examination and physical examination. It is recommended to consult with a veterinarian for accurate determination of the age of sheep.

MILESTONES OF AMERICAN GARDENS

In 1699, the first American garden was planted in Williamsburg, Virginia, by Governor William Berkeley. This garden was not only a source of food for the residents but also a symbol of the new nation's pride.

TWO FOR ONE

No other nation on earth has as many trees as Americans do. Every year, we plant more trees than we cut down. The American forest is the largest in the world. In 1930, the United States had 700 million acres of forest land.

CHURCH GROWTH

It should be of some interest to share that Catholicism is now the largest religion in the United States.

BUMPER CROP TO AID BALANCE OF TRADE

Government projections point to bumper corn this year in leading agricultural producing areas, which augurs well for record exports and a balance of trade surplus this year.

In the past crop, which ended June 1, the United States had a favourable trade balance of $460 million. The report notes that a large crop will increase the surplus this year.

The agricultural industry is in a good position to supply the export market. The strong dollar makes it possible for farmers to export corn and other grains at a profit.

The report also mentions that the United States is a major producer of beef, pork, and other meats. The strong dollar makes these exports favorable as well.

WHO BUYS FARM PRODUCTS?

A recent study of payments by crop growers to agricultural manufacturers and processors shows that a large percentage of the total is paid to the farmer of origin.

As a result, the balance of trade surplus is increased further. The strong dollar makes it possible for farmers to send their products to the world market at a profit.

This year, the United States is expected to export a large amount of corn, which will benefit the balance of trade.

Mid-South Fair
Opens September 17

The Mid-South Fair will be held in Memphis, Tennessee, from September 17 to 25, 1937. The fair grounds are located at 200 South Main Street, and admission is free to all. The fair will feature exhibits of farm products, livestock, and crafts from all over the South. There will also be a variety of entertainment options, including horse shows, rodeos, and western dances. The fair is open daily from 9:00 am to 9:00 pm. Visitors are encouraged to bring blankets and to enjoy the festival atmosphere.

A Style Hint:

A photo shows a group of people posing for a photograph at the fair. The majority of them are wearing cowboy hats and boots, while others are dressed in modern clothing. The group is standing in front of a large tent or pavilion, which is decorated with bunting and other festive decorations.

Future Farmers of America hold their annual Mid-South Fair at the Fairgrounds. Following the parade, the Future Farmers will go to the Fairgrounds where they will inspect the big fall exposition in all its details. The governors of Tennessee, Arkansas, Missouri, and Mississippi have been invited to be here and ride in the parade. In addition, state superintendents of education and commissioners of agriculture have been invited.

Olive Kriby, a student in athletics, developed a list of tips for driving in Inclement Weather. These tips include:

1. Watch the road ahead. Be aware of the weather and road conditions.
2. Use your headlights. Be visible to other drivers.
3. Keep a safe distance. Leave enough space between you and other vehicles to react if necessary.
4. Use caution on bridges and overpasses. These areas may be more prone to icing.
5. Be prepared to stop. Always be ready to slow down or stop if needed.
