Chicago, March 8.—A dispatch to the Tribune from Washington says: President Roosevelt has ordered the United States to take steps to send a large force to the Far East to suppress the Chinese boycott of American goods. The President also stated that the Chinese Government has promised to suppress the boycott, but that there is no evidence that it is being done. DRAGGING PAINS?

Women suffer agonies from pains of which men have no comprehension. One of these is that awful, bearing-down or dragging pain, which so often, in some women, forms a part of the monthly sickness, and in others continues from month to month, week to week, day to day, till death itself would often be welcomed as a relief. What does it mean? It means, probably, that your womb is bent, twisted, turned inside out, or falling down, as a result of a certain weakness of those muscular fibers, which are supposed to keep it straight and hold it in place. It means, that if you do not take immediate steps to cure this trouble you may become an invalid for life. It means, that you must know how it is caused, but go for relief and cure, to the one medicine which will be sure to benefit and cure you, as it has benefited and cured a million other happy, rejoicing women, viz:

WASHINGTON D.C.

Women and Men Suffer from Dragging Pains. In the majority of cases, women who suffer from dragging pains, suffer from the same cause as suffering men. The dragging pain is usually caused by a weak spot in the uterus, which is the organ that holds the womb, or the womb, in place. The womb, or the uterus, is a muscular organ that is supposed to hold the womb in place. When this organ is weak, the womb can slip down, or fall out, or be twisted, which results in dragging pains.
