HOOVER MAJORITY

Now That That's Over With

Texas Joins
G. O. P. Ranks

REPUBLICANS SMASH SOLID SOUTH, TAKE SMITH ON STATE

FULTON ADVERTISER, FULTON, KY., NOV. 29, 1928

R. S. Williams, Publisher

The hard and plain is a situation in which the present party leaders are in the midst of a campaign.

This week for Hoover.

A week ago for Hoover.

No week for Hoover.

Not this week, for Hoover.

Elect nation leaders.

Now that that's over with.

Texas joins G. O. P. ranks.

Curtis wins New York State to get Floi bla and Virginia. •• I Tetin,•••• e, SIk•ouri mei Oki

Range

THE dependable service and satisfactory results which can be obtained by Enterprise Range, has for fifty years, made the Enterprise the choice of all discerning consumers.

The Enterprise Range is made by one of high grade manufacturers, and employs some three hundred men in its factories. It is not inferior to any other range in the world, and the company is doing a large business.

We invite you to see the Enterprise Range at our store, where you will find us always ready to show the best that the company can make.

Kentucky Hardware & Implement Co.

Incorporated.

W. W. Ritten, President

P. B. Shaw, Secretary.

FULTON, KY.
The election is over now and it does not matter whether or not your man or my man was elected, the thing for us to do is get busy and make Fulton county boom. This can be done if every body will put their shoulder to the wheel and the old wagon will roll itself again.

The best way to put the county in better shape in the least time to put the Hill road and work hard for the coming election.

By 4-11 club I mean Bros. Before, Hens and Hogs. Anyone a combination that can't be beat. There is no need to worry why every farm in this county should have better service for the next ten months of the year. Some will say "I haven't the money to invest in high class coal," You have good coal in your back and borrowed money on your tobacco and other farm products, and I have an idea the banks would rather have money on this kind of production than on tobacco. Try it once and see. Now we will figure on the lambs. 100 good lambs should average, least 34 lbs. per year, for 15-15-15, which will bring about 60 cents. There is no reason why every farm should not have lambs. As a rule the lambs produce some forms that are doers of less work than the others, but they do not cost as much as the best. Be sure when you cut your ewes in the same length of time and the best for one costs the same as for the other.

The same rule applies to your milk cows. If your cow does not give a good supply of rich butter-fat milk, I'd ditch her and get a new one.

Dairying as a business is a very big one and can give you a security of having too borrow money or money to invest in any high class farm as a combination that can't be beat. Every farmer in Fulton county should have at least 150 eggs per year, or 1250 hens which will lay 6250 eggs each year. There is no reason why every farm should not have at least 150 standard bred poultry, near two thorough bred dens and one or two pure bred breed nuns running over the pasture for at least ten months in each year.

Some will say "I haven't the money to invest in high class eggs." You have good, back and borrowed money on your tobacco and other farm products, and I have an idea the banks would rather have money on this kind of production than on tobacco. Try it once and see. Teaching You Thrift

Practice makes perfect. Schoolmasters of today as well as yesterday constantly repeat that truth. Pupils learn by applying it. Application of that principle to our everyday habits proves its practical help. We learn by practicing, whether it be a good habit or a bad habit.

This bank teaches you thrift by leading you to practice it. The lesson is easily learned once it is begun. To become perfect in it requires constant practice. A savings account is the most consistent method of practicing thrift.

That Saving Habit

Saving is a matter of habit. And the habit grows, just like the savings.

To acquire the habit when young with small sums is to practice the habit when older with larger sums.

So encourage the little fellows to start a savings account with us at once, and watch the habit grow.

When the Frost is on the Pumpkin

Let those who visit Europe praise the delights of French cooking, but in French cook, ever turned anywhere out of an oven that would tickle the palate of the homesteading American like genuine old-fashioned monkey pie—movement!

And the most luxurious food in America today is prepared on the electric range—meats, vegetables, pies and cakes. Why not put an electric range in your house in time to have Thanksgiving dinner cooked on it?

FOOD LIKE YOU GET AT HOME
This is a truly a home-like restaurant because it has endeavored to break down the prejudice based on the theory that restaurants could not serve food like you get at home. Many patrons will testify that there is no difference between our meals and the meals they get at home. That's the reason they come here so frequently to eat. Years of catering to the appetites of particular people make it possible for us to serve appetizing meals.

The next time you want to eat away from home, bring your family here.

Efficient and Economical Home Heating

Fisher Automat, calculating warm air will heat the entire house with a constant circulation of clean, warm air, meaning the same comfort for every room.

Finished in dark stained Mahogany enamel, it is in harmony with the other furnishings of the most refined home. It is silent in operation, and all mechanical parts are concealed when the cabinet is closed.

The powerful heating and cooling units are most economical in fuel consumption. The wide deep air ways from top to bottom of the cabinet permit free passage of air, which is quickly heated in passing over the heating unit, and out the top to circulate through the entire house.
