ELECTRICAL WIRING ORDER

MANY POLICIES WILL BE CANCELLED.

TEN TO BE CANCELLED.

Commissioners were presented on the $3,000 order yesterday, and the following are included in the order:

1. Mr. John Smith.
2. Mr. Robert Jones.
4. Mr. James Johnson.
5. Ms. Sarah Williams.

Property Owners Must Pay for New Suburban Streets

The question of constructing a new electric line through the suburban area has come up again recently. The public utilities committee had been working on this for some time, and it is now time that the property owners pay for the construction. The old line has worn out, and the city council has been considering the matter for some time. The cost of the new line is estimated to be $10,000, and the property owners will bear the cost.

Trouble with Boro.

The trouble with Boro has been settled by the Board of Directors. The Board of Directors was meeting in the Board of Directors' room when the trouble started. The trouble started with the airing of a new complaint by the residents of Boro. The complaint was that the Board of Directors had not been meeting frequently enough, and that the residents had not been getting their complaints heard.

Alderman Palmer's Petition.

It is the opinion of Alderman Palmer that the lighting question should not be settled by votes of the present aldermen, but that the people of the city should vote the question. Alderman Palmer says that the present aldermen have not expressed the will of the people, and that the present aldermen have not expressed the wishes of the citizens of the city.

Alderman Palmer has been a member of the city council for many years, and he has always been a strong advocate of municipal ownership. He believes that the city should be in charge of its own affairs, and that the city should not be controlled by outside interests.

The people of the city are not satisfied with the present system of lighting. They want a system that will be more efficient, and will provide better illumination. They want a system that will be more economical, and will provide the city with better service.

Alderman Palmer believes that the city should have a system of lighting that will be in the best interest of the people. He believes that the people should be the ones to decide what is best for the city.

The present aldermen have not been able to express the wishes of the people. They have not been able to provide the city with the best possible system of lighting. They have not been able to provide the city with better service.

Alderman Palmer believes that the people should have a say in the matter. He believes that the people should be able to vote on the question. He believes that the people should be able to decide what is best for the city.

$2.00 SHOES

Many people believe that a good shoe can be purchased for $2.00. As a rule, they are wrong. Why? For in the price of a $2.00 shoe there is included the cost of profit, taxes, advertising, insurance, rent, and other charges. As we have no such expenses to pay, we can afford to sell at $2.00. If you want a good shoe, we can save you money. We make all our own shoes. This is a real money-saver for you. Try us and we will prove it to you.

LENTEN SEASON COMMENCED YESTERDAY

So much continually asked why
when and when by whom, as
in that following article can be read
about the Lenten Season.

Tuesday, February 21, is known
also as the beginning of the Lenten
season. On the Tuesday before
Palm Sunday, called Ash Wednesday,
the Lenten season is officially
commenced.

During the 40 days of Lent,
many Christians choose to give
up certain pleasures or worldly
things in order to focus on their
faith and spiritual growth. This
time is often referred to as a
season of penance and reflection.

In many traditions, Lent
is observed by abstaining from
meat on Fridays and sometimes
also on Wednesdays and
Thursdays. Some people may
choose to give up certain
items, such as chocolate,
lattes, or social media, as a
way to reflect on their own
dependence on these things.

The end of Lent is
celebrated on Palm Sunday,
the beginning of Holy Week,
which includes the events of
the Passion of Christ, ending
with the Easter celebration.

Aunt Janet Moore, the detective who arrived from Chicago to investigate the case, stated that the young man was not the murderer. She explained that the animal broke loose sometime on the surface and that it is killing dogs, horses, and cattle. Everyone who saw the animal ran away, and it is feared that it will cause further deaths.

The woman who had been shot was known for her good deeds and her kindness to animals. She was a well-known farmer in the area and was known for her generosity and her love for animals.
