GOV. SMITH IS BETTER FITTED TO HEAD NATION

Enraged Republican Banker Calls Him Master of Science of Government

HOOVER LACKS DIPLOMACY AND COURAGE, HE SAYS

J. E. B. Davis, knotulsh, featured speaker at a recent Republican meeting here, spoke at length concerning the qualifications required for a head of government.

Davis pointed to the recent events in Europe as an example of failed diplomacy and said that the Hoover administration was not up to the task.

The former Texas governor also criticized Hoover for his handling of the recent economic crisis, saying that the country was worse off than before the depression began.

Davis concluded by stating that the United States needed a leader who had the experience and wisdom to guide the country through these difficult times.

New First Christian Church

The building committee was hard at work to erect the building which was to be dedicated to the memory of a former First Christian member.

The committee is working with the old camp, and the building will open with a splendid service.

FARMERS IGNORE HOOVER

M. E. BISHOPS REBUKE

The W. O. meeting Friday night, Sept. 24, at the Rouse Hall, was presided over by R. J. Flowers, of Louisville, Ky., State Manager.

The meeting was held to discuss the recent events in Europe and the situation of the farmers.

The farmers were of the opinion that the Hoover administration was not doing enough to help them.

The meeting ended with a vote of no confidence in President Hoover.

PIZARRO'S SEARCH FOR GOLD AFFECTS TODAY'S FOOD COST

Wine, flour and those essential commodities of life, have all been nullified in part or in whole, by the demand for gold in Peru. Peru, which was once the wonderland of the world as a gold-mining country, is now in the throes of a gold rush which is threatening to affect the price of food in the United States, as well as in other countries.

The demand for gold in Peru is due to the fact that the gold is being used to purchase the necessary supplies for the war in Europe. The Peruvian government has declared that all of its gold reserves will be used to pay for the war, and the demand for gold in the country is expected to increase as the war continues.

The effect of this demand for gold on the price of food in the United States will be to increase the cost of living. The price of wheat, which is the most important item in the diet of the American people, is expected to rise as the demand for gold in Peru increases. The price of corn, which is also an important item in the diet, is also expected to rise.

In conclusion, the demand for gold in Peru is expected to have a significant effect on the price of food in the United States. The increase in the cost of living is expected to be substantial, and the effects of this increase will be felt by all segments of the population.

Alfred E. Smith—An American Career

Since the Assembly was organized in 1847, none of the members have been as prominent on the political stage or have been as influential in determining the course of legislation as Alfred E. Smith, who was a member of the Assembly from 1917 to 1929.

Smith was born in New York City on December 17, 1888, the son of John A. Smith, a blacksmith, and Margaret Ann Smith, a schoolteacher. He attended public schools in New York City and graduated from New York University in 1910. He then entered the law profession and was admitted to the bar in 1912.

Smith was a member of the Assembly from 1917 to 1929, and during that time he was a leader of the Tammany Hall organization. He was a member of the State Senate from 1929 to 1935, and was a member of the House of Representatives from 1935 to 1947.

NATIONAL CAMPAIGN TRENDS

With the presidential campaign in full swing and only a little more than three weeks intervening between now and election day, it is possible to expect at least a few developments of interest and importance.

Danger that the Solid South will again be divided for the Democratic ticket has been distinctly bad in New York. Although the power of the Negro vote is now recognized, local conditions are quite different. In other Southern States, with the exception of North Carolina, are discounted by nearly all Democratic leaders as unimportant and by well informed Republican leaders and the Missouri.

With vigorous effort on the part of regular Democrats combined with all the important Democratic leaders throughout the country, the Solid South should be retained for the Republican ticket and the election results would seem to favor this result.

A divided Democratic ticket would be disastrous to the Republican party and would more or less divide the country into the lower portion of the Solid South and the upper portion of the Solid South which would not be elected to the legislature in either State and would not be elected to the legislature in either State.

The Democratic leaders have at hand an even more effective weapon than the Solid South, that is, the Solid North. This would be the most effective weapon against the Republican party and the election results would seem to favor this.

In the Middle West, the situation is quite different. The farmer and the farmer's wife are voting for the Republican ticket and are voting for the Republican ticket. Winter Vacations

Vacations, once regarded as luxuries to be enjoyed only by the privileged few, are now the custom of most people. This change has led to another.

Summer time once held a virtual monopoly upon vacations, but now more are taken in winter. The increasing popularity of winter vacations is supported by the soundest of health and economic considerations.

The long days of summer afford almost everyone opportunity for outdoor recreation, but health authorities agree upon the need for more sunshine and open air living in the winter months. Winter vacations supply that need. They are a boon to the health of children and elderly persons, to whom shortened days and limited sunshine make winter a season of special hazards. For those between youth and age they also provide renewed vitality, added resistance to disease and increased efficiency for work.

Having more vacations come in the winter months also helps to relieve the business of the problems of depleted personnel, dislocated routine and reduced output which result from the numerous vacation absences of summer. The trend of business is toward the avoidance of seasonal fluctuations, and winter vacations help to counteract the mistaken idea that there must be a summer slump in business unless merely because of the season.

This winter the Illinois Central System offers a passenger service of particular interest. Well-equipped trains are operated by courteous, efficient personnel to the finest winter playgrounds of America. The public is invited to avail itself of the benefits of Illinois Central travel experts in making plans for winter vacations. Constructive criticism and suggestions are invited.

L. A. DOWNS,
President, Illinois Central System.

Teaching You Thrift

Practice makes perfect. Schoolmasters of today as well as yesterday constantly repeat that truth. Pupils learn by applying it.

Application of that principle in our everyday habits proves its practical help. We learn by practicing, whether it be a good habit or a bad habit.

This bank teaches you thrift by leading you to practice it. The lesson is easily learned once it is begun. To become perfect in it requires constant practice. A savings account is the most consistent method of practicing thrift.

That Saving Habit

Saying is a matter of habit. And the habit grows, just like the savings.

To acquire the habit when young with small sums is to practice the habit when older with larger sums.

So encourage the little fellows to start a savings account with us at once, and watch the habit grow.

New Value Brings New Heights of Public Favor

As a result of the new value offered by today's Farmers, as a compensation of its greater adaptability, higher speed and smoother ride, this low-priced six is winning new heights of public favor. Farmers' sturdy little cars, which are bound to be the beautiful buds of Fisher-models, stand with larger tires—an original of its kind—by comparison the cross-country radiator the UCMR of real economy, of real efficiency, of real value. These little cars really offer results resulting from new authentications and model-breaking—so that's what today's Farmers is, amazing thousands of new buyers. That's why it is winning leadership in the low-priced steam railroad.

Efficient and Economical Home Heating

The Enterprise Automatic circulating warm air home will bring the utmost economy with a constant circulation of clean, warm air, issuing the same comfortable warmth in every room. Finished in dark stained Mahogany, it is in harmony with the other furnishings of the most refined taste. The fan does not move and all enclosed fans are enclosed when the cabinet is closed. The powerful heating unit makes it most economical in fuel consumption. The wide side arms form top to bottom of the cabinet permit free passage of air, which is quickly heated in passing over the heating unit, and not the top to circulate through the entire house.
