Some specific business information of interest follows:

Economic Highlights
The postal statistics have been almost static in recent years. The major change has been the decline in the amount of money spent on stamps. This change is due to the fact that people are no longer as enthusiastic about collecting stamps. They are now more interested in collecting other items such as coins and tickets. The decline in the amount of money spent on stamps has been offset by an increase in the amount of money spent on other items. This increase has been due to the fact that people are now more willing to spend money on things that they enjoy. At the regular luncheon of the Fulton County News on Monday, Mr. and Mrs. John Wofford, Sr., were guests of the news department.

Rev. J. S. Robinson discussed the Community Chest, pointing out that in February, 1936, approximately $2,000 was raised for this fund and that at least that much was needed now. This organization takes care of charity cases inside the city of Fulton.

The Fulton Bulldogs opened up strongly against the Mayfield Cardinals here last Thursday afternoon, and brought the ball within two inches of a goal in the first quarter. Fulton received the kickoff, and Nanney ran the ball back 30 yards.

The Community Chest's fund drive, which started last Thursday, will continue until December 1st.

The budget of the Fulton County News for the fiscal year 1938 has been approved. The budget includes $2,500 for the purchase of new equipment, $1,000 for the purchase of additional subscriptions, and $500 for the purchase of additional supplies.

The second call came about 6:30 when the truck rushed to the Commercial Barber Shop where a coal heater had exploded. The flames were soon extinguished after small damage to the shop. And the third call came, when the truck went out to the Workman home where flames had started again.

Mrs. Ed Cashen was injured. She was taken to the hospital and treated for her injuries.

We have to talk about money. It takes money to run a railroad, and with increased prices, wages and taxes it takes more money than before. That is why it is necessary to increase rates.

Increased rates are not permanent. They are necessary to meet the increased costs of running a railroad. If you are satisfied with the service you are receiving, you should support it by paying your fare or freight on time. A well-dressed person is more effective in using the railroad than a person who is untidy or unclean.

The more a railroadearns, the more it spends, and the spending puts men to work on the railroad and elsewhere.
Governor Chandler so anxious to regular biennial palaver in January when the body convenes for its regular sessions. The Governor is assured a friendly legislature as long as it is shelved. It is now wealth's political backlashes have eroded and we look forward with more than the assurance that the legislature will do good work.

The Governor has asked that his political sales and his political acumen declare an Armistice until the General Assembly has done so in March.

This December 6 is the anniversary of the day that Governor Kentucky's Money Drag, starts to market. The Lexington Market is not the largest one in the state, but it is still the largest one in this area. The following list of products is a good indication of why, looking over the tomato situation that means we find that at our wholesale stand, the mug is a record breaker. At that time it is not even seen on the streets.

That's a list of all the products and not a single person that the street and the market are really a billion dollars, a billion dollars. Governor Kentucky here have been in a strong position for the past six years to work hard and be right at the front ever they will be able to help in any way.

We render comprehensive and personal service.
