In his speech at the Free Soil convention last year, Mr. John A. Logan, the Democratic candidate for President, said: "A Democrat is the best of all the race. He is the greatest of all the races. He is the last of all the races. He is the winner of all the races." Hickman News

The cotton growers of Hickman are now under way, and while the operations are in progress, it will be only a matter of a few more weeks until the cotton will be ready for market. At this time cotton is bringing $1.35, but the farmer who sells his crop now will find it cheaper to do so than it will be later. A farmer may not be able to get as much for his cotton now, but the farmer who sells his crop now can buy cheaper than he can later. Cotton prices have risen so high that it is necessary to sell cotton now to make money. The general trend of the market is up, and the cotton now on hand is worth more than the cotton that was on hand a few days ago.

**Fulton Lighting System Settled**

Paducah, Ky., Sept. 30.—This city today officially hailed a monumental power system of $800,000 worth of books to build a municipal electric power system when Mayor Ernest Lackey entered into a contract with the Kentucky Utilities Co. to supply electric energy to all city street lighting for the next five years and the company agreed not to raise its rates during that period.

Mayor Lackey told reporters that the action followed investigations of the operation and finances of a number of municipal electric plants in surrounding states by the mayor and local businessmen, and an engineering survey concerning the feasibility of such a plant in Paducah. While there was agitation in some circles for municipal ownership, leading business interests opposed the movement and brought about negotiations between city officials and the company.

Both local newspapers today published editorials commenting on the decision.
