The weather is not too cold to wear the clothes they already have. The temperature is comfortable enough for most people. The weather is just right for a warm, comfortable night.

Logan-Walter
Bill To Be Taken
Up In Senate
Washington, D.C. — Disregarding the
vigorous objections of the minority
leadership, the House voted today to
take up the much-disputed Logan-Walter bill, designed to give
advisers to both sides of the
issue and set aside the decisions
of the Labor Board and Securities
Authorities.

With scarcely more than a quorum
present, the vote was 41-40, with 11
Republican members voting similarly on their
side. The House will
vote on the bill tomorrow.

The Senate took no action on the
bill today. A special joint meeting
was held earlier in the day
with Secretary of State Henry
Stimson and Senator George
C. Young. Stimson
advised the Senate that
the House had voted to
take up the bill.

The Senate action gave the
champions of the bill the
clearance they needed to
pass it in the Senate.

The bill would give the
President the power to
regulate interstate
commerce.
