BRIEFLY: Mrs. Owen has decided it is time to extend the O. K. Laundry business territory. This move comes after a special meeting of the business was held and it was decided to extend the business to include the entire town. The move is a result of the business being operated by the O. K. Laundry and the demand for their services.

When Business is Good

SATURDAY night is a mighty good time to ask yourself this question: "Is our community sending more money out of town than it is coming in each week?" Of course the only safe answer is "No!"

This means that we folks in this neighborhood must patronize local supply men and merchants if we expect our town to prosper and "stay on the map."

Frankly, it means that every citizen will find it in his own interest to read the advertisements in this paper every issue, and to follow their good advice.

When business is good, their ruins are being shawd with you. They are helping you build a better home community.

In harmony with the other furnishings of the most refined taste. The fire door, ash door and all mechanical parts are concealed when the cabinet is closed.

The powerful heating unit makes it possible to feel comfort in fuel consumption. The wide deep air ways from top to bottom of the cabinet permit free passage of air, which is quickly heated in passing over the heating unit, and sent the top to circulate through the entire house.

FARM NOTES

By B. A. Mertigenton, County Agent.

During the last week I have received numerous calls for the following prescription: 15 oz. of aniseed, 1 oz. of liquid extract of sassafras, and 1 oz. of powdered bark of garlic. The mixture is to be given to the horses, and it is said to be a good remedy for the prevention and cure of equine distemper.

The following is a recipe for the cure of smallpox: Take 1 lb. of meal, 1 oz. of salt, and 1 oz. of bismuth. Mix these ingredients well, and give them to the patient every day.

DAIRY FEEDING SCHOOLS

The three dairy feeding schools held last Monday and Tuesday by Prof. J. E. Nageotte, of the University of Kentucky, were well attended, and much interest was shown.

A practical course in dairy feeding was given, and the students were taught how to care for the dairy cattle, how to feed them, and how to keep them healthy.

INFLUENZA

The appearance of a large number of cases of influenza in California and of an outbreak of similar properties in South Carolina has naturally led to an increase in the prevalence of common colds in Kentucky. This, in turn, serves as a warning to keep up a high standard of health in advance of its possible appearance in this state.

Influenza is highly infectious, hence care should be taken to prevent the contamination of disease from the nose and mouth, which is accomplished through sound and through physical contact with the sick.

How to Avoid It
Do not let any person catch cold from your face if possible to prevent it.
Go to bed in contact only with those who may have the disease.

When influenza is prevalent, avoid eating in public places, or eating anything used by others unless they have been washed in boiling water.

Avoid the use of the common tonic and cough-drink.

NEVER COLD or FEVER

For colds, grippe, flu and to prevent pneumonia, take Mendenhall's Chill and Favor Tonic, a pleasant substitute for quinine, combined with Smith's cough syrup. Mrs. Lulu K. Roach, Drifton, Fla., writes that she was suffering from a severe attack of the cold which was caused by her breath being blown upon by cold hands. She then tried Mendenhall's Chill Tonic, and recovered in about ten days. Our readers are strongly recommended to use this remedy in case of common colds in Kentucky.

Matthew 11:28
Do not let any person cough in your face if possible to prevent it.

Do not come in contact unnecessarily with those who may have the disease.

We are mentioning a few of the appropriate articles suitable for Christmas and purposely omitting prices in order that you may forget all about the cost in anticipation of the pleasure of giving.

This is truly a home- like restaurant because it has endeavored to break down the prejudice based on the theory that restaurants could not serve food like you get at home. Many patrons will testify that there is no difference between our meals and the meals they get at home. That’s the reason they come here so frequently to eat.

Years of catering to the appetites of particular people make it possible for us to serve appetizing meals.
