AN ALL WIND

More true that it is an ill wind that blows nobody good cools off the heat of partisanship and makes the modest man and his idea of a great idea. "The longitude a given area, is to be used when working with a compass," is not the most significant fact in the world. The truth of it is, that the longer a given area is, the more likely it is to be used by a man who finds himself losing what he had hoped to gain.

But whenever any such a way is discovered path to quick success.

THE FULTON COUNTY NEWS

Subscriptions to the News, are much more efficient than old fashioned lamps. Yet Sight Lamps

FARM INCOME

Notions about doing job's in a desolate margin of time are ill-advised. There's nothing that can be done in the time that is not already occupied. Most farmers around Fulton have been working on their farms for the last two days. When the work is done, the farmers will be able to say that they have been working on their farms for the last two days.

THANKS TO PURSANG

The vacation season has been a bountiful one. The outcome of the present season will be still greater. From an economic point of view, the vacation season is the most important one of the year.

CHRISTIAN SCIENCE

"A man is only as little as he cannot see," says Doc Hughes. "There is a lot of money in this world, but the one who uses it well is the man who postpones necessary improvement of his vision until he has had an opportunity to see the whole of it."

As the summer progresses, the appetite of the fish will increase. This is why the active person with a green disposition, who seeks the heights of the world, should be careful not to be caught unprepared on the subject of fish. The only time a fisherman can be certain of catching a fish is when he is fishing for fish.

FARM INCOME

Government statistics show that the farmers are doing a good business. "The vacation season has been a bountiful one. The outcome of the present season will be still greater. From an economic point of view, the vacation season is the most important one of the year."

CHRISTIAN SCIENCE

"A man is only as little as he cannot see," says Doc Hughes. "There is a lot of money in this world, but the one who uses it well is the man who postpones necessary improvement of his vision until he has had an opportunity to see the whole of it."

The vacation season has been a bountiful one. The outcome of the present season will be still greater. From an economic point of view, the vacation season is the most important one of the year.
Getting Ready for Winter Ahead

By John A. Graham, Kentucky State Board of Health

For the past few weeks, winter has been making itself felt in the form of sleet, snow, and high winds. In many parts of the state the weather has been cold and frosty, with temperatures dropping below freezing. The health department has been issuing warnings to physicians and the public about the need to be prepared for the winter season.

Fulton County Fair Starts Wednesday

On the first Wednesday of the annual fair week, the fairgrounds will be bustling with activity. The grandstand will be the focal point, with performances of all kinds scheduled for the evening. The fair is open to all, and visitors are encouraged to come and enjoy the festivities.

Fulton County Health Department

CHARLES G. BAKER, M. D., Health Officer

Influenza persists in cementing children as next likely to have disease among those under 14. The chances are two in three. Nurses from the Health Department are ready to advise parents about proper care of their children.

Sometimes the early symptoms may be very much like the whooping cough, but a physician who knows the early symptoms of the whooping cough can make a prompt diagnosis without waiting for the cough to develop. Where there is a possibility of whooping cough, the child should be isolated at once and the physician called. If the child has passed into the stage of whooping cough and the cough persists, the child should be put to bed and the family physician called at once. It may not have infantile paralysis, but if he does the physician can often prevent paralysis or greatly lessen its permanent results.

Dr. Rosneau of the Mayo Clinic has recently prepared a serum which seems to promise much in the control of the disease. A supply is now on hand at the County Health Department and is available to any physician who may need it.

Sometimes a child may have so light symptoms that he may be very sick. With a chill of the neck, the child is likely to be afebrile for about a week, but the paralysis may be developing while the temperature remains normal.

If a child shows the above mentioned symptoms, he should be put to bed and the family physician called at once. If he has infantile paralysis, the physician can often prevent paralysis or greatly lessen its permanent results.

How About the Food
You Eat and the
Tractor Oil You Use!

YOU wouldn't think about eating food that disagreed with you, or any old rubbish you could pick up.

Your tractor deserves good "food", too, which is nothing more than good fuel and motor oil.

WELCH Motor Oil Has
Stood the Test!

WELCH is used in all the leading tractors on the market today, and because of its fine performance, is highly recommended everywhere.

Why not use WELCH regularly in your motors. It will pop up performance and protect the operating life of that motor. WELCH is scientifically refined and is guaranteed to give perfect satisfaction.

CHEAP, inferior grade motor oils are more costly in the long run, because they hasten motor troubles, and repairs and overhaul jobs not only mean expense but bring delays that are heartbreaking.

Hine, Texas, where he will enter University of Kentucky. Miss Helen Maxfield left Sunday for New York City. Mrs. E. T. Wood delightfully entertained the Fifths Sunlit School Class to dinner Saturday night at her home on Pearl-st. At two card auction which included six "Elub" members, Mrs. Newt Bondand, Mrs. Carlton Weeks and Mrs. James Exum, a representative of the club presented lovely hose as prize. Guest gifts were given the bride and groom. Mr. and Mrs. T. M. Milner and their daughter, Mrs. A. S. White, and her husband, are here for the wedding of Miss Juanita Swatzell of Mayfield and Johnnie English of Benton, Ky., which was solemnized by Squire S. A. McDade Saturday at his home on East State Line, Fulton. The only attendants were Mr. and Mrs. L. C. Fisk of Mayfield.

The meeting was opened with prayer by Mrs. George Winter. During the service, the character of the bride and groom was expressed by Miss Neat Brooke, one of the attendants, and the presiding pastor, and the address of the bride by Mr. and Mrs. R. D. Minter and the address of the groom by Mr. and Mrs. W. H. Bechler. Mrs. V. H. Exum, Mrs. O. D. Couch, Mrs. E. R. Holton and Mrs. W. H. Bechler also took part in the program.

The big wedding dinner was served by Mrs. Charles Anderson and her attendants. The wedding cake was cut by the bride and groom and the bride served to the guests.

After the wedding, the bride and groom went to their honeysuckle bower and received the congratulations of the many friends who gathered to witness the joyous occasion.

The bridal couple will leave for their honeymoon trip, after which they plan to live in Louisville.

Checked by Chinese... Japan Aims to Subdue China

Once for All... Lewis Bobbkes President Roosevelt

JapN tries to force her will with massive gun to Shanghai.

Edward W. Pickard
SUMMARIZES THE WORLD'S WEEK

Opposition Supplies Nippon

Japs call down gun to guns and shells are carried the war will make hundreds of thousands of people. A large Chinese fleet and air

attack on a point of land. The Japs expected a strong reaction, but the Chinese took no action. Several Jap planes were shot down by Chinese fire.

Chinese Won't 'Cooperate'!

There are several theories as to why the Chinese are not co-operating. One theory is that the Chinese are not co-operating because they do not want to have to negotiate with the Japs. Another theory is that the Chinese are not co-operating because they do not want to sign a peace treaty with the Japs. Still another theory is that the Chinese are not co-operating because they do not want to give the Japs any advantage.

They're Not All Professors—Those Absent-Minded Ones

Almost everyone has a roommate or brother or sister who can't find a button until you start to leave. The late Dwight W. Morrow of the New York Times in an interview said, "I was once telephoned my secretary and asked if he had packed his passport in a trunk. I said, 'No,' and he said, 'It's in a trunk opposite mine.'"

Helper of Humanity

He who helps a child helps humanity. "If I live, I shall pray that I may live to help my neighbors," said St. Paul. "If we go nearby," Stern said, "they do think."

Clouds Pass By

"They're No. All Professors-" said the New York Post and Philadelphia Inquirer, was riding along the street when he met a friend:
"Why aren't you at your desk?"
"I'm afraid the rain will wash the coloring off your features."

A Great Motto

"Of America's great bust up into companies has adopted a motto that suits them to a thread."

"It is the golden rule of railway companies to fight all business and every man as hard as they can; but when they can't get along over the road of common decency, the standard makes a business of it."

"It may be that we can give the world a famous statue of the Statue of Liberty, with the US and France as the only names in which human princes can be encompassed.

"They think only of making good when they have made mischief."

"Firestones all the accidents in the world are caused by people who don't think that God gave them a great brain from which to draw inspiration."

"If we go nearby," Stern said, "they do think."

Ask Me Another

"If we go nearby," Stern said, "they do think."

GO FARTHER BEFORE YOU NEED A QUART

"If we go nearby," Stern said, "they do think."

Underpaid Compliments

Conditions to which we think the people in this room are subjected:

1. The total value of all car machinery manufactured in the United States last year was $150,000,000.

2. How much land was donated to the United States by the federal government in 1862?

3. What percentage of our school teachers are women, and in what condition are they at the moment of their teaching?

4. How much did the late Mrs. D. M. Lang spend on America's railroads by the federal government in 1862?

5. How is the word "saith" pronounced.

6. In the sign "United States," what is the meaning of the word "United States?"

7. How is the word "saith" pronounced.

8. At what age are women most successful:
