and corral their forces, while all
who believe in a sound and safe
money every time, worth 100 cents
to the dollar, take the other side.
Is it a christian idea to pay honest
debts with money worth from 50
to 75 cents on the dollar?

Oil started the business boom
in 1873 and in 1884, and we may
safely expect it to be the cause of
the beginning of a like boom in
business in 1895. The prices of
many things have already advanced
and in less than ninety days com-
merce will begin to hum, and
business resume its old time
stimulation. There never was a
better time for a renewal of busi-
ness prosperity.

Benton is all quiet again and the
business men are all pulling to-
gether for the good of the town
once more. Did you ever think
that small towns, as well as large
ones, can be damaged by the least
amount of friction among their
business men. Again, did you
ever observe that what we term
the laboring classes of people are
at all times ready and willing to
do all they can for the prosperity
of the town in which they live?

Whenever there is the least dis-
turbance among the business men
of a town, in politics, religion or
anything else it is always traceable
to the mistake of a few men. Now
one and all, ought to pull together
in this town for its business and
moral good, and if each man and
woman in the town would work
and pull together in harmony for
the good of the country, town and
community, there is no way of
estimating the real good effect it
would soon have. We hope all
will lay aside their personal and
local prejudice (if they have any)
for the good of the business pros-
perity of the town. Benton is the
central business point in the
county, and every citizen, no
difference how remote he may live,
should delight to come to their
county seat on business or pleasure.

No Complaint.
Scale, Ky., April 20, 1895.
J. G. Lovett,
Dear Sir:—In justice to this
village I want to say to the public
that the citizens here are satisfied
with you as county attorney, and
we do not believe that "Inquirer"
lives near this place. I never have
heard any complaint against you,
and think it must have been
written by one who lives nearer
you than this place. Respt,

OTHER LOCAL NEWS

Harvey April 22.—It seems that
with all our boasted facilities for
correct news gathering that it is
almost impossible to get any im-
portant news near correct. The
Paducah Daily News and Standard
reported that a young man, living
only eight miles from town, was
killed by lightning and his body
split in twain, blackened and dis-
figured in a horrible manner. The
only part of the article that was
true was that the young man was
killed, but his body was not burned
or disfigured in any way. The
Standard man happened on some
man who knew all about a big
runaway scrape that occurred near
Florence Station wherein the irate
father chases the fleeing couple
several miles with a shot gun, all
of which proved to be untrue.
A few days ago the papers re-
ported that Senator Goebel who
killed Banker Sanford at Coving-
ton wore a steel shirt, which upon
investigation turned out to be
untrue in every respect. The fault
is not with the newspaper men,
but with some people who possess
a 3x5 mind and a 7x11 tongue,
who magnify any and every thing
they hear or see. Their principal
pleasure is to talk and to keep
other people talking, and if they
haven't anything that will catch
their hearers interest they can
very easily work up some big
thing out of a very small matter.
They are tattlers, scandle mongers,
tale bearers and mischief makers,
and deserve contempt.
Maximum did you know that
anyone could make an assertion?
You assert that the republican
party is responsible for the finan-
cial panic and you do not put
forth any proof to show it. If you
have any proof we would like very
much to see it, and we are satisfied
that you will confer a lasting favor
on some of your democratic friends

quiet busy pulling a bell cord over
a mules back we will spare enough
time to give your articles the at-
tention they deserve.

DRIFTWOOD

Talks About the Better Times and Would Like to be a Boy.

SOME LOCAL ITEMS.

Briensburg April 22.—After a
silence of several weeks which
was not our own volition, we will
endeavor to give the Tribune the
news from this neck of the woods,
for just at this time we are a
walking encyclopedia of current
events and are bound to let her
out or "bust a suspender." Dur-
ing our silence we have been
gently chided by some of your
correspondents for not giving the
news from this place, and in
answer to that we will say that
when a fellow becomes an incu-
tor as it were for the hatching of
all the aches and pains that flesh
is heir to, when he has to sit
silently by and see his avoirdupois
disappear and his appetite pine
away and die in contemplation of
its own looseness; when the cold
lizzards of despair race up and
down his spinal column when
uncouth fears nibble at his spirits,
and his soul is filled with doubts
as an old bacon ham is bored with
skippers. In short when a fellow
is sick, despondent, in trouble, in
debt and in love, he's in a darn
poor fix to assume a virtue he does
not possess or a joy he does not
feel. If there is one time more
than another that we long to be
a boy again its along about this
time of year "when the green gets
back in the trees" and bull-frog
begins to pipe out his solos.
The people are more hopeful
here than they have been for a
long time. The cloud that has
rolled over this country is fast
showing its silver lining. Whether
its 16 to 1 kind we are not
prepared to say. That the times
are getting better, the most pro-
nounced pessimist will no longer
deny. The kickers and grumblers
have had their day and will soon
go out of business. The engine
is reversed and the tide has turned
and all the combined efforts of the
professional calamity howlers to
convince the people otherwise
will prove futile. "There is a good
time" coming; is already here.
You can see it in the faces of the
mechanic and merchant and hear it
in the whistle of the plow boy;
you catch it in the song of birds
and hum of the bee. Its here, its
here. Get up and get out of the
way laggards and calamity how-
lers, and let the procession pass.

THE PILE OINTMENT

PLOWS! PLOWS!

B. F. Avery & Sons Plows

Have been in use for 70 years, and they have been improved from time to time until
his Steel Plows have almost reached perfection. The advantages in buying one of
Avery's plows is that you can always get the repairs, and any blacksmith can sharpen
the points. When purchasing a plow always ask your dealer if you can rely on him
to keep the repairs, and at what price, as some factories reduce the price of their
plows in order to sell them, and afterwards when the farmer is compelled to have
an extra point or bar he finds them much higher than he expected.
Oliver's Chilled Plows are the best in the market. All points and bars are brand-
ed "Oliver" and "Genevieve Oliver." Beware of spurious points, as some dealers
handle them. They are made out of inferior material and break much easier than
the genuine. Any of the above plows or repairs can be found at

The Fruit Crop.

So far we are enabled to rejoice at the prospects of a bountiful fruit crop. Though our people in this county, do not sell but very little fruit, yet the crop amounts to a great deal so far as immediate prosperity is concerned. A full fruit crop in Jackson's Purchase, is worth nearly as much to all the people as the wheat crop. Frost will hardly kill it this season.

Inter-State Celebration I. O. O. F.
The coming celebration to be held in East St. Louis, Ill., April 26, 1895, promises to be the largest ever held in the state. A monster programme has been arranged for the entertainment of visitors, including a Grand Inter-State Parade band contest, wheelman's contest, addresses by prominent speakers, etc., the celebration closing with a Grand Inter-State Ball. For the occasion the Cairo Short Line and St. Louis & Paducah Railway, will sell excursion tickets on April 25 and 26 at extremely low rates.

For the accommodation of the I. O. O. F. and the public, a special train will be run to St. Louis on April 25, returning, a special train will leave East St. Louis on April 26, at 11:00 p. m., stopping at all stations. This train will enable all who desire to return home immediately after close of celebration. Call on your nearest ticket agent for full particulars.

The farmers have been putting in good licks during the past week in the way of farming. The corn crop is more than half planted, and ere another week rolls around, if the weather permits, corn will about all be planted. The farmers believe that early planting is the best, and according to the best known ideas is better in general if the season should happen to be a dry one. The prospects thus far indicate a prosperous year for the farmers.

Rheumatism is caused by lactic acid in the blood attacking the fibrous tissues of the joints. Keep your blood pure and healthy and you will not have rheumatism. About the Tariff.

Bill McKinley, the republican apostle and prime of high tariff, in his report to the house of representatives on April 16, 1890, declared that the advanced rates of duty on imports therein contained would reduce the 90 millions then in the treasury; that the high rate of duty suggested would indeed increase the revenue if imports should continue, but that the high rate imposed would prevent imports and cut off the revenue and deplete the treasury. He says on the 2nd, page that "we have not been so much concerned about the prices of articles we consume as we have been to encourage a system of home production, (manufactures); that the committee will admit that free trade or revenue duties will reduce the costs of products consumed by the people; that we have not believed that our people, already suffering from low prices, can or will be satisfied with legislation which will result in lower prices." What does the poor tax ridden republican or their misguided allies, the populist, think of this bold language contained in the report of the republican tariff committee of 1890? Further, on the same page, that committee has the cheek to say, "This bill is framed in the interest of the people of the United States." In that report McKinley says, "the committee has not imposed a rate of duty higher than the difference in the cost of production in the United States and foreign countries. This is the cunning argument of the tariff robbers; this is the taffy they throw out to all who are simple enough to believe it. This is the vampire which is intended to fan the stupid republican to unconsciousness, while his life-blood is being drawn from his veins. This is the argument that is expected to pacify the poor laboring man who goes out on his mission of endless toil, unconsciously laboring to make himself poorer and the rich manufacturer richer.

I will now adduce a few facts to show the utter falsity of the assertion that "no duty was imposed greater than the difference in the cost of production in the United States and foreign countries." The difference in the labor cost of blankets is from 22 to 27 per cent, while the tax on the foreign product is from 83 to 106 per cent; in ladies dress goods, no difference in the cost of production, McKinley tax 86 to 93 per cent; in \$109 worth of cutlery, the labor cost is \$44.24, the tariff \$80.11; in \$100 worth of mats and matting the labor cost is \$34, the tariff \$68.59; in \$100 worth of silk piece goods the labor cost is \$22.54, the tariff is \$60; in \$100 worth of cigars and cigarettes the labor cost is \$34.51, the tariff is \$125.36; in \$100 worth of woolen or worsted cloth the labor cost is \$20.85, the tariff is \$100.02; in \$100 worth of pottery the labor cost is \$45.96, the tariff is \$90; in \$100 worth pearl buttons the labor cost is \$39.69, the tariff is \$143.61; in a ton of coal the labor cost is from 40 to 50 cents, the tariff is 75 cents; in \$100 worth of cotton goods the labor cost is \$24.44, the tariff is \$57.08; in \$100 worth linen the labor cost is \$32.92 the tariff is \$50; in \$100 worth of common window glass the labor cost is \$53.09, the tariff is \$98.39; in one ton of pig iron the labor cost is \$1.50, the tariff \$6.73; in one ton of bar iron the labor cost is \$4.57, the tariff is \$52.98.

Why is it that what the republicans vote for the benefit of labor does not go to the laborer? They do not stand up and tell the people of the United States that they want this for the protection of the capitalist. They do not dare to stand before the people and tell them that they continue to tell them that it is for the benefit of labor, and after they have got it they put it in their pockets and pay the laborer just what he gets at free trade prices, and that is all he can possibly get. The only way that the laborer can receive
