Vote Drifting To Gov. Smith

FOR PRESIDENT!

Gov. Alfred E. Smith

REPUBLICANS ARE SUPPORTING SMITH

Many Prominent Men Throughout Nation Break Life-Long Party Ties.

Hundreds of life-long Republicans, many of them of national prominence, are swelling each day the vast army of voters who believe that it is the duty of every thinking American to support Governor Smith.

Among the most recent of leading Republicans who have publicly repudiated the Republican candidate is Rudolph Spreckels, widely known banker and business man of San Francisco, owner of huge sugar plantations in Hawaii, and formerly a close friend and adviser of President Roosevelt.

Another influential Republican to declare for Smith is Spencer Penrose of Colorado, mining engineer and brother of the late Senator Boies Penrose, Republican leader in Pennsylvania.

Prominent Financial Figures

One Republican of considerable consequence who has just declared for Governor Smith is W. B. Hibbs of Virginia, president of W. B. Hibbs and Co., bankers, of Washington, D. C.

Two prominent New Jersey Republicans, John J. Stumler, president of the Broad and Market National Bank and Trust Co., of Newark, and Uval H. McCarter, president of the Fidelity Union Trust Co., of Newark, announced last week that they will support Governor Smith.

Another Republican banker to join the campaign to elect the Democratic candidate is De Lancey Kountz, chairman of the Board of Devoe and Reynolds Co., of New York.

Western Farm Leaders

Frank W. Murphy, chairman of the Legislative Committee of the Corn Belt Federation of Farm Organizations, and a member of the Minnesota delegation to the Republican Convention, has renounced allegiance to his party and repudiated Hoover as "an enemy of the farmer."

Other farm leaders to bolt the Republican party were Governor Adam McMullen, Republican Executive of Nebraska, and L. F. Shuttleworth, of Indianapolis, former head of the purchasing committee of the Indiana Federation of Farm Bureaus.

1928-29 YEAR BOOK

The Woman's Club year book is now in the hands of the printer and will be completed and ready for distribution at the first meeting of the club in October. Attractive programs for the year have been prepared for each department and the work of the club promises to be unusually interesting. The Garden department, organized some months ago, is featured in the book with a large membership and an interesting program. It can well be said that the Woman's Club of Fulton is a live organization of faithful workers for the betterment of our city.

FARM LEADERS BOLT HOOVER

Dyer of Indiana, and Reed of Minnesota, Declare for Smith.

RASKOB ADDRESSES FARMERS

Democratic Chairman Stresses Need for Program Which Will Bring Farm Prosperity—Urges Tariff Equality.

Further evidence that sentiment for Governor Smith is sweeping the Middle West is contained in the announcement that J. P. Reed, for seven years president of the Minnesota Farm Bureau federation, and John Nader Dyer of Vincennes, Indiana, director in the American Farm Bureau federation will support the Democratic candidate for President.

Both Reed and Dyer have been life-long Republicans. Each has issued a statement setting forth that the Republican party has turned a deaf ear to American agriculture and that the championship of the cause of the farmer by Governor Smith now compels true friends of agriculture to enlist in the Democratic forces.

Meanwhile, John J. Raskob, Chairman of the Democratic National Committee, was asserting the urgent need for a national policy giving the farmer prosperity and tariff equality.

"The greatest insurance for our future prosperity," said Mr. Raskob, "will depend on our ability to increase the purchasing power of the farmer. That can be done only through giving the farmer tariff protection, thus putting him on an equality with industry and enabling him to pay the high wages for farm labor which he is compelled to pay in competition with industry."

Cycle of Prosperity

Putting our farms on a profitable earning basis, Mr. Raskob pointed out, would give the farm population "which constitutes 25 per cent of our total population, tremendously increased purchasing power. Now purchasing power means consumption and consumption requires production—production requires labor and labor employed again means purchasing power and thus the cycle of prosperity is completed."

Feeling that the Farm Bureau federation should be non-partisan, Mr. Reed has resigned from his position as president of the Minnesota bureau to adopt the course of supporting Governor Smith to which he says he is compelled by the present issue between the Republicans and Democrats.

"Both the platform and the candidate of the Republican party," says Mr. Reed, "withhold from agriculture any promise of an adequate remedy for existing conditions, continuing their agricultural pledge to vague generalities which in no way define nor suggest the remedy long sought by American agriculture—'Control and orderly marketing of crop surpluses with adequate provision for the distribution of the costs upon the marketed units of the crops benefited.'"

Honesty Compels Endorsement

"The platform of the Democratic party and the pronouncement of its candidate upon the question of agricultural equality embraces so definitely and clearly the principles held vital to any adequate farm relief plan by myself and the farmers of the state generally, that candor and honesty compels me to endorse the platform and the candidate of the Democratic Party."

After reciting the failure of the Republican party to keep its pledges to agriculture, and the repudiation of the farmer's cause by Herbert Hoover, Mr. Dyer announces that he is quitting the Republican party, "disgusted with its lack of honor in the repudiation of its solemn pledges to the American farmer, and I am alighting myself with the Democratic party, with faith in its leader."

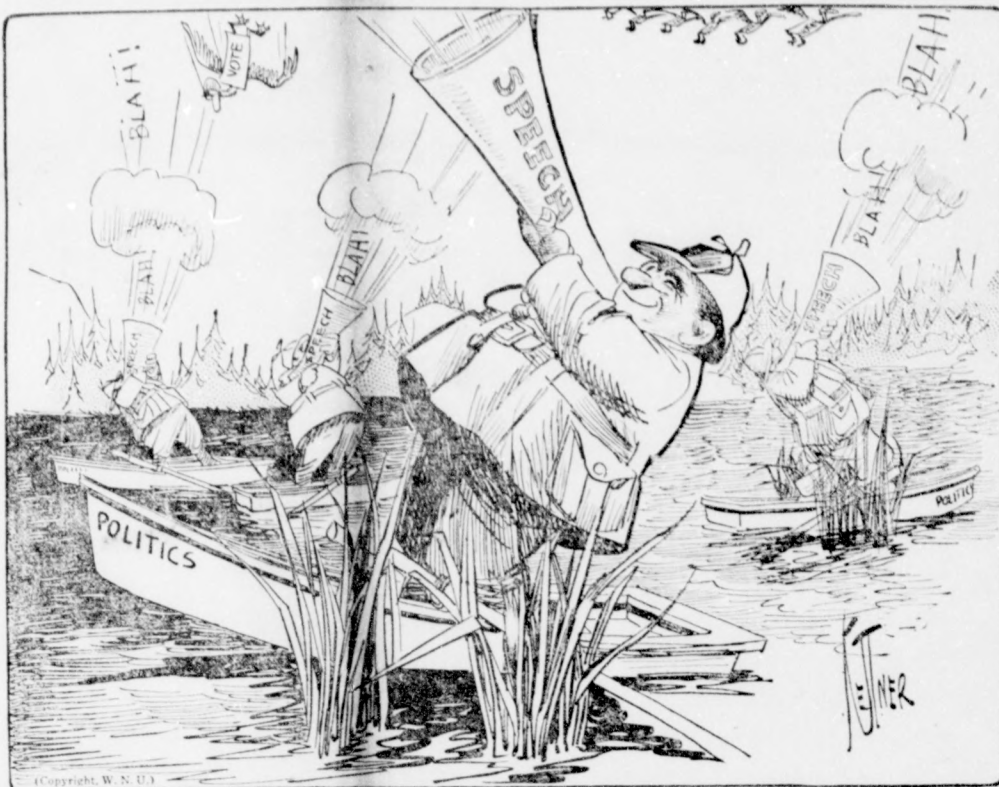

Mr. Dyer, operator of a thousand-acre farm in Knox county, Indiana, also states that he is a dry and a Protestant. He is president of the Knox County Horticultural association, and is one of the leading fruit growers of the country.

SURE OF SOUTH CAROLINA

Governor Smith is already assured of the largest votes ever cast for President in South Carolina. More than 150,000 persons have signed a pledge to support him in that State.

The Campaign for Votes Is Open

Political Speaking Saturday Night

Congressman E. E. Cox of Georgia, and Congressman Voris Gregory, of Mayfield, will address the voters at the City Hall in Fulton, Saturday night, Sept. 29. at 7:30 o'clock. Don't fail to hear these gifted Democratic orators. Ladies specially invited

What Is a Democrat?

By HON. ROBERT L. OWEN
(Former Senator from Oklahoma)

One who believes in freedom of speech, in freedom of the press, in freedom of religion, in the equal rights to every person to life, liberty and to the pursuit of happiness, and who believes in the principles of the Constitution of the United States properly interpreted.

He opposes all attempts of self-seeking interests to control the operations of the Government to private advantage at the expense of the public. * * *

A Democrat may be a Catholic or Protestant, Jew or Gentile, of any race whatever, and a Democrat may either favor the Volstead Act or oppose the Volstead Act. He is a Liberal as opposed to ultra-conservatism.—From the Congressional Record.

STREET WORK PROGRESSING

The Carey-Reed Construction Company has a large crew of laborers at work in West Fulton building streets. Much of the preparatory work has been done and the actual pouring of concrete started Monday morning on Fourth street at the intersection of Carr, notwithstanding the late start a number of streets will be completed this year.

LA ROCQUE, IN BARREL, ESCAPES ENEMIES IN "THE FIGHTING EAGLE"

A common ordinary barrel has stepped to the fore as the newest thrill producer for the movies!

Rod LaRocque, who portrays a swashbuckling young officer of Napoleon's army in "The Fighting Eagle," which Donald Crisp directed for DeMille pictures, while on a mission for his Emperor, is intercepted by the enemy. During a fast and breakneck chase over the hills of France, LaRocque, almost overtaken by his pursuers, stumbles upon an empty wine barrel. Jumping into the hogshead, he rolls down the steep incline and eludes his near captors.

This incident is one of the many "Adventures of Gerard," as chronicled by Conan Doyle in his novel of the Napoleonic era, which Douglas Z. Doty adapted to the screen. Phyllis Haver plays the feminine lead in support of LaRocque, while Sam DeGrasse, Max Barwyn, Julia Faye, Sally Rand and Clarence Burton also are seen in conspicuous roles. "The Fighting Eagle" will be on view at the Orpheum theatre on Monday and Tuesday next. It is said to be packed with drama, thrills and laughs.

CARR-BAUGHMAN

A wedding of more than unusual interest was that of Miss Mary Niel Carr, daughter of Mr. and Mrs. Herbert Carr, to Mr. Earl W. Baughman, of Nashville, which was quietly solemnized at the First Christian church in Paducah last Thursday, September 20, the Rev. U. R. Bell reading the ceremony.

The bride is one of Fulton's most charming young girls, and is the only daughter of Mr. and Mrs. Herbert Carr.

The groom is the son of Mr. and Mrs. H. E. Baughman of Stanford, Ky., and is a popular young business man of Nashville, Tenn., where they will reside.

MEMPHIS DAIRY SHOW AND FAIR LOOK BIG

Many Special Trains Engaged Exhibits to Set New Records

It looks like a whale of a show, was the manner in which an official of the Tri-State Fair referred to the "three big events," the National Dairy Exposition, National Cotton Show and Tri-State Fair, which will be staged in Memphis, October 13 to 20. "Interest in these three great expositions seems to increase each day as opening date approaches," said Frank D. Fuller, Fair Secretary, "and when we state that prospects indicate that this will be one of the very foremost agricultural events of the year, it is no exaggeration. Already more than 40 trains have been chartered and still others will be added to that list, for every day or two we receive requests for additional special trains."

"Nor are the people going to be disappointed in the show that is being built. Entries to the National Dairy Exposition, in cattle classes, milk products judging contests and in fact, all departments, promise to set new records, is the advice I have from Secretary S. H. Anderson. The National Cotton Show is far exceeding in size and interest, our expectations for its first year. The department of Agriculture and the Cotton Textile Institute of New York City are sending displays that are more extensive and elaborate than has ever before been assembled. The display of cotton in the \$10,000 Single Stalk Contest will tax our display space to the very limit, and looked at from any angle the cotton show will have a decidedly beneficial effect, it is something the industry has been needing for years."

Boys' and Girls' Club Work is another division of Fair activities concerning which the secretary was enthusiastic, and reported that without question it will be the greatest assemblage of these youthful agriculturists and home makers ever seen in the South, in fact, with the possible exception of the International Live Stock Show in Chicago, the greatest ever seen anywhere.

Displays in the Woman's Department, Agricultural Department, Poultry and Pigeon Shows, Sheep and Swine Shows, all promise to exceed those of former years, while the entertainment program, consisting of Auto Races, Horse Races, Circus and Vaudeville Acts, fireworks and other features, is sure to please all.

TROPICAL HURRICANE

DEATHS MAY RUN
TO FOUR FIGURES

Property Damage Will Be Stupendous, Stricken Porto Rico Alone Reporting \$100,000,000 Devastation.

A West Indian hurricane such as history has seldom recorded, already having swept over 1,500 miles of sea and land, dealing death and destruction in a 100-mile swathe, Monday night was roaring on through Florida to new fields in Georgia and South Carolina.

The death toll will run in four figures when the isolation of Guadalupe, interior Porto Rico and Central Florida has been conquered by relief forces already at work.

Property damage will reach a stupendous total, with Porto Rico alone estimating her loss in excess of \$100,000,000.

Storm Wreckage

Ships, farms, factories, roads, power, telegraph, telephone, cable and homes by the hundreds of thousands have been wrecked, torn, broken and flattened by the wind. Tidal waves have struck.

Starting to the eastward of the curve of the Windward Islands, September 13, the hurricane marched 300 miles a day steadily on over the Leeward and Virgin Islands, smashed down on three-quarters of Porto Rico with full strength, menaced the north of the Dominican Republic, reduced the Bahamas to complete silence for four days and trod on toward Florida.

Striking the southeast coast of that state Sunday with undiminished fury, it hurtled inland, leaving a wreck, behind from which news of dead and injured and of damage trickled slowly.

The hurricane destruction at Palm Beach and West Palm Beach was described Monday in a message to the Red Cross from the organization's leading officials in those cities as likely "to surpass the Miami disaster" of 1926.

SENIOR NEWS

The Senior Class held the first meeting of the year on Wednesday of last week. The following officers were elected: President, Robert Binford; Vice-President, Helen Rucker; Secretary, L. J. Morris; Treasurer, Martha Kendall. An executive committee of four members was chosen to transact the business of the class. The following were chosen as members: Mary Croft, Jane McAdams, Clanton Boyd and Paul Pickering, with the president as ex-officio chairman of the committee.

The Senior Class Rings were ordered Monday morning and will be here in about three weeks.

The busts of Horace Mann and Daniel Webster are being placed in the auditorium. These busts are the gifts of the Senior Class of 1928, to the Fulton High School and add much to the appearance of the auditorium.—Senior Reporter.

Dr. Henry Van Dyke Declares Defeat of Smith Would Be "National Calamity."

ASSAILS SECRET PROPAGANDA

Warning American voters that sinister and secret forces are threatening the very foundation upon which our Government is built, Dr. Henry Van Dyke, eminent educator, Presbyterian clergyman, author and diplomat has issued, from his home at Seal Harbor, Me., a ringing appeal for religious tolerance.

Dr. Van Dyke, who holds degrees from Princeton, Harvard, Yale, Pennsylvania University, Union College and Oxford University is perhaps one of the best-known of living writers and clergymen. In a formal statement, he said:

"At the present moment there is on foot in these United States a widespread cabal to keep one of the candidates for the Presidency from election because he is a member of the Catholic Church. The other candidate has handsomely disavowed any personal share in the sentiments or arguments which characterize this cabal. This is much to his credit.

"But unfortunately he can not, or at least he does not, restrain and check the pernicious activity of his supporters, who are convinced that the end of a victory for their party justifies any means which they employ to secure it.

"Hence, if their candidate should be elected, he would owe his election in part to the religious prejudice and anti-Catholic enmity which the cabalists have stirred up and marshaled to the polls. This would be a misfortune for him, and a calamity for our country as the home and citadel of religious liberty.

Most Important Issue

"The mere prospect of such a calamity ought to move the hearts of true Americans and honest Christians with dismay, and awaken their minds to serious thought and earnest action in defense of that real freedom of conscience which is the hard-won crown of glory of America and the dearest jewel of Christianity.

"That seems to me far and away the most important question before the country today—a question not to be answered by heated appeals to partisan allegiance, a question not raised, thank God, by either of the honorable candidates for the Presidency, but a burning question thrust upon the conscience of every American voter by the overt fulminations and covert whisperings of those who seek to defeat one of the candidates because he is a Catholic.

"My Protestantism is obedient to Him who said, 'Render unto Caesar the things that are Caesar's and unto God the things that are God's.' My Protestantism, which is hereditary from the school of William of Orange, tells me that 'conscience is God's province.' My Americanism, which is a stout growth of eight native-born generations, tells me that to vote against a man because of his church membership is to be untrue to the central faith of the Republic.

"Freedom of conscience is the greatest thing at stake in this campaign. Hundreds of thousands of voters fail to realize it.

"It is time to blow a trumpet to awaken the sleepers. The Palladium of the Republic is attacked by secret and open foes. It is in danger, trembling in its marble hall. The spiritual call to arms goes out to every man and woman. Defend the religious liberty of America!"

BLAINE ADVISES BOLT

Republican Senator in Wisconsin Declares Voters Must End Corruption; Says Friends Are for Smith.

MILWAUKEE, Wis.,—Republican leaders, disheartened by the tremendous reaction to the recent speech of United States Senator John J. Blaine, in which he bitterly criticized the last two Republican administrations and lauded Governor Smith, have practically given up all hope of swinging Wisconsin to Hoover.

Senator Blaine, a former Governor of Wisconsin, and one of the State's popular Republican leaders, declared in an address at Burlington:

"I have no doubt that my friends and supporters are going to vote for Governor Smith. We must condemn Republican silence on the scandals of the Harding Administration as an accessory after the fact. The thing to do is to end corruption by voting for Governor Smith."

MRS. ELLIS DIES OF INJURIES
SUSTAINED SUNDAY NIGHT

Mrs. O. C. Ellis, 30, of near Fulton, who fell, or was thrown from a car on the Union City-Fulton highway Sunday night, died from injuries sustained before regaining consciousness.

The dead woman's husband, who was driving the car is alleged to have said that while returning from a visit to friends on the highway, two cars were approaching him at a rapid speed and one attempted to pass the other car and that he, thinking a collision inevitable, applied his brakes full force, which caused his wife to either be thrown from the car or to become excited and jump out.

W. L. Joyner, local taxicab owner, brought the injured woman and her husband to Fulton when he, in passing, found her lying by the roadside in an unconscious condition. The injured woman was taken to Dr. Jones' office, who treated her wounds, but she never regained consciousness.

It is reported that Ellis created a commotion after arriving in town and was arrested by Officer Drysdale on a charge of being drunk and disorderly. On Monday in Police court, a fine was assessed against him and he was turned over to the Tennessee authorities and placed in jail with a charge of manslaughter against him.

Ellis and wife lived one half mile east of the city on State Line road.

In an examining trial before Justice of the Peace S. A. McDade in South Fulton Wednesday morning Ellis was bound over to await the action of the grand jury on two counts. His bond on a charge of driving while intoxicated was fixed at \$250.00 and that on the charge of involuntary manslaughter charge was fixed at \$1,000.

WHAT PROFITS MOST

The man who all his profit counts in mere financial gain, Has missed the finest of reward and lives his life in vain. The wealth that really is worth while, the profits that endure Though not so tangible as gold, are vastly more secure. In altruistic leadership and service freely spent Are greatest compensations found, and well deserved content. The moments spared from busy lives to lead our fellow men To new achievements that as yet are quite beyond their ken, Are moments fraught with happiness and pleasures that outweigh All treasures golden wealth can buy, or selfish dreams portray. The satisfaction in the task, when it has been well done, The stimulating consciousness that 'twas a worthy one, The broader vision that it gives, the new outlook on life, The substitution of good will for jealousy and strife, The spiritual and mental growth of leader and of led, The vision of the future that the leader sees ahead, The courage that is given him to brave his own despair, Because he helped his fellow men to triumph over theirs, The high esteem in which he's held by those whom he has served, The friendliness and kindness on every side observed— Are but a few of the rewards that fortune holds in hand For those who give in leadership the best that they command.

The leader who with goal ahead leads on to his ideal, Submerging his own selfishness to serve the common weal, More nearly reaches that ideal than any that the leads, And thus unconsciously becomes the man his country needs. Nor need one crave the larger task, or deem it nothing worth Unless his deed spectacular is known o'er all the earth. Through little deeds of leadership we reach sublime height. By little triumphs over wrong we reconstruct the right. The cup of water in his name will bring its due reward, And kindness to His needy ones will never be ignored. The bread upon the waters cast in future days returns, A deed of kindly service, too, its compound interest earns. So do not all your profit count in terms of sordid pelf, The best rewards are only won when you invest yourself. —Alfred Vivian, in I. C. Farm & Factory.

Improved Uniform International

Sunday School Lesson

(By REV. P. H. FITZWATER, D.D., Dean Moody Bible Institute of Chicago, 608 1924, Western Newspaper Union.)

Lesson for September 30

PAUL THE MISSIONARY

GOLDEN TEXT—Christ liveth in me. Galatians 2:20.
PRIMARY TOPIC—Stories of Paul.
JUNIOR TOPIC—Paul, the Brave Missionary.
INTERMEDIATE AND SENIOR TOPIC—Paul the Dauntless.
YOUNG PEOPLE AND ADULT TOPIC—"In Labors More Abundant."

In the review of this quarter's lessons, a good opportunity is given for character study. The interests of the quarter's lessons center in Paul, Stephen, Barnabas, John Mark, Luke, Timothy, James and Annas. Assignments should be made a week in advance for the preparation of brief essays by the pupils.

Another method would be to lift out the principles contained in the lessons of the quarter and apply them to the important problems of the day. The following suggestions are offered:

Paul's Ideal Education; Evidences of Genuine Conversion; What is a True Christian? What is the Real Missionary Spirit? Who Should Go as Missionaries? Should Religious Differences Be Compromised? If so, How Far? How to Be Assured of Divine Leading.

Perhaps the most satisfactory method for adults is to summarize the facts and state the leading lessons. The following suggestions are offered:

Lesson for July 1. Paul, by birth and education, had much to be proud of. A godly ancestry and a true education ought to be the heritage of every child.

Lesson for July 8. While Stephen ministered in the benevolences of the church he testified of Christ and met with violent opposition. The ring leader in this opposition was Paul. A man may be conscientious and wrong.

Lesson for July 15. Paul in unbelief zealously persecuted the church, even consenting to the death of Stephen. When his eyes were opened by the appearance of Jesus Christ on the road to Damascus he was transformed into a zealous witness for Christ.

Lesson for July 22. The sight which Paul had of Christ was so real that he at once testified of His deity and saving power.

Lesson for July 29. Paul and Barnabas were sent forth by the Holy Spirit to preach the gospel to the Gentiles. They were opposed by Elymas, the sorcerer. Spirit-filled men will most surely meet with opposition.

Lesson for August 5. The preaching of Barnabas and Saul was accompanied with such wonderful signs that the people attempted to worship them as gods. The same people soon were moved to stone them. Despite this horrible treatment, Barnabas and Saul carried on their work.

Lesson for August 12. The question of the grounds upon which Gentiles were to be received was bitterly debated. Paul preached that it was to be by faith alone. Certain Judging teachers taught that faith was to be supplemented by the works of the law.

Lesson for August 19. Paul was forbidden to preach in Asia; then called to preach in Europe. Divine guidance is just as really shown in closed doors as in open doors.

Lesson for August 26. When Paul's missionary work interfered with the unlawful gain of certain men at Philippi, he and Silas were sent to jail. Through their miraculous deliverance and their testimony of the saving power of Christ, the jailer was converted.

Lesson for September 2. Wicked Jews followed Paul to Thessalonica and Berea. They stirred up the people to such an extent that he had to flee. Wherever he went his ministry was accompanied by supernatural signs so as to convince the Gentiles.

Lesson for September 9. Paul preached the gospel in Corinth with such power that many were saved. The gospel is the power of God unto salvation.

Lesson for September 16. The church was threatened with disruption through party spirit. The right conception of the gospel, Christian ministers and persons constituting the church, will cure sectarianism.

Lesson for September 23. The Christian should abstain from that which might cause his brother to stumble.

Efficient and Economical Home Heating

The Enterprise Automatic circulating warm air Heater will heat the entire home with a constant circulation of clean, warm air, insuring the same comfortable warmth in every room.

Finished in dark grained Mahogany enamel, it is in harmony with the other furnishings of the most refined taste. The fire door, ash door and all mechanical parts are concealed when the cabinet is closed.

The powerful heating unit makes it most economical in fuel consumption. The wide deep air ways from top to bottom of the cabinet permit free passage of air, which is quickly heated in passing over the heating unit, and out the top to circulate through the entire house.

Hickman News

The cotton gins of Hickman are now under way, and while the cotton movement is slow as yet, it will be only a matter of a few days now until they will be running full time, but steam has been raised and the gins started and will continue until late in the winter. With the cotton gins running and the cotton crop moving life takes on new blood and a new step in this section, meaning a great increase in all kinds of business, with general activity. Added to this, this fall is the large amount of government work being done four miles below Hickman both to the river bank in re-vent and in the building of levee loop and enlargement work on Reelfoot levee, which works are employing hundreds of men.

All sorts of things have been stolen in this section, but a recent thief has just set a new record, one indicating that he must be an unusual thief or a most ordinary one and didn't know what he was taking, and did so out of curiosity. This latest article stolen is a blood pressure instrument stolen last Saturday night from the medical case of Dr. P. W. Prather, physician of Woodland Mills, seven miles east of here, and was taken from his auto. What he will do with it remains a conjecture.

Four Pounds of Lard In Thirty Years.

H. B. Bradshaw, of Wilson county, N. C., looks on his farm as a place to live and make a living. Only one year out of thirty has his farm failed to show a profit. He has raised eleven children has brought only four pounds of lard in thirty years and has never brought feed for his stock but one year since he began farming. The cotton and tobacco that he grows is just so much "velvet."

He has two tenants who follow his system and clear money every year. Thirty-five years ago, J. W. Gaston, of Spartanburg county, S. C., started farming with a rented mule. Adding a work animal every year for 25 years, he acquired a 26-horse farm of over 900 acres. He sells around \$1500 worth of bacon every year without robbing his smoke house. Needless to say, poultry and dairy cattle account for no small part of Mr. Gaston's substantial income from his almost ideally organized farm. His 15 tenants average \$200 a year from poultry. Incidentally, he averages a bale of cotton to the acre on 200 acres.

The ten weeks' old Duroc Jersey gilt with which John Walter Shill, of Hinds county, Miss., joined the Pig club in November, 1924, netted him \$1342.60 in 3 years. Raymond Watson, of Craven county, N. C., started in pig club work 8 years ago with one crippled pig. He is now a student at North Carolina State College and is perhaps the first club member who has fed and shipped a carload of demonstration-fed hogs.

East Tennessee is known as the "Hog and Hominy" region of the south. It is a section of progressive farmers, many of whom have no "money crop." The cash they take in comes from the sale of the wheat, corn and hay they can spare after supplying their own needs, and from hogs, cattle, poultry and dairy products. They raise about everything needed to feed their families and livestock, and generally have a surplus of everything to sell.

Tift county, Georgia, farmers have found that hogs will pay them from \$1.33 to \$3.00 per bushel for the home-grown corn that they eat. Charles Slappey, of Andersonville, Georgia, raised a litter of eleven pigs last year, that weighed 3,395 pounds when 180 days old, netting him \$765.72 cash. It does look like the hog business ought to be pretty firm-

ly established in Georgia, considering the fact that her founder, James Edward Oglethorpe, had a boar's head on his coat of arms.

A farmer may not be able to grow pork for market at a profit, but the farmer who says that he can buy cheaper than he can produce, seldom has money enough to buy meat with which to season a mess of beans. However, he is generally the kind of fellow who never has time to fool with a garden, so it doesn't matter.

Miss Louise McGill, county demonstrator, organized two 4-H clothing clubs at Oakton last week. The following officers were elected for the older girls: Doris Claud, president; Mabel Middleton, vice-president; Mildred Mayberry, secretary, and Helen Freeze, recreational leader. Eighteen members were enrolled in this organization. For the younger girls the following officers were elected: President and vice-president, Thelma and Velma Stephens, twins; for secretary Verna Mayberry; recreational leader, Diana Edwards. Thirteen members were enrolled in this club. The leader for both clubs is Miss Rachael Templeton. Miss McGill also met with the Home Makers club at Beelerton. Fifteen members were present. Wednesday afternoon the Milburn Home Makers club met and elected officers as follows: President, Mrs. R. M. Crutsinger; vice-president, Mrs. Raymond Green; secretary, Mrs. Cora M. Klapp; program conductor, Mrs. D. P. Sandford. The clothing lesson was given by Mrs. C. L. Chester.

In compliance with a custom of the past three years, Fulham high and the surrounding grade schools are inviting the patrons and friends to join them in a community fair to be held at Fulham high on Friday, Sept. 28.

Mr. W. A. Cooper and Miss Pearl Ellis, of the Crutchfield neighborhood, were united in marriage at Cayce Sept. 16. The Rev. Mr. Cooley, pastor of the M. E. church, performed the ceremony.

Dr. and Mrs. Simpson and son, Thomas of Clinton, attended the funeral of Mrs. Simpson's aunt, Miss Bettie Klapp, at Milburn. Miss Klapp fell four weeks ago and broke her hip. She gradually grew worse until death occurred.

Sept. 18 was the eighty-second birthday of "Uncle Billy" Wray. It was also the 'steenth anniversary for Henry Brazzell, whose age we won't tell. Then last Sunday was the birthday of Mrs. King Spicer. All of these joined in a celebration at the Wray home. Relatives and invited guests assembled to enjoy a big dinner, served at noon, to mix and mingle in fellowship and to felicitate those in whose honor the event was held.

Among the County Agents.

The Christian County Farm Bureau and Hopkinsville Chamber of Commerce promoted a tour of Graves county farms, 42 farmers and five business men making the trip in the interest of dairying.

More than 300 farmers attended a mari spreading demonstration on the farm of Ollie Craycraft in Bath county, where teams and scrapers were used in loading and spreading in unloading.

Jessamine county farmers who tried Jap clover and alfalfa this year are so well pleased that many of them plan to spread limestone for larger acreage.

J. W. Posey of the Gresham community in Green county reports an increase of \$50 in tobacco from 1/2 of an acre, due to the application of 150 pounds of nitrate of soda.

Paducah Lighting System Settled

Paducah, Ky., Sept. 25.—This city today officially halted a movement proposing issuance of \$800,000 worth of bonds to build a municipal electric power system when Mayor Ernest Lackey contracted with the Kentucky Utilities Co. to supply electricity for all city street lighting for the next five years and the company agreed not to raise its rates during the next twelve years.

This action follows investigation of operation and finances of a number of municipal electric plants in surrounding states by the mayor and local business men and an engineering survey covering the feasibility of such a plant in Paducah. While there was agitation in some circles for municipal ownership, leading business interests opposed the movement and brought about negotiations between city officials and the company. Both local newspapers today published editorials commending the agreement.

In a public statement made after signing the contract, Mayor Lackey pointed out the company has cut domestic and commercial rates twice in the last year, has reduced lighting rates and will extend the city's white way illumination system as part of the agreement. He called attention to Paducah's large sewer building, street paving and school building program, and declared it his opinion that the citizens, in the circumstances, will do better not to undertake the responsibility of building operating a municipal electric system.

The Kentucky Utilities Co. operates the electric, gas and street transportation services in Paducah. Its officials state that the company's extension of power lines, gas mains and purchase of new rolling stock for use here in the last two years have cost upward of \$1,000,000.

Route 5 News (Chestnut Glade)

"Welfare Workers' " supper and spelling bee Friday evening was well attended by an appreciative crowd. The two rooms were comfortably filled before eight o'clock. Supper consisted of hamburgers, coffee, cocoa, pie candy, lemonade and ice cream, which was served in the smaller room. Promptly at nine o'clock the spelling began, and at 10:15 the prize was awarded to the winning side. Mrs. Permyer immediately cut the cake and passed it to the other side first, then to the winners. The "booby" prize, a monkey on a string, made by Mrs. Zola Young, was then presented to Mrs. John Coffman, who chose on the losing side.

Mrs. Thelma Frost drew the lucky number, winning the coconut cake baked by Mrs. John Coffman, who won the blue ribbon on her coconut cake at the Fulton Fair this year. Quite a neat little sum was cleared by the club and the evening was enjoyed very much by all present. We wish to thank every one for their hearty cooperation in this, our first entertainment.

Why do we picture this dollar so LARGE?

WE picture this dollar so large because it represents a dollar's worth of electric service. Although most necessities of living have practically doubled in price in the last twelve years—a dollar buys you more electricity today than ever before.

The company's power plants and transmission lines are efficiently operated, and as new economies are put into effect the benefit is passed on to our customers in the form of lower monthly bills.

FARM AND LABOR LEADERS LOYAL TO GOVERNOR SMITH; G. O. P. MEN ACCLAIM HIM

William Green, President of American Federation of Labor, Lauds Governor's Record.

UNANIMOUSLY ENDORSED
BY STATE FEDERATION

60,000 People in Demonstration at State Fair; Democratic Candidate Acclaimed by Republican Farm Leaders.

Tolson in his own State last week, and among two distinct classes—the farmer and the labor man—Governor Alfred E. Smith's popularity was so spontaneously and so enthusiastically attested, that any lingering doubt of his tremendous strength among those privileged to know him must certainly have been dispelled.

Governor's Day at the State Fair at Syracuse, attracted more than 50,000 people from the rural districts, and proved to be one of the most impressive demonstrations ever accorded a presidential candidate. Again and again throughout the day the fair grounds resounded with tumultuous cheers for the guest of honor. Republicans and Democrats joined in acclaiming the man who as Governor had won the ardent friendship of the farmers of his State.

Labor Demonstration

At a meeting of the State Federation of Labor, in Rochester, the Governor's name, uttered by William Green, President of the American Federation of Labor, brought an ovation almost unprecedented in a labor gathering.

Congratulating the State Federation upon having obtained "the best body of labor laws of almost any State in the Union," Mr. Green said he realized the State had been fortunate in having Mr. Smith as its Governor.

Instantly the 472 delegates and almost as many visitors were on their feet cheering wildly. For a long time, while the speaker waited, the demonstration continued. Then Mr. Green said:

"You have been fortunate indeed, in having as Governor one who was in full sympathy with your social justice program and who assisted in securing this legislation.

Great Outstanding Figure

"I am glad that a study of the record shows that the working men and women in this State showed their appreciation by voting for him almost unanimously in every election in which he figured.

"This great outstanding figure has now been called to a larger field. I am convinced that Governor Smith's speech of acceptance and his reference to the abuse of injunctions has made a deep impression on every industrial State.

"It is the purpose of the American Federation of Labor to acquaint its members with the speeches of acceptance of both candidates and their records in matters affecting labor, and then leave the subject to the political conscience of the working men and women of America.

"And I am satisfied that when they go to the polls, they will stand by those who stood by them in their hour of need."

Endorses Governor Smith

A resolution endorsing Governor Smith and calling upon labor everywhere to support him, was unanimously passed by the Committee on Resolutions of the State Federation.

Another demonstration occurred at Syracuse, when Governor Smith addressed an almost solidly Republican audience of 250 farm leaders, at a dinner given in his honor by Jerome D. Baranum, publisher of a Republican newspaper, the Syracuse Post Standard.

GEORGE WASHINGTON ON RELIGIOUS TOLERANCE

As a reply to the bigoted propaganda, attacking Governor Smith on religious grounds, which is being distributed through the South by various intolerant organizations, the Democratic National Committee has issued photostatic copies of a letter written by George Washington to the members of the New Church, a Baptist congregation, in Baltimore. In it, the "Father of the American Republic" said:

"We have abundant reason to rejoice that in this land the light of truth and reason has triumphed over the power of bigotry and superstition, and that every person may here worship God according to the dictates of his own heart.

"In this enlightened age and in this land of equal liberty it is our boast that a man's religious tenets will not forfeit the protection of the laws, nor deprive him of the right of attaining and holding the highest offices that are known in the United States."

VETERANS FOR SMITH

Say Hoover Ignored Disabled Soldiers; Attack Red-Tape and Bureaucracy; Cite Governor's Record.

Endorsing Governor Alfred E. Smith as a tried and true friend of the ex-service man, a group of former soldiers of national reputation, led by General Henry T. Allen, former Commander of the Army of Occupation, has formed the National Democratic Veterans Organization, to direct a campaign on behalf of the Democratic candidate among the veterans of the country.

Among those who attended the first meeting of the organization in New York were General Edward A. Logan of Boston, Commander of the New England Division in the world war, Major General John F. O'Rourke of New York, Commander of the 77th Division; Major Bernard Ryan of Albion, N. Y.; Commander E. C. Kay and former Commander William Jones of the Veterans of Foreign Wars; Major William F. Deegan, former Commander of the American Legion; Col. J. Monroe Johnson of Marion, S. C.; Col. John Noonan of Springfield, Mass., and James J. Hoey, vice chairman of the Democratic National Committee.

Replying to the "specious arguments" of Republican speakers that Governor Smith had been unfriendly to war veterans in criticizing the alleged economy of the Republican Administration, General Allen said:

"Governor Smith in his speech of acceptance, instead of finding fault with the appropriation for aid of disabled war veterans, approved them. What he did criticize is the intolerable 'red-tape, technicalities and bureaucracy' which has marked the administration of these funds under Republican rule.

"In his speech of acceptance, Mr. Hoover completely ignored the plight of the disabled war veterans throughout the nation.

"That Governor Smith's fullest sympathies are with the war veterans and that he believes they deserve the fullest measure of assistance from a grateful Republic, is shown by the fact that under his administration as Governor of New York State he signed legislation providing a liberal state bonus; special recognition under state civil service laws; providing an annual grant of \$500 a year to blind veterans of any American war who are residents of New York State; and an appropriation of \$10,000,000 for a state hospital for the sole care of New York's disabled veterans."

Here's Why We Recommend BRILLIANT COAL

Leaves No
Clinkers

There's not a clinker in a carload of Brilliant coal. It burns to a finish—never smothers into a cloggy mass which clogs the fire, checks the heat and causes constant trouble.

Only
2% Ash

Ashes are waste! Ordinary coal has 15% ash. That means that out of every dollar that you spend for ordinary coal, 15 cents goes into your ash can. Brilliant coal is 98% pure heat and leaves less ash than practically any coal produced.

Ignites
Quickly

Just a few sticks of kindling—the scratch of a match—and your Brilliant Coal is sending up dancing darts of flame that light the distant corners of your rooms with a friendly, radiant glow. Every pound has 15,000 heat units!

Least Breakage
Largest Ton
Most Heat

BRILLIANT COAL IS CLEAN AND HARD—WON'T crumble or powder in delivery or handling. SEVEN TONS OF BRILLIANT COAL EQUAL EIGHT of ordinary coal in weight because Brilliant is a light coal. FOUR TONS OF BRILLIANT COAL GIVE AS MUCH heat as five of ordinary coal because each ton of Brilliant has 15,000 heat units. Regardless of the type of your heating plant—grate, furnace, stove or Arcola—Brilliant Coal is sized to suit—lump, egg or nut. Now for another Brilliant season!

When death enters your home you want a service that is complete; and you want that service rendered by those who are competent, and who hold the confidence placed in them, as a sacred trust.

Our ambulance service is the best that can be had, and has been for the past four years. Our hearse is the most modern in this community. Our funeral home, located at 218 Second Street, is by far the most beautiful and complete in this section, with ample sleeping rooms for family of deceased should they be needed.

Our embalming is done by Paul Hornbeak, with Mrs. J. C. Yates as lady assistant.

We answer ambulance and death calls for any distance.

FOOD LIKE YOU GET AT HOME

This is truly a home-like restaurant because it has endeavored to break down the prejudice based on the theory that restaurants could not serve food like you get at home. Many patrons will testify that there is no difference between our meals and the meals they get at home. That's the reason they come here so frequently to eat.

Years of catering to the appetites of particular people make it possible for us to serve appetizing meals.

The next time you want to eat away from home, bring your family here.

Myrtle G. Jackson Appointed Home Agent for Fulton County

Miss Myrtle G. Jackson has just been appointed Home Demonstration Agent for Fulton County by the Agriculture Extension service of the University of Kentucky, her appointment to take effect immediately, with headquarters at Hickman. Her entire time will be devoted to the work in the county, giving to the women and girls of Fulton county help in homemaking problems. This is the same service for girls and women as the County Agent gives in Agriculture to the men and boys of the county. Every other county in this section of the state has a similar service. The Home Agents work in McCracken, Ballard, Galloway and Graves is of long standing and the women in those counties carry on a very constructive piece of work through their Homemakers clubs. This opportunity is given to this county for the first time, just as it is given to Carlisle and Hickman counties where Miss Louise McGill has just recently taken up work as Home Agent.

Miss Jackson is a native of Alabama. Her training was taken at Auburn, Alabama and University of Wisconsin where she was graduated in 1927. Last year Miss Jackson very successfully taught Home Economics at Alexandria, Alabama, establishing the Home Economics department there. Miss Jackson did outstanding and thorough work as a teacher and her supervisor in Home Economics as well as her co-workers offered her every inducement to remain. The field of extension has appealed to her throughout her college work, however, and she accepted work in Kentucky. This summer she has served as Home Economics Assistant in 4-H Club camps in Eastern Kentucky, where she did exceptionally fine work. Recently she has been acting as Assistant Home Demonstration Agent in McCracken county.

Miss Jackson is exceedingly easy to meet and is anxious to get the work with the women and girls of Fulton county started. Her office will be with the county agent, H. A. McPherson. Two Saturdays each month will be spent in this office, and two in Fulton, where the Chamber of Commerce has kindly extended hospitality. Miss Jackson is arranging a schedule now whereby she will meet with groups of women in various communities of the county for the purpose of organizing Homemakers clubs. Next month Miss Jackson and H. A. McPherson, county agent will enroll Junior 4-H clubs.

The purpose of the Homemakers Clubs is to offer to the Homemakers in any community practical help in their homemaking problems and to give them the advantage of studying these problems under trained leadership. These clubs are organized with officers as any group is organized and in addition special leaders are appointed to represent various phases of homemaking. These leaders meet with specialists from the University from time to time, taking back to their communities this information and help. The program for this fall is to be "Problems in Dressmaking" under the direction of Miss Isabel Storey, Clothing specialist from the University of Kentucky at Lexington. This program will include practical problems in clothing that will help any home maker and will take up all the problems for sewing for the family.

The program for the winter and spring months will be a study of the home garden and canning for family use. The Home Agent will be helped with this program by Miss Dixie Harris, Nutrition specialist from the University and John S. Gardner, gardening specialist from the University and Mr. W. Magill, horticulturist.

Giant Talking Cow to Tell New Story

Memphis, Tenn., Sept. 25. — A huge talking cow, standing 8 feet high, will greet visitor entering the Exhibit Building at the National Dairy Exposition at Memphis, Oct. 13-20, this year.

The giant cow moves her head, switches her tail, rolls her eyes and speaks. Not alone does she do these things she shows the spectators and her auditors how the process of mastication, digestion and assimilation works by a look on the inside. In front of the Gargantuan cow stands a farmer discussing with her the question of what to feed. In the course of the conversation the points of better dairy feeding are brought out. The "farmer" is realistic and moves his hands as he talks.

The talking cow is but one of the features of the exhibit of the United States Department of Agriculture and is supplemented by a complete picturization of the economics of profitable dairying.

The National Dairy Exposition will be held in conjunction with the National Cotton Show and the Tri-State Fair and as the circus ballyhoo men say "One admission admits to all."

Dairy Show Crowds to Top All Records

Railroads Announce 41 Special Trains -- More Coming.

Memphis, Tenn., Sept. 27. — With interest in dairying on the jump throughout the South, attendance at the National Dairy Exposition, National Cotton Show and Tri-State Fair at Memphis, Oct. 13-20, now promises to set a new high record, topping even the one set at the National Dairy Show at Springfield, Mass., in 1916 when 290,000 people passed through the turnstiles.

Forty-one special trains from all parts of the South have been announced by the railroads and more are yet to come—thus establishing a new train record in the south for an agricultural exposition. Railroads have slashed the fare for the round trip to three-quarters of the one way rate. Low rates have been put into effect from all parts of the United States.

Nearly 1200 head of the country's finest purebred and grade dairy cattle are to be paraded before the judges in the show ring—here too creating a new record for a dairy exposition in the south. All five of the nation's outstanding dairy breeds—Jersey, Guernsey, Holstein, Ayrshire and Brown Swiss—will be represented by fine herds. Prizes for dairy cattle total \$29,500.00 in addition to which many trophies will be awarded.

How the educational forces of the federal government and the states are extending knowledge of better and more profitable dairying to the boys and girls of the country will be demonstrated by many contests in which hundreds of college and vocational students and 4-H club workers will take part.

Characterized as "The Show Window of the Dairy Industry," the National Dairy Exposition this year will cover ever phase of dairying. The exhibits of dairy farm and barn equipment and dairy products alone will cover many acres.

To those now in the dairy business or contemplating entering it the exhibit of the Bureau of Dairy Industry will be particularly interesting, providing as it does in simple terms, almost a post-graduate course in the selection and care of cows and the proper handling of dairy products. The National Dairy Exposition is the annual round-up of the nation's finest dairy cattle and its blue ribbons adorn the world's finest. The National Cotton Show and Tri-State Fair make this the South's greatest agricultural exposition.

More and Better Telephone Service for the South

THE extensive telephone construction and replacement work now under way in Kentucky is regarded as a splendid indication of the growth and progress of the state.

The general improvement of the service which has been so noticeable during recent years is continuing and the expansion of the system insures prompt response to all reasonable requests for service.

Kentucky's telephone system has grown to the point where it now requires 151 central offices, 424,900 miles of wire, 7,546 miles of pole line and 441 miles of underground duct.

Last year there was a large increase in the number of local and long distance calls handled and the high speed and dependability of the service won the commendation of customers.

It is the ambition of the 2727 skilled workers who serve you in the Bell System in Kentucky, to make the service as nearly perfect as is humanly possible. They appreciate your friendly interest and share your pride in the advancement of our state.
