W. MIKE OLIVER.

W. MIKE OLIVER.

Asks to be Made Next
Representative of
the Counties of

Lyon And Marshall.

In our last issue of the Tribune we formally announced the above named gentleman as a candidate for the important position of representative from the counties of Lyon and Marshall.

Mr. Oliver is a Marshall county boy; reared under difficulties as far as education goes; but by working on a farm in summer and laying by a small amount of money he was enabled to attend school during the winter months until he obtained a common school education, after which he taught in the common schools for four or five years and saved enough money to attend the S. N. S. & B. college at Bowling Green, Ky., where he completed his education.

In 1890, at the age of 24, he was admitted to the bar as a practicing attorney, and at once formed a partnership with W. M. Reed, the firm name of which is now Reed, Greer & Oliver, one of the ablest law firms in Western Kentucky.

Though a young man, Mr. Oliver has been engaged in the earnest, active pursuits of life for several years. And while experienced in the business ways he is a man of broad and conservative views; he is firm, decisive, without being dictatorial. He is a member of the Christian church of this place; is a man of moral worth, and in this particular stands high in the estimation of the people who know him. While he is not a politician, he has always taken an active interest in politics, and has always been ready and willing to fight for the rights and principles of democracy. When hard party work was to be done, he has always offered himself and his time, and heretofore has asked no reward for his work, being satisfied with the triumph of the principles he so earnestly believed in, and was contented to see others reap the reward. Mr. Oliver has not gone into this race unadvisedly, but at the earnest solicitations of those who know his fitness for the position, and who realize that he deserves well at the hands of the party in this representative district; and to them he submits his claims. Knowing that he is alive to every trust, and amply able to do the people good service in the next General Assembly of Kentucky, and as deserving as any other man in the district, we place him in the hands of the people and ask that they do unto him as they think he deserves.

A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. Kings New Discovery for consumption, coughs, and colds.—If you have never used this great cough medicine, one trial will convince you that it has wonderful curative powers in all diseases of throat, chest and lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at Lemon's drug store. Large bottles 50c. and \$1.00.

"Perhaps you would not think so, but a very large proportion of diseases in New York comes from carelessness about catching cold," says Dr. Syrus Edson. "It is such a simple thing and so common that very few people, unless it is a case of pneumonia, pay any attention to a cold. New York is one of the healthiest places on the Atlantic Coast and yet there are a great many cases of catarrh and consumption which have their origin in this neglect of the simplest precaution of every day life. The most sensible advice is, when you have one get rid of it as soon as possible. By all means do not neglect it." Dr. Edson does not tell you how to cure cold but we will. Take Chamberlain's Cough Remedy. It will relieve the lungs, aid expectoration, open the secretions and soon effect a permanent cure. 25 and 50 cent bottles for sale by Dr. R. H. Starks.

Politics and Religion.

Clergymen have little to do when they spend their evenings trying to persuade officials to pass laws to make the poor poorer and richer richer. Somehow, when the Devil has a very mean thing that he wants done he often selects men with clerical livery to do it.

Some people are just now engaged in the low calling of making fun of a class of people whom they designate as "Hayseed." If it were not for the honest toil of such a class, the dressed up dudes would go hungry to bed. "Hayseed" legislation is far superior to legislation controlled by men who go to the legislature for the purpose of showing how smart they are at making laws to enrich themselves and others at the expense of the people. The best police force New York city ever had was the result of "hayseed" legislation and the importation of some "hayseed" for the purpose of making some good officers and privates. The draft riot was put down by that kind of material.

David said: "God is angry with the wicked every day." And what was true in David's time is true to-day. It would be well for this country if the good voters were angry with bad men and bad principles every election day. Such a state of affairs would soon settle things as they should be settled—right.

The following may not be up-to-date theology; but, nevertheless, it was good enough for David to utter while inspired: "The wicked shall be turned into hell and all the nations that forget God."

A good every day prayer: "Keep me as the apple of the eye, hide me under the shadow of Thy wing."

Chamberlain's Cough Remedy gives the best satisfaction of any cough medicine I handle, and as a seller leads all other preparations in this market. I recommend it because it is the best medicine I ever handled for coughs, colds and croup. A. W. BALDRIDGE, Millersville, Ill. For sale by R. H. Starks.

Ladies find in Meliorine a most excellent preparation for the toilet. 25 cents a bottle at Wilson's.

A severe rheumatic pain in the left shoulder had troubled Mr. J. H. Loper, a well known druggist of Des Moines, Iowa, for over six months. At times the pain was so severe that he could not lift anything. With all he could do he could not get rid of it until he applied Chamberlain's Pain Balm. "I only made three applications of it," he says, "and have since been free from all pain." He now recommends it to persons similarly afflicted. It is for sale by R. H. Starks.

OBITUARY.

Walter Copeland, of this county died on the night of March 21, 1895, age 20 years, five months and two days. He lingered for 26 days with the spotted fever, when at last the young and tender spirit passed from life and pain away. He was loved by each and everyone and his death left many friends and relatives to mourn his loss, and miss the kind and loving face which is no more on earth, but trust him in a brighter world with a greater power, the hand of God. We would have wished him stay, but as God sees fit to call us home, He called our darling boy. We loved him, no tongue can tell how well, but still God loved him better, and there he has gone to dwell. Young men just think of a sad sad fate which can so quick come to hand and take you all, to your surprise, just as he has taken him. So think it over, and be prepared to pay the debt we have to pay to the Lord. E. S.

Four Big Successes.

Having the needed merit to more than make good all the advertising claimed for them, the following four remedies have reached a phenomenal sale. Dr. King's New Discovery, for Consumption, coughs and colds, each bottle guaranteed—Electric Bitters, the great remedy for liver, stomach and kidneys. Bucklen's Arnica Salve, the best in the world, and Dr. King's New Life Pills, which are a perfect pill. All these remedies are guaranteed to do just what is claimed for them and the dealer whose name is attached herewith will be glad to tell you more of them. Sold at Lemon's drug store.

A Georgia judge warned his people in regard to coming into court intoxicated, and used these words: "I wish to put everybody on notice, that if they come into this courtroom while I am sitting on this bench drunk, they had better look out."

Obstinate Colds.
Dr. Humphreys' Specific No. 77 will "break up" an obstinate cold that "hangs on." Put up in small vials of pleasant pellets; just fit your vest pocket; price 25c; all druggists.

It behooves the farmer to keep their weather eye open for the perennial B-hemian oats vender. He comes with an oily tongue and the brassy effrontery of a fiend. Trust him not—he has false whiskers to deceive you entirely.

LIFE SAVED BY

AYER'S CHERRY PECTORAL

"Seven years ago, my wife had a severe attack of lung trouble which the physicians pronounced consumption. The cough was extremely distressing, especially at night, and was frequently attended with the spitting of blood. The doctors being unable to help her, I induced her to try Ayer's Cherry Pectoral, and was surprised at the great relief it gave. Before using one whole bottle, she was cured, so that now she is quite strong and healthy. That this medicine saved my wife's life, I have not the least doubt."—K. MORRIS, Memphis, Tenn.

ELECTROPOISE

THE GREATEST CURATIVE

Opium Habit Cured.

Six week's use of the Electro-poise cured a friend of the opium habit. It also benefited me a great deal. I suffered with kidney trouble.—Rev. W. Bruce, Hopkinsville, Ky.

From the editorial columns of the Western Recorder:—If there is any truth in men and women, it does indeed benefit in hundreds of cases of all kinds of sickness. A friend who had suffered long with nervous prostration wrote that it had cured her. A gentleman in the city, who, a year ago, seemed to have only a few days of life left him by consumption, has greatly improved, has been able to go on uninterrupted with his business. Two other personal friends said nothing had ever done so much for their rheumatism. Nothing has ever received so many testimonials from trustworthy persons.

"One night's use of the Electro-poise gave me relief from brain congestion and vertigo. I have been a well man ever since."—Rev. George H. Means, Covington, Ky.

FOR REPRESENTATIVE.

We are authorized to announce

W. M. OLIVER

as a candidate for Representative from

Marshall and Lyon counties, subject to

the action of the Democratic party.

Election November 1895.

WEDNESDAY APRIL 3.

The discussion of the silver

question will kill the chance of

unlimited free coinage.

A minister, last Sunday, baptized

165, persons at Frankfort, Ky., in

one hour. This is immersing them

about as fast as they did on the

day of Pentecost. The minister

who did the work claims that he

can immerse 3,000 in a day.

R. M. Neale a good farmer, a

well informed democrat and a

prominent prospective candidate

for a seat in the Kentucky legisla-

ture, was in the city Monday mix-

ing liquor on election day 1; giving

liquor to minor 1; carrying con-

cealed deadly weapons 2; firing

weapon at school assembly 1.

Total 19. These indictments would

have appeared earlier, but were

withheld for certain purposes.

Harvey Hints.

HARVEY, KY., April 2.—This

neighborhood seems to be blessed

with that greatest blessing—good

health,—just now. No sickness of

any kind, except some of our old

widowers, who seem to have the

"matrimonial fever" in its most

malignant form, but we think by

proper attention they will eventu-

ally recover.

John Grubbs had a very fine

brood mare to die last Friday.

Fire got out on the farm of J. F.

Darrell one day, the past week,

but by the prompt help of neigh-

bors, nothing was damaged except

about 75 panels of fence, which

was burned.

Tobacco plants are up and look-

ing well and farmers are making

preparations for a large crop of

the weed.

Some few have begun to make

preparations to plant corn this

week. They evidently believe in

the old saying that the "early bird

catches the worm."

The quarterly meeting of the

Oak Level circuit was held with

Pleasant Grove church last

Wednesday.

The union meeting of the Bapt-

ist churches was held with New

Zion church last Friday, Saturday

and Sunday.

We often wonder what change

has come over "Driftwood" that

he does not give us the news from

that little burg where he lives.

We hope he has not been sick.

We greatly miss his interesting

letters and hope he will resume

his former vocation of dealing out

the news in alopathic and homeo-

pathic doses.

We hope that our present Fis-

cal court will see fit to let out our

roads to a contractor and have

them kept up by taxation for one

year as an experiment, and we are

satisfied no one will ever want to

go back to our present system of

keeping them up.

"Oh! 'tis hard to plan to capture

a young man and then get left,"

exclaimed a young lady, a few

nights since, when another girl

walked away from a party with

her "feller."

If we still continue to have

spring weather we will soon get

out "little beak" and begin to stir

the soil preparatory for a crop.

HANK MONK.

Postmaster Dead.

We are pained to chronicle the

sudden and unexpected death of

Dr. Richard Williams, of Murray.

He died last week of congestion

of the brain, and was buried at

home with Masonic honors. He

was a true Kentucky gentleman,

of a fine education and a high

order of intelligence, and was

dearly beloved by all who knew

him. He was a physician, a

druggist and was the postmaster.

His death is much regretted on

account of his useful citizenship

and his popularity as a business

man and public service to his

party. His democracy has always

been in line with his party.

Dr. Price's Cream Baking Powder

World's Fair Highest Medal and Diploma.

Wonder if the primary democ-

rats of Murray will be so anxious

to please the patrons of that post-

office now as they were two years

ago. Then they held a primary

election to dictate to their

congressman whom he should

recommend for the place. Now

see if they will hold another and

instruct Mr. Hendrick what to do.

No, we predict there will be no

post office primary held, because

they have long since learned the

folly of such foolishness. We

understand that there are four

petitions out asking Mr. Hendrick

"Hank Monk" has saw proper

to jump on us because we are not

in favor of taxing the people to

keep up our roads. As we said

before, we have already got enough

tax to pay, and I do not know of

any one that has such an enormous

surplus of produce to move to

market (unless it be "Hank Monk")

that cannot very easily reach the

market as the roads are at present.

However we admit that the roads

are not as good as they should be

and we are as much in favor of

good roads as "Hank Monk" and

will agree with the Editor that

good roads speak well for the

people of a county, but why can

not we have good roads under the

present system, if it is carried out

as it should be, we don't only

think the overseers do not do their

duty, but we absolutely know that

nine tenths of them do not do

half their duty.

Think for a moment of the late

Road Commission, which lasted

but a fortnight so to speak, and

cost the county a considerable

amount of money and gave in

return scarcely any benefit. Then

if a road tax was levied the com-

mission would have to be

established or something like unto

it, so to keep the road up by taxa-

tion would cost the county at

least \$3,000 per year, and if they

were made according to "Hank's"

notion I apprehend they would

cost at least \$10,000. There are

about 150 miles of public road in

Marshall county, at \$3,000 per year

it would only be \$20 per mile, who

will keep up a mile of road one

year for less than \$20? No more

tax just now if you please.

BRIENBURG, April 1.—As this

is all fools day, I will give you

dear readers what this fool's idea

is about life. We can conceive of

no spectacle better calculated to

lead the mind to serious reflections

than that of an aged person, who

has misspent a long life, and who,

when standing near the end of

life's journey, looks down the long

vista of his years, only to recall

opportunities unimproved. Now

that it is all too late, he can plain-

ly see where he passed by in heed-

less haste the real "gems of life"

in pursuit of the glittering "gew-

gaws" of pleasure, but which when

gained, like the apples of Sodoma,

turned to ashes in his very grasp.

What a different course would he

pursue would time but turn back-

wards and he be allowed to com-

mence anew to weave the "tan-

gled web of life." And this is not

vouchsafed him. Regrets are use-

less, save when they awaken in the

youth a wish to avoid errors and a

desire to gather only the true

"jewels of life." Great destinies

lie shrouded in your swiftly pass-

ing hours. God has given you ex-

istence, with full power and op-

portunity to improve it and be

happy, he has given you equal

power to despise the gift and be

wretched; which you will do is the

great problem to be solved by

your choice and conduct. Your

bliss or misery in two world's

George Long Dead.

George Long was born in Jefferson county, Tenn., the 28th of October 1822 and died March the 26, 1895, aged about 72 years. He was married to Miss Charlotte Snyder on the 28th day of October 1844, and moved to Marshall county, Ky., in 1869 and has lived in Kentucky ever since. He was a true husband and a devoted father. He leaves a wife, three sons and two daughters to mourn his loss, but our loss is his eternal gain. Although he has passed out of our midst in to the world beyond the grave, but will continue to be with us as long as our immortal souls shall exist on earth, and we will meet him in Heaven.

A precious one from us has gone; A voice we loved is stilled; A place is vacant in our home Which never can be filled. God in his wisdom has recalled The boon his love has given; And though the body molders here The soul is safe in Heaven.

JOHN WEBB.

Meeting Monday.

The third party folks held a kind of a political meeting here last Monday for the purpose of appointing delegates to the Paducah meeting which takes place next Saturday, when the immediate good of the party will be looked after, all with an eye single to the coming campaign. J. H. Ham was chairman of the convention and J. A. Parker secretary. The chairman appointed B. T. Biloro, S. M. Lindsey and J. W. Graham committee on resolutions. They soon formulated such resolutions as were acceptable to the advocates of "unlimited free coinage of silver forever" which were read and readily adopted. Mr. Parker made a short talk and the meeting adjourned sine die. This party has lost, to a great extent, its infant vigor, and its meetings are not so cantankerous as they once were.

Struck by Lightning.

Monday morning between three and four o'clock, the Christian church was struck by lightning and badly damaged. The spire was struck first and the current ran down it tearing it up very badly and on down through the roof and out on the top of the cupola and down one door and one of the corner post tearing off the lock and otherwise damaging the entire front of the church. The roof was also damaged by a lot of shingles being torn off and other particulars of timber scattered all about. It also knocked the top of the flue off and ran down the terra cotta flue on the inside tearing into splinters. The damage is estimated at about \$100, and the wonder is that it did not take fire and burn to the ground. It was lucky the accident happened when there was no congregation in it.

Mr. E. J. Stratton and Miss Emma, the charming daughter of Mr. Jesse Darnall, this county, were married at the latter's residence Sunday morning at 6 o'clock. Dr. B. T. Hall officiating. The happy couple spent Sunday in Paducah. These young people have many friends who wish them a happy and prosperous life.

Mrs. Emma Cason, the wife of Rev. T. F. Cason, of Camden, Tenn., arrived in town Sunday night on a several days visit to her parents Mr. and Mrs. Dr. Dyeus.

An exchange truthfully says: If you have a good home and are out of debt, don't fret and worry your life into the grave for the sake of making money. You have but one life to live and it is brief at best. Take a little pleasure and try to do a little good. A morbid insatiable desire to possess the earth, to grab everything in sight is at the foundation of more misery than almost any one thing.

While a young man of the Iowa neighborhood was promenading around the streets of Dawson, Ky., last Sunday, when his best girl who was with him concluded she wanted one of his photographs and so she rushed him in the first they came to and it happened to be a meat shop and so he being so discomfited left the girl and hasn't been heard of since.

Mr. Elmore Heath, a son of Hugh Heath, found a pair of convict's pants near his farm. He picked them up and concluded to carry them to Birmingham, but the more he thought of prison life and smallpox, the more frightened he became. So when he gave them up he was quaking, shaking and trembling like the aspen.

The gloomy fears and the weariness of soul, of which so many complain, would disappear if the blood were made more healthy before it reaches the brain. Ayer's Sarsaparilla purifies and vitalizes the blood, and thus conduces to health of body and mind.

There is a strong pressure being brought to bear out the "old timers" for another Southern Harmony singing at this place, but so far no decision has been made in the matter.

More About Tariff.

HARDIN, Ky., March 28.—It is not intended to have the readers believe that the vast sum of money extorted from the people by the republican tariffs of 1862, 1883 and 1890 were all collected by the custom officers. Four billions of the 12 billions robbed from the people of the United States in these 28 years were collected and paid into the treasury; eight billion were tribute to the American manufacturers. But the stupid republicans and benighted populists say they cannot see how we pay a tax on the goods we use and that tax finds its way into the pockets of the manufacturer instead of the treasury; and right here, my friend pops and repubs, is the gist of difference between the democratic and republican parties on the tariff question. The democrats would levy a rate of duty with a view of raising revenue alone and whatever incidental protection might result would not be considered. But the republican party has always favored and assessed a rate of duty on imports with a view to enriching the American manufacturers, and the depletion of the treasury (see McKinley's report page 1-2). Now it might reasonably be asked to explain the practicable workings of the policies. If it can be shown that the democratic purpose of tariff duties is to replenish the treasury, to receive revenue alone for government expenses with no concern for the welfare of the manufacturers; and that the republican party idea is to tax imports with a view to the depletion of the treasury and with a declared purpose alone to enhance the interest of the manufacturer. If this is true, and no sensible man will doubt it, and no honest man with average intelligence, will deny, who reads Bill McKinley's reports to the house of representatives in 1890.

Now, we will notice some of the differences in the result of the two tariff policies. Let's turn to the republican tariff law of 1890, against which every democrat voted. When a tax is placed on the foreign product higher than the difference in the cost of production in the United States and foreign countries, such product can not be imported at all, and the American manufacturer can advance the prices of his goods up to the cost of the foreign article, plus the tax, and force the consumer here to pay the foreign cost plus the tax. To illustrate, the difference in the cost of production of a ton of steel rails in Europe and America is only 27 cents; the McKinley tariff placed a tax of \$13.44 on each ton of foreign rails. In 1890, before this tax was levied, steel rails sold in this country at \$27 a ton. The American manufacturer in 1891, when the McKinley law went into effect, ran the price up to \$40 per ton. Now this is not plain, that under the protection of this republican tariff our manufacturers made a profit of \$13.44 per ton in addition to his previous profit. This high duty gave manufacturers the monopoly of the home supply. In 1891 the United States constructed 12,724 miles of railroads, which required 1,300,000 tons of rail; so the McKinley law enabled our manufacturers to make an additional profit, in one year, of over 16 million dollars. This vast sum was an increase in the cost of construction, upon which the farmers paid interest and dividend by way of increased freight upon their wheat, cotton, corn and other products. This sum was paid by the people on one item in one year, and every dollar went into the pockets of the manufacturers, as the tax prohibited imports.

Dr. L. T. Reid, Druggist, of Fulton, Ky., writes us under date of Jan. 10, 1891, as follows: "In an experience in the drug business of over 20 years I found the Gardner-Rogers Cough and Consumption Cure to be the best cough medicine I have ever sold."

All on a Postal Card.

Mr. A. E. Jones won a prize offered by the Topeka Mail, Kansas, as the best idea on a postal note. Here it is:

My experience is that farming, to be profitable, must be conducted on the most exacting plan of economy in every department, and recommend the following: Study to have the work done in the best manner with the least labor. Good fences make peacable stock. Keep the farm tools in repair and under cover. Don't let manure go to waste. Study the comfort of all farm animals, including the hog. A half-starved animal indicates the character of the farmer. Never allow weeds to get ripe. Look well after the weak animals; the strong ones will take care of themselves. A leaky roof means a rotten floor. The store box is not a good place on which to raise a revenue. Trim up around the fence corners. Waste makes want, and want breeds discontent. A stunted calf or pig means a future loss of time and feed. Keep the harness in repair and well oiled. There is economy in ground feed. The loss on hay and other crops would pay for a good barn in ten years. Ground ploughed in August and September is in the best fix for early spring work. Horses should be watered in the morning before feeding. Patronize home industry and don't worry about the future.

The Genuine Merit.

Of Hood's Sarsaparilla wins friends wherever it is fairly and honestly tried. To have perfect health, you must have pure blood and the best way to have pure blood is to take Hood's Sarsaparilla, the best blood purifier and strength builder. It expels all taint of scrofula, salt rheum and all other humors, and at the same time builds up the whole system. Hood's Pills are prompt and efficient. 25 cents.

Leland T. Powers.

Paducah has long been known as a poor lecture town and why this is true we do not understand. It is a mark of culture and refinement for any town to see a well filled house at an entertainment of this kind. The people have catered to the coarser and less refined class of amusements till it seems almost impossible to get a paying house even when we are honored with the most renowned lecturers known. Leland Powers, one of the grandest characters in the lecture field, will shortly give one of his famous impersonations of characters from dramatic literature in this city, and he should be greeted by a big house. His subject will be David Copperfield.—Standard.

ALL SORTS.

"No man," said the red-headed woman, sternly, "shall kiss me 'ceptin' he's the stronger of the two, and dear knows I'm weaker'n a cat."

A pious old lady recently sent as a silver wedding present a pair of flat-irons, a rolling pin, and a motto worked on cardboard reading, "Fight On."

The bachelor editor of the Bracken Chronicle is trying to be wiser than he is, when he says that the newfangled balloon sleeves evidently come of a desire to widen woman's sphere.

A Tennessee editor says that there is but one place in the Bible where the girls are commanded to kiss the men, and that is the Golden Rule. "Whatsoever ye would that men should do unto you, do ye even so to them."

A fellow over in Indiana went back on his best girl, claiming that an angel from heaven appeared to him and advised him to do so. This story sounds rather fishy; if that man has been sincerely in love he wouldn't have seen any other angel but his own.

The Osage Indians are probably the richest people collectively in the world. They are only 1,600 of them, and they have \$8,000,000 to their credit in the United States Treasury, the interest of which, amounting to \$400,000 annually, is paid out to them by Uncle Sam's agents.—Washington Post.

The editor of one of our Kansas exchanges is evidently opposed to these latter day additions to a girl's name, and instead of writing a personal of a young lady who visited there, was moved to print the following: "A girl whose first name is Mercie is visiting in town. We would like to know what her name was before she began fooling with it."

The man who penned the following item was evidently up-to-date in understanding the ways of the world:

"In the days of John the Baptist if a preacher preached the whole, unsoftened truth and applied religion to practical life they cut off his head. In these days they cut off his salary. The new plan, as one says, is fully as efficacious as the old and avoids funeral expenses."

Shiloh Battlefield Association. Second Annual Reunion.

The second annual Reunion of the Shiloh Battlefield Association will be held at Pittsburg Landing, Tenn., April 5th, 6th and 7th, 1895.

The Mobile & Ohio railroad will sell tickets to Bethel, Selmer or Perryville, Tenn., or to Corinth, Miss., at one and one-third fare for the round trip. The fare for the round trip to the Battlefield will be \$2.50 including meals. Round trip rate by stage from Bethel \$2.00 and from Selmer \$1.50, from Corinth \$1.50. The stage lines and boats will make close connection with the Mobile and Ohio trains. There will be ample accommodations for all. Ask your nearest ticket agent for further particulars.

Important to Live Stock Shippers.

Commencing with Wednesday November 28th, and continuing each succeeding Wednesday the St. Louis & Paducah Ry. will run a Special Weekly Live Stock Express Train from Paducah to East St. Louis. This train will leave Paducah every Wednesday at 1:15 p. m.

and arriving at East St. Louis at 4:10 Thursday morning in time for feeding, watering and resting stock before the opening of the market. Shippers at Benton can therefore load their stock for P. T. & A. train leaving Benton at 9:10 Wednesday morning and have it in East St. Louis for Thursday morning's market.

This special service places one of the best stock markets in the country within easy reach of shippers in this section and should enable them to move their stock shipments to that market more profitably than to any other markets.

Our regular through freight leaving Paducah every evening at 4:30 will run as heretofore and special attention will be given to shipments of stock forwarded on this train also.

One of our mountain exchanges is in receipt of the following rattling good item from one of its subscribers:

"Pleas stop my paper as times is so hard, and I can't pay for it. Hits all I can do to buy terbacker and whiskey for myself and boys, besides the old woman has to have her snuff. I will pay you what I owe next fall when I sell my hogs, if they don't dye with collera. P. S.—We have got another baby at our house—Come a weak ago las Thursday nite. Wright something about it and send us two or three papers and we will send em off for you."

The tax-payers of Stanford are catching it now. Under the liquor license system the tax on property was never higher than 36 1/2 cents and usually only 25 cents on the \$100 were assessed. In order to meet expense the council had to go the limit fixed by the constitution for towns of the class of Stanford and the tax is now 75 cents on the \$100, making Stanford a pretty dear place to live in. Those who have been accustomed to paying \$25 to \$50 a year now have to pay \$75 to \$125 and they are kicking like Texas Brogans.—Stanford Journal.

TEXAS!

Great Southwest.

FARMING LANDS—Yielding abundantly all the cereals, corn and cotton, and especially adapted to the cultivation of small fruits and early vegetables.

GRAZING LAND—Affording excellent pasturage during almost the entire year, and comparatively close to the great markets.

TIMBER LANDS—Covered with almost inexhaustible forests of yellow pine, cypress and the hard woods common to Arkansas and Eastern Texas.

Can be Procured on Reasonable and Advantageous Terms.

All persons contemplating a trip to Texas should purchase tickets via the Cotton Belt Route and avoid vexatious changes and transfers of baggage. It is the only line running through trains from Memphis to Texas. Parties emigrating to Texas will find it to their interests to see a Cotton Belt agent before making arrangements elsewhere.

Ask your nearest ticket agent for maps, time tables, etc., and write to any of the following for all information you may desire concerning a trip to the Great Southwest.
