FOR REPRESENTATIVE.

We are authorized to announce

W. C. HOLLAND

as a candidate for Representative from

Marshall and Lyon counties, subject to

the action of the Democratic party.

Election November 1895.

WEDNESDAY APRIL 10.

Paducah is soon to have a new

\$25,000 railroad hospital.

The Kentucky Press Association

will meet this year in Hopkinsville

on September 23rd and a big time

is expected. Its meeting is rather

late this year but that much the

better.

The democrats of Marshall must

not forget Col. Richard Tyler of

Fulton county and Maj. H. S. Hale

of Graves county. They are our

neighbors and of course our people

are for them first last and all the

time.

A new paper has just been

started at Murray, and is called

The Calloway News. It is pre-

sided over by that well known

and former editor of the original

Calloway News, W. O. Wear, as-

sisted by his son and daughter,

Master Boyd and Miss Sallie. We

predict for the News a brilliant

future. Long may she "carry the

News to Mary."

Mr. K. Robertson has been ap-

pointed postmaster at Murray to

all the unexpired term of Dr. R. M.

Williams deceased. Mr. Robertson

is a clever young man and will

make the patrons of that office an

acceptable postmaster. Mr. Hen-

drick did the proper thing in

promptly recommending some one

for the place as it will at once

allay all contention in such fights.

The appointment gives general

satisfaction.

The more the people study the

silver question, the less they

favor the unlimited coinage of

silver at the ratio of 16 to 1. The

real merits of the question has

never been looked into until re-

cently, and since the people are

finding out that this all means to

enrich a few mine owners in the

west and in other portions of the

world, at the expense of the credit

of the government, they are get-

ting farther and farther away from

such a scheme.

Mr. W. M. Oliver who recently

with this estimable gentleman for
us to attempt to say anything
about him as a true and tried
democrat. Mr. Holland has here-
tofore represented these counties
in the same capacity as he now
desires to do again, and leave it
with the people and the party to
say whether or not he shall be
honored again. He is subject to
the action of his party, announces
himself in our columns this week.
The people of Lyon and Marshall
counties could do no better than
to give Mr. Holland the place he
asks.

WHO ARE BI-METALLISTS?

A bimetalist is one who favors
the use of both metals as money
or currency.

To have both metals current they
must be equal in value; that is the
dollar of gold, tried in the crucible
or the value of the inferior metal
must be sustained by government
credit.

The silver in a dollar is, melted,
worth just 49 cents; the gold in a
dollar is worth one dollar.

Now, if left to take care of
themselves silver will displace
gold.

If you owed a man \$100, and
had \$100 in silver and \$100 in gold
you would pay him in legal tender
silver and keep the gold.

So would everyone else. Then
to get full value for your gold you
would send it abroad; so would
everyone else.

Two metals will not circulate
unless one is the equal of the
other.

Silver and gold circulate be-
cause the government is pledged
to keep the silver dollar at par. Is
exchangeable for a dollar in gold.

Thus it is kept at a parity with
gold, and both circulate.

Men who favor this system, men
who did not favor it at first, would
maintain it now are bimetalists.
That is Cleveland's policy; that is
Carlisle's policy; that is the
policy to which the democratic
party is pledged.

But "free silver" would change
all this. Free silver means that
men who have silver worth 50
cents may have it stamped one
dollar, and it then must be ac-
cepted as a legal tender for a
dollar.

Under free coinage, the silver
dollar would not be exchangeable
for gold. It would have to take
care of itself. Consequently, with-
out government credit, it would
sink to the market level and it
could no longer circulate at par
with gold.

Gold would seek its hiding
places; it would go abroad, and
contracting the currency \$500,000-
000, would leave us with silver
alone.

That is not bimetalism; it is
monometallism, and it is to this,
free coinage of silver at 16 to 1,
I would bring us.

Democrats of Kentucky, do
you favor the free coinage of silver
at 16 to 1?

If so unite with the populist,
and declare yourselves not bime-
tallists at all, but monometallists
with silver as the one metal.

Harvey Items.

HARVEY April 8.—Our little
place is never very far behind in
anything; while Benton and other
towns boast of their brass bands
we have a string band that for
down-right noise making is hard
to take down. Their principal
amusement is to see how many
different people they can keep
awake an hour each night, and we
are ready to testify that they make
a howling success at that kind of
fun. In the small hours of the
morning while dreaming of a "land
that is fairer than this" or how
that plow managed to kick me
where it did, we are awakened by
something which we at first sup-
posed was the caterwauling of
some belated tom-cat, but after
listening awhile we catch on that
it is the Harvey string band playing
"after the ball."

Maximum, don't you honestly
think that the democratic party is
already caught "in the obnoxious
coil of trepidation?" If the demo-
cratic party is not trembling now
for fear the republican party will
overcome them we are very much
mistaken. The late republican
victories have caused their forces
to become terrorized and scattered
with faction warring within and
without, and closely pressed by
their republican enemies we can-
not see how the ship of democracy
can hope to weather the storm of
the coming and land in a port of
victory.

Fruit trees are all in full bloom
and if nothing happens from now
on, this neighborhood will have
plenty of fruit.

There will be a good deal of
corn planted this week.

With hog jowl, turnip greens
and onions, where is the man that
would not live always.

Mr. Pete Wilkins has been con-
fined to his bed with perentitis.
The fiscal court has seen fit in
its judgment to refuse to levy a
tax on the road hands or property
to keep our roads up. Perhaps
it was best, but we are satisfied
that two thirds of the road hands
in the county would have been
better pleased if the tax had been
levied on them.

H. Cole, while putting up a
barb wire fence had his hand cut
quite severely by a wire slipping
from the catch on a wire stretcher.

Mr. W. S. Ivey, one of our most
prominent farmers has purchased
a self binding reaper to harvest
his coming crop of wheat, which
is very fine.

Henry Theawt and Emma York
eloped to Paris, Tenn., last Friday
and were married.

HANK MONK.

About Officers.

It turns out that C. H. Starks
was never required to give coun-
ty levy bond during the entire
time of his last term of office as
sheriff. In 1892 he gave an offi-
cial bond and in 1893 he gave a
state revenue bond. This is cer-
tainly a loose way of doing busi-
ness, on the part of some one. He
is indebted to the county, in the
sum of \$1,832.21 but he says he has
yet about \$4,000 owing him of un-
collected taxes and asked the fi-
scal court to extend his time for
paying the above amount to July
1 1895, which it did. Mr. Starks
is not to blame for not giving all
the bonds required by law, of him,
because he has never been called
upon to do so, but the court of
claims arrogated, to itself an un-
known of authority, when it al-

lowed Mr. Starks three months
longer, to pay in the balance of
the county levy when it was well
aware, that he was under no bond
to do so. But he will collect and
pay over every dollar of the bal-
ance he owes, because he is as
honest and punctual without a
bond as with it, but the county
court should be a little more care-
ful about taking bonds of county
officials. The right way is always
the best way, as experience has in
many cases clearly demonstrated.
There is a little too much loose-
ness in the taking of bonds, and
the county judge should keep open
along this line. In looking over
the bonds of county officials the
other day we noticed that the last
bond (which was the county re-
venue bond) given by Sheriff J. H.
Little failed to name the year for
which it was given. These bonds
should be carefully examined by
the proper authority before they
are accepted. County officials are
paid to attend to these things and
if they would give more attention
to their duties, there would be
fewer mistakes. County officials,
should give their time as closely
to the people's business, as a ju-
dicious business man does to his
private business.

If any of our business men in
this or any other town, were to
stay away from their places of
business as much as some of our
county officials stay away from
theirs, they would soon lose all of
their trade. How does a man get
the idea in his head, as soon as he
is elected to an office that he don't
need be at his place of business,
as constant as he would if it were
his own. When an officer is con-
stantly in his office he is not like-
ly to make so many mistakes.

The members of the present fi-
scal court were noted for their
speech-making—except Esquire
Pool, he was the only democrat on
the board and he was wise enough
to be quiet. But it has been gen-
tly hinted that he had to sit be-
tween two populists and two re-
publicans which he said made him
feel like he was between the devil
and the deep blue sea. His posi-
tion in this respect was not an en-
viable one.

Spring Medicine

Is a necessity because the tonic of winter
is gone, and milder weather, increased
moisture, accumulated impurities in the
blood and debilitated condition of the
body, open the way for that tired feeling,
nervous troubles, and other ills. The
skin, mucous membrane and the various
organs strive in vain to relieve the im-
pure current of life. They all welcome

Hood's Sarsaparilla

to assist Nature at this time when she
most needs help, to purify the blood, tone
and strengthen the laboring organs and
build up the nerves.

"I have used Hood's Sarsaparilla and
have derived great benefit from it. After
a very severe attack of the grip last winter
I took a bottle and soon regained strength
and flesh. It has entirely cured me of dis-
eases. My whole system was toned and
strengthened." Mrs. ANNIE L. NOBLE,
Bardonia, Kentucky.

Purifies The Blood

"I was troubled with inactivity of the
kidneys resulting in jaundice, but I have
found Hood's Sarsaparilla a cure." J. D.
BIRLE, Mossy Creek, Tennessee.

President Nail's suggestion that
the annual meeting of the State
Press Association be postponed
till September, is a good one. By
that time the democratic "family"
fights will be over, and the boys
of each side can begin to confer
about how to make the victory in
November all the more signal. It
is probable that fewer members of
the Association have been to
Lookout Mountain than to any
other point accessible for an ex-
cursion, and this, too, is a good
suggestion. Hopkinsville in
September, and a trip to Lookout
Mountain and the Southern Exposi-
tion, is altogether an admirable
program.—Frankfort Capital.

We think so, too, brother. And
the time of the year will be a
season when pleasures of such a
trip can not be enjoyed better by
an over-heated and over-worked
editor. Let it be September by
all means.

Severe Nervous Headaches.
"I have been troubled with ner-
vous headaches of a very severe
type. I began to take Hood's
Sarsaparilla and before the third
bottle was gone my headaches
were not as severe and not as fre-
quent. I am now taking my sixth
bottle and have not had headache
for sometime, and my general
health was never better." Mattie
Redwine, Wiley, Ky.

Hood's Pills cure biliousness,
indigestion.

PLOWS! PLOWS!

B. F. Avery & Sons Plows

Have been in use for 70 years, and they have been improved from time to time until
his Steel Plows have almost reached perfection. The advantages in buying one of
Avery's plows is that you can always get the repairs, and any blacksmith can sharpen
the points. When purchasing a plow always ask your dealer if you can rely on him
to keep the repairs, and at what price, as some factories reduce the price of their
plows in order to sell them, and afterwards when the farmer is compelled to have
an extra point or bar he finds them much higher than he expected.

Oliver's Chilled Plows are the best in the market. All points and bars are brand-
ed "Oliver" and "Geneine Oliver." Beware of spurious points, as some dealers
handle them. They are made out of inferior material and break much easier than
the genuine. Any of the above plows or repairs can be found at

QUESTION.

Scale, Ky., April 5.—Will County Attorney John G. Lovett give to the Readers of the Tribune the chapter section and page in the general statutes, where he is authorized to make compromises with individuals charged with the violations of law. If he can find such a law why don't he compromise all cases and if there is no such law why does he compromise any at all.

AN INQUIRER.
Away out on one of those elegant Cotton Belt trains that runs west of Memphis was found a card with the name of "W. H. Draffen candidate for jailer" of Graves county, Kentucky plainly printed on it. What does it mean? Is he yet a candidate for jailer out in that distant country.

Advertisers are crying for space in the Tribune, because it pays to put it in our columns. We will have to enlarge if this cry keeps up. Watch us.

HERE AND THERE.

Jack Nelson was in the city yesterday.

Mrs. Hamilton has a nice ad in this issue. Read it.

Are you going to hear Gilmore's band today at Paducah?

The fact that Hood's Sarsaparilla, once fairly tried, becomes the favorite spring medicine, speaks volumes for its excellence and merit.

The "Big Singing is not an assured certainty this year, but the low cash prices H. D. Ifvan & Sons are making are certainly astonishing.

Prof. G. R. Throop, of Murray, that excellent instructor, has an ad in this issue of his Summer Normal course, which will begin May 6th, at the West Kentucky Normal College at that place. This will be an excellent opportunity for young teachers.

The fiscal court composed of five members, so far, is no improvement over the one with 16 members. The time has come when the members of this court, should inform themselves as to their duties under the law and then fearlessly perform them. As long as individualism runs rank in court, so long will mistakes occur.

One might as well try to stem the rapids of Niagara, as to expect perfect health while a scrofulous taint exists in the blood. Through its alterative and purifying properties, Ayer's Sarsaparilla removes every vestige of scrofulous poison from the blood.

For collars, hames, chains, etc., see J. D. Peterson.

The post office has been moved into its new quarters and now the people are having the best service they ever had before. The mails are not going out on schedule time and hereafter the Sunday hours will be from 8 to 9 a. m. and from 6 to 7 p. m. and the people must remember that the postoffice will not be open on Sundays, except on the above hours.

They desire that the public be prepared to patronize their effort to help a good cause. The date will be given next week.

Miss Dehila Mai Stephens has just returned from St. Louis where she purchased a nice assortment of hats from the largest millinery house in the city.

Flour, Lime, Cement, etc., at the lowest prices at J. D. Peterson's.

Mr. Lon Lucas who left his wife and children so unceremoniously a short time since has never yet been heard from. This is about the third time he has left. His wife was in town here visiting her mother Mrs. J. W. Kinney the day he left, and his departure was a surprise to her, for they were on the very best of terms, and while here she seemed to be light hearted and gay, but at present she is at a loss to know the cause of his going away.

Notice.

To all the world and especially merchants. My wife, Josephine Cross, has left me, and I will not be responsible for any debts she may contract for necessities or anything else. W. H. Cross. 23-3t.

W. B. HAMILTON, Benton, Ky.

C. D. Bowden, of McKenzie, we hope will yet become a citizen of this town. Last week, he bought of E Barry the piece of land laying in North Benton, between town and the railroad for which he paid \$1,100 cash. It contained 34 acres and is a valuable piece of property.

Miss Ruth Hamilton will return in a few days from Louisville with a full line of choice millinery goods. There is no one in this country that is better prepared to select a line of goods of the latest styles than Miss Ruth Hamilton. She will buy everything at low prices to suit her many customers in the county.

Mrs. H. H. Tolley left here last Friday, accompanied by her friend Miss Edith Jones, for Covington and Humboldt, Tenn., where she will remain for one month visiting relatives and friends. Miss Jones during her visit here made many friends that regretted her departure very much, and especially one or two who seem as though the best friend on earth had gone. But there need be no sadness she may return.

I have about 200 pounds of new feathers for sale at the market price. J. H. IVEY, Harvey, Ky.

We hereby extend our thanks for a copy of a poem entitled "Systematic Giving," by Mrs. L. E. Brannock, which was read at the seventh annual meeting of the Woman's Parsonage and Home Mission Society at Memphis, Tenn., and published by them to be sold for the benefit of Home Mission; the price of which is ten cents. The poem—well, not being a poet myself we can't attempt to give you an idea of what it is. You can get a copy for 10 cents, and read for your self.

The democratic party is the party of the people and in less than two years it will be clearly demonstrated. Good times are returning and the prices of many things are going up and the business of the country is becoming more settled. Only a few months will pass before it will be demonstrated that the republican party was the sole cause of the paucity times of the past two years. The truth is certain to come and it will tell on the republicans.

EX-GOV. ROBT. L. TAYLOR.

Says the South is Tired of the Financial Tinkers.

The Nashville American says, Ex-Gov. "Bob" Taylor arrived in Nashville yesterday from Jacksonville, Fla. He is looking robust and bronzed, and was in his usual happy humor.

In an interview Gov. Taylor says that the loss caused by freeze in Florida is reported to be at least \$50,000,000 in the state and vegetation is as backward as here in Tennessee. The calamity is so great the people seem dazed and stunned.

"How do you find politics in the south?" the governor was asked. "Politics is in a chaotic state. I don't know what will be evolved. The masses in every state in the south are dissatisfied with the tinkering with our financial system. They want money to go into circulation again. They will not long endure the present situation. They will crush at the ballot box their leaders if they don't rehabilitate silver and restore the double standard."

"Are you in accord with the project for a Centennial Exposition here?"

"Heartily so, by all means. Tennesseans should show to the world that they are capable of being abreast of the times, and sustain the character of the state for progress. The centennial will certainly be of great benefit to Tennessee and should be pushed to a success."

"Governor, your name has been mentioned for the nomination for governor in 1896; does the 'bee' trouble you?"

"Not in the least. Sallie and six little circumstances keep me so busy buzzing for them, I don't have time to listen to any other kind of a 'buzz'."

Choice Selections.

Colton says: "We ask advice, but we mean approbation."

Remember that true wit does not depend upon its sting to make itself felt.

Vanity is a weakness; that is least excusable in other people.—Young Men's Era.

Every sinful pleasure kills a real blessing that God wants to have dwell in the heart.—Ram's Horn.

You can no more get rid of your faults by trying to forget them, than you can get rid of your shadow by turning your back on it.

Science has a great deal to say about the survival of the fittest, but the Gospel proposes to save the unfit.—Standard.

To judge human character rightly a man may sometimes have very small experience, provided he has a very large heart.—Bulwer.

The gift that blesses is the gift of love to Christ. Whether small or great by our standards, it is precious in His sight.—United Presbyterian.

Few people object to mixing business and religion provided that when they are mixed the result is business.—Young Men's Era.

The Bible is the only source of all Christian truth; the only rule for the Christian life; the only book that unfolds to us the realities of eternity.—Sir M. Hale.

Trees should be made to send their roots deep into the soil, in order to fortify themselves against drought. This is done by draining the soil and by ploughing the orchard rather deep.

It purifies the blood.—Wear's Sarsaparilla—and sells at 75 cts.

Dr. L. T. Reid, Druggist, of Fulton, Ky., writes us under date of Jan. 10, 1891, as follows: "In an experience in the drug business of over 20 years I found the Gardner-Rogers Cough and Consumption Cure to be the best cough medicine I have ever sold."

Diagnosis by Telephone.
The beneficent uses of the telephone are not yet fully understood. The other night young Smythe awoke about 3 p. m. with an excruciating pain in his stomach. The more he squirmed the worse he grew. Finally the terrible thought flashed upon him that he had been poisoned. In a moment he dashed out of bed, down stairs to the telephone, and demanded to be switched on to his physician number without delay.

"For heaven's sake, doctor, come at once. I'm poisoned!"

The M. D., who had also crawled out of bed to answer the summons, growled back, "What makes you think so?"

"Frightful pain—awful cramps—insides on fire—hurry up or I'm a dead man!"

"Humph! Does-er-does your stomach make any noise?"

"Yes; kinder growls—must be arsenic, or something."

"Growls, eh? Just put the 'phone against the pit of your stomach. Ah! I thought so—you've been to the French Hospital fete this evening, haven't you?"

"Yes, sir."

"Exactly. You're suffering from a general fermentation of lemonade crab salad, fruit cake, pickled oysters, and Roman punch. You're all right. Just take a little peppermint and ginger, then go to bed and grin it thru.—Ex."

Charcoal is quite necessary for fowls. Wood charcoal is not relished by fowls; it has no taste of food, is not attractive to them, and is seldom eaten. The best charcoal is made by putting ears of corn in the fire and roasting until the grains are charred. This will be found very beneficial, will tend to put fowls in a healthy condition, and give a decided improvement to their looks. Their pale combs will become bright red, and the yield of eggs be much increased.

Nervous People
And those who are all tired out and have that tired feeling or sick headache can be relieved of all these symptoms by taking Hood's Sarsaparilla, which gives nerve, mental and bodily strength and thoroughly purifies the blood. It also creates a good appetite, cures indigestion, heartburn and dyspepsia.

Hood's Pills are easy to take, easy in action and sure in effect. 25c.

Barn manures are generally more economically used when applied to farm crops than when applied to orchards; yet they can be used with good results, particularly when rejuvenating old orchards.

"Perhaps you would not think so, but a very large proportion of diseases in New York comes from carelessness about catching cold," says Dr. Syrus Edson. "It is such a simple thing and so common that very few people, unless it is a case of pneumonia, pay any attention to a cold. New York is one of the healthiest places on the Atlantic Coast and yet there are a great many cases of catarrh and consumption which have their origin in this neglect of the simplest precaution of every day life. The most sensible advice is, when you have one get rid of it as soon as possible. By all means do not neglect it." Dr. Edson does not tell you how to cure cold but we will. Take Chamberlain's Cough Remedy. It will relieve the lungs, aid expectoration, open the secretions and soon effect a permanent cure. 25 and 50 cent bottles for sale by Dr. R. H. Starks.

"Bench talk" never kept a garden free from weeds.

Good drainage, natural or artificial, is essential to success.

The busy season is now approaching. Are you ready for it?

In the spring when the roads are heavy don't overload the team.

Remember on ploughing days that a horse's endurance has a limit.

See that all the farming utensils are in order for the spring and summer campaign.

Potash is the chief fertilizer to be applied to fruit trees, particularly after they come into bearing.

Don't work the horses too hard at first. Let them gradually become accustomed to it after their long winter's rest.

Look at the harness now. It is not very profitable during ploughing time to have to spend two or three hours mending a broken trace.

Women's rights works well on some farms. What would you do for a farmer do for cash if the wife did not run the poultry yard and see to the butter.

A severe rheumatic pain in the left shoulder had troubled Mr. J. H. Loper, a well known druggist of Des Moines, Iowa, for over six months. At times the pain was so severe that he could not lift anything. With all he could do he could not get rid of it until he applied Chamberlain's Pain Balm.

"I only made three applications of it," he says, "and have since been free from all pain." He now recommends it to persons similarly afflicted. It is for sale by R. H. Starks.
