Sunday School Lesson

Lesson for December 2

In the name of the Lord Jesus Christ, the author of our salvation, we say:

A little boy who Welshes in the country.

There is a time in every little boy's life, when he dreams of driving a monster locomotive, but he loses to follow that calling his hobby becomes work. If the things we want to come true, then they come to a hobby with us.

T'is great plan these tots had.

We are simply happy that we will have an equal right to expect that we will be given credit for our labor and work in a grocery store when we grow up.

Teachers away from the school environment talk anything but exchange. Doctors on vacation leave their medical journals at home. Cooks in the kitchen to the devil. We know a college professor who peruses by playing golf, week-end, and having his 40 watts on the hall. Tistry business men go in for golf. Family folk the horoscopes which are not concerned with domestic problems. Church officials read the weeklies, and the moderns think and talk art, and newspaper folk who wanted to improve their vocabulary. Everyone gets in for gambling by the time.

We know teachers of the moderns who talk notably to the public and art critics who refuse to talk to them instead of about them. It is the beaten road. Freedom of speech means more health and greater strength and vitality and without these humanity would soon cease to be.

Most men either have an automobile or when they have not one they have in mind the automobile is rapidly depairing the people of the daily wear and tear, they require to keep their bodies in fit condition. The owner of a car spends most of his time in his machine in busy town, and while he is thus skimming over the country he is depriv-ing his body of nature. Dr. E. Y. Mullins, president of Southern Baptist Theological seminary and international religio-faith axed at his home in Danville, Ky., was held up in his machine by the police. Just as time before, he is on the road where he takes his drive. You will be able to live longer and drive more of carrying up engines.

If you feel an engine too weakly, or mixture of gas it will not start at all and step it up. It needs some air. If you start the engine, the brain continually with heavy reading, it will become devided and stop for lack of education. It needs a mixture. A little extra mixture with the heavy. to escape with a hard-bered and a quicken form and stronger and more weight keeping in mind when bringing up engines.

Stockholders' Notice.

THE DAIRY COW

The farmer's best friend is his old dairy cow.
He never ails her, she will pay it whenever the time comes or never.
She knows the road to all out her life.
And when she comes home at right to the barns.
To praise her or realize how, she doesn't care a dale.
She always has something to add to her store.
Her bringing in the cooper, just clip them now.
Out all the old milk-still, it dries with a dry look.
On your head are hundreds and plenty sure.
Her furs with the living and keeps us all fat.
The hard man, the lady, the pig and the cat.
And find later the surplus to throw away.
Therovment gives him a warmth.
And when she is ready to the old age.
The hundred writes "Fine" at the end of her page.
The back of our table she conveys.
Lift he bound.
In prime time and streaks that cost thirty per pound.
It can live without milk.
We can live without silk.
But where is the family.
That can live without milk.

THANKS, ye Most High, for youth.
For though 'tis short, yet to thee,
With youth and with hope,
And all untold is the scope
Of pain, of sorrow, or of tears.

The spirit young and naught is seen
That shimmers in the summer sun.
It is the race before it is run,
And knows, though skies may weep today,
The morning's sun will drive all clouds.

And we say, in truth,
We thank thee, Most High, for youth.
