The Pelton Electric Company has offered a new line of medium-speed engines for use in power plants. The engines are said to be of the latest design and to provide increased efficiency and reduced operating costs. They are designed for a wide range of applications, from small industrial units to large power station installations. The company has invested heavily in research and development to ensure that these engines meet the highest standards of performance and reliability.

A SANE SUGGESTION

Raymond Clapper, well known newspaper columnist, whose sincerity and patriotism are admitted even by those who vociferously oppose him, has recently made one of the sanest suggestions that has yet been made. It is unlikely that anything will come of it, but it should be made known to every citizen of the nation. There is a great deal of common sense in his idea, and it could be sincerely acted upon we should succeed today in getting the Republic in these days of bewildering changes.

Mr. Clapper really presents nothing new in his idea, but he has put it forth in a novel and convincing manner. He is not the first to suggest that something is wrong, but he is the first to suggest that the nation is capable of correcting its mistakes. He believes that if this condition could be brought to the attention of the people, a new wave of common sense could be put into legislative practice. The public recognizes that all must sacrifice on the part of everyone.

Perhaps it is expecting too much of the American people to expect them to be conciliators. It is quite likely that Mr. Clapper's suggestion will be laughed at, but it is not impossible that it will be considered seriously.

The breach needs to be closed. There can be no doubt that such a breach exists. It is the fact that the nation is divided. It is the fact that the nation is divided over the New Deal and has been for a long time. On the other hand, as a class, the nation has been portrayed as a conciliator. It is quite likely that Mr. Clapper's suggestion will be considered seriously.

**MEREDITH TO FILE SUITS TO COLLECT TRAVEL EXPENSES**

Frankfort, Ky. — Attorney General Hubert Meredith announced today that he will file suits to recover expenses paid state officials and employees which he estimated totaled $40,000 to $50,000 in the last four years.

"I'll bring the suits as soon as I have compiled the data, which should be in about a week," Meredith added.

"It was my intention all the time to do this, but I advised the Governor yesterday in order to learn his attitude. We haven't been in accord all the time," Meredith said.

Gov. Edmonson replied to Meredith's letter late yesterday that it was his duty as attorney general to take care of the illegal expense accounts as Meredith termed them, and said he was going to attend conventions and conferences in other states.
