DEATH RESULTS IN SUNDAY FIGHT.

Graves County Boys Engage
in Pistol Duel And One
Is Dead.

Late Sunday evening on the public road between Lynnville and Boydsville it is alleged that Sam Brooks shot Alvis Pitman in the leg and also shot and killed Stanley Gibson.

The story of the trouble as best could learn is as follows: Sam Brooks and his brother Clarence Brooks were on their way to Boydsville to church and when in about two or three miles from Boydsville they met Stanley Gibson and Alvis Pitman and all spoke to each other in a friendly way but just after they had passed it is said, that Gibson called to Brooks and said he wanted him to take back something he had said about him last summer. They all stopped and a quarrel began when they came to blows, and after passing a few licks, Brooks is said to have pulled a pistol and shot Alvis Pitman in the thigh, but the wound is said not to be dangerous. Brooks is then alleged to have shot Stanley Gibson four times, killing him instantly.

Pitman, who was shot in the leg, said he heard three shots, but Justice Bird, who was called there at night, thinks that Gibson was shot four times as there were two bullet holes in his head and one in his side and another near the shoulder.

Justice Bird took the statement of Pitman and then issued warrants for the arrest of Brooks and placed them in the hands of Lawson Alexander and Constable Pointer, but up to the present no arrests have been made.

Sam and Clarence Brooks are sons of Mr. Tom Brooks, while Alvis Pitman is a son of Green Pitman. Sam Brooks is 25 years old and Gibson was about 21 years old.

It is also said that they were all sober and all unarmed except the one who did the shooting and that no trouble was anticipated a moment before it started. There seems to have been some trouble between them last summer which still held a place in the bosom of the young men which unexpectedly brought up the difficulty which ended in the death of one and the wounding of another.

The shooting took place near the home of Mr. Deck Sims, who was the first man to appear upon the scene. When he arrived he found one man standing by, one dead man and a mule.

GALEN MILLER PASSES AWAY.

Death Comes to Popular Ci-
tizen After Many Years
of Suffering.

Galen Miller died at his home in this place Tuesday morning at about 5 o'clock after a prolonged illness of consumption. The end came peacefully after many long years of suffering. While his death was not wholly unexpected it brings much sadness to the entire community and the numerous expressions of sorrow at his taking away is evidence of the high esteem in which he was held by the entire citizenship of the town and county. He was about 41 years of age and single, and is survived by his mother and one sister, Mrs. Hontas Sturgis, of Virginia.

Galen Miller was a son of the late Capt. Tip Miller and wife and was a native of Calloway county. When quite a young man he was elected to the office of county court clerk and served the people well and faithfully in that capacity for two terms. He was a Mason and served the home lodge as its master. He was a member of the Baptist church and lived a consistent christian life.

Funeral services were held at the Baptist church at 2 o'clock Wednesday afternoon conducted by Revs. H. B. Taylor, and N. S. Castleberry, of Benton, after which the burial took place in the City Cemetery under the auspices of the Masonic lodge.

Petition for Re-hearing.

In the Court of Appeals yesterday the Attorney General filed a petition for re-hearing in the case involving constitutionality of the Special Circuit Judge act of the last Legislature. He also filed a transcript of the case involving the right of the State Board of Equalization to raise arbitrarily the taxable value of property in any county.

FROM FAR AWAY PHILIPPINES.

Corporal Padgett Writes
Entertaining Letter From
Island of Mindanao.

July 25th, 1910.
The Murray Ledger:
I will write a few words to the Ledger as my stay here has been lengthened some. I would like for you to send me the paper here up to Oct. 15.

This is a beautiful country here. We are on the island of Mindanao, a Moro province. The Moros are as black as an African negro, have black teeth, both women and men wear long hair, the women fix their hair on the right, the men on the left. All wear clothes alike but very few of any kind. You scarcely ever see a Moro girl, they kill nine out of every ten girl babies born. The Datus are the same as an Indian chief, each have tribes, some of them raise rice and tobacco, use carabao for their horses.

We have had but little trouble with them, five of the boys got cut up, three of them died. They are a sneaking kind of a human would kill you for a penny. They will have six months more to catch me, and if they fail in that time they will have to catch me in the U. S.

I have joined the Army League and we have 72 ball games scheduled and I will be ready to make a start for the U. S. We leave for a tour of the Islands in two weeks, are expecting a good time, after our games are finished we will sail by the way of the Red Sea, Suez Canal and land at N. Y.

I have enjoyed my visit here very much, we took part in the Army Maneuvers of the Philippines 1910 and a part in the Carnival of Manila. Had the pleasure of looking out over Manila Bay where Dewey whipped the Spaniards before breakfast.

I will ring off for this time and come again later. Yours Respt.

BOB WHITE'S SAW MILL BURNED LAST SATURDAY.

The saw mill of Bob White was burned to the ground last Saturday afternoon at about 3 o'clock. The mill was located on the west side of the county near Bakers store. The fire originated from the engine used in its operation and was a complete loss to Mr. White. There was no insurance.

NO CHARTER FOR CALLOWAY BANK.

Secretary of State Warns
Citizens Against the Pro-
fessional Organizers.

Secretary of State Ben L. Bruner has refused to grant the Lynn Grove bank a charter under which to conduct a banking business. A bank promoter by the name of Rice recently went to Lynn Grove and organized the institution and was later awarded the contract for erecting the building and furnishing the equipment. The total cost will reach about \$4,500 which will be quite a loss to the citizens of that section of the county.

A special to the Courier-Journal from Frankfort says:

"In refusing to grant a charter to a bank at Lynn Grove Dr. Ben L. Bruner, Secretary of State, declared that he does not know of a city in the State where there is now need of a bank. In other words, he thinks that there are enough banks in this State at the present time. Dr. Bruner let it be known, too, that professional bank organizers cannot organize new banks in this State and unload them on the people in a community where a bank is not needed and where it is likely to be a failure.

In refusing to grant a charter for a State bank at Lynn Grove Dr. Bruner comments at length upon a condition which he says is existing in Kentucky that will finally serve to lessen the confidence of the people in the banks and adds that they will keep their money at home or in their pockets. This evil, he claims, is that of banks being organized by professional "bank organizers" who have no interest in the ultimate success of the institution.

Dr. Bruner says that in a good many instances in this State these professional "bank organizers" have gone to a community that had no bank and aroused a false enthusiasm among the people, and succeeded in organizing a bank, erecting the banking-house selling the fixtures and doing everything necessary to be done, without filing their articles of incorporation or making application for a charter until the bank has actually engaged in doing a banking business. This method of organizing banks is severely criticised by Dr. Bruner and he declares that in the future he will absolutely refuse to grant a charter to a bank that has been organized in this manner.

Dr. Bruner makes the bold statement that to his knowledge there is not a place in the State

A ONE BARREL MEETING HELD.

Newt Chrisman is Only Per-
son Participating in the
Committee Meeting.

Newt Chrisman, usurper and stave maker of Benton, pulled off a political stunt here last Tuesday that has never before been attempted in the history of even the dirtiest politics. Chrisman, who was recognized as chairman of the Calloway county democratic committee by State Central Committeeman Berry, of Paducah, when in fact J. H. Keys was elected to the place by a large majority of the people of the county, styles himself chairman of the senatorial district committee. The meeting was called by him for the purpose of naming the time and manner of selecting a candidate to succeed Conn Linn, the election to occur in November 1911.

Clarence Broadbent, of Trigg, and R. J. Dooms, of Lyon, came to Murray in answer to the call. Chrisman held the proxy of the Livingston county member. Tuesday morning Chrisman notified the Trigg and Lyon members that the meeting would be held in the offices of Coleman & Wells at 10 o'clock. Broadbent and Dooms refused to attend and by their failure a quorum was broken. Chrisman, after naming the time and place of the meeting in Coleman & Wells offices, made attempt to force a meeting of the committee, and went to the private room of the Lyon and Trigg representatives in the New Murray hotel and asking for the gentlemen called them out in the hall stating that he wanted to see them privately for a few minutes. When the gentlemen stepped out Chrisman declared the committee in session and that they would at once proceed to the election of a secretary. Mr. Broadbent and Mr. Dooms were very much surprised at the high handed method and asked Chrisman if it wasn't necessary that a roll call be had and turned and walked back in their room. Chrisman proceeded to hold the meeting right then and there, evidently electing himself chairman, secretary, wiping stick, ram-rod and all. The Paducah and Louisville papers say that he called county mass conventions for October 15 and a district delegate convention to be held in Eddyville October 17.

The Lyon and Trigg members of the committee refused to attend the meeting because of the fact that it was unprecedented to call a convention or primary fourteen months in advance of the election. That there was no an-

nounced candidates asking that any action be taken and that to do so jeopardized the possibility of electing the nominee. Their position is endorsed by all thinking democrats and should Chrisman's conduct be upheld by Berry of Paducah there is no more chance for a nominee of his one-barrel convention being elected than there is of a doodlebug walking to the moon before breakfast. Similar conduct caused the defeat of democratic nominees of Calloway last year and will cause a similar defeat in the Third senatorial district. The people are forever done with gag, gang and force rule. Previous strong partisans of Chrisman are open in their denunciation of his action and some of them have declared they would not support any nominee of such a convention. But little regard is paid to the success of the democratic ticket, district or state, and such action will cost both tickets hundreds of votes in every county in the district.

MURRAY HORSE WINS AGAIN.

Union City, Tenn., Sept. 17.—The second day of the Union City fair was attended by a crowd of 6,000 people, who witnessed one of the best racing programmes ever held at a county fair in West Tennessee, and saw premiums awarded to one of the finest collections of blooded hogs ever show at a fair in Obion county. Among the hogs was a 700-pound boar owned by C. G. Cloys. This was a Berkshire, but there were also Poland Chinas, Durocks, Chester Whites and others, from six months old pigs up, and each one was a splendid example of what can be done in the way of raising, if the growers will only get blooded stock and improve the strain.

There were two races this afternoon, the first one being a 2:25 pace, mile heats, 3 in 5, for a purse of \$500. There were fifteen entries, but only six started. Don Hall finished first, Jerry H. second, Mattidor, third, Tuondo, fourth. Time, 2:15. The 2:25 trot, purse \$150 was won by The Algerian, owned by Mason & Irvan, Murray, Ky. D'Clare was second and Irs M., third. Time, 2:21 1-2.

THURSDAY, SEPT. 22, 1910.

A call fourteen months in advance of the election might be termed stealing at long range.

Oklahoma will be the future home of another political pirate if anyone accepts a nomination of the senatorial district convention called by Newt Chrisman last Tuesday.

The fellow who accepts a nomination for the state senate under the call for a convention as made by Newt Chrisman might as well pack his belongings, call the dog, put out the fire and move.

W. A. Barry, state central committeeman from the First Congressional district, will be the court of last resort and will pass upon the second political theft perpetrated in Calloway county and his decision is already known. There is one more dose of bitters in the peoples' medicine chest and it will be administered after some jackass accepts a nomination for the state senate under the call for a convention as issued by Newt Chrisman.

The editor of the Ledger owns a little home on Price street, in the city of Murray, Ky., and which is valued at \$3,500. There is not a dollar of indebtedness against it, and it is about all of this earth's goods he can call his own. He will wager this home against its equivalent in cash or unincumbered real estate that the nominee of Newt Chrisman's convention for the state senate will never warm the bosom of his trousers with a seat in the senate chamber at the state capitol. The wager is open to the world, none are barred.

VIRGIL LOCKHART'S HOME IS DESTROYED BY FIRE.

The home of Virgil Lockhart, near Harris Grove, was burned last Friday afternoon while the family was absent from home and the building and contents were a total loss. The origin of the fire is not known as there was no one at the place at the time of the fire. He carried about \$350 insurance on the contents, while Clarence Phillips, who owned the farm and house occupied by Lockhart, had \$300 on the building.

FOR BALD HEADS.

A Treatment That Costs Nothing if It Fails.

We want you to try three large bottles of Rexall "93" Hair Tonic on our personal guarantee that the trial will give you absolute satisfaction. That's proof of faith in this remedy, and it should indisputably demonstrate that we know what we are talking about when we say that Rexall "93" Hair Tonic will grow hair on bald heads, except where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember we are basing our statements upon what has already been accomplished by the use of Rexall "93" Hair Tonic, and we have the right to assume that what it has done for thousands of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50c and \$1.00. Remember you can obtain Rexall Remedies in this community only at our store—The Rexall Store, Dale & Stubblefield.

NEW BRIDGE OVER CLARK'S RIVER IS BEING INSTALLED.

Work of installing the new bridge over Clark's river south of town by the N. C. & St. L. railway company was commenced in earnest this week. The structure when completed will be one of the best of its kind on the entire system. This improvement was made necessary because of the increasing heavy traffic over the road. I. O. Walker, of Paducah, was here the past week looking after the work and in conversation with a Ledger reporter stated that the improvement was not being made with a view of increased traffic on account of the Burlington road entering Paducah but was made necessary on account of the heavy traffic of the N. C. & St. L. alone. He stated that if there was any traffic agreement between the N. C. & St. L. and the Burlington he had no knowledge of it and that the only information he possessed was what he learned from the press.

BUILDING & LOAN COMPANY ORGANIZED HERE LAST WEEK.

A building and loan association was organized here last week with J. D. Sexton, president; Will Harris, secretary; H. B. Gilbert, treasurer, and R. T. Wells, attorney. The board of directors of the new institution is composed of the following well known citizens: J. B. Hay, C. G. Beale, J. E. Owen, H. B. Gilbert, Will Harris, M. T. Morris and C. H. Bradley. Articles of incorporation will be filed at once and the new association expects to be ready for business at an early date.

INSTITUTE WILL CONVEENE 26TH.

Miss Lucile Grogan, county superintendent of schools, has issued notice that the teachers institute for Calloway county will be convened here next Monday at the high school building. First announcement was made for July 25th, but owing to the illness of the conductor, Dr. Willis, of Lexington, the date was postponed till Sept. 26th. Miss Grogan is in receipt of information from Dr. Willis that he will be here or will send a good conductor in his stead.

All the schools of the county will be dismissed for the institute and it is mandatory that all teachers attend unless prevented by illness. The meeting promises to be one of the most interesting in the history of institutes and will be largely attended.

C. H. Bradley, Barber McElrath and J. D. Sexton have commenced putting down concrete walks in front of their residence property on North Curd street. The improvement not only adds to the value of the property but adds to the progress and prosperity of the town. Very unfortunate that the city council has refused to require the extension of concrete walks throughout the residence section of the city before winter weather and winter mud again overtakes us. The citizenship expected it and would most certainly welcome it.

DR. C. N. TYREE APPOINTED LIVE STOCK INSPECTOR.

Dr. C. N. Tyree, the well known veterinarian, was last week appointed live stock inspector for Calloway county. This place was created some several months ago by the state commission and is made necessary because of the scabies among sheep in this state and against which all other states are quarantined. It will be Dr. Tyree's business to inspect all live stock shipped from or into this county and report their condition to the county judge. Dr. Tyree is eminently qualified for the place and will give the place his careful attention.

CALLOWAY WINS TOBACCO PRIZE.

Samples of African tobacco grown by W. Tom Downs, east of town, and a sample of Australian type, grown by a number of different farmers on the west side of the county were entered at the state fair in Louisville last week and as a result Mr. Downs was awarded first prize for the African and the other sample was awarded third prize in the Australian class. The amount of the first prize is \$15 while the third was only \$5. The sample submitted by Mr. Downs measured forty inches long and was one of the finest types of tobacco ever shown in this state.

Detroit, Texas.

Editor Ledger. Will write again, as my last missed that much dreaded waste basket.

Cotton picking is in full swing here and is good. It is thought that Red River county will make 35,000 bales and may run to 40,000. It is selling from 14c to 23c per pound. Cotton pickers are in demand on the prairies. Some of our Kentucky boys will make \$2,000 this year on cotton alone. Everything is on a boom here now and oh, Lord, the work to do is a sight.

Well we are on our third session of the legislature, our governor seems to have nothing else on his mind only calling extra sessions and spending the peoples' money. They have passed a law on everything from a cow tick to a drastic railroad bill, and I look for them to make it a felony for a man to commit suicide before they come home.

The people of Detroit are talking of forming an oil company to sink a well near here as a test well. Experts say this county is over a lake of oil. We are on a line with the Oklahoma mills to Beaumont oil fields with the same kind of land they have at Beaumont. All experts say every indication here points to a rich field soon.

Melons are still plentiful and cheap.

I saw the Holland Bros. in Detroit Saturday. They are doing well.

Con and Lane Grogan have fine cotton crops. Yet Lane is wandering around calling loudly "Mat, come home!" She is in Kentucky for a month. I think we will have to cage him up in another week.

We have a splendid Sunday school in progress in our little town and it promises to be a success. We believe that a spiritual awakening is in our midst; those conversant with the spiritual tendencies of our people can judge as to the correctness of our forecast. We have for our superintendent the Rev. Tonic or Stimulant?

There is an immense difference between a tonic and a stimulant. Up one day, way back the next; that's a stimulant. Steady progress day by day toward perfect health; that's a tonic. Ayer's Sarsaparilla is a tonic, a strong tonic. The only Sarsaparilla entirely free from alcohol. Do not stimulate unless your doctor says so. He knows. Ask him. Do as he says. J. C. Do You Know Her?

We want to find our oldest friend. We want her to celebrate with us our fortieth year. We want to shake hands with her across the years and across the miles, and thank her as typifying the millions of women who have made the success of The Delineator possible. We want to do something that will give her pleasure. We want her to have something that she wants—as a result of our fortieth anniversary. Of course, we don't know now what she does want; but we like old ladies; we like to see them smile when they are pleased. We haven't the faintest idea what will give her the most pleasure; her heart may be set on a diamond ring, or a ton of coal; she may need a house and lot, or a new bonnet. Whatever in reason she wants she shall have.

Ask your mother or your grandmother how long she has read The Delineator. Send her name to Mr. Ridgway. She may be The Delineator's oldest friend. Five hundred dollars for you if you find her.

There will be more about the "oldest lady" in next month's Delineator—the Fortieth Anniversary Number.

One Way to Save Shoe Leather.

Where there is a large family, and a few dollars have to go a long way, one is often compelled to buy cheap shoes, the soles of which are half paper and wear through in a very short time. Then the shoe must either be sent to the shoe hospital or one is kept busy mending hosiery. Here is my remedy:

Save the tops of old shoes, especially good, well-seasoned leather tops of shoes belonging to the men folks, cut out a piece a trifle smaller than the shoe to be mended and glue to the under part of the sole. Let stand under a weight for twenty-four hours. I have tried this and find that the piece of leather will outlast two cheap soles. It will also outlast the average sole put on by the shoemaker. Oftentimes a shoe is so badly worn one is ashamed to send it out for repairs; then the home-made sole comes in handy.

As one rarely goes out in the rain without rubbers, street shoes may also be repaired in this way. Before wearing, blacken the edge of the leather. We have saved many dollars in this way.—F., in October Designer.

Who Will Be The Lucky Man.

For the advantage of getting 2 nice cottage houses erected on Broad or Pear street, I will sell 2 nice lots at half price.—N. B. BARNETT.

WHERE TO WORSHIP.

CHRISTIAN CHURCH.

Next Lord's Day morning, Sept. 25, we will have our Annual Roll Call and Rally Day service. This is just a foretaste of the great day bye and bye "when the roll is called up yonder." We have had forty "added to the saved" since March 1st, and it will be an hour of great rejoicing when the whole membership can meet and worship together. We urge every member to put forth a strenuous effort to be on hand at 11 o'clock and answer "present" to the roll call.

Listen: You cannot afford to be absent unless hindered by sickness.

Grand Concert.

A grand concert will be given in Murray, October 18. Place of concert to be announced later.

This concert will be given under the direction of Walter W. Flora, at the close of his ten days work and will be given in the form of a recital, assisted by a part of Mr. Flora's Concert Co. from Columbus, Ohio.

At this time Mr. Flora will sing a number of his own compositions, and will have a program so arranged as to thoroughly please everybody.

There will be some home talent appear at this concert, so that Murray people may know that there is plenty of good talent here.

Mr. Flora has discovered some good voices here and he means to bring them out this time.

One attraction at this time will be the Soprano, Miss Charlotte Simpson, who has been under Mr. Flora's care for the past four years and has been in his Concert Co. for the past three years, will sing a number of songs, also will be heard in duets with Mr. Flora.

Miss Simpson is considered the greatest soprano on the Lyceum and Concert platform today, considering her age. She is not yet twenty, and without doubt she will be one of the greatest singers in this country in a few years.

Mr. Flora is certainly going to give Murray a feast of song during his short stay in October.

FROM THE PRESS:

WALTER W. FLORA, LYRIC TENOR. Bluefield, W. Va.:—The best tenor voice ever heard in this city.—Bluefield Times.

Erie City, Pa.:—A rare voice, such as is seldom heard, sweet in quality, strong in volume, and uses it with wonderful control.—Erie Times.

Newark, Ohio:—Mr. Flora possesses a high lyric voice of great range, volume and quality, and as a composer of both words and music his productions bespeak the artistic temperament, which is sure to arouse and please the ear.—American Tribune.

MISS CHARLOTTE SIMPSON, DRAMATIC SOPRANO.

Fremont, Ohio:—Miss Simpson, a young and promising soprano, won a warm place in the hearts of her audience in both solo and duet work. A voice of remarkable quality and fullness.—Fremont News.

Indian Lake, Ohio:—(Chautauqua)—One of the most pleasing voices that has been heard on this years program was that of Miss Charlotte Simpson, soprano. A glorious voice for such a young singer. She will be most welcome on our program again.

Pittsburg, Pa.:—To hear Miss Simpson, the young dramatic soprano, is to remind one of the great soprano, Gadsby. This young singer displays wonderful ability, and sings now as one with years and years of hard study. Mr. Flora, her teacher, can well be proud of the soprano who is now engaged with him in the concert world.—Emmit Kilgore, Critic.

Letter From Arkansas.

Hiram, Ark., Sept. 19th.

Editor Murray Ledger:—

I have decided to write a few lines to Ledger and your many readers. There ever will be a warm place in my heart for Murray and old Calloway people. I have a few near relatives and warm friends left by the ravages of death in town and county. I have one dear sister living in Murray, wife of A. Q. Knight. I will mention several who are living there yet. Eld. Dick Beale, Dr. R. L. Grogan, Alman Beale, Bill Purdom, John Williams, Billy Wear, John and Dave Futrell, the Outland boys and Howel Hicks and others too many to mention in this short say and many have passed over the river back there of late years. I will mention a few names, Uncle James Vancleave, who was a good man, was the last father of a Confederate soldier in all my knowledge, Then Bud Jones and Col. Holt, late of Memphis, and Emmett Beckham, late of Ft. Worth, Texas, Jas. Martin, Dick Martin, the latter late of New Mexico, were all men that Lever hold a warm place in my heart for. James and Dick Martin's sisters are yet living there. Meline Turner lives here in Cleburn county, Ark. Julia Grogan in Red River county, Texas. These are all in their eighties. Mama Adaline Turner has lived to see her fourth generation, a great, great grandmother. A son was born in our family the 26th of August, my birthday. I am 70 years to a day. Oldest Eliza Vinson is his great grandmother, Lula Sandifur, our daughter, his grandmother, he has one grand mother on the fathers side. He is a Brown. Now I will tell you something of our country to compete with "Singing Joe" Phillips, of Texas. Say Joe, we have plenty of store and rocks, that is what you haven't got. We build chimneys and houses of stone in this country, but not so much black and red mud of course. We build of brick and concrete too. Yes, and only about ten months ago we (a stock company) built a wire bridge across Little Red River, 1 1/2 miles of us. So we use a great deal of wire and pine lumber for building purposes. Then we do as they did in Bible days, go up on the mountain. We have fine crops this year. Corn, cotton, hay, fruit and vegetables, and sale for everything. I have got to be a regular pedler of late. Quit farming, only truck farming, then wages are good. No use for a man to be idle a day unless he desires to sit on street corners, chew tobacco, smoke cigarettes, whittle goods boxes or discuss socialism. Not much whiskey drinking here since we got our new railroad here. The timber, lumber and stave business is all the go here. Wages for common work hands \$1.25 per day. We have good schools and churches, so Arkansas is in the front rank already, although some think Arkansas is a back number. I am like I told an old Confederate at the Memphis Reunion, that I was partial to three states, I was born and raised in Tennessee, my wife and children were born in Kentucky, and we now live in Arkansas. Hence Arkansas is first of all with me. We told cousin Walk Grogan when we were visiting in Texas that those men didn't have a bit of manners. Arkansas people give half the road when we meet on highways. We were on the road nearly every day while out there. Those Texas fellows just shut their eyes and drove on. Of course we went around.

We were so glad to see the first page of the Ledger graced with the portrait of Miss Lottie Hicks, our cousin. Also a while gone another cousin, Miss Lucile Grogan's picture. We are so proud of them.

Mark Vinson was elected county judge last Monday.

Social Problems

Woman Can Elevate Man to Worthy Position

By DR. MADISON C. PETERS

IN THIS age of civilization and progress the intercourse of the sexes is indispensable to the welfare of society at large. Both must take their places in the ranks and keep abreast and shoulder to shoulder in the march for the cause of humanity. They have mutual responsibilities and each a part to perform to contribute to the whole and add to the sum total of happiness and progress.

Woman can elevate man to a position worthy of his destiny; man can exercise an influence over woman to those heights of perfection whereon she becomes the exemplar for all to imitate in nobility, goodness and virtue.

Man in return has done much for woman. He has broadened and deepened her outlook on life. She imbibes from him a wider conception of things and a more tolerant view in her ideas and opinions of life. She sees a larger perspective beyond the narrow vista through which she looks when alone.

A story is told of an Italian nobleman who in early life married a beautiful but wicked woman. His life was blighted and he made a vow that he would never have anything to do with womankind again. He had an only son, and the father resolved that this boy should never set eyes upon a woman until he would be a full-grown man and therefore wise enough to take care of himself. The son was shut up in a castle until he was twenty-one and then the father brought him out to a great banquet in honor of the occasion. Many beautiful women were present and as the youth had never seen the sex before he asked:

"Who are these beautiful creatures?"

"They are devils, black-eyed devils," replied the father. "I have had experience with one of their kind and they are dangerous. If you want to be happy keep away from them forever."

At the feast there were other attractions than the women. There were collections of art and priceless treasures. The young man was dazzled, enraptured, so the father, perceiving his delight, said:

"My son, on this your first entrance into the world, what of all things you have seen would you rather have?"

"Father," returned the young man, "I would rather have one of those black-eyed devils than all things else in the world combined."

How to Enjoy One's Summer Vacation

By JAMIE WARD

To those who must spend the summer in the hot city what can supply the vacation element? Brain and body must have rest in some way.

This is my vacation: From my backyard, as I sit there the evening quiet, I feast my eyes on the vista of green lawn and overhanging trees which spreads before me. Its belonging to my neighbor does not hinder my eyes, feasting on it nor my body's feeling the restful influence of its shade and coolness.

A robin has her nest in a large shrub near my hammock. Can I find loving motherhood and helpless childhood better expressed anywhere?

On the other side of my wee yard is my neighbor's garden of growing corn. I can smell its sweet odor in the dew after it is too dark to see it.

I do not envy the "Honk! honk!" of the automobiles nor my own, nor the sassy "Spit! spit!" of the motorcycles.

At bedtime I am rested mentally and bodily. The contemplation of these things has kept my mind from thinking of business or office cares.

Other evenings my family is with me. Sweet are these little visits when wife and children and I are alone together.

My wife has taught the dear children that this is father's rest time, so a respectful quiet is adhered to, and if father becomes reminiscent and tells stories of his boyhood they are delighted.

Don't tell me there's no way to have a vacation except by going off to the north or to a summer resort.

Origin of Ridicule for Red Headed People

By CAROLINE EPHRAIMS

It has always been a mystery to me where the ridicule and "kidding" of the red-haired person originated. Why are they so sensitive about it? What started the thing, anyway?

If you are red-headed you can go into the backwoods where people live who have never seen a railroad train, and don't know a "hobble skirt" from a bag of potatoes, but if you don't keep quiet they will inform you that you have red hair.

I saw some criticism in one of our magazines of some prominent people, and all the flaws they could find in one poor woman were that she was red-headed. Is this certain type of people particularly homesick, or do some of these "has-beens" want to pick at us?

A "maiden lady" recently begged my pardon for mentioning red hair in my presence. I felt like telling her that if she had shown up a little brighter the desirable bachelors might not have passed her by.

We will try and bear up under the affliction.

Women Make Many Grimaces While Talking

By W. R. NETSPE

Why do so many American women twist their features when talking?

The writer, who hails from another continent originally, but who has been a resident of Chicago for a number of years past, has observed that in the majority of instances women here express their feelings almost as much by facial expression as by actual speech.

It does not seem to matter who or what they may be—rich, poor, invalids, athletes, modest virgins or jolly girls, home grown or imported—they all seem to get the habit. Is it the climate or what?

The KITCHEN CABINET

THIS learned I from the shadow of a tree. Our shadow selves, our influence, may all be there where we can never be.

Summer Breakfasts. To most housewives the first meal of the day is the one most difficult to prepare. Start the day right with a good breakfast, and we are at peace with the world and one's self, at least until the next meal.

Many a case of indigestion and bad temper may be followed back to a poorly planned and worse cooked meal. Our food has much to do with our disposition. At no season of the year is fruit more plentiful or more of a necessity than during the warm months.

Blackberries, blueberries, plums, pears and apples are abundant this season and offer a pleasing variety. For the cereal course have, at least five varieties. It will be an easy matter to have a different one for every day in summer.

If a cooked cereal is used it is worth noting that a cereal is either made or marred by salt. Too much spoils it, too little makes it flat, and no amount of salt added will season it as if it were cooked in it. Cream is another necessity. If you cannot have cream, give up having the cereal. No matter how great the heat, hot breads are always popular. Light fluffy rolls are not easy to have unless the housewife is willing to rise at a very early hour. Popovers are a choice hot bread and with a little practice easily made. The oven heat is the important thing in making popovers. Here is a good recipe for them: Take one cupful of flour and half a teaspoonful of salt. Pour over this very slowly one cupful of milk, beating well until smooth, then add the beaten yolk of two eggs and lastly the whites beaten to a stiff froth. Bake in hot pan thirty minutes. Graham muffins and corn cake are other well-bred breads. For the substantial course there may be fresh fish or hash of the meat of the day before. Croquettes are excellent and omelets of different kinds are also good. Veal or chicken finely minced and well seasoned is delicious served on a thin slice of buttered toast and a poached egg on top. These are but a few suggestions as to what may be used for summer breakfasts.

WHEN drives the horses of the sun with his hot rays, and you weep alone. For this grave old earth has need of rain. It has sorrow enough of its own.

Canning Hints. Put a silver knife in the empty fruit jar before turning in the hot fruit and you will not have a cracked jar. Let the air bubbles up by thrusting a fork or knife down the inside of a jar filled with fruit before sealing it. After the rubber and lid are adjusted screw the lid down as tight as possible, then with the back of a knife tap the edge of the lid firmly down on the rubber, this will prevent it from leaking.

To Can Green Corn. Corn that is as fresh as if just taken from the cob may be canned now. Take nine cupfuls of corn freshly cut from the cob, a cupful each of sugar and water and a half cupful of salt. Stir until the salt and sugar is well dissolved, then can without cooking in airtight cans. Freshen up before using.

Old-Fashioned Home Remedies. For toothache dampen a small piece of cotton with oil of cloves and put in the cavity of the tooth. For pain in the chest or headache with a cold, apply camphorated oil with rubbing, then cover with a cloth. For sprains, mosquito bites and heat rash, apply witch-hazel. For chronic indigestion add one-half an ounce of lime water to a pint of boiled water, take a tablespoonful at a time for relief.

Green Tomato Lemon Meringue Pie. Line a dish with good pie crust, fill two-thirds full with alternate layers of green tomatoes and lemon, sprinkling each with sugar. The rind, both white and yellow must be removed from the lemon and the seeds carefully taken out. Let the top layer be of tomatoes. Bake and then cover with a meringue.

Sunshine Cake. Cream one cupful of butter, add three cupfuls of sugar and the well-beaten yolks of ten eggs. Add one cupful of milk alternately with five cupfuls of flour that have been sifted with three teaspoonfuls of baking powder three times. Flavor with almond and bake in a broad shallow pan.

BE PROMPT at meals. And don't find fault. Let wit provide. Both spice and salt. Smile at mistakes. And overlook. Some of the blunders of the cook.

Hot Weather Hints. All the energies are exerted to endure the heat and the enervating atmosphere while performing household tasks during the summer. Dress comfortably and rise early to do the bulk of the work that has to be done each day before the heat of the day.

The simplest style of living comfortable to health and comfort, should be the aim. Bread may be mixed at night and kneaded the first thing in the morning and then baked before nine o'clock. Soups and vegetables may be cooked early, salads and desserts prepared and with a gasoline, gas or oil stove the meal may be easily prepared. A frivous cooker is an invaluable aid to the busy housekeeper as the dinner may be started in the cool of the day and put in the cooker to still cook without fire or attention.

Avoid entirely cold meals in hot weather, if the meal is to be cold have a hot drink of some kind or with a hot meal, serve a cold drink. Care and planning will do much to lessen the fatigue and shorten the hours of labor. There are some things that must be done, each housekeeper being a law unto herself. For some it is neither convenient or economical to buy prepared food, for those the baking and cooking must be done in the home.

The flour and lard or butter for pastry may be prepared in sufficient quantities to last for several days and kept in the icebox to be used when needed. It is even better than when freshly prepared as the cold mixture makes a flakier crust. The washing, ironing and cleaning may be done early if planned for and the lighter work be left for the hot part of the day. Work is good for us and those who sit around panting with the heat, doing nothing but talk of the weather and their sufferings are much more uncomfortable than those who are busy and have the mind well occupied. This has been proved over and over again. A busy worker has no time for worry about the weather or other things beyond control.

LAUGH and the world laughs with you; weep and you weep alone. For this grave old earth has need of rain. It has sorrow enough of its own.

Canning Hints. Put a silver knife in the empty fruit jar before turning in the hot fruit and you will not have a cracked jar. Let the air bubbles up by thrusting a fork or knife down the inside of a jar filled with fruit before sealing it. After the rubber and lid are adjusted screw the lid down as tight as possible, then with the back of a knife tap the edge of the lid firmly down on the rubber, this will prevent it from leaking.

To Can Green Corn. Corn that is as fresh as if just taken from the cob may be canned now. Take nine cupfuls of corn freshly cut from the cob, a cupful each of sugar and water and a half cupful of salt. Stir until the salt and sugar is well dissolved, then can without cooking in airtight cans. Freshen up before using.

Old-Fashioned Home Remedies. For toothache dampen a small piece of cotton with oil of cloves and put in the cavity of the tooth. For pain in the chest or headache with a cold, apply camphorated oil with rubbing, then cover with a cloth. For sprains, mosquito bites and heat rash, apply witch-hazel. For chronic indigestion add one-half an ounce of lime water to a pint of boiled water, take a tablespoonful at a time for relief.

Green Tomato Lemon Meringue Pie. Line a dish with good pie crust, fill two-thirds full with alternate layers of green tomatoes and lemon, sprinkling each with sugar. The rind, both white and yellow must be removed from the lemon and the seeds carefully taken out. Let the top layer be of tomatoes. Bake and then cover with a meringue.

Sunshine Cake. Cream one cupful of butter, add three cupfuls of sugar and the well-beaten yolks of ten eggs. Add one cupful of milk alternately with five cupfuls of flour that have been sifted with three teaspoonfuls of baking powder three times. Flavor with almond and bake in a broad shallow pan.

Saucy Soldier Shut Her Up. Col. Robert C. Carter at a Nashville banquet was talking about campaign comrades. "Then there was Dash of Company A," he said. "Dash had the reputation of being the nastiest tongued man in the regiment. 'It was Private Dash, you know, who, out foraging one evening on a rich estate, came accidentally upon the owner's wife, a grande dame in evening dress. 'Dash asked her for food. She refused him. He asked again. But, still refusing, she walked away. 'No,' she said, 'I'll give you nothing, trespassing like this. I'll give you nothing. My mind is made up.' 'Made up, is it?' said Dash. 'Like the rest of you, eh?' 'Taken at His Word. 'Since you are so busy today,' said the urbane journalist, 'will you kindly tell me when and where I can meet you for an interview?' 'Go to blazes!' exclaimed the irate politician. 'Thanks. I'll consider it an appointment.'"

In Bad Fix

"I had a mishap at the age of 41, which left me in bad fix," writes Mrs. Georgia Usher, of Conyers, Ga. "I was unconscious for three days, and after that I would have fainting spells, dizziness, nervousness, sick headache, heart palpitation and many strange feelings. "I suffered greatly with ailments due to the change of life and had 3 doctors, but they did no good, so I concluded to try Cardui. "Since taking Cardui, I am so much better and can do all my housework."

TAKE CARDUI

The Woman's Tonic

Do not allow yourself to get into a bad fix. You might get in so bad you would find it hard to get out. Better take Cardui while there is time, while you are still in moderately good health, just to conserve your strength and keep you in tip top condition. In this way your troubles, whatever they are, will gradually grow smaller instead of larger—you will be on the up-grade instead of the down—and by and bye you will arrive at the north pole of perfect health. Electric Bitters

Succeed when everything else fails. In nervous prostration and female weakness they are the supreme remedy as the French have discovered. FOR KIDNEY, LIVER AND STOMACH TROUBLE. It is the best medicine ever sold over a druggist's counter.

Biggest Dam in the World.

The secretary of the interior has directed the reclamation service to take up immediately the extensive preliminary work on the Rio Grande project in New Mexico and Texas, so that actual construction on the foundations of the Eagle dam shall be finished by July, 1911.

The Rio Grande project, of which the Eagle dam is the most important engineering feature, will provide for the reclamation of 180,000 acres of land lying in New Mexico, Texas and Mexico, in the valley where irrigation began before the discovery of America. It is estimated that the entire project will cost approximately \$3,000,000. The Eagle dam as planned by the reclamation service will be one of the most remarkable structures of its kind in the world. It will be of rubble concrete gravity type, with a maximum height of 265 feet, length of crest 1,400

feet, and will contain 415,000 cubic yards. The reservoir created by it will be the largest artificial body of water in the world, having a capacity of 2,535,000,000 gallons. It will cover that many acres a foot deep. Its capacity is nearly double that of the Roosevelt dam in Arizona and is considerably greater than that of the famous Assouan dam, constructed and recently enlarged by the English engineers in the Nile.

Innuendo.

When founded on fact, the malicious hint often does vastly more harm than the full disclosure. It has about it an air of mystery which begets a train of imaginings and beguiling groundless suppositions which would contain more truth than the whole truth known. More especially is this the case when the evil hint is blended with words of commendation. "He's an honest and a temperate man, etc.," but "oh, that mean, etc. hypocritical little 'but' that has entered so many friendships and betrayed so many a fair name! Where so much of good is spoken and the mean little 'but' uttered with a regretful sigh it often looks like the real pity. In reality it is but decking out and disguising the victim for the sacrifice. The innuendo is used only as a means of accomplishing a dishonest purpose. With colors false painting their foul ends. The slanderer is frequently but a cunning blunderer. Not so the skilled innuenduo man. He at least is no blunderer. He is a real tactician, a genuine strategist. He is really the reformation of evil.

A Good Position.

Can be had by ambitious young men and ladies in the field of "wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute operates six official institutes in America, under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay to write them for full details at Cincinnati, O., or Philadelphia Pa.

Don't waste your money buying plasters when you can get a bottle of Chamberlain's Liniment for twenty-five cents. A piece of flannel dampened with this liniment is superior to any plaster for lame back, pains in the side and chest, and much cheaper than any A. Dealers.

DEATH IN SUNDAY FIGHT.

(Continued from Page One.)

It is not known whether Pitman was accidentally shot or whether he was shot on purpose. No statement has so far been made by either one of the Brooks boys as to the cause of the trouble or whether the shooting was done in self defense or not. The trouble is very much regretted by the people out there, as so many men have been killed out in that part of the county that it was hoped that no more killings would occur.

The Brooks boys are cousins of Representative Houston Brooks of Graves county.

Coroner D. A. Saffold, of Mayfield, went to the scene of the killing of Stanley Gibson Monday and held an inquest shortly after noon. Sam Brooks, the young man who did the shooting, has crossed over the Tennessee line and arrest has not been made. It is said it was learned at the inquest that at the time of the shooting there was only one of the Brooks boys present, he being Sam. Alvis Pitman, who was shot in the leg, ran over a mile and a half, it is said, and is not seriously injured.

Don't Break Don't.

Save strains on the vital organs, like strains on machinery, cause break-downs. You can't over tax stomach, liver, kidneys, bowels or nerves without serious danger to yourself. If you are weak or run down, or under strain of any kind, take Electric Bitters, the matchless tonic medicine. Mrs. J. E. Van de Sande of Kirkland, Ill., writes: "That I did not break down, while enduring a most severe strain, for three months, is due wholly to Electric Bitters. I use them and enjoy health and strength. Satisfaction positively guaranteed. 50c at Dale & Stubblefield Murray, Ky."

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Peruna Tablets Tested.

What are the Peruna Tablets good for? Has anybody used them enough to know what they will do? Read the following letter and see. If you have any doubt as to the genuineness of the letter, write to Mrs. Lohr, enclosing a stamp for reply, and see whether her testimonial is genuine or not.

Peruna, Mo., June 16, 1908.
The Peruna Drug Co.,
I have used about ten boxes of Peruna Tablets.

While I was in Chicago my oldest daughter was bothered with a cough all the time. She has had it for four years. Sometimes it would go away, and in the winter time it was so bad that the doctors and professors said that she had consumption, and the only way to give her any relief was to perform an operation.

I spent so much money for different medicines, and for doctors also. Nothing seemed to help her.

So I saw the Peruna Tablets advertised in the paper, and I got a box and tried them. She could get some sleep by taking them. She would be up all night and cough. So I all she took six boxes, and never was bothered any more.

I will leave this for any one to inquire at our old residence, where we lived in Chicago. All our neighbors would say that she could not live with such a cough. You don't know how thankful I am. She is eighteen years old.

My oldest son also was bothered with his stomach, throwing up, and his bowels so loose all the time. He was all run down for four months. I also doctored with him. One would say this and the other something else. I started in to give him the Tablets, and now he is all right and healthy looking. He took four boxes. That is all he wants to take whenever anything ails him.

So I praise you the Tablets just as high as I have your Peruna. That is all the medicine that ever comes in my house. Whenever I travel I take some with me. I have had three of my children sick with scarlet fever two months ago, and that is all I used, was the Peruna and the Tablets. I did not lose any of them.

If there is any more information you want, why just let me know and I will be glad to do so. Yours truly,
Mrs. L. LOHR, Ravensburg, Mich.
