Parsonage March 16.—How is it that you do not think about what the word home means. It is not the same that makes the heart content. It is not the love of, joy of, peace and plenty. It is not the friends and friends and relatives that means anything. It is the consciousness which weighs every fiber of the heart and home. That is the home heart has been built. It is the real building. Those people you name are material and the family bound together by the bond of love. Any other is the bond that makes the heart content.

A good backer—the cart horse. A severe rheumatic pain in the back is a common complaint among people who spend most of their time sitting. This is especially true in colder climates, where the body is more prone to joint inflammation. The best way to deal with back pain is to get regular exercise and maintain a healthy diet. In the state of Georgia, the number of cases of catarrh that require treatment is growing. The Paducah Weekly Standard will publish gratis a column for sample copy. Address, Paducah, Kentucky.
