Teaching You Thrift

Practice makes perfect. Subscribers of The Fulton Advertiser, as well as yesterday constantly repeat that truth. Pupils learn by applying it.

Application of that principle to our everyday habits proves not only of practical help. We learn by practicing, whether it be a good habit or a bad habit.

This bank teaches you thrift by holding you to practice it. The lesson is easily learned once it is begun. To become perfect in it requires constant practice. A savings account is practical help. We learn by practicing. A savings account is practical help.

Business Crimes

Business crime is costing an annual toll of $1,500,000,000, about $1,000,000,000 more than ten years ago. If $1,000,000,000 has been charged up to the credit frauds and $900,000,000 to stock frauds.

Most financial losses are chiefly to the sale of corporate securities of actual or potential value, and from loans from bank check and other similar forms of securities. Over $1,000,000,000 have been taken from the people of this country since the war through the sale of various unsecured securities.

Stock brokers never have been so busy as in this country, alone. In separate and uncontrolled markets, the sale of $1,500,000,000 has been charged up to the credit frauds and $900,000,000 to stock frauds.

Little wonder, then, that business men have been aroused to action and that they have spurred legislators to start more stringent "They say laws. The tax stock corporation's a great thing in "United States. Because he presses on the week and tries advantage of their lack of knowledge.

He and all of his confederates who make a living by their wins, keep the heart on a business. They will have to be treated sooner or later.

Our Modern Day Schools

The public high school as it exists today is distinctly American and is of comparatively recent development in the history of educational institutions. The first public high school was founded in the city of Boston in 1821. Today, approximately eighteen thousand high schools throughout America are bringing educational opportunities to every reach of more than two and one-half million students and girls.

Prior to the development of the public high school the only training beyond the elementary was provided in the Latin Grammar School, during the period from 1730 to 1800. Since then the rise of the American High School has been rapid. Although founded originally to provide preparation for the college courses, the preparatory course has, in the present day, additional educational values not only for those who enter higher institutions of learning, but for all who enter the wide field of life.

The high school has become the "people's college" bringing within each reach of every child the opportunity to train for a higher life, and at the same time developing special vocational skills and abilities.

The high school of today is the result of thousands of hours of planning and study in the various states. The plans of each high school are drawn up in the State Department of Education, and the Department of Education of each state is the brainchild of the State Board of Education.

To Wash — Or Not To Wash
Canned Peas

To Wash:

The canner or canning machine should be thoroughly cleaned and washed just before canning. The inside of the can is washed with warm, soapy water and then rinsed thoroughly before filling. The can is then placed in boiling water for at least one minute before sealing. The outer can is also washed with warm, soapy water and then rinsed thoroughly before sealing.

To Not Wash:

The canned peas can be used directly from the can without washing. The can is simply opened and the peas are removed. This method is faster and saves time, but it is not always the best choice for some people who prefer to wash their canned goods before using them.

Efficient and Economical Home Heating

The home heating unit should be securely installed and set to the desired temperature. The thermostat should be checked regularly to ensure proper functioning. The heating unit should be cleaned and serviced regularly to maintain efficiency and safety.

Louisville, Ky., Sept. 18—More than half the U. S. Assn. for Democracy, a Populist group, has been asked by the short-lived Populist Press who heard T. B. Scattergood, a former Democratic candidate for governor of Nebraska, who is Chairman of the American Farm Bureau, to hear a speech by the United States' ambassador to the Conference to help roll up a big majority for the Populist party. The group, which was founded by the famous Populist leader, is responsible for, or that it approves of, the present 0.
